

THIS IS A SPECIAL ALERT: ACTION REQUIRED
For Sale: American Sovereignty

Betrayed and sold for a bag of silver? A modern-day Judas has already taken the bribe and is now giving up our liberty?

President Joe Biden has once again shown his allegiance to the Chinese Communist Party. The Biden administration is currently working behind the scenes to grant the World Health Organization (W.H.O.) control over every nation's (including the U.S.) healthcare policies in the event of another pandemic or anything they declare to be a "health crisis."

WARNING: This would grant **Tedros Adhanom Ghebreyesus**, the known communist leader of the **W.H.O.**, authority over the American healthcare system.

In this briefing we will review the following:

- Previous attempts to surrender U.S. sovereignty.
- Why sovereignty is a big deal.
- The emergency of today.
- Liberty infringements during the COVID-19 pandemic.
- What can be done to save America?

YOUR MISSION: Understand this major threat to liberty around the world and share it with everyone you know. Contact your representatives in the house and the senate to save America.

ATTENTION: the Biden administration, the United Nations, and the World Health Organization are stripping people around the world of their liberty and are working to create a one-world government body.

WHO SPECIAL (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and former Congresswoman Michele Bachmann. Michele Bachmann is a friend of the Economic War Room® and a patriot.

Michele Bachmann is the Dean of the Robertson School of Government at Regent University. Bachmann was the first Republican woman from Minnesota elected to the U.S. House of Representatives. She represented Minnesota's 6th District from 2007 to 2015 and quickly became a national figure in the Republican Party and a founding member of the congressional Tea Party Caucus. In 2011, Bachmann announced her bid for the Republican presidential nomination and ran for president in 2012. Bachmann is a highly respected leader who is deeply committed to conservative values in government.

Background: Americas Sovereignty is Under Threat:

In early 2022 the Biden administration, working with the United Nations, revealed plans to 'amend' the World Health Organization. With claims to improve their ability to respond to pandemics like COVID-19, they sought to empower the W.H.O. by granting them authority over any nation's pandemic response.

This would grant the W.H.O. the authority not only to determine what is a health emergency but also to use surveillance to guarantee there are potential emergencies to declare.

Thankfully the U.N. failed to ratify this accord as a few member nations voted against the new policies. However, this should never have reached the U.N. floor.

⚠ ATTENTION: The Biden administration is not granted the authority under the Constitution to make such legal agreements. That right is afforded to the U.S. Senate. This act of treason (surrendering American sovereignty to a foreign power largely controlled by the Chinese Communist Party) is not only evil but also illegal.

Tedros Adhanom Ghebreyesus, Director-General of the W.H.O., appears to be a communist Chinese asset. When Tedros began his tenure as the leader of the W.H.O. it was because the Chinese U.N. representatives pushed for his nomination.

- » Tedros' career in politics has been riddled with Chinese influence, including deals made where China invested billions of dollars into his nation while he was Ethiopia's Minister of Foreign Affairs.
- » During the COVID-19 pandemic, Tedros had the audacity to defend the Chinese Communist party by stating "China is actually setting a new standard for outbreak response."

- » Today, evidence has shown that the failure, whether intentional or not, of the Chinese response, is what caused COVID-19 to spread outside of Chinese borders.
- » He also insisted that we were not in a pandemic during the early stages of 2020 to encourage nations not to ban travel to China. Tedros happens to be the first non-medical doctor to hold the position of Director General in the history of the W.H.O.

Lessons in History:

Sovereignty: What it is and why it matters –

To understand exactly what is happening, we must first understand national sovereignty.

National Sovereignty, which was fought for by our founding fathers, is defined by IGI Global as “the absolute capability and power of a sovereign nation to independently govern free from external interference.”

This is what makes a government of the people, by the people, and for the people possible. If the U.S. did not have national sovereignty, then another governing body that was not elected by the people would have the authority to overrule the laws of the land and in so doing, subjugate the people.

The threat of outside forces who would seek such tyrannical control of the U.S. and her citizens has been thwarted by generations of patriots who were willing to give their lives to preserve the liberty this great nation provides.

Today, things have changed. The commander-in-chief, whose responsibility is to lead the cause of protecting U.S. sovereignty, appears to have become a de-facto traitor, intending to surrender U.S. national sovereignty.

⚠ WARNING: Our nation’s sovereignty, which so many have fought and died to preserve, is about to be sold to the highest bidder: China.

While defeated once, Biden appears to be pushing a working around with an “accord agreement.” This is an Economic Battle Plan™ that requires action today!

ACTION NEEDED NOW:

1. The emergency– Biden is going for it again with a new strategy hoping America will not notice until it is too late.

- » Last year's emergency (and victory) has become today's emergency as the Biden administration has revamped its attempts to push this accord through the United Nations.
- » At their next meeting, on February 27, 2023, members of the U.N. intergovernmental negotiating body will seek to ratify these accords.

The Biden administration was frustrated with the failure in 2022. This is their latest attempt to overthrow states' rights. During the COVID-19 pandemic, courts ruled in favor of states' rights to decide for their own people what mandates would be in effect.

- » This is what allowed states like Florida and Texas to address mask mandates even though the CDC and Biden administration were attempting to enforce such ridiculous standards on the people.
- » To counter this, the selling of sovereignty to the W.H.O. would allow this communist regime from far away to control every individual and enforce such mandates like masks, or even worse: curfews or martial law.
- » The possibilities of such control are endless... just like the amount of possible 'health emergencies.'

The Biden administration recently recommended against the use of gas stoves and declared them a potential health risk. If these accords were to be ratified, this could be declared a 'health emergency' and the W.H.O. could even outlaw gas stoves worldwide. THIS IS JUST THE BEGINNING!

2. Liberty infringements during the COVID-19 pandemic.

The slippery slope to your Liberties has already started, this could end it!

- » During the COVID-19 pandemic threats of surveillance became far too real. Teachers in New York have reportedly been tracked by their fingerprints due to their refusal of the COVID-19 vaccine. Other reports have shown that anyone who refused the vaccine could be under surveillance now.

- » **ATTENTION: Tyrants are running rampant seeking to control every aspect of our lives. They are selling ‘safety and security’ in turn for our liberty and autonomy.**
- » Other atrocities included the closing of small businesses to ‘prevent the spread.’
- » If the W.H.O. were to be delegated this authority, they could easily control the U.S. pandemic response to keep our businesses closed.
 - This already forced many businesses into bankruptcy. How much worse would it be if they could keep them closed longer, or even, indefinitely?
 - This is a key tactic in the Economic War being waged against America.

WARNING: W.H.O. control of the U.S. pandemic response could be catastrophic for U.S. businesses and markets.

If the W.H.O. were to succeed in destroying the financial backbone of America, small business owners, they may even be able to crush the entrepreneurial spirit which made America great. Without American innovation, the world would lose its pioneering leader and would be subject to the criminal technology of communist China. American people, and all people around the world, would suffer as a result.

THE BIG IDEA: National sovereignty protects the unalienable rights granted to every individual by God. Without these protections, individuals will have no choice but to submit to tyranny or fend for themselves.

America is a nation founded on the principles of individual liberty and freedom where the government was to be of the people, by the people, and for the people. This was the case throughout the Revolutionary War, and both World Wars as individual Americans came together to preserve the Sovereignty of this great nation.

American health care, health autonomy, and health governance must belong to the people and not any unelected governing body that could ever seek to use 'health emergencies' as an excuse to control or subdue the people.

3. What Can Be Done?

With Liberty under threat, it is essential that every individual stands up to fight against tyranny. As our founding fathers joined together and signed away their lives to fight for liberty, so must we do today.

This battle can be won in Congress. The president does not have the ability to make such agreements with foreign nations, this power is afforded to the Senate.

To prevent the Biden administration from selling our sovereignty, Congress must act. Traitors must be prosecuted to the full extent of the law. The sovereignty of the United States of America, and the liberty of her people, shall not and will not be infringed.

“We should never give away American sovereignty... We need to light this up. If you're an Economic War Room patriot, light it up, get it everywhere, and share it everywhere. This is essential. This is a way with the stroke of a pen, the President of the United States thinks he can give away your sovereignty--illegally, unconstitutionally, treasonously...

They may try and silence us, but we will not be silenced. We will not go gentle into that good night. Stand up! Fight!” – Kevin Freeman

Action Steps

It is essential, in this dark hour, that individual Americans rise up and demand that Congress hold the President accountable for his actions and inactions that have put the sovereignty of the United States of America under threat.

1. Contact your representatives in the House and the Senate and Demand that they stand for American Sovereignty and **Do Not Lose Their Legislative Authority.**
2. Request that they perform emergency hearings where the Biden administration will have to answer to the American people.
3. The House can consider impeachment for a high crime.
4. The Senate can sue in the Courts for the attempted usurping of their Constitutional authority to ratify treaties.
5. Share this episode and Economic Battle Plan™ with as many people as possible.

In the **Economic War Room®**, we encourage Americans to be the “little ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The little ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.]
