

Wall Street Firms Investing in the Chinese Communist Party With Your Money

Summary and release from 7/28/20 Falkirk Freedom Summit Event. Part 2 of 3.

Your briefing this week is part of a special edition series from Economic War Room at the Falkirk Center Freedom Summit.

Economic and political weapon systems are being pointed at the United States at record levels all while Wall Street firms are investing in the Chinese Communist Party with your money!

This is a dynamic that must be countered by Americans now. A closer look at the [NSIC Institute](#) and how Americans can “weaponize their money” to align with their values and biblical principles. Eric Bolling and Nan Hayworth facilitate the discussion on new ways to harness our economic power to ensure conservative outcomes.

Your Mission: This is a panel discussion on how to weaponize your investments with conservative and biblical principles.

“This is not a traditional war where you’re going to kiss your spouse goodbye and you are going to get on a boat and go fight a war somewhere. It’s an economic war. It’s a war targeting average American individuals. And if you’re going to fight that economic war, you got to get your weapons. And if it’s an economic war, your weapon is your money.” –Kevin Freeman

Ep. 4-122 (OSINT) Open-Sourced Intelligence Briefing. This includes quotes and summaries from the Falkirk Center Freedom Summit at The Trump Hotel in Washington DC. The Panel included Kevin Freeman, David Brat, Rod Martin, and John McLaughlin. It was hosted by former Congresswoman Nan Hayworth and Eric Bolling.

**“In an Economic War
the Weapon is Money.”**

-Kevin Freeman

1. In an economic war the weapon is your money, are you using it to win? David Brat and Kevin Freeman share about the importance of passing our freedoms on to the next generation and the Falkirk Center’s focus on faith and freedom.

"The biblical principles are just the Judeo-Christian principles in which we recognize that every person on this planet, including **1.4 billion Chinese, are created in the image of God**, and they're being repressed and run by a totalitarian regime under Marxist principles. And so the religious war at the highest level is just a simple one. It's God versus no God, God versus atheist." -David Brat

2. Investing in Liberty, Security and Values. This impact investment may be bigger than the ESG movement?

John McLaughlin of McLaughlin and Associates shares investor perceptions and insights. Investing in American values and not against your interest may be even bigger than some want you to believe. The insights show a significant unmet need Wall Street may prefer you not understand.

"When asked, Do you want your financial efforts to promote the ideals of socialism or encourage free market capitalism, capitalism wins 56% to 22%. Good news, although the 22% scares me. For those with 401K's it shifted further to capitalism at 63% to 24%." -John McLaughlin

- Americans need to think of America and use our investment, our capital, our money, to push our values and to push what we believe in. That's where the American public mindset really is.
- The investor class is investing the people's money against their interests, both in the short term and in the long term.
- **Blackrock and Larry Fink have been forcing ESG in the US.** They're also forcing investment to go to China that is not known for progressive governance or for clean skies or the environment.

“Nike is the story of the day. They have the nerve to do a virtue signaling when they were using Uighur slave labor to make LeBron’s Nike Shoes and other shoes with the swoosh. It is just staggering to the American mind, so that we want to bring attention to that kind of a story. And Nike, by the way, when they were asked, their response is that they no longer are using slave labor to make shoes.” –Dave Brat

3. How to reach beyond the barriers of globalist and big tech – Rod Martin shares his insights from the tech world and free speech.

There is globalized mentality and the globalized access for big tech. They perpetuate their own self-interest. A look at how we reach beyond the barriers of the globalists and the technology world. It often feels like the folks who have a lot of money have a bigger voice than we do.

“Lenin was not wrong when he said that the capitalists would sell the communists, the rope with which they would hang us.”

–Rod Martin

- The government does not need to constrict private property but does need to regulate it in such fashion as to be consistent with the rights that are given to us, not by the state, or even by the Constitution, but by our Creator.
- If we don’t take that seriously, freedom will die in this generation.

4. **The riots and a political crisis are more than what they appear. China says that is how you take down your enemy.** Who is really behind the unrest? In some cases, our large Corporations are funding unrest and falling into our adversarial traps. Who owns the corporations? It is the shareholders! And the **shareholders need to take a stand!**

- It is time for Americans to play a greater role in where they invest and to have a voice with the corporations they invest in.

“Who owns these American corporations? The shareholder owns them. Joe Biden said we will end shareholder capitalism and move to stakeholder capitalism, which means ESG. This means progressive, far progressive left principles. This is the existential war of our generation.” –Kevin Freeman

An Important Message to America from Lieutenant General Steven Kwast:

“I want to remind you of how important you are and how powerful you are at preserving our Constitution and our republic. It’s been fascinating to watch, but our Competition in this world have

understood that our free market and our open economy has allowed them an advantage that they are taking irresponsibly.

Let's take China. We let them into the World Trade Organization. We allow them to benefit from many things that are a result of the fact that they started from nothing and they have taken advantage of that. And they weaponized in our free market, our open society, and our values of the respect for every person. They are using them as weapons against us because this is as old as time. This is a struggle between economies, **all national security is economic and all long-term victories in war have been those that had the bigger economy and can use it to paralyze their adversaries.**

We are living in an age where the warriors of tomorrow, are the ones that understand how this world is interconnected economically. Everybody involved in business and finance, those who know how to follow the money and make sure that we are resilient as a society are the big winners.

By understanding that our economy in America must do two things. It must be independent enough and resilient enough to be able to manufacture and produce the businesses and the capability to protect America, to feed America, and to give America the seven pillars of prosperity without any need for anybody else if required. And that's food, water, shelter, energy, information, health care and transportation. The second thing we need to do is we need to build that resilience so that we still benefit from the blessing of every other culture and every other people providing the diversity of thought, the innovation and the color of life where every civilization is respected, celebrated and brings us joy. The Chinese people are beautiful. The Communist Party is the system that steals away something God gave each of us, and that is free will and choice.

Our Western civilization, our Westphalian model, our Constitution, are designed around these principles where every person is created equal and every person should be respected, and that we can live free and happy in an open environment where people can come and go as they please, and we can innovate and grow prosperity in our economy. That can be never ending. But that can only happen if all of you consider this opportunity as the education of knowing how to fight this new fight in the 21st century."

-Lieutenant General Steven Kwast - RET - NSIC Leadership Advisor

WARNING: If we want the values of the American Revolution to persevere to our children's generation and our grandchildren's generation, we have to get a lot more deliberate. We have to get a lot more serious and we have to make every minute count.

5. China is on a path to world dominance and it is an economic war they are winning. The Importance of weaponizing your money has never been more critical!

You can have your financial advisor learn how to weaponize your money with the [National Security Investment Consultant Institute \(NSIC\)](#) and Liberty University.

If you have a financial adviser and you want them to help you weaponize your money, go to EconomicWarRoom.com/advisor. When they're equipped with this knowledge, they can join with other advisors who've been trained through the NSIC Institute.

America needs to raise up patriotic investors who are going to guarantee that the liberties of the United States of America are shared with the rest of the world rather than taken away by the Chinese Communist Party.

Online NSIC classes will start in the spring of 2021. Economic War Room® is going to equip financial advisors with investment knowledge and opportunities that address **LSV investing - Liberty, Security and Values.**

- As a client, you can ask your advisor, how your portfolio aligns you're your values?
- You can find out ways to invest that helps the United States system and maybe not supporting the Chinese Communist Party?
- There are very direct ways to invest and make an impact.

Working together, we can also make a difference with our investments. We're going to be talking about the freedom that we can bring to people as they weaponize their money.
