

The Radical Plan to Change America and Permanent Democrat Takeover

HIGH ALERT: There is a radical plan to change America and one of the key tools is House Resolution One, HR-1. This legislation is designed to take permanent and formal control of the voting process and is part of the permanent Democrat takeover of the US Government.

The Goal: Stripping election control from the states and putting it under national authority, clearly in defiance of the intent of our founders as expressed in the American Constitution. They want to ensure one party rule going forward.

Your Mission: To understand what is really happening with HR-1 bill and stop it immediately!

In addition to Democrats wanting to create a permanent Democrat takeover of Government, they are also taking care of themselves in this legislation. Act For America highlighted that while the American people are suffering, Members of Congress, led by Schumer and Pelosi, have included in a new rule in HR1 that allows elected representatives to draw a **SECOND SALARY** worth as much as \$600,000 per year. This in addition to their current salary.

Ep. 4-127 (OSINT) Open-Sourced Intelligence Special Report. This special alert on a critical HR-1 House Bill that is anticipated to come up for a vote in the next 30 to 45 days.

1. First, a look at what the Constitution says is supposed to happen as it relates to US elections.

Article II, Section 1, Clauses 2 and 3, which say:

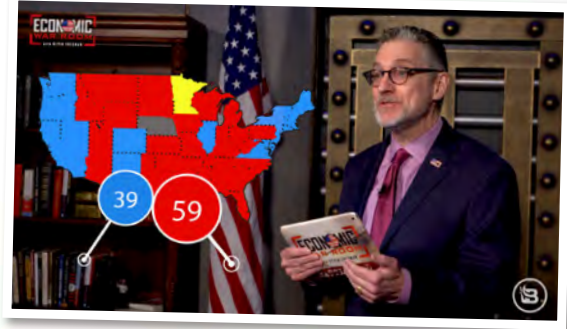

“Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress; but no Senator or Representative, or person holding an Office of Trust or Profit under the United States shall be appointed an Elector. The Congress may determine the Time of choosing the Electors, and the Day on which they shall give their Votes; which Day shall be the same throughout the United States.”

- According to the Constitution, the States appoint Electors to the Electoral College. And the manner in which they do is 100% directed by the State Legislature. Not the Governor. Not unelected election officials. Not the secretary of state. Why?
- Because the state legislature is made up of the representatives who are closest to the people. The Founders understood that you could have a personal relationship with your local state legislator. But you might never meet the governor or secretary of state. And unelected election officials don't work directly for the people. But legislators do.
 - The founders wisely decided that each state legislature should have their own manner of appointing electors. It doesn't have to be the same manner in Kansas as in California. **Every state has their own manner.**
 - That's what scares the far-left Cabal that just admittingly stripped control of the 2020 election from the state legislatures and put it under authority of bureaucrats and courts. Clearly this was in defiance of the intent of our founders as expressed in the American Constitution. (See TIME magazine reference in Lessons in History.)

“To keep power, they have to “herd cats” in 50 states. And Democrats are losing ground in state legislatures where the power is supposed to rest.” -Kevin Freeman

What the left is really doing with HR-1 and Why.

- There are 50 states, and each state has a House and a Senate. That means there are 100 chambers of state legislators in this country.
- Before the 2020 election, Democrats controlled 39 chambers and Republicans controlled 59, with one chamber basically split.
- After the 2020 election, Democrats lost two chambers leaving Republicans with 60 compared to just 37 for Democrats, and one that is split.
- **No wonder the Far Left is scared. If they leave things up to the Constitution, they will lose. That's why they are pushing HR-1 now, while they control the Congress and White House.**

WARNING: The Far Left has to find a way to disenfranchise the State Legislatures. Remember that legislators in Michigan, Pennsylvania, Wisconsin, Arizona, and Georgia all stood up, after the 2020 election, complaining that their will WAS NOT FOLLOWED. States sent in alternative Electors because they felt the reported election results were not a valid representation of the will of the people in their state.

The Secret History of the Shadow Campaign That Saved the 2020 Election

<https://time.com/5936036/secret-2020-election-campaign/>

"In a way, Trump was right. There was a conspiracy unfolding behind the scenes, one that both curtailed the protests and coordinated the resistance from CEOs. Both surprises were the result of an informal alliance between left-wing activists and

business titans. The pact was formalized in a terse, little-noticed joint statement of the U.S. Chamber of Commerce and AFL-CIO published on Election Day.”

Both sides would come to see it as a sort of implicit bargain—inspired by the summer’s massive, sometimes destructive racial-justice protests—in which the forces of labor came together with the forces of capital to keep the peace and oppose Trump’s assault on democracy.

Their work touched every aspect of the election. They got states to change voting systems and laws and helped secure hundreds of millions in public and private funding. They fended off voter-suppression lawsuits, recruited armies of poll workers and got millions of people to vote by mail for the first time. They successfully pressured social media companies to take a harder line against disinformation and used data-driven strategies to fight viral smears.

After Election Day, they monitored every pressure point to ensure that Trump could not overturn the result. “The untold story of the election is the thousands of people of both parties who accomplished the triumph of American democracy at its very foundation,” says Norm Eisen, a prominent lawyer and former Obama Administration official who recruited Republicans and Democrats to the board of the Voter Protection Program.

This is the inside story of the conspiracy to save the 2020 election, based on access to the group’s inner workings, never-before-seen documents and interviews with dozens of those involved from across the political spectrum. It is the story of an unprecedented, creative and determined campaign whose success also reveals how close the nation came to disaster. “Every attempt to interfere with the proper outcome of the election was defeated,” says Ian Bassin, co-founder of Protect Democracy, a nonpartisan rule-of-law advocacy group. “But it’s massively important for the country to understand that it didn’t happen accidentally.”

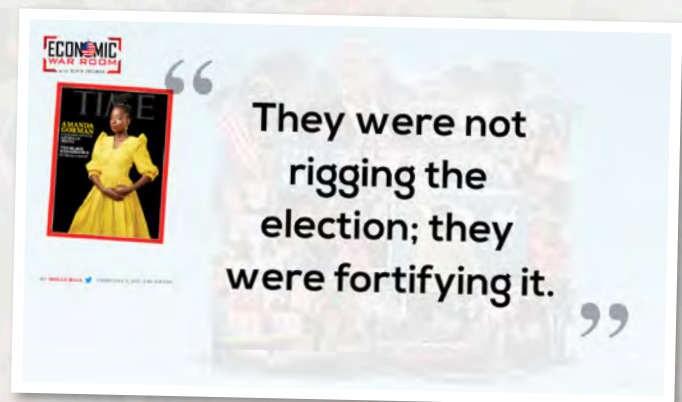

That’s why the participants want the secret history of the 2020 election told, even though it sounds like a paranoid fever dream—a well-funded cabal of powerful people, ranging across industries and ideologies, working together behind the scenes to influence perceptions, change rules and laws, steer media coverage and control the flow of information. **They were not rigging the election; they were fortifying it.”**

“So there you have it. Bragging about a conspiracy to stop a sitting President, to subvert the will of the people, and control the outcome of an election. And they succeeded and then bragged about it.” –Kevin Freeman

2 More on HR-1 and why Nancy Pelosi and Chuck Schumer want to radically change the election laws this year (even though their guy won).

- The reality is this. Pelosi and Schumer are deathly afraid that the states and people have woken up to the changes crammed through under the guise of the Covid pandemic, using executive orders, activist judges, and unelected election officials.
- They know that without mass mail-in ballots, Donald Trump would have been reelected, likely in a landslide. The Democrats actually lost seats in the House and failed to win a majority in the Senate. They only have power because Vice President Harris gets to cast a tie-breaking vote.
- All the work of the Cabal that Time Magazine proudly boasts about, could be undone by a Constitutional election. They are so afraid of Donald Trump that they tried to remove him AFTER he left office.
- The fact is that if the election had exclusively followed the law as written by the state legislatures prior to the pandemic, and not the court changes and special pandemic provisions, the outcome would have been different.

Note: We recognize, the election did happen, and the courts allowed it. Joe Biden was elected President by the electors and the challenges were rebuffed by the courts and the Congress. That’s a fact and why the Time Magazine author is so happy. But let’s go back to what Time said:

PAGE 5

- o “Their (the Cabal’s) work touched every aspect of the election. They got states to change voting systems and laws and helped secure hundreds of millions in public and private funding. They fended off voter-suppression lawsuits, recruited armies of poll workers **and got millions of people to vote by mail for the first time.**”

3. America Must Beware of Mail-In Voting Going Forward.

- Basically, Mail-in voting is what made the difference for President Biden’s election.

[USA Today on December 30th:](#)

- What does HR-1 say about Mail-In voting?

It makes it **PERMANENT!** And without the special protections necessary to ensure the vote is fair.

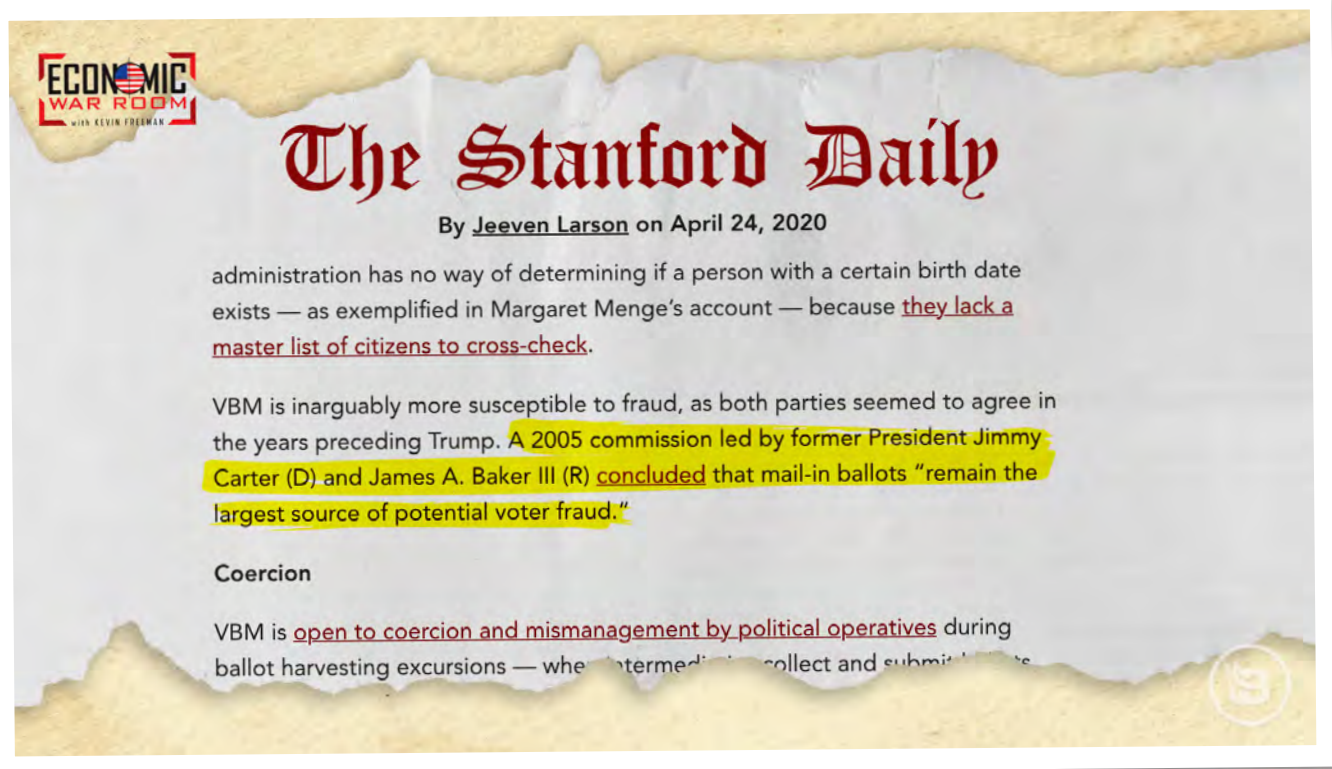

- o THE MAIL-IN BALLOT FRAUD POTENTIAL: This is from the bi-partisan National Election Defense Coalition which was formed in 2013 based on the work of former president Jimmy Carter and James Baker. Here’s what they said about mass mail-in ballots before the election:

*“As with any voting system that is not fully transparent, **proving mail-in fraud can be difficult or impossible.** Once we drop our ballot in the*

mail, we can't verify what becomes of it. Additionally, should our ballots arrive in the central aggregating location untampered, they are likely to be counted by the same computerized counters that have been proven vulnerable to error and fraud. Central counting makes fraud on a large scale easier to accomplish and harder to detect. **Vote by mail cannot provide a secure chain of custody of the ballots.** That means the ballots are moved without consistent public oversight, offering opportunities for fraud, mismanagement and disenfranchisement. Ballots are stored in hundreds of thousands of locations with insufficient security for two to three weeks. The ballots are handled by many anonymous persons throughout the process. It's possible that an unmarked contest on a ballot can be marked by someone other than the voter when the ballots are opened for counting."

administration has no way of determining if a person with a certain birth date exists — as exemplified in Margaret Menge's account — because they lack a master list of citizens to cross-check.

VBM is inarguably more susceptible to fraud, as both parties seemed to agree in the years preceding Trump. A 2005 commission led by former President Jimmy Carter (D) and James A. Baker III (R) concluded that mail-in ballots "remain the largest source of potential voter fraud."

Coercion

VBM is open to coercion and mismanagement by political operatives during ballot harvesting excursions — where intermediaries collect and submit ballots

- Mail-in ballots were pretty rare before the pandemic. Now HR-1 wants to make them central for elections going forward.
- PERMANENT Mail-In Ballots are the centerpiece of HR-1. And the other stuff in there is even worse.

CASE STUDY – Kevin Freeman shares how elections work for the Cherokee Nation versus the United States:

"I'm a Native American by heritage and a citizen of a Federally Recognized Tribe. I was born on tribal lands, at least according to the Supreme Court. And I get the honor of voting in tribal elections. So, I was particularly interested in what HR-1 said about Native American voting.

In Section 1904 of HR-1, the bill defines accommodations for those residing in "Indian Lands," like where I grew up. As a Native American, the state would have to provide me a mail-in ballot even without a physical address. And I would get to drop it into a drop box without an ID check or verified signature.

I guess the idea is that we Native Americans are too poor or maybe uneducated to cast a normal ballot. But I want you to contrast that with the procedure I have to go through to cast a mail-in ballot when I'm voting for the Cherokee Chief or Tribal Council.

First, they don't send me an automatic mail-in ballot. I have to register to vote and then formally request an absentee ballot. I have to prove my address. Since I live outside Oklahoma, that's really the only way I can vote. And to request a ballot, I have to submit my tribal citizenship card and then have my signature matched.

When I get my ballot, I have to fill it out properly and sign it. Then I have to place it in a special envelope that has to be notarized to prove that I am who I say I am. Apparently, the Cherokee Nation is far more concerned with election security.

Under HR-1, to vote for President, you don't need to request a ballot. You don't need to register an address. You don't need a signature match. You don't need an ID. You don't need a notary. You just take a ballot from the stack, fill it out, and drop it in an unmanned box.

How do you validate accuracy? According to the experts, you can't. And that is just one tiny provision of HR-1."

3. Other reasons HR-1 must be stopped NOW! These should be cause for concern for all.

Highlights from the 792 page HR-1 Bill, Provided by Conservative Action Project:

- 1) HR-1 undermines the First Amendment.** HR-1 undoes key Supreme Court cases that protect elections as fundamental to free speech. It would allow the Federal Election Commission to track and catalogue more of what Americans are saying, register even very small political donations, and make public those who donate to different charitable and nonprofit organizations. The legislation will subject private citizens to intimidation and harassment for their private and political beliefs, far broader than what was done in the IRS targeting scandal in 2013.
- 2) HR-1 yanks election authority away from the states.** HR-1 reasserts the ability of the federal government to micromanage state elections through a process known as "preclearance." Preclearance, which was previously overturned by the Supreme Court, requires states to get permission from the federal government for changes as small as modifying the hours of an election office, or moving a voting location from a school gym to the library. Critically, none of these practices would undo any fraud or corruption. Rather, these same practices result in incorrect registrations and inaccurate voter data, while failing to address actual corrupt practices like ballot harvesting. Moreover, they are all designed to eliminate the federalism that keeps elections transparent, local, and fair.
- 3) HR-1 attacks individual voter integrity.** America was founded on the principle of "one person, one vote." HR-1 turns this on its head by weaponizing every aspect of the political regulatory system. The Federal Election Commission, which is currently

a neutral body, would be given a 3-2 makeup, guaranteeing a partisan outcome with little accountability toward the actual votes which are cast. HR-1 also includes a 600 percent government match for political donations and authorizes even more public dollars to campaigns. The bill also wants to make Election Day a new paid holiday for government workers, with additional paid vacation given to bureaucrats to oversee the polls. All of these changes are designed to distance the outcome of the election from those casting their votes.

In addition, inside this Bill is a “grab bag” of new laws, regulations, and changes designed to give the Democrats permanent control of the government.

The Wall Street Journal highlights provisions designed to consolidate power for Nancy Pelosi and to change America forever.

“H.R.1 imposes California-style election rules nationwide. The bill requires every state to register voters based on names in state and federal databases—such as anyone receiving food stamps or who interacts with a state DMV. It mandates same-day and online voter registration, expands mail and early voting, and limits states’ ability to remove voters from rolls. Overall, the bill is designed to auto-enroll likely Democratic voters, enhance Democratic turnout, with no concern for ballot integrity. The bill also strips state legislatures of their role in drawing congressional districts, replacing them with commissions that are ostensibly independent. In practice commissions have turned out mostly to favor Democrats, as in New Jersey and California. If states want such commissions, so be it. But this is an attempt to impose one Pelosi standard from coast to coast.”

Listed below Conservative Action Project put together a bullet-point summary they provided from the 792-page bill, In this report they said, HR-1:

- Forces states to implement mandatory voter registration, removing civic participation as a voluntary choice, and increasing chances for error.
- Mandates that states allow all felons to vote.
- Forces states to extend periods of early voting, which has shown to have no effect on turnout.
- Mandates same-day voter registration, which encourages voter fraud.

ECONOMIC BATTLE PLAN™

HR-1: A SIGNIFICANT THREAT TO LIBERTY **4.127**

CLEARED FOR RELEASE 02/25/2021 (ECONOMIC BATTLE PLAN™ POINTS: 200)

- Limits the ability of states to cooperate to see who is registered in multiple states at the same time.
- Prohibits election observers from cooperating with election officials to file formal challenges to suspicious voter registrations.
- **Criminalizes protected political speech by making it a crime** to “discourage” someone from voting.
- Bars states from making their own laws about voting by mail.
- Prohibits chief election officials in each state from participating in federal election campaigns.
- Mandates free mailing of absentee ballots.
- Mandates that states adopt new redistricting commissions.
- **HR-1 would cause sweeping and irrevocable damage to the free speech, privacy, and integrity that are central components to free and fair elections in America.**

The report concludes stating...“We oppose HR-1 in the strongest terms and urge all conservatives to do likewise.”

- This urging was signed by nearly 150 top conservative leaders in America.

The Conservative Action Report highlighted above only scratches the surface of radical changes in the bill. We have included a few others below:

- **New States Would be Added to the US** - It requires making both the District of Columbia and Puerto Rico new states.
 - Their goal is to add four new Democrat Senators. We told you this would happen in **Episode #111, “Playing for Keeps.”**
- **Non-Citizen Voting Rights** - It easily allows non-citizens to vote with no accountability.

PAGE 11

Epoch Times featured an election lawyer J. Christian Adams provided these insights:

“Public Interest Legal Foundation ([PILF](#)) President J. Christian Adams couldn’t believe what he was reading as he poured over the text of HR-1, the ‘For the People Act,’ which was the first piece of proposed legislation introduced by congressional Democrats in the 117th Congress.

- “We have been collecting over the years non-citizen maintenance data [for state voter registration rolls], and here’s how it works,” Adams told The Epoch Times on Feb. 2.
- “People apply to register to vote who are non-citizens, and sometimes they announce they are non-citizens on the registration forms. It says, ‘Are you a U.S. citizen,’ and they mark the box NO.’ And they get registered to vote anyhow, and it’s not until years later that it’s discovered, and meanwhile they have been [voting](#) in American [elections](#).’

Adams said he was stunned when he came across [Section 1015\(D\) \(2\)](#) of HR-1, which **makes it illegal for any government official to make a record of or to disclose publicly ‘an individual’s decision not to affirm his or her citizenship.’**

- Adams’ group currently has litigation in court in Maine, Pennsylvania, Illinois, and Maryland seeking public records on individuals who were registered to vote despite indicating they were not at the time U.S. citizens. The litigation is made possible by the public records access provision of the 1993 Motor Voter Registration Act, which requires release of voter list maintenance records that indicate how individuals indicating non-citizenship were handled by voter registration officials. ‘Our group is the only one in the country doing this, so I know it’s directed at us,’ Adams said. He pointed to the PILF report ‘[Steeling the Vote](#)’ as an example of the fruits of his group’s litigation on the issue.”

If HR-1 becomes law with Section 1501 as presently written, neither Adams nor any other American citizen will be able to obtain non-citizen voter registration records. Millions of non-citizens could vote in future elections without risk of being exposed.”

- **Federal Control of Voting Machines and other Election Laws** - HR-1 also gives Federal officials complete control of voting machines, automatic registration of 16-year-olds, salaries for candidates with much of the funding from tax dollars, and silencing of any opposition.
- **The ACLU even rejected this bill - The bill is so bad that even the ACLU urged opposition to the 2019 version because it silenced FREE SPEECH.**

“You Need to know about HR-1 because it has the most serious economic implications. If the Democrats consolidate permanent power, your life and that of your children and your children’s children will be radically changed forever.” -Kevin Freeman

4. Recognize what HR-1 and these other policies really are. - It is all about permanent control of Government.

- We’ve already seen what Joe Biden can do in just a few days in office.
 - He will ban fracking.
 - He has signed orders to cancel the Keystone Pipeline, throwing people out of work.
 - His energy policy will enrich both the Middle East and China at our expense. We’ve covered this in Episode #126. Kiss American Energy Independence goodbye. [Download Economic Battle Plan™](#)
- In [Episode #125](#), we dealt with the impact of Biden policies on Mortgage interest rates and stock market returns.
- In [Episode #124](#), we explained how the Biden policies will impact inflation rates, our Federal debt, and the value of our dollar. A \$15 minimum wage might work in New York or California. But it would devastate a small-town in Oklahoma or New Mexico. Biden proposes that it be national and mandatory.

- On top of all that, think about the economic impact from the Green New Deal. We are not exaggerating when we say that this could bankrupt America.

All of this is taking place with a closely divided House and a power-sharing Senate. The Democrats are pushing HR-1 so they have permanent control of the government. And they are discussing Court Packing, so the Supreme Court doesn't interfere with pesky things like declaring their plans as Unconstitutional.

"Power corrupts and absolute power corrupts absolutely. The restrictions on free speech might even make what I'm saying in opposition somehow illegal. Who would stand up to the tyranny?" –Kevin Freeman

Bottom line: HR-1 is a direct threat to your freedom and to your economic well-being.

Why You Should Care:

(Just a short recap of what you reviewed in your briefing today)

- ⇒ HR-1 is a complete Government takeover and America will never be the same.
- ⇒ Democrats want permanent control of Government and HR-1 is designed to allow them to obtain it
- ⇒ Elections will be managed Federally and not by the States as defined in the constitution. Can one controlling party in the federal government be fair and unbiased?
- ⇒ HR-1 is designed to eliminate federalism that keeps elections transparent, local, and fair.
- ⇒ Non-citizens will be allowed to vote and it will be illegal to even ask the questions.
- ⇒ Mail in voting will be permanent with massive potential for fraud and no audit trails.
- ⇒ The far left is driving HR-1. It is designed to **consolidate power for Nancy Pelosi and to change America forever.**
- ⇒ It is a threat to the First Amendment. The legislation will subject private citizens to intimidation and harassment for their private and political beliefs, far broader than what was done in the IRS targeting scandal in 2013.

- ⇒ HR-1 also includes a 600 percent government match for political donations and authorizes even more public dollars to campaigns.
- ⇒ The bill also wants to make Election Day a new paid holiday for government workers, with additional paid vacation given to bureaucrats to oversee the polls.
- ⇒ Individual voter integrity will not exist – forget about one person, one vote.
- ⇒ HR-1 mandates that states adopt new redistricting commissions, which removes state legislatures from the redistricting process, contrary to many state constitutions. This undemocratic provision removes the representatives of the people from the redistricting process and replaces them with unelected bureaucrats.
- ⇒ Read the list we included from the Conservative Action Project again. This is serious.

Next Steps:

1. You must take action to let your voice be heard. Read the bill. Read the commentary. And then decide if you think it's good or bad for America.
2. **Go to EconomicWarRoom.com/hr1 to TAKE ACTION.** We've partnered with EveryLegalVote.com. In sixty seconds, you can sign a petition to your representatives telling them what you think about HR-1.
3. You need to know that you can make a big difference. We sent 80 million emails to legislators, members of the US House, and Senate in our last campaign. And it did have an impact.
4. To stop HR-1, we will have to not only do that again but also encourage everyone you know to join in. This really is one of the most important issues we have ever faced.
