WEAPONIZE YOUR: SPENDING, GIVING & INVESTING

It is time for Americans to wake up to what is happening today!

The present threat feels like WW-II all over again when Hitler was racing across Europe. Initially, America was asleep and sitting on the sidelines. We had education failures, we had mass political correctness, a compromised media, and failed politicians. This is all happening again today, but this time with a socialist/Marxist ideology inside America.

Your briefing this week will be broken into seven short video segments with the hopes you capture the key takeaways and action steps shared by Kevin Freeman and Dr. Carson. Highlights for this briefing are part of a special live conference recently held in the Economic War Room®. Dr. Carson joined us to sound an alarm on what America needs to do now and the importance of standing together for liberty.

"We are being told repeatedly to leave it to the professionals. Forget that! It is time for the men and women of America to make a difference!" –Kevin Freeman

We must fight back against modern day forces that infringe on our God given rights of life, liberty, and the pursuit of happiness. Our previous briefings have often referred to the Battle of Dunkirk. In the Battle of Dunkirk, it was the small ships (the citizens) made the difference, and the miracles happened as the people and the country prayed.

It is time for a new Operation Dynamo (the Battle Plan that saved Britain) in America today.

Your Mission: To engage in a new Operation Dynamo. Consider taking these SIX steps:

- 
- 1. Pray First!**
 - 2. Follow Economic War Room®**, stay up to date and educated on what is really going on.
 - 3. Have Your Financial Advisor Join the NSIC.**
 - 4. Weaponize Your Money** around your values. As it relates to spending, look to Patriot Mobile as an option for your phone service.
 - 5. Re-evaluate Your Giving** - Support the American Cornerstone Institute in getting the real message about America back in the public mindset.
 - 6. Expect a Miracle.**

Ep. 4-150 (OSINT) Open-Sourced Intelligence Special Report. This briefing includes thoughts and comments with Dr. Ben Carson and Kevin Freeman in the Economic War Room.

Dr. Carson. **Benjamin Solomon Carson Sr.** is an American retired [neurosurgeon](#), author, and politician who served as the 17th [United States Secretary of Housing and Urban Development](#) from 2017 to 2021. He was a candidate for [President of the United States](#) in the [2016 Republican primaries](#). He is considered a pioneer in the field of neurosurgery.^{[3][4][5]}

Carson has received numerous honors for his neurosurgery work, including more than 60 honorary doctorate degrees and numerous national merit citations.^[2] In 2001, he was named by [CNN](#) and [TIME](#) magazine as one of the nation's 20 foremost physicians and scientists, and was selected by the [Library of Congress](#) as one of 89 "Living Legends" on its 200th anniversary.^[10] In 2008, Carson was bestowed the [Presidential Medal of Freedom](#), the highest civilian award in the United States.^[16] In 2010, he was elected into the [National Academy of Medicine](#).^[19] He was the subject of the 2009 TV film [Gifted Hands: The Ben Carson Story](#), where he was portrayed by [Cuba Gooding Jr.](#)*

1. The Economic War we are facing today and what to do now! Kevin Freeman Shares:

"America is in trouble, forget thinking about how the professionals can fix it! You are sufficient to change the world! It is Operation Dynamo and each of you have a part in this Economic War."

2. Today, (sadly) America's treasure is in its 401k's and in our economy.

The bottom-line is we think about money an awful lot in America.

Luke 16:11 says, "If you can't be faithful with unrighteous mammon, who will ever trust you with true riches?"

It starts with money and it kind of ends with money, too, because "the love of money is the root of all sorts of evil." | Timothy 6:10

Americans have observed this. We see the above going on all the time. There is an ask for money and votes and nothing changes. Many organizations really do not want real change, just the money to fight for the cause. The cause becomes their livelihood with limited to no results.

“Look at what the conservatives do on our side? They say, ‘hey, send me your money and we’ll take care of it. Send us your money.’ They seem to only want our money and our votes. They never seem to want us?” –Kevin Freeman

Case Study – Remember when you were called to “keep spending” after 9/11?

Remember what President George W. Bush said after 9/11, and what we were challenged to do? What was our part?

The Republican party said, go to the shopping mall and spend money. You remember that?

That doesn’t sound like World War II, where they were saving up scrap metal and they were worried about preserving gas or sending things to the troops. Instead, it was, “See if you can’t spend some money and keep the economy going.”

Then there is China which we love as a nation and see potential market opportunity, but many appear to ignore the CCP threat to America.

We’ve recently seen the dark side of the Communist Party. Kevin Freeman has been warning about the China threat since 1999 but we often still think of China as our banker and our vendor.

Warning: China is our opponent or adversary, and the Communist Party is our enemy. The Chinese government knows America, and they’ve hit us with economic warfare.

(We love the Chinese people but must recognize the CCP government is malicious.)

3. In addition, take note, the progressive left wants to use your money to get their power. With power they can control everything.

Kevin Freeman shares a closer look at what you need to do now!

4. The stakes are too high for you not to get involved with your investments, spending, and giving.

“Did you know most of the shares that you own have been hijacked? If you own a mutual fund or an index fund or whatever, somebody is voting on your behalf to tell that corporation how to run. And guess what? **They're not voting in line with your values. They're voting against your values.**” –Kevin Freeman

- » Every corporation has adopted a rainbow logo now for Pride Month. Does that reflect your values?
- » How does Coca-Cola get away with telling 74-million-plus Trump voters, “we don't care about you, election integrity isn't important?” Why does a sugar-water company tell the people they don't need a voter I.D. in Atlanta?
- » At the same time, they refuse to recognize genocide in China and keep proudly doing business there.

ALERT: Pay attention to corporate proxy voting and your shares. We should have the most votes, but we lose almost every proxy election. America needs a solution for that. And we have solution at no cost to you and huge opportunity for a financial advisor that gets the NSIC credential.

In summary, it is important to stay educated on all that is going in the world and the threats against you, your money and your livelihood. Go to EconomicWarRoom.com today.

- » Sign up for the [Economic Battle Plans™](http://EconomicBattlePlans.com) and watch our show 30 minutes a week.
- » In 30 minutes, we believe over the long term you will get more and better information than you'll get watching Fox News 24-hours a day.

Bottomline, your money has been hijacked. The good news? There are practical things you can do now to save America.

- 5. As you consider giving aligned with your values, Dr. Carson shares what his team at The American Cornerstone Institute is doing to make a positive difference in America.** As founder of The American Cornerstone Institute, Dr. Carson is using these same principles to focus on healing America by empowering Americans to act and communicate. He understands the war being waged on America and is working to help point our nation toward common good.

It really is a critical time right now for America.

If America goes the way of socialism and communism, what happens to the world?

“When you think about what the world was like before America became a superpower, with all these despotic leaders trampling over other people and destroying their lives. If you don’t think it would go back to that, think again. It would!! America is what stands between that kind of a world.”

The world we have today is by no means perfect, not by any stretch of the imagination, because it’s inhabited by people and people are imperfect. **But, in terms of providing freedom and opportunity, this is the destination place for so many people throughout the world.”** –Dr. Ben Carson

CASE STUDY- College students in other countries asked about visiting America and declined.

Ben Carson shared the following:

“I was looking at a program a couple of months ago and they were interviewing college students in other countries. And the last question for each of them was, would you like to come to the United States? They all had the same answer, no.

They said, I used to want to go to the United States, but I don’t want to go there anymore, it’s changed.

I think people are noticing, I think people around the world are saying, what in the world is going on with those people? They’ve gone nuts, they’ve lost their minds. This is true for a lot of the prominent people and leadership, but not for the average American.

The average American actually is levelheaded and has common sense. But the average American is also silent. And that’s why a minority is able to control the narrative. And it’s so important to begin to speak out, but you can’t speak out unless you know what you’re talking about, and that was the origin of American Cornerstone Institute.”

Dr. Carson and his team went back and looked at what made America great in the first place and formed the American Cornerstone Institute around faith, liberty, community, and life.

6. Faith - An American Cornerstone

America's founding- faith transformed America! Dr. Carson shares regarding the importance of standing for what you believe in:

7. Liberty – An American Cornerstone

You are fighting for freedom for your children, your grandchildren and for this nation!

8. Community- An American Cornerstone

What the breakdown of community and family structure really means. Plus, Black Lessons in History that can change lives!

9. Respect for Life – An American Cornerstone

From the womb to the tomb! We can destroy ourselves, so it is important to respect and engage others. It is possible to work with the other side, but we've got to learn to work together.

10. Do you have investments in the stock market in one form or another? What you need to know.

Kevin Freeman shares the changes on Wall Street and what it means today:

Here's what's going on Wall Street. I've been investing since 1982 professionally even before I graduated from university. My dad gave me a job at his investment newsletter in 1982. I've been doing this for 40 years. And I want to tell you, the industry has changed, and it's changed for the worse in some ways.

- » One of the ways it's changed for the worse is that individuals no longer pick stocks. They don't find something to buy. They just buy into the market. And you're told that's the best way to do it and it has provided good performance. Unfortunately, it separates the owners from the businesses they own and inserts another "middleman" (or "middle person").
- » The companies that do that are like BlackRock, largest provider of index funds on the planet (**now over \$9 trillion under management**). These funds then lecture you about what you're investing in the United States regarding ESG (based on a leftist agenda). And then they turn around and take your money and put it in communist China, which is entirely hypocritical.
- » Larry Fink is more than happy to lecture you about the type of investments you should have here while he goes and invests money in communist China.
- » Chinese controlled investments are not good for the environment, not good for social justice, and certainly not good for governance.

Warning: They just passed laws in China where every corporation must serve the Communist Party. Even foreign companies operating there or domestic companies operating globally. That's the law of China. When you invest in a Chinese company, you may be literally investing in the demise of the United States because the policy of their Communist Party is to supplant America.

11. Understanding the China Threat with your money. Remember, we must take a stand and fight back now before it is too late.

The Chinese have taken our money and used it against us. It started over 20 years ago.

In 1999, they published a book called *Unrestricted Warfare* that outlined how to defeat the United States. That's the purpose of the book.

- › When it was written, the Chinese economy was one-tenth the size of ours, basically the size of Italy. And in 20 years, through intellectual property theft, through sucking up all of our capital, through convincing American businesses to go to China and then stealing the business from them, through lying, cheating and stealing on their offerings of the stock market, they have successfully grown to the point of directly challenging us.
- › Trump understood the economic war. The Biden Administration seems to be allowing them to do it again today.
- › When it was the Obama/Biden administration, Vice President Biden at that time led an initiative to have a memorandum of understanding that said a Chinese company listed here does not have to conform to our accounting standards. And then when you invest in a Chinese company like Luckin Coffee, you find out that they were lying to us, they were faking their accounting. We have seen other cases of this and it is likely still happening with other Chinese business organizations.

12. The solution to this Economic War.

We have launched The National Security Investment Consultant Institute (NSIC) to help counter economic warfare.

- › Most investors don't have time to vote their shares. You may not even know how to vote your proxies.
- › Most don't have time to determine which companies are supporting communist China and which are not. Or which directors support leftists values and which do not.
- › An NSIC financial advisor can help vote or guide you in your proxy votes as well as align your investments around Liberty, Security, and Values (LSV) that strengthen America.

THINK ABOUT THIS:

What matters more to you, your money, or your liberty? What do you want to pass to your kids? What good will it be to give them your money if you don't give them America with the liberty that we have? Will that money have any value?

“The NSIC equips investment advisers to better understand these threats. We went to the largest online Christian university we could find, Liberty University. And we talked to Dave Brat, the former congressman, the dean of the business school, brilliant economist, and said, ‘hey, Dave, we want to train using the online curriculum at Liberty.’ We’re about to launch that now.” –Kevin Freeman

- » If you don’t have an advisor that’s helping you weaponize your money to defend America and not destroy America, you need one.
- » You can also ask your existing adviser to participate in the NSIC and we will help equip them with new tools that align your money with your values.

Finally, understand there are a lot of financial advisors that will soon have the NSIC certificate that want clients just like you. Their getting certified won’t cost you a dime. It will benefit you greatly and it may help save America!

ALERT: Go to EconomicWarRoom.com/advisor and nominate your financial advisor for the NSIC now.
