

## **Privatized Communism Warning: Collectivism Redefined by Woke Corporations**

Communism and Nazism once defeated, seem to be making a comeback in America. In both cases, tyrant dictators believed the good of society in their minds overwhelmed any semblance of individual rights or liberty. The results were ugly, and everybody lost.

By contrast, America was built on the notion of individual rights and liberty. The government is not supposed to be the boss, but rather We the People. Government is to serve, not be served. Liberty and the people are supposed to win!

Unfortunately, our greed and complacency have allowed the weed of collectivism to take root and threaten the very liberties that make us great. Even America's board rooms are falling for it.

For your briefing this week, former Apple CEO Gil Amelio and Tech Entrepreneur Rod Martin join Kevin Freeman to discuss the challenges ahead. Also, we will review Economic War Room solutions to help protect our nation's future.

**Your Mission:** To vote your proxy and stock rights with a focus on Liberty, Security and Values. Wake up and weaponize your money for Liberty.

"You know, if you own stock in a corporation, you have a vote and you need to exercise that vote. When you give, you're giving needs to be toward causes that will promote liberty and not oppose liberty. What these big companies are doing at the behest of the government, admitted by the press secretary, is they're stripping you of the rights that you've been given by God even though they're enshrined in our Constitution.

There's probably no more important battle than we're facing today than the one that I'm talking about right here right now." –Kevin Freeman

**This is the day you wake up and take back your freedoms, but that will require good information.**

Ep. 4-155 (OSINT) Open-Sourced Intelligence Report. This includes highlights and discussions with Kevin Freeman, Gil Amelio and Rod Martin. Gil Amelio has over 35 years high technology experience and has held top executive responsibility at several billion-dollar global corporations. Gil is an iconic business leader and visionary with a proven track record in helping take companies with great ideas and products to the next level.

Gil was Chairman and CEO of Apple Computer, President of Rockwell International, Chairman, President & CEO of National Semiconductor Corporation, and Chairman and CEO of Jazz Technologies. Earlier in his career, Gil worked at Bell Labs, Fairchild Semiconductor, and the semiconductor division of Rockwell International. Under his leadership, these companies underwent successful transformations that resulted in over \$9 billion USD increase in investor value.

Rod Martin, founder and CEO of [The Martin Organization](#), is a technology entrepreneur, futurist, hedge fund manager, thought leader and activist from Destin, Florida. Fox Business News calls him a "tech guru," Britain's *Guardian* describes him as a "philosopher-capitalist," while Gawker once labeled him "another of [PayPal founder] Peter Thiel's brilliant nonconformists." He has addressed audiences on four continents, has written extensively for publications such as *Forbes*, *Human Events*, *Inc. Magazine*, *Fortune*, *Affluent Investor* and [FoxNews.com](#), and is a member of [Stratfor](#)'s Board of Contributors. An investor, director or officer in numerous ventures, focusing in the Internet, biotech, aerospace and energy sectors, Mr. Martin is especially noted for his role as a member of the pre-IPO startup team at Silicon Valley legend PayPal – the so-called "[PayPal Mafia](#)" – where he served as a senior advisor to founder and CEO Peter Thiel.

### 1. The two major evils of the 20<sup>th</sup> century and how they are coming back in style.

The collectivist agenda that your index funds may be supporting now. Good news? There are solutions ahead.

- » There were two major evils of the 20th century. In many ways, they were very much alike, both repressed their people.
- » Both were responsible for the slaughter of millions of innocents.
- » These were totalitarian states, and the government was God.

Those two evils are:

- A. **Blight of communism**
- B. **Adolf Hitler's Nazi Germany**

Liberty Wins

- » Unlike these two evils, America was built on the notion of individual rights and liberty. The government is not supposed to be boss, but rather We the People.
» We beat the Nazis and the commies, but our greed and our complacency allowed the weed of collectivism to take root and threaten the very liberties that make us great. It's a philosophical question, but it has some profound political implications.

WARNING: This is going to impact your wallet and more importantly, our nation's future.

This is why you need an Economic War Room®!

In the Economic War Room, we meet with amazing people all the time, people like Lieutenant Colonel Allen West and Dr. Ben Carson, Nigel Farage, Star Parker, Lieutenant General Steven Kwast, Major General Bob Dees, Jackie Deason, Gordon Chang, Glenn Beck. These people come to the Economic War Room® and we're consistently finding solutions. We're talking about the economic war and how we can win it. These brilliant people come here because we are solution oriented.

We bring solutions to economic problems and economic solutions to global problems.

Today we see free enterprise being strangled and individual liberty being crushed. Your rights are being eroded. It's a collectivist effort. And we're facing all enemies, foreign and domestic.

Economic War Room is bringing in top people to sound the alarm and craft solutions!

On a weekly basis, we try to keep break important information into 30-minute briefings and provide Economic Battle Plans™ to mobilize patriots on key issues that are challenging your money, your livelihood, and your way of life.

You're more than viewers. You are the economic patriots that can make a difference as we work together!

## 2. An army of woke corporations – It is all about the money!

“We’re facing an army of Woke corporations. Who would ever imagine that Coca-Cola, I mean ‘Woke a-Cola,’ would be telling their employees to ‘be less white,’ or telling Georgia how to run their elections. Or Hasbro, a toy company, shaming kids because they’re of the wrong race, saying that babies two months old are racists.”

–Kevin Freeman

In addition:

- › The NFL’s saying, “We’re the GAY NFL.”
- › We have the NBA preaching, that we must be tolerant towards China but opposing freedom in Hong Kong. How did that happen?

### The answer is it’s all about the money!!

**The Chamber of Commerce has been bought off by foreign interests. Domestic Marxists are using the ESG movement and ESG scoring to take control of American companies. Ultimately, it’s really your money that’s paying for all this nonsense.**

## 3. Your basic liberties are being threatened.

There’s no freedom of speech. You say the wrong thing. You get to be canceled.

**NOTE: It’s not the government officially doing this. They’ve privatized the oppression and they’ve let corporate giants do their bidding. This is blatantly unconstitutional, but it is happening.**

### Case Study - Corporations doing the Government’s bidding for them:

Dinesh D’Souza points out this is illegal.

The Supreme Court recognizes in the landmark 1973 case, *Norwood versus Harrison*. They held that government may not induce, encourage, or promote private persons to accomplish what it constitutionally is forbidden to accomplish.

“It’s fascist governments that perfected the technique of making private companies do their bidding.”

**But it is happening:**

- » We saw this firsthand when Press Secretary Psaki admitted that the White House was flagging Facebook posts for misinformation.
- » Then she said that anyone who violates the government narrative on one social media should be banned on all social media.

“The government is basically using private actors to perform a function that if the government performed, it would flagrantly contravene the Constitution.” –Dinesh D’Souza in The Epoch Times

The Nazis call this gleichschaltung, a term that means coordination. The Nazi goal was to bring the entire private sector into lockstep with Nazi ideology. And in no area was this conformity more aggressively enforced than in the domain of free speech.

**Here’s the problem.**

- » Your investment dollars are making all this possible.
- » If you own shares in stocks through index funds, or if you fail to exercise your voting rights as an investor, you are giving up your freedoms and even your money.

---

**4. Gil Amelio shares about the purpose of the corporation and the board.**

**The Goal of the Corporation - The goal of the corporation is to build a successful business. And if you build a successful business, you create returns to the investors who helped finance that company, as well as contribute to our society and to the world.**

**At Issue: Woke companies.**

We've seen all these activist investors with Woke ideas where they want the corporation, for example ExxonMobil, elect three directors with a goal of destroying the fossil fuel industry.

"I don't like it because the real role of corporate governance is to look out for the good of the shareholders, make sure that the business is being run properly, and that it is adhering to all of the local and federal laws. Also, that it's compliant with all the best-known practices of running the business. But most importantly, you want to build a big successful business that creates wealth for the shareholders. Anything else you're doing is a distraction from that fundamental mission." –Gil Amelio

**At Issue: Social and political agendas are being forced into the companies.**

"I think that's been a problem for a long time, frankly. I think there have been many attempts to do this. Recently, it has been more concerning to me because it seems that they're finding enough people that want to do this.

**The shareholders really ought to stand up and speak out."** –Gil Amelio

"One of the problems we're having is that this is a side effect of index investing. This is where people just buy an index of stocks and then they leave it to the company that runs the index to do all the proxy voting which would be like Black Rock, State Street, Vanguard. I don't think people themselves are voting their shares any longer." –Kevin Freeman

If you are voting for the shareholders as a custodian, you should be reflecting what their wishes and what their interests are. That is what the proxy services used to do.

If you're doing so without shareholder guidance and their input, then you're out of balance.

**Warning: as it relates to proxy voting services, there are two major groups, Glass Lewis and ES&S. They seem to have both gone so WOKE that they're not caring for the interests of the shareholders anymore.**

**5. Gil Amelio shares his perspective on the Government taking control of the corporations and their actions for the government's political benefit.**

America is on a slippery slope towards a violation of the Constitution.

**At Issue: Government taking control of corporations.**

How would you feel if one of the political parties, either one, let's say, Joe Biden and the Democrats, or Donald Trump and the Republicans, found a way to take control of corporations and run them for political benefit? What would that say?

"That would be a big blow to capitalism in our country as we know it and have known it since the beginning. We are a country based on the principle of certain human rights. And those rights can only be for the benefit of the citizens of the country. They cannot be to serve some minority group's political agenda. **So, we are clearly out of bounds on this. In my opinion, it's a violation of the Constitution.**" -Gil Amelio

**At Issue: What it is like to serve on the board of a Chinese company? Who is really controlling these companies? Are the same Government controls happening in America?**

"I showed up for these Chinese board meetings. And at every one of these meetings, there were three gentlemen sitting at the table who never introduced themselves to me and who I was never introduced to, and who never said a single word at any board meeting that I attended. And at dinner, after the first meeting, I asked the CEO who those gentlemen were. I was told that they were representatives from Beijing. And they are here to make sure that we're doing what they think is right. And I said, 'well, how do you feel about that?' And he answered, 'I have no choice.'"

I don't think we want to be doing business this way in America." -Gil Amelio

## What Happened at ExxonMobil?

Activist Groups, likely led by one minority shareholder group this year but backed by the big index funds and the proxy voting services, elected a quarter of the ExxonMobil board. Their goal? To end the use of fossil fuels, essentially putting ExxonMobil out of business.

"That seems like that's a political agenda. That's communist China." –Kevin Freeman

## 6. A look at censorship and free speech in America today.

### At Issue: Censorship and Free Speech

When we talk about these things, if you start tweeting them or putting them on YouTube or whatever, then you get censored.

The White House press secretary essentially said:

"The government can look at your social media posts and can determine whether or not there is misinformation or good information. And then they can ask the social media companies to ban you if you're saying something contrary to the government narrative."

"That's a violation of freedom of speech. It's a clear violation of the Constitution. And just to continue that theme, I think a lot of a lot of what we're seeing going on is in violation of the Constitution. And I think that it's that Americans need to stand up. Citizens need to stand up and say, enough, let's quit abusing the Constitution. **Let's respect the Constitution.**

"Setting aside the Bible, the founding documents of our country were the most brilliant documents that have ever been published in the history of humanity. What are we doing to them? What we should do is respect it and recognize the power the Declaration and Constitution give this country. This country was built on those principles. Do we want to throw that away? I don't think so."

–Gil Amelio

7. Check out [XOTV.me](https://xotv.me) - A free speech platform to counter YouTube and Big-Tech censorship.

Gil Amelio helped start a new free speech platform - [XOTV.me](https://xotv.me) to combat what big tech is doing.

"[XOTV.me](https://xotv.me) is a company, my friend Franz Ressel started. He came to me first and he said, I'm thinking about starting this free-speech company and this is what I want to do. Will you help me? And I said, sure." -Gil Amelio

**The idea:**

There's a lot of people out there who have a passion in an area or frankly earn their living by creating content that is of interest to people. [XOTV.me](https://xotv.me) gives those people a platform to stand on and present whatever it is that they're doing. You could be an entertainer, you could be a horse ranch manager, you name it!

- » [XOTV.me](https://xotv.me) gives content creators a place to tell their story, tell why they're doing it and how they're doing it.
- » It turns out a lot of people are profiting by sharing their content.
- » [XOTV.me](https://xotv.me) is growing rapidly not only by increasing number of creators, but also more and more audiences coming to the platform for content.

**AS IT RELATES TO FREE SPEECH - There are very limited rules.**

"The rules we set are a very limited set of rules. And those rules are just that. All the basic obvious things related to bad taste, vulgarity and things like that they can't do, other than that, we support freedom of speech. That is not the case with something like YouTube, where, without your permission, your content can be edited by YouTube to suit their agenda. And we felt like that was the wrong thing to do. And so, I enthusiastically got behind Franz's idea to create [XOTV.me](https://xotv.me) and we're doing great!" -Gil Amelio

**Note: Economic War Room is one of the pioneer platforms available on XOTV.**

<https://xotv.me/channels/233-economic-war-room>

YouTube has censored Economic War Room and taken down a number of our videos. There was nothing false or misleading or vulgar or anything else in the video, but they just took it down. Why? Because they have a political agenda.

**IMPORTANT:** We must stand together, and we can't depart from the Constitution.

**More about Gil Amelio – The man that saved Apple Computer**

Rod Martin, tech entrepreneur shares the significant leadership Gil demonstrated at Apple Computer.

"In January of 1996, when Apple had become nothing but a project in channel stuffing and was literally going under, the former CEO came to the board meeting suggesting they sell Apple at any price. The board wisely said, 'no,' and brought in Gil Amelio.

Gil turned around National Semiconductor. He's turned around the division of Rockwell.

He's an amazing guy. He's been an Apple board member. And they brought Gil on and in 500 days, Gil transformed that company, and laid out the product roadmap, including the iMac, that Steve Jobs followed religiously for the next five years.

About the only thing in that time that Jobs came up with of his own was the iPod. Gil cut \$250 million in expenses per quarter while he was CEO, he got the ship righted. He also raised \$800 million dollars in about 90 days. Nobody else could have done that. Steve Jobs said, 'nobody but Gil Amelio could have done that!'" –Rod Martin

**8. The hidden fascism behind the hard left Democrat Party's national socialism agenda. Rod Martin shares in more detail.**

The plan is to give the appearance of ownership but not the reality. What comes next is shocking.

The Difference between International Socialist and National Socialist (Fascism).

**International Socialist Approach:**

- › If you sort of privatize authoritarianism and totalitarianism, we call this fascism. It's not actually different from communism, except in methodology.
- › Methodologically, the international socialists go about this by **collectivizing everything**, nationalizing the industries, collectivizing farms, and so forth.
- › **They Massively kill anyone who disagrees.** They must kill millions of people in the process, as you've seen in China, as you've seen in Cambodia, as you've seen in Russia.

**National Socialism Approach:**

The more successful approach to this that has been adopted by the extreme left wing of the Democratic Party is more properly called fascism, or as it was called in one country, national socialism.

**In this case you actually leave people the appearance of ownership, just not the reality of it.**

"The number one country on the planet that practices this today, by the way, is actually China, which is in a sense aping what Lenin did in the 20s with the new economic policy. **When the economy of Russia was in the toilet because of the civil war, Lenin realized, well, we got to do a little capitalism to be able to get things revved up again before we kill everybody and take their stuff.**" –Rod Martin

You're seeing that again. The fallout of the nightmare of the Cultural Revolution gave you an environment in which Deng Xiaoping would increasingly liberalize. And people in the United States and the West generally took this as a movement toward democracy.

**Caution: It's nothing of the sort. It's developing the wealth to be able to take on and defeat the West. They temporarily moved toward democracy only to get the needed capital to defeat freedom.**

**If you read Xi Jinping, if you read all these fascist guys, they could not be plainer. The minute they reach their goal, they're re-collectivizing everything. All this so-called capitalism goes away.**

---

"Sadly, we're kind of voting for it and allowing it to happen, not just with our (political) elections, but also we're watching it happen in corporate boardroom after corporate boardroom. Instead of electing great directors like Gil Amelio, who want to serve shareholders, we're electing stakeholder WOKE capitalist types. And they're not capitalist by any means. They're literally taking control of the companies to serve the collective, and that's fascism." -Kevin Freeman

---

**Stakeholder capitalism** is what is being practiced in China, where you've got a board, but there are a couple of guys in the back of the room that may not even tell you their names. But they have a veto over everything.

**CAUTION: You're seeing this with ESG investing in the United States now. Increasingly, you have people who are literally opposed to the very existence of the company who are making decisions that will increasingly, if the left gets its way, be imposed at the governmental level.**

That's certainly what we saw in Germany, where all corporate board members were appointed by the state. And that's the direction that this is heading.

## **9. The solution - Americans need to use every bit of firepower they have now to defend Liberty.**

### **Weaponize your Money:**

- » **The biggest firepower we have is our money.**
- » There are trillions of dollars of investments that are just being thrown at whatever looks like it might have a good return. That's fine but be a little more strategic!

- › Some say that you can make a great return while investing in their environmental, social justice, corporate governance (ESG) agenda. But, at what price for our freedoms?
- › Why not invest in Liberty, Security, and Values (LSV)? You can promote the kinds of companies doing the kinds of things that buttress liberty and advance the United States.
- › Check out [NSIC.org](https://www.nsic.org) and our association with Liberty University to equip financial advisors and their clients to weaponize money representing over \$1 trillion dollars in wealth.

**Understand that what is happening is illegal:**

Be aware of case law that prohibits the government outsourcing totalitarian controls to a private organization.

Americans must look at this from a legal point of view regarding what Facebook is doing in conjunction with Twitter with the Biden administration. It is just fascism. There's no other word for it. It is the government outsourcing totalitarian controls to a private organization.

"We have case law on that. The Marsh v. Alabama decision leaps to mind where in a company town, one company owned everything in the town. The Supreme Court held in 1945 that you're functioning as a quasi-governmental entity, therefore you are bound by the Constitution and Bill of Rights. And that has to be applied to these social media giants." -Rod Martin

**Why You Should Care:**

- › Government taking control of the corporations or their actions for its political benefit threatens your individual liberty.
- › If you own shares in stocks through index funds, or if you fail to exercise your voting rights as an investor, you are giving up your freedoms and even your money.
- › Free speech is under attack.
- › Corporate boards are failing their shareholders.
- › Activists on the left are voting against shareholder interests and against liberty.
- › Social and political agendas are being forced into companies.
- › Communism and Fascism are coming back only via privatized means.
- › National socialism and privatized communism are in America but many are still unaware.

## Action Steps:

1. It is time for shareholders to stand up and speak out. Be sure to vote your proxy votes on investments or work with a financial advisor to help you do this.
2. Recognize and share the dangers of stakeholder capitalism (vs. traditional shareholder capitalism).
3. Forward this Economic Battle Plan™ to others and ask them to join other patriots standing for Liberty.
4. With all that is going on in America against liberty, beware of government outsourcing totalitarian controls to private organizations (corporations).
5. Weaponize your money toward principles that support Liberty, Security, and Values (LSV). You control your giving, spending, and investing. Nominate your financial advisor to attend our Founders' class coming soon.
  - **Investing**, we suggest you get a like-minded financial advisor. We've done surveys and a clear majority of investors want an advisor who matches with their political and cultural beliefs. Unfortunately, Wall Street is pushing for you to just take what they offer in order to force a leftist agenda on you.
    - o "If your advisor isn't willing to match your investments with your values, send them to us for training and education. If they won't do that, I can promise you that there are lots of other advisors looking for new clients." -Kevin Freeman
6. **It is time to fight the economic war we are facing. Nominate your financial advisor at [EconomicWarRoom.com/advisor](http://EconomicWarRoom.com/advisor)** and let them know you think this would be a great opportunity for them. Classes are launching soon, and our list is growing fast.
