

DC Lawlessness and The Need for Parallel Institutions

Lawlessness seems to be happening everywhere in DC. We are seeing bad policy being pushed regardless of what the Constitution states. What started during the Obama-Biden administration, with complete disregard for the Constitution, continues today.

All these intersect with money and national security. America is being weakened economically and globally. We are being weakened from within. It seems we can no longer trust that our DC institutions are watching out for America and her citizens. At the same time, Americans seem more divided than ever!

ALERT: A September 2021, a Scott Rasmussen poll shows many Democrats believe Trump supporters are a more serious threat to America than the Taliban, China or Russia.

<https://dailycaller.com/2021/09/13/poll-trump-supporters-threat-democrats-taliban-china-rasmussen/>

- [The poll](#) found that 57% of Democratic registered voters believe supporters of former President Donald Trump are a “serious threat to the nation.” That compares to just 44% for the Taliban, 44% for China and 37% for Russia.
- Republicans, by contrast, considered the Taliban to be the biggest threat, with 66% saying they are a serious threat. [The Taliban](#) were followed by “Defund the Police activists” at 62% and 58% for [China](#).
- Independents surveyed held the same top three concerns as Republicans, with the Taliban topping the list followed by China then [Defund the Police](#) activists.

Democrat leadership policies in Washington DC seem to indicate similar attitudes towards those that follow the Constitution and believe in America's founding principles. IT MAY NOW BE TIME TO CONSIDER PARALLEL SOCIETAL INSTITUTIONS.

For this week's briefing, we invited Michele Bachmann into the Economic War Room® to discuss her time as a Congresswoman on the financial services and intelligence committees.

Your Mission his week is twofold:

- 1. To stand for the Constitution and what is lawful!**
- 2. To weaponize your money and participate with your financial advisor in the National Security Investment Consultant Institute (NSIC).**

This may include helping create parallel societal institutions that will represent your values and protect Liberty!

“When you look at all these different things we’re talking about, they all involve money. It is kind of an intersection between those two committees that you (Congresswoman Bachmann) were on. Both money and national security.

We’re really seeing economic warfare being carried out against us, and we’re watching the Biden administration going down the exact same road. They are ignoring the Constitution, ignoring the rule of law, and just pushing things dangerous things that threaten our future and the world.” –Kevin Freeman

Ep. 4-157 (OSINT) Open-Sourced Intelligence Report. This includes highlights and discussions with Kevin Freeman and Michele Bachmann.

Michele Bachmann is Dean of Regent University’s School of Government. She received a B.A. in Political Science and English from Winona State University in 1978. She married Marcus Bachmann, a clinical therapist who holds a master’s degree from Regent University. In 1986, Bachmann received a Juris Doctor degree from Oral Roberts University. She was a member of the ORU law school’s final graduating class, and was part of a group of faculty, staff, and students who moved the ORU law school library to Regent University. Two years later, she completed a Master of Law in taxation at the College of William & Mary. She worked for four years as a lawyer for the Internal Revenue Service’s Office of Chief Counsel in St. Paul, Minnesota.

Bachmann and her husband have five children. They also worked with a private foster care agency to house 23 children in their home during the 1990s. Bachmann’s children were home schooled and also attended private Christian schools, and her political career stemmed from her interest in education reform. In 2000, Bachmann defeated a longtime moderate incumbent for a state senate seat in Minnesota. In 2006, Bachmann entered the race to represent her suburban Minneapolis congressional district. She won 52 percent of the vote, becoming the first Republican woman from Minnesota elected to the House of Representatives. She easily won reelection in 2008 and 2010.

Bachmann's extensive career highlights include:

- » Bachmann was the first Republican woman from Minnesota elected to the U.S. House of Representatives.
- » Bachmann served as a United States Congresswoman representing Minnesota's 6th District from 2007 to 2015.
- » She quickly became a national figure in the Republican Party and a founding member of the congressional Tea Party Caucus.
- » In 2011, Bachmann announced her bid for the Republican presidential nomination and ran for president in 2012.
- » Bachmann is a highly respected leader who is deeply committed to conservative values in government.

1. Economic Warfare targeted to change elections. It has happened before.

Kevin Freeman sounded the alarm in 2008 with the warning of a targeted market collapse to influence an election.

Prior to the 2008 market collapse, Kevin Freeman was starting to brief Michele Bachmann (about the risk of naked short selling causing a stock market crash just before the election) at the Republican convention when he received an emergency call regarding his mother's health and had to leave.

At the time, John McCain announced Sarah Palin as his running mate and the Republican ticket opened up a lead in the polls. That held firmly until September 11, 2008.

Freeman's warning:

"There's this thing called naked short selling. It's coming down the tracks. It is going to ruin our economy and will change the election." -Kevin Freeman

- » Kevin Freeman watched his warning about naked short selling hit the stock market starting September 11th.
- » Prior to that McCain-Palin lead in the polls. Suddenly it was Obama-Biden leading and they never looked back.

The impact on the election (beyond the economic hit) was clear. Joe Biden even admitted it.

Biden publicly shared with McCain, "You know, if the stock market hadn't collapsed, you would have been elected president."

The world is vastly different because of that unfortunate incident and that happened on 9/11, the seventh anniversary of the worst terror attack on US soil in history.

"Kevin, you were prescient, but you were exactly right. Just like you've been on so many other topics. That's why I'm glad that you have Economic War Room because now you can share with a far wider audience what you shared with me in private briefings. And so, I'm very grateful for Economic War Room, and I'm glad that you are still heavily engaged in the fight because we certainly need you now more than ever." -Michele Bachmann

2. The takeover of the United States economy through the shredding of the Constitution.

Michele Bachmann shares from her time on the financial services committee and what is happening today.

Michele had front-row seat on history, and the hottest issue of the day at that **time was financial services. Beginning in 2006, but really culminating in 2008 there were two major issues:**

- » We saw the collapse of the housing market.
- » We saw the collapse of our economy in the United States.

It was a terrible time, as people recall.

- » I sat on the committee that was chaired by none other than Representative Barney Frank, House Financial Services, and saw what is now known as the Dodd-Frank bill, chopped up in little pieces and presented one bill at a time.

- » For each one of these bills, they had the Treasury Secretary, the head of the Fed and every leading economic person in front of our committee.
- » **What was being proposed by the Obama administration had nothing to do with free-market economics. It had everything to do with a complete and total takeover of the United States economy through shredding the Constitution.**

"I'll never forget having the Treasury secretary in front of me. And while he was talking about the things they were going to do, asking him to tell me where in the constitution could he find his authority to do what he was suggesting to Congress?

He never could find it.

I asked him three different times in the course of that testimony, 'Where in the Constitution?' It's the only time that he was ever flustered in front of our committee because of course, they either don't know the Constitution or they don't care about the Constitution. I think both are true in their case." –Michele Bachmann

Today what we're seeing is the same song, second verse. The Constitution is irrelevant, and what we're seeing is that laws are only made for one group of people. They are made to limit people who consider themselves conservative, who consider themselves bound by the Constitution. Not for those who are currently in charge today.

3. The establishment of lawlessness – The real Obama legacy of the 2008 win.

Private Property Rights, Bankruptcy Law, and Billions to Iran.

"I can say it in one word. I said it at the time. It is the establishment of lawlessness in the United States. I said it to my scheduler. I said it to my chief of staff. I said it to fellow members of Congress during the Obama administration when they upended one private property right after another. I said to everyone, what Obama's ultimate legacy will be is the establishment of lawlessness in the United States, and that's clearly what happened." –Michele Bachmann

Other Examples of Lawlessness:

- » **Legal definition of marriage eliminated** - The attorney general at that time was Eric Holder at the beginning of the Obama presidency, and they announced out of the gate that they would not uphold the American legal definition on marriage. For well over 225 years, we had the definition of marriage as one man, one woman, and they said they would not uphold that definition. They were going to go with something else.
- » **Car dealerships shut down**- They sent thousands of pink slips out to car dealerships all across the United States, and they told car dealers, 'You'll be done now, we're going to remove your dealership license from you.' This came from the administration.
- » **Bankruptcy laws upended** - 150 years of bankruptcy law, one event after another.
- » **They even dictated light bulb purchases** - It got to the point that the American people could no longer go and buy an incandescent light bulb in their local hardware store. Instead, we had to buy these dangerous light bulbs that had mercury inside of them.

These are just some examples, but the list continues, it was one thing after another!

4. Obama broke faith with the American people and supported Iran. Iran was in trouble and Obama sent billions to help them.

"One of the most egregious things we ever saw was the Iran agreement when Barack Obama broke faith with the American people and instead struck a deal to strengthen the Iranian regime that was flat on its back, gasping for air." -Michele Bachman

Bachmann shared what she knew from the intelligence committee.

- » **Iran was gasping for air.** And yet Barack Obama gave them, we found out later, \$4 billion that he unilaterally sent over to them as kind of a last-ditch emergency infusion so they could keep going.
- » **Obama kept Iran going.** We later found out that he was privately constructing a deal with Iran that would infuse over \$150 billion. They dropped that to them on pallets out of the back of a plane.

→ Pallets filled with all sorts of money and American money French francs, Swiss francs, you name it. It was thrown out of the back of a cargo plane so that the Iranian regime would be strengthened, enabled, and be a leader in that portion of the world.

ALERT: Why would an American president take the side of America's enemies?

“What we saw under President Obama, was that he strengthened all our enemies around the world, and he weakened our ties with our allies. What’s worse, he weakened the United States of America economically, and he weakened us globally on the world stage. He set us up for where we are today in Afghanistan doing the same thing.” -Michele Bachmann

Lessons in History: Guantanamo Bay - Obama's release of terrorists. One of them will likely be running Afghanistan.

“When I was on Intel Committee, the big thing from the progressive left is they demanded that we close Guantanamo Bay, which was the holding ground for radical, violent terrorists.

We had the worst of the worst bad guys held in that facility. I visited Guantanamo Bay and saw some of those people who we held there.

Remember there was a deserter, Bowe Bergdahl. President Obama affected a trade whereby we took the five worst terrorists that we were holding. We released them (not we, but Barack Obama). He released these terrorists out of Guantanamo Bay together with \$5 billion.

We released them to Qatar under the pinky promise that they would be good boys and they wouldn't go back to their terrorist ways. Well, one of those five leaders was the mastermind behind the collapse and the takedown in Afghanistan, and he will now be, in all likelihood, the new president of Afghanistan. The same individual who we held behind bars. And **Barack Obama gave them a \$5 billion check.** He is now the mastermind to take us down in Afghanistan. That's Barack Obama.”

-Michele Bachmann

ALERT: HOPEFULLY THERE ARE LESSONS TO BE LEARNED FROM THIS AND HOW WE VOTE NEXT!

5. Today, with the Biden Administration we continue to see lawlessness.

Both immigration and spending are completely out of control!

A. Lawlessness at our southern border today and what the Biden Administration is doing now.

Nobody in their right mind would be doing this!

- » Biden is leaving the front door open to America at our southern border, urging everyone to come into America. That is absolutely unbelievable.
- » They are mandating vaccines for everyone else, but not requiring vaccinations for those who illegally enter.
- » Biden is doing this during a pandemic, when all of us are supposed to mask up, vax up. They want even little two-year-olds getting vaccinated.
- » They bring in planeloads, 120,000 people from Afghanistan who were unvetted. Afghans who certainly aren't vaccinated. They were not wearing a mask when they were on the cargo planes.
- » Now, it is thousands of people from Haiti.
- » It is different rules for different people.

B. Lawlessness and out of controls budgets!

Every budget Biden put forward is in an excess of a trillion dollars. He's already committed American spending to multiple trillions. He wants another six trillion more through his phony infrastructure bill.

Bachmann wages that by the end of this year (remember, he's only eight months into his presidency so far) that...

- » Biden will have pushed fully \$10 trillion in spending.
- » It was just a couple of years ago, when the entire U.S. budget was two trillion dollars.
- » Two trillion dollars is now the size of one small bill that Joe Biden is trying to push through the Treasury.

PAGE 8

“People need to understand, that the United States is the brokest nation in the history of the Earth. No nation has ever been as indebted as we are. There’s virtually no hope of us ever paying off this kind of debt unless we radically restructure our government. It can be done, but it has to be done by an adult who’s in the room. It can’t be done by someone who’s on vacation. Joe Biden believes in more fantasy spending, but fantasy spending ends up in reality-based economic misery and collapse. And don’t think it can’t happen because it will.” –Michele Bachmann

6. The China Threat - Wake Up America - It is no longer, 'Do not worry, they are just our trading partners.'

We still have some of that today, but more are waking up to the real China threat.

After Kevin’s briefings with Congresswoman Michele Bachmann and many of her colleagues in Congress, there was a gradual awakening to the China Threat. Kevin was warning about this in Washington with all the “3-Letter” agencies.

People like Bill Gertz were out there for a long time trying to lay that groundwork of the trajectory of the threat with China. Today, even more Americans see that we don’t have access to supply chains anymore, the people are “getting it” and they’ve woken up.

- › They’ve heard about the Belt and Road Initiative.
- › Many see that America is suffering (and we definitely are) and that China appears to have the upper hand as we let them take our IP and critical supply chains.
- › They’ve stolen from us for decades and now ... they’re using it for their benefit to build up China and become the ruling empire.

Mark Steyn, the great writer and commentator, was the first to see this decades ago.

In his book, **After America and America Alone**, he shares that the transition to power from the United States to China will not be a pretty one.

- » When the baton of global power was passed from Britain to the United States somewhere in the nineteen forties and fifties. It was a very smooth transfer of global power, from Pax Britannica to Pax Americana.

Pax Britannica: British peace –used for the period of relative tranquility from circa 1815 to 1914 in the regions to which Britain’s power extended.

Pax Americana: American peace –used for the period of relative tranquility from circa 1945 to the present day in regions to which U.S. power has extended.

Attention: There will no be Pax China

- **There is no peace. The peace would only be on China’s terms, and that would be with every other nation under their thumb serving as servants and slaves to them. When you see how China is cruel towards their own people. Then you have just a little inkling of what it would be like for any other nation.**

America’s unbelievable wealth transfer to China

- » In 1999, when the Chinese wrote the book **Unrestricted Warfare**, the size of the Chinese economy was one-tenth the size of the American economy, roughly the size of Italy’s economy.
- » Over those 20 years as we’ve transferred so much wealth. For perspective, our total debt in the year 2000, when George Bush was elected and he was saying, “You know what? We’re bringing in so much money, we’re going to have to give a tax cut.” It was under \$5.7 trillion.

Today we are talking about Joe Biden putting \$10 trillion of debt in the first year or two of his presidency. It’s crazy how much things have shifted in the last 20 years.

Now we are at risk of losing the US global currency status.

- » Once the United States dollar isn’t the reserve currency, then the bottom falls out and we will see a completely different basket.
- » China intends to be that basket, that denominator of currency, and they intend to do it digitally.

“We’re living in the most tumultuous times in our lifetime, and that’s why it’s important that people watch shows like Economic War Room, so they know what’s going on. They know how to hedge their bets and take risk calculations for themselves, for their families, for the future.” –Michele Bachmann

WARNING: General Milley in his capacity as Chief of Staff for the United States Army, from 2015-2019, states “China is not an Enemy, China is a rising power.”

Today he is Joint Chiefs Chairman and it appears he decided on his own to communicate with China’s People Liberation Army General Li Zuocheng. Milley seemed to indicate he was in command and control. (Not President Trump at the time when President Trump was Commander-in-Chief).

MORE NEEDS TO BE UNDERSTOOD AROUND GENERAL MILLEY’S ACTIONS.

7. Michele Bachmann – Dean of the Regent University’s School of Government talks about the importance of quality leadership in Government and throughout our institutions.

The only fix is going to be “We the People” understanding the economic war we are fighting and working together to take a stand!

The NSIC sees Regent University and Michele Bachmann’s leadership as important as we fight this economic war.

The NSIC (National Security Investment Consultant) Institute, and Economic War Room® know that we are in an economic war. And if it’s an economic war, we must help people weaponize their money.

Many of those of the 50 plus generation have money, but only the same vote as an 18-year-old. They have the same vote, but can weaponize their money to make a greater impact.

The problem:

- » People don't know how to invest. Do they invest in China?
- » They hear about ESG environment, social justice, governance. They don't know what to do.

The NSIC is training financial advisors. We're borrowing a page from academia, and we have asked for Michele Bachmann's help and leadership with the NSIC Institute.

Michele's response:

"100 percent! I'm a big yes, and we want to have what you're teaching here at Regent University as well. We have a large business school, a graduate school of business and undergraduate school of business, and we need your expertise here at Regent. We look forward to cooperating and partnering together for the advancement of all people across the United States and across the world. It is important to have good techniques and good strategies in their back pocket to be able to hedge, protect, and also grow into the future." –Michele Bachmann

The NSIC Institute is excited to have Michele on the leadership team! We've talked about ESG, we've talked about individuals, but **this isn't a fight we can trust Washington to do for us anymore. It's going to have to come back to the people getting active in weaponizing their money.**

Kevin Freeman shares how the investment world has changed and what needs to be done today:

- » I started in the financial services industry, I've been a stockbroker, I've been an investment manager. I worked for the great John Templeton for a decade.
- » **When I started index investing was nothing. People didn't invest in the index. They bought individual stocks and they invested in things they believed in.**
- » Over the past 20 years or so, people have given that up, and they have said, 'I'll just hand my money over to BlackRock or Vanguard or State Street.'
- » What they've done is **just handed off the control of their own money and it's been invested in all kinds of things that go against the desires and heart of America.**

ALERT: The belief in individual liberty, the belief in free markets. We need help with more NSIC financial advisors. We're going to have to train thousands of financial advisers over the next five years to have even a chance at fighting this fight.

8. This all comes back to the people taking a stand! THE DECISIONS COMING OUT OF DC ARE MONSTROUS.

Michele Bachmann reflects on what she is seeing with DC.

- » I have never seen decisions this poorly made the for the worst reasons.
- » They don't have the United States' best interests at heart.
- » It is a bizarre time that we're living in.

"What you're talking about Kevin is extremely kind to people because what you're trying to do is equip people so that they know how best to protect themselves and the assets they have now going forward." –Michele Bachmann

9. The need for Parallel Institutions is because we can't trust that our better interests will be watched out for by the monsters that are currently in charge in D.C.

"I think what we're looking at is building parallel institutions, if you will." –Michele Bachmann

Payment systems, free speech, health care, big tech censorship, you name it, our institutions are forcing group think and compliance to their agenda.

Healthcare is an example.

Bachmann sees that there may be the potential need to develop our own parallel health care because we're seeing threats there from the United States government.

- » If you don't get a vaccine, maybe your health insurance won't cover you.
- » Maybe Medicare won't be there for you.
- » Maybe it will cut your Social Security.

ALERT: "That's why we have to build, I think, parallel institutions, whether it be the financial, medical, you name it, we need to have parallel institutions."
-Michele Bachmann

We can't trust that our better interests will be watched out for by the monsters that are currently in charge in D.C.

"I don't say that lightly. I used to serve there, and it isn't because I'm gone now. I think I can use pejorative terms. It's because we've never seen the types of actions that we're seeing now.

We've never seen the United States actually prevent private planes from taking off out of Afghanistan loaded with Americans. And our government is saying, 'No. You can't leave.' We're living in a very different time. That's why we have to have very different strategies to protect ourselves in the future." -Michele Bachmann

10. As we face some difficult times, there is hope. Michele Bachmann shares from her heart.

"Well, what gives me hope is my faith, my faith in Jesus Christ, my faith in the unshakable truth of the Word of God. You know, right now, for instance, I'm in the middle of hosting 40 days of prayer and fasting. We've had thousands of people respond who want to confess their sins and repent. And now we're in the final 10 days of our 40 days where we're focusing, looking full in the face of God, and we're studying His character, His attributes, focusing on Him.

This is what I'm seeing, Kevin. I'm seeing people turning to the Lord now and recognizing there is a better way than the way and the road that we're going down. And it's all about trust, faith, belief. There's been bad times on this earth before, but God gets us through them. He asks only that we turn to Him, confess our sins and we get in a path of obedience and then we'll see the miracles begin. He does it every time. That's why they're called miracles because He enters into our world when we invite Him to come in and He turns our life around. That's our greatest hope." -Michele Bachmann

Why You Should Care:

- » The establishment and acceptance of lawlessness in DC is happening now!
- » Your money, your livelihood and way of life are under attack.
- » Elections can be influenced through economic warfare.
- » If you are actively involved in Index Funds your money may be invested against your values and way of life.
- » Your interests are not being looked out for with the leadership running DC.
- » Whether it is China, Iran, or the Taliban, we are helping to fund our adversaries.
- » Our debt is unsustainable.
- » If you own shares in stocks through Index Funds, or if you fail to exercise your voting rights as an investor, you are giving up your freedoms and even your money.
- » As mandates increase, the need for parallel institutions that align with your interests may be needed. If we wait too long to address and develop these, there may not be time to develop best-in-class alternatives.
- » We need to stand together, and we need to elect and help develop quality leadership in our institutions.
- » Activists on the left are voting against shareholder interests and against liberty.
- » There is still hope in God as we repent and turn toward Him.

Action Steps:

1. It is time for shareholders to stand up and speak out. Be sure to vote your proxy votes on investments or work with a financial advisor to help you do this.
2. Be alert to what is happening, recognize the need to create new alternatives to the way things are currently being operated. This could mean creating the need for parallel institutions. Part of making these things happen will be participation in NSIC and weaponizing your money towards what you value. If we stand together, we can make a difference.
3. Weaponize your money toward principles that support Liberty, Security, and Values (LSV). You control your giving, spending, and investing. Nominate your financial advisor to attend our Founders' class coming soon.

- **Investing**, we suggest you get a like-minded financial advisor. We’ve done surveys and a clear majority of investors want an advisor who matches with their political and cultural beliefs. Unfortunately, Wall Street is pushing for you to just take what they offer in order to force a leftist agenda on you.
 - o “If your advisor isn’t willing to match your investments with your values, send them to us for training and education. If they won’t do that, I can promise you that there are lots of other advisors looking for new clients.” -Kevin Freeman

4. It is time to fight the economic war we are facing. Nominate your financial advisor at EconomicWarRoom.com/advisor and let them know you think this would be a great opportunity for them. Classes are launching soon, and our list is growing fast.

5. Also, if you have not already done so, please consider the following:

Be sure to sign up for our free weekly Economic Battle Plans™ at www.EconomicWarRoom.com

- If you are following Economic War Room you will be on the leading edge as it relates to global threats, geopolitical analysis, and how you can weaponize your money to strengthen America. Your money, livelihood, and way of life are at risk and these tools are designed to mobilize America to protect their economic liberty.

In the **Economic War Room®**, we encourage Americans to be the “small ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The small ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.

We need more Economic Patriots on the team! Consider what you can do now to help strengthen America or even help someone in need. Keep in touch with your congressional representatives. Choose from the list or set your own goals:
