

## China Discovers Pandemics Work

While China's involvement with COVID have been heavily discussed, key issues remain hidden. Once the virus escaped from the lab, the CCP's purposeful intent to spread it around the globe BECAME clear. China has discovered pandemics work and can be used to achieve their purpose. Now, they are preparing to weaponize them.

We have warned about this for years, but highlighted the reality of it in our September 2020, [Economic Battle Plan™ - 3.105](#). China's tactics on how to take down a geopolitical super-power like the United States include Bio-Chemical Warfare.

are: The Chinese talk about control...  
get in what...

**14. Bio-Chemical Warfare:** The Chinese version is not traditional. They aren't talking about the kind of warfare where you use chemicals or germs on troops. Rather, in the book they discuss secretive ways to attack an enemy's economy by taking advantage of a biological tragedy.

- Last quarter, our economy fell at a 33% rate according to government statistics. The pandemic has caused massive unemployment and driven our Federal Debt to unprecedented levels. And all because a virus was unleashed from China?
- The Chinese actually discussed the concept of bio-chemical warfare which could include unleashing a pandemic as a means of Unrestricted Warfare. They consider this "subduing the enemy through clever operations." But they were careful to explain that it must not appear as purposeful.

- This could mean things like not telling the world an unleashed virus could spread rapidly human to human. Or it could mean scooping up all the personal protection equipment needed to control supply before the world realized there was a problem. And, it could mean using a virus to unleash economic chaos as was depicted in this cartoon from [China Daily](#).

15 China RX: In the book

**The Cover Up is Hurting Us.** Today, with continued US/China involvement around gain-of-function research there are a lot of guilty Western parties trying to cover things up. THAT IS EXACTLY THE WRONG APPROACH. In fact, we should have learned from the Spanish Flu pandemic and shared truth with the American people all along. It would have better prepared us for the serious challenge we face.

Kevin D. Freeman  
@SecretWeaponUSA

The conclusion from the definitive work on the Spanish Flu pandemic was written in 2004 by John M. Barry and titled The Great Influenza. The last paragraph says it all. If only we had listened and learned.

Those in authority must retain the public's trust. The way to do that is to distort nothing, to put the best face on nothing, to try to manipulate no one. Lincoln said that first, and best.  
—A leader must make whatever horror exists concrete. Only then will people be able to break it apart.

This briefing provides a further look at what's next with China's bioweapon development and what America needs to do now. We are in the biggest economic war ever! Gordon Chang joins Kevin Freeman in the Economic War Room® for this week's update.

## Your Mission:

1. To understand the CCP's real economic war and details behind their release and execution of the spread of COVID-19 around the world.
2. Also, to be prepared, and enhance your knowledge of what China may be planning next as they witnessed COVID-19's effectiveness.

Alert: The Chinese Communist Party believes that they should rule the world, and they're even talking now about ruling the near parts of the Solar System, Mars, and the Moon. Under Xi Jinping, Communist China's ambitions are among the most audacious of any leader in history. His heroes include Mao, Hitler, and Stalin. That should concern America and the world.

Ep. 5-161 (OSINT) Open-Sourced Intelligence Report. This includes highlights and discussions with Gordon Chang and Kevin Freeman.

**Gordon G. Chang** is the author of *The Great U.S.-China Tech War and Losing South Korea*, booklets released by Encounter Books. His previous books are *Nuclear Showdown: North Korea Takes On the World* and *The Coming Collapse of China*, both from Random House. Chang lived and worked in China and Hong Kong for almost two decades, most recently in Shanghai, as Counsel to the American law firm Paul Weiss and earlier in Hong Kong as Partner in the international law firm Baker & McKenzie. His writings on China and North Korea have appeared in *The New York Times*, *The Wall Street Journal*, *The National Interest*, *The American Conservative*, *Commentary*, *National Review*, *Barron's*, and *The Daily Beast*. ### 1. China's planned response to COVID may have killed millions so far.

While COVID may have been an accidental transmission their purposeful response was clear.

- » Xi Jinping influenced the World Health Organization, LANCET (Medical Journal), and the world with disinformation.
- » He set up a global narrative that brought distortion and confusion, undermining our response.
- » He cut off World Health Assembly investigations on Chinese soil and then finally people understood Beijing was hiding information.

PAGE 4

**The results to date:** Johns Hopkins' reports indicate that nearly 5 million people have died from COVID-19 worldwide.

"We don't know how this thing started. Probably a lab leak, but we do know that Xi Jinping lied about its contagiousness. He told the world it was not transmissible when he knew that it was highly contagious. Then he pressured other countries to accept arrivals from China without restriction while he was locking down his own country. You put those two things together, and the only explanation is that he wanted to spread this disease beyond China's borders, which means that of those 4.7 million people, each one is a murder." –Gordon Chang

#### **A review of the timeline:**

The unclassified summary of the U.S. Intelligence Committee report, which was released on August 27, states:

- » There was an infection in November 2019.
- » If you look at the Harvard Medical School study, though, it looks like doctors in Wuhan knew that there was an infectious disease sometime in August.
- » Other have said it was October. Others say even earlier.

We understand roughly the time frame that this disease started. **The question is how most people are now coming around to the view that a lab leak is probable.**

#### **Chang believes it was an accidental leak of the virus.**

"What's really interesting is the people who are Chinese nationals. When you talk to them, they say it was purposeful, which means that they have a view of their own regime as much more of a vicious organization than we do. I think it's accidental, and the reason is they wouldn't have released it to sort of test it out unless they had the vaccine beforehand." –Gordon Chang

#### **Why Chang believes the virus release was initially an accident.**

- » China had five vaccines that were ineffective and, in some cases, likely unsafe.

- » More and more countries are rejecting the Chinese vaccine and moving to other alternatives.
- » China was behind the curve on vaccines which builds the case it was an accident.

## 2. What is concerning is that The US was also helping to fund the gain-of-function research!

### Fauci denies funding research:

Dr. Fauci, in his Senate testimony in July of this year, responded to questions from Rand Paul, the Kentucky Republican Senator. Fauci stated his National Institute of Allergy and Infectious Disease did not fund gain-of-function research at the Wuhan Institute of Virology. He was very clear about that but seem to react defensively with a careful parsing of words.

### The Facts:

There are two papers, one published in 2016, the other in 2017, which made it clear that there was gain-of-function experimentation at the Wuhan Institute of Virology, and that Dr. Fauci's institute was participating.

- » When you look at those papers, it was clear that they were taking pathogens and making them more lethal or more contagious, more transmissible.
- » **This is gain-of-function research and Fauci funded it with US money.**
- » Those papers actually reference the funding from Dr. Fauci.
- » The papers even have Fauci's numbers on it. His institute had numbers for each fund, each funding proposal, and they're right there for everyone to see.

"Fauci either committed perjury, or he just didn't know what his institute was doing, which means gross negligence. Dr. Fauci should resign or he should be fired." -Gordon Chang

**ALERT:** The research was being done in China rather than the U.S. because, in 2014, the Obama administration had this moratorium on federal funding and research on gain-of-function in the U.S.

NOTE: In 2012, Fauci discussed how gain of function is really important and why the world should do it despite the risks.

### Follow the Money

- » To go around the law, it appears Fauci may have done it through a cutout, which is EcoHealth Alliance, the New York NGO.
- » Fauci funded EcoHealth, and they knew that this money was then going to be transferred to the Wuhan Institute of Virology.

**WARNING:** AS OF THIS BRIEFING, THERE IS STILL FEDERAL FUNDING OF MILITARY-LINKED INSTITUTIONS IN CHINA REGARDING DISEASE.

There are probably two reasons we've been kept in the dark about the coronavirus.

- 1. One of them is the Chinese lab leaked it.**
- 2. The other is that the United States was funding some of that Chinese research.**

### 3. COVID 19 – China's Economic Weapon and the Cover Up.

The Chinese Communist Party's (CCP's) played up on their perceived superiority and propaganda of communism.

**Propaganda Strategy One: Promote Lockdowns to shut down America's economy.**

China created a massive propaganda campaign on lockdowns. They wanted to do this because they wanted to undercut the economic power of the United States.

**Propaganda Strategy Two: China's promotes the narrative that COVID started in the USA.**

- » In 2020, China claimed this disease didn't start in China. It was brought to China by the U.S. military.

"There was an infamous March 12, 2020, tweet from the Foreign Ministry that suggests that the U.S. Army did it. In that tweet, which is official, because it was the official Foreign Ministry account, they then said coronavirus patient zero is in the U.S. Wow. So, they're saying it definitely started here." –Gordon Chang

- » In 2021 China carried this through with propaganda about how this thing probably started in Frederick, Maryland. In other words, Fort Detrick.

**Propaganda Strategy Three: Show how Communism is a better system because of their control over a pandemic.**

- » The CCP focused on both economic and political positioning. They were saying that because Beijing has handled the coronavirus well, that their form of governance is superior to democracy.
- » They make this point all the time about how poorly the U.S. has done in handling coronavirus, and that's a reflection on our form of governance.
- » (With Communism the elites' control everyone for what the elites feel are best, because they know better.)

"This really goes to a core issue. And that is, Beijing believes that it will take over the world because communism is better than democracy."  
–Gordon Chang

**Strategy Four - The CCP had a planned tactic to spread the virus:** They locked down Wuhan and surrounding cities but pressured other countries not to lock down.

- » China accused countries that locked down as being Xenophobic.
- » Sadly, some in Congress on both sides of the aisle easily bought into China's narrative and made similar statements.

"When President Trump imposed those restrictions on January 31st of last year, Beijing then unleashed its propaganda campaign about how that was xenophobic. Fortunately, President Trump stood his ground. But this was part of their campaign to deliberately spread this disease. I mean, China has this notion of Comprehensive National Power (CNP). They borrowed it from the Soviets. It's a series of metrics to measure the strength of a country and Xi Jinping." –Gordon Chang

**Case Study – Why it is good to be prepared in advance.**

As China spread its propaganda, they grabbed/ confiscated as much of the PPE as they could. Kevin Freeman was on the phone with one of the largest suppliers of PPE in the country, and China really did scoop up that personal protective equipment, taking it away from the US and the rest of the world.

In that interim early period, December 2019/ January 2020, we saw China starting to withhold personal protective equipment. Maria Bartiromo, said on air on Fox News/ Fox Business that they turned around at least one ship on the high seas that had personal protective equipment heading to New York hospitals.

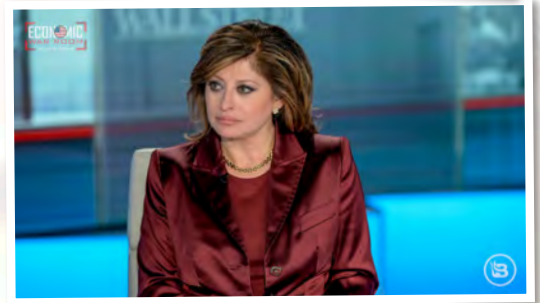

That was the story from early 2020, when they weren't telling the world what was going on. And they were selling masks for eight dollars apiece. So, there's an economic component to this, and China did very well in exports in the early part of last year, and that was what propelled their economy.

"I mean, I don't think they had the growth that they reported for last year, but to the extent they had growth, it was exports." –Gordon Chang

NOTE: It is hard to get real economic growth data from China. **It's about 2% or 1% most of the time and especially over the last half-decade regardless of what they report.**

**There is a reason why the Chinese economy is slowing down. That's true right now, we can see it in a number of different symptoms that don't occur in a period of the growth like China is claiming.**

**China's reported growth** doesn't prove the superiority of communism and they can't let that be seen.

“Every country should try to strengthen its economic ranking. But if you weaken everybody else, you only make yourself stronger on a relative basis. And that’s what I think Xi Jinping was doing. He saw that China was weakened. He was going to level the playing field by weakening everybody else, by deliberately spreading this disease. And I believe that when you look at what he did, especially in January of last year, there is no other explanation other than a deliberate spread of the disease beyond China’s borders.” –Gordon Chang

#### 4. Unfortunately, China’s military learned biological weapons can work.

##### **Our response to the pandemic has likely strengthened China’s resolve with biological weapons**

- › Everyone was used to say, “Oh, biological weapons, they’re not really practical. You can’t really use them effectively against an opponent.”
- › Chang believes Beijing has learned that they are very effective, especially if used before the start of hostilities because they can see what happened to the United States and what is happening today.
- › It’s not only the fatalities, but it’s also the lockdowns, and this has an enormous economic impact on us.

“I think the Chinese military said these things actually work, and we know that they’re working on a new form of pathogens, these ‘specific ethnic genetic attacks.’ **In other words, pathogens that would leave Chinese people immune but sicken and kill everybody else.**” –Gordon Chang

##### **Targeted Bioweapons against specific ethnicities, are they scientifically possible?**

While we don’t know the current details of China bioweapons technology Chang shares what is known.

- › For about a half-decade, Chinese military researchers have been talking about this in public, and they’ve been doing it not just in minor publications.

China's National Defense University publishes something called the science of Military Strategy.

- Their 2017 additions talked about this new type of biological warfare, so it's out there. We can assume that they're doing this.
- We also know that they're scooping up the DNA of foreigners.
- The world's biggest collection of DNA profiles of Americans is not in America. It's in China, and they're prohibiting the transfer of DNA profiles of Chinese people out of China.

» That is consistent with an attempt to develop these new types of pathogens.

**5. Is China collecting your DNA samples through the genetic testing you voluntarily sign up for? What they are potentially doing with it should scare you. They now feel more empowered than ever.**

**CAUTION:** Carefully consider the ancestry companies that are marketed across the USA where you can have your DNA analyzed. Many of those may be sent to China for analysis. And any database can be hacked.

- » There were twenty-three or so Chinese or Chinese linked institutions that were certified to provide DNA sequencing for these ancestry companies and others.
- » There are research partnerships between American institutions and Chinese ones.
- » In 2013, China bought Complete Genomics, which had one of the largest collections of DNA profiles.
- » In many different ways, they are collecting DNA profiles of Americans.

**The CCP believes targeted biowarfare is actually possible.** Chang shares perceptions from Hong Kong:

"I'll just give you an example. You know, my wife is from Hong Kong. And when she was growing up during flu season, Chinese people would get flu, but it would be very mild among the Chinese people in Hong Kong. **Flu season was thought to be a British disease because it affected the British disproportionately.** Well, what's the coronavirus? I mean, it's just sort of a variant of the flu. So, I think that they indeed are trying to perfect these specific ethnic genetic attacks." –Gordon Chang

**Bioweapons, if it sounds like a James Bond Movie - It actually is!** - The plot of the latest James Bond movie, *No Time to Die*, shows how closely linked truth and fiction can become. From [CBR.com](https://www.cbr.com):

“Codenamed Heracles, the bioweapon at the heart of Safin’s sinister plot in *No Time to Die* was originally developed on M’s orders as a way of eradicating collateral damage from MI6 assignments. Heracles is a swarm of nanobots, which can be programmed with target DNA, infecting and killing the chosen target on contact. Heracles can come into contact with anyone other than their designated target harmlessly but effectively turns them into a carrier, making their touch deadly to the target, or anyone sharing their DNA. The film shows the weapon’s deadly effects spreading between family members on contact, but it’s explained that it could be refined to target anyone from a specific individual to entire ethnicities.”

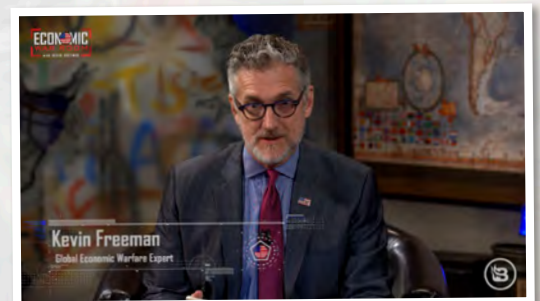

**Bill Gertz has written that American officials are deeply concerned that China is doing this type of bioweapon research.**

We have to assume that they are some ways along the path. That’s not to say that they have gotten there yet, but it is to say that we’ve got to be concerned because these are civilization killers and because the next pathogen from China could actually leave China as the world’s only viable society.

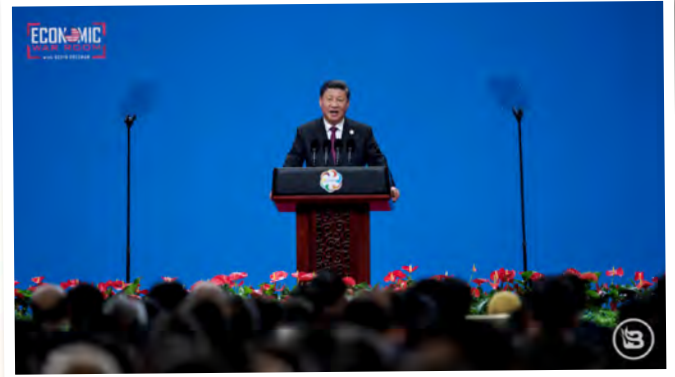

That is consistent with what they are trying to do, which is rule the world, no matter how insane it might sound.

“One of the things China learned from this is they, in general, can get away with it...And if it’s true that they capitalized on it, they’ve learned the lesson that this is effective.” -Kevin Freeman

**6. Chang believes Xi Jinping, knows what he did, and believes he can get away with it again.**

- » This appears to have been deliberate, at least in the initial planning and then later in the response.
- » This is actually the first time where One Nation attacked all the others in the world and nobody's imposed costs on China for doing it.
- » That means, in Xi's mind, that he can spread the next pathogen with impunity.
- » People talk about justice. They talk about compensation. Yes, those are important. But what's really important is deterrence.

**We must deter Xi Jinping from spreading the next disease. And right now, we've given him incentives to do so.**

"There's no doubt that the Chinese preferred Donald Trump out of the White House. He was no friend of the Communist Party. And now they see potentially a very weak American president, particularly after Afghanistan. So, if they're going to do something, they might try and do it during this administration." -Kevin Freeman

**7. China believes America is in decline, and that they control the levers of power.**

The mentality of Chinese leaders right now, just in general, that goes beyond Biden/Trump. They believe that the U.S. is in terminal decline. Gordon Chang highlights the following:

- » We're starting to see also hints that they believe there is political disarray in Washington. (The Afghanistan exit, under Secretary of Defense Lloyd Austin and General Milley, has given that notion to the Chinese.)
- » The Chinese have generally had this notion that they were going to take over the world.
- » Thus, they look at Biden's term as a particular target and an ideal opportunity.

We know this because Dongsheng, an academic from Renmin University in Beijing, gave an infamous November 28th seminar, which was broadcast around China.

- » **The professor specifically says during the Trump years our levers of influence in Washington were broken.**

→ Trump wasn't listening to Wall Street; he wasn't listening to Henry Kissinger. We, (China) couldn't influence Trump.

- » **He went on to say that with Biden coming into the Oval Office** (because this was November 28<sup>th</sup>, after the election), **they expected that they would again be able to determine outcomes at the highest level of the American political system.**
- » He shared how China's friends in the United States would have influence with the President and, by the way, Dongsheng even mentioned Hunter Biden.

## **8. Potential Solutions – If you care about America this should be a nonpartisan issue.**

Today it appears we have a potentially conflicted president. America is facing a serious problem that could be existential.

**We need to stop bioweapons development. How do we respond as a nation? We start by getting the truth out there.**

Other solutions suggested from Gordon Chang include:

### **A. The biological weapons issues need to be addressed now!**

- We've got to stop immediately all of this funding of research in Chinese institutions because these are just military linked. All of them came about from the CCP doctrine of civil-military fusion.

**Military-Civil Fusion, or MCF, is an aggressive, national strategy of the Chinese Communist Party (CCP).** Its goal is to enable the Peoples Republic of China to develop the most technologically advanced military in the world. As the name suggests, a key part of MCF is the elimination of barriers between China's civilian research and commercial sectors, and its military and defense industrial sectors. The CCP is implementing this strategy, not just through its own research and development efforts, but also by acquiring and diverting the world's cutting-edge technologies – including through theft – in order to achieve military dominance.

–U.S. Department of State

Wonder how they developed hypersonic missiles (as recently tested)? MCF coordinating intellectual property theft with research and corporate funding from America made this possible.

**WARNING: IT MAKES NO SENSE FOR AMERICA TO HELP FUND THIS!**

- We need to impose those costs on Xi Jinping because right now we've just given him incentives to spread the next disease. We need to deter him, which means one way or another, either by ourselves or with our allies and friends, we need to impose those costs.

**B. As it relates to trade relations, we must stop funding Communist China.**

- We need to appropriately cut trade with China.
- We need to cut investment, cut all these technical cooperation agreements, and force China to disgorge all the U.S. tech companies that they bought.
- We need to cut the soft relations. The reason is that they use every point of contact to overwhelm American society.
  - Right now, our FBI is overwhelmed. Local law enforcement is overwhelmed. Everybody is overwhelmed.
  - Until we are sure we can deal with China, we need to cut those contacts to the bone. Eliminate them.
  - If we determine that we can sort of get along with them at a lower level of contact, maybe we can open relations.

“Right now, this is a matter of saving our country because we can lose it. It’s existential. This is existential!” –Gordon Chang

**Kevin Freeman has warned about China's Unrestricted Warfare strategy.** This has been a part of the Chinese plan. The CCP has been perpetrating it for two decades. It is their economic battle plan that has been hammering our economy and nobody's called them on it. And in fact, most of the institutions have been bought or corrupted by the Chinese Communists.

[Note: These statements do not reflect on the Chinese people. The Chinese people are tremendous. It is their government and system that are corrupt to the core.]

## Why You Should Care:

- » Chinese targeted bioweapons targeted to certain DNA's could be in the works. This is a horror movie playing out in real life and in real time.
- » The US continues to fund gain-of-function research in Chinese labs. The administration appears to be hiding this truth to cover up their complicity.
- » China's Unrestricted Warfare plan appears to be perfectly executed.
- » China believes they have control of the levers of power again within the US institutions. This even includes the new Biden administration according to a CCP professor.
- » We know China was deliberate in the way the virus spread and they have had limited repercussions which strengthens them even more around bioweapons.
- » China has been collecting DNA samples of millions of Americans.
- » China believes America is in disarray and they believe there is opportunity to leverage that for their gain.

## Action Steps:

1. We must stop bioweapons development now! **Especially we must stop US joint gain-of -function efforts with the CCP regime.** Senator Rand Paul probed around US involvement and Fauci flinched. Contact your representatives and share this Economic Battle Plan™ with them. All funding for Gain of Function research with China needs to end now. Stop the carve outs that simply reallocate money through NGO's or other groups.
2. We need to impose costs on China for their involvement in spreading COVID-19. It is clear they feel like they can do this again with little repercussions.
3. With all that is happening, make sure your financial advisor understands the Geopolitical risks in China currently.
4. As things escalate, expect continued supply disruptions. Make sure you have the essential products you need to live with and are dependent upon. Remember, even many of our pharmaceuticals and PPEs are now produced in China.
5. Share this Economic Battle Plan™ with others. It is important your friends and associates are aware of the geopolitical impact ahead and are prepared. Your briefing and the links below include credible threats. We do not want anyone to be caught off guard. The more united we are, the stronger we will be.
6. Weaponize your money toward principles that support Liberty, Security, and Values (LSV) and stay on the front end of new innovations with a Financial Advisor that understands what's ahead. You control your giving, spending, and investing. Nominate your financial advisor to attend our Founders' class.
  - **Investing,** we suggest you get a like-minded financial advisor. We've done surveys and a clear majority of investors want an advisor who matches with their political and cultural beliefs. Unfortunately, Wall Street is pushing for you to just take what they offer to force a leftist agenda on you.
    - o "If your advisor isn't willing to match your investments with your values, send them to us for training and education. If they won't do that, I can promise you that there are lots of other advisors looking for new clients." -Kevin Freeman
7. **It is time to fight the economic war we are facing. Nominate your financial advisor at [EconomicWarRoom.com/advisor](https://EconomicWarRoom.com/advisor)** and let them know that you think this would be a great opportunity for them. Classes are launching and our list is growing fast.

**8. Also, if you have not already done so, please sign up for our free weekly Economic Battle Plans™ at [www.EconomicWarRoom.com](http://www.EconomicWarRoom.com)**

- o If you are following Economic War Room you will be on the leading edge as it relates to global threats, geopolitical analysis, and how you can weaponize your money to strengthen America. Your money, livelihood, and way of life are at risk and these tools are designed to mobilize America to protect their economic liberty.

In the **Economic War Room**®, we encourage Americans to be the “small ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The small ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.

**We need more Economic Patriots on the team!** Consider what you can do now to help strengthen America or even help someone in need. Keep in touch with your congressional representatives. Choose from the list or set your own goals:
