

 **EXPOSED: Eight Progressive Lies**

For this week's briefing, Kevin Freeman reflects back on the politics of 2021 and the lies of the political left that were exposed. As we close the year, we will review the Economic War Room® 2021 scorecard; what we said would take place, and how it actually happened.

Those that are part of the Economic War Room were on the leading edge of key insights impacting their money, their livelihood, and their way of life.

As we prepare for 2022, understanding the political and economic implications will be more critical than ever. It is time to start planning now as it relates to potential changes in your portfolio for the New Year. Also, if you have a financial advisor, now is the time to encourage them to become part of the NSIC. Our NSIC classes are officially starting in 2022 and are a key part of aligning your money with your values. Working together you will be part of protecting America's national security and economic infrastructure.

In this briefing, we will begin our review with a look at politics from 2021. We will then dive into the economy and investments. And we will wrap up with a review of some of the solutions we outlined this past year and how they can make a real difference in the New Year.

Your Mission: Your money, livelihood, and way of life are being attacked and now is the time to make a difference. Your Mission includes two key action steps this week.

1. To recruit three (3) others to become Economic Patriots and part of the Economic War Room.
2. To encourage your financial advisor to be part of Liberty University's founding NSIC class.

"This has been one unforgettable year. It's hard to imagine that 2021 is finally over. At times, it flew by. But there were a lot of points when you said, 'PLEASE.... Isn't It Over Yet?'" –Kevin Freeman

Ep. 5-170 (OSINT) Open-Sourced Intelligence Special Report. This Threat Briefing is part of an exclusive teaching series with Kevin Freeman in the Economic War Room®. Kevin Freeman is considered one of the world's leading experts on the issues of Economic Warfare and Financial Terrorism. He has consulted for and briefed members of both the U.S. House and Senate, present and past CIA, DIA, FBI, SEC, Homeland Security, the Justice Department, as well as local and state law enforcement. His research has been presented in critical DoD studies on Economic Warfare, Iran, and Weapons of Mass Destruction presented to the Secretary of Defense and the Under Secretary of Defense, Intelligence. He has traveled extensively with research trips to Russia and China and throughout Europe and the Americas. He is also a Senior Fellow at the Center for Security Policy and a Contributing Editor to *The Counter Terrorist* magazine.

We are about to start a New Year with lots of hope for the future despite the continuing challenges. Next week's briefing we will get into what to expect in 2022. Before we do that, let's review what we expected for 2021 and what actually happened.

1. A Reflection on the Past Year.

We aired Episode #121 in early January 2021 with the title, "What's Next?" It included our bold predictions for the year ahead. In hindsight, it proved a pretty good road-map for what we would experience.

When this Episode aired and the [Economic Battle Plan™](#) briefing 121 was written:

- » Donald Trump was entering the final week of his Presidency.
- » Joe Biden was warming up.
- » And, we had just come off the fateful US Capitol trespassing incident of January 6 aka, "The Insurrection Armageddon."

We warned that the Democrats would make far more of the incident than most Americans, and that has proven to be the case.

- They claimed it was worse than 9/11. Most Americans just yawned and changed the channel.
- What we saw from the media and the Far Left, however, was little more than a POWER GRAB.

All of this was pretty much what we predicted in our Episode, *Playing for Keeps*, that had aired just before the election.

We warned that Biden had shifted hard to the left and would vilify Republicans. That has absolutely been the case.

- Even worse, the Biden team has been determined to divide America by vaccination status, even ignoring the science of natural immunity to further their political agenda.
- Of course, the media carries their water, covering up massive political scandals, clear signs of the President's incompetence, and distracting us from the horrendous Afghanistan debacle.

2. A Review of the Politics of 2021. This is the year that Leftists went for broke, rolling out the worst policies imaginable, hoping Americans would be too asleep, stunned, or sick to fight back.

The good news? They miscalculated! Liberty-minded Americans have grabbed the momentum. Let's see if we can take advantage of it.

A reflection on eight (8) key examples of significant political happenings in 2021. These are not listed in any particular order.

#1 Recognition of serious election irregularities.

Remember when we were told that 2020 was "the most secure election in history?"

- » Well after reflection and the start of state audits (like Arizona), it has become obvious that the last election was an absolute mess.
- » Despite most of the media silencing anyone who even raised a question about the possibility of fraud, most Americans know something was very wrong.
- » In fact, even respected left-leaning pollsters have to admit that a large percentage of Americans believe that Biden won only by fraud. Look at this headline from The Hill reporting on the Monmouth poll.

#2 The truth revealed around Biden and Trump.

Maybe the reason people see **FRAUD** more clearly is that the truth has gotten out regarding Biden and Trump.

- » **Regarding Biden, we now know with certainty that the famous Hunter Biden laptop was his and was real.** There is no longer any question about this, even if the major media has tried to ignore it. That means that Hunter really was involved in all sorts of sleaze. He was taking lots of money from the Chinese and others, compromising our security. And his father, **Joe Biden, is "the Big Guy,"** demanding his cut.

- » **Regarding Trump, we now know that the Russian collusion story was a complete fabrication by the Hillary Clinton campaign.** The Durham team is systematically proving it and showing the goods with criminal indictments. The FBI appears very culpable and highly politicized to have promoted this garbage.

#3 Politicized vaccine narrative - The push-back on the bureaucracy and media's vaccine mandate narrative of 2021.

The narrative is now under assault. States like Florida have stood up to preserve Individual Liberty and Freedom of Choice.

- » **Courts are stepping up.** The Biden team used a "work around" to circumvent the law using OSHA. Take the job or lose your job.
 - But the Courts are starting to intervene.
 - Does OSHA have the authority to mandate vaccinations?

- » The medical community is stepping up.
 - Lots of doctors and nurses are now speaking out.
 - Did you know that one-third of hospital workers have so far refused to take the vaccine according to the CDC as explained in this Forbes headline?

Nearly One Third Of Healthcare Workers In U.S. Hospitals Are Still Not Vaccinated Against Covid-19, CDC Study Finds, As Vaccine Mandate Looms. - Forbes

<https://www.forbes.com/sites/roberthart/2021/11/18/nearly-one-third-of-healthcare-workers-in-us-hospitals-are-still-not-vaccinated-against-covid-19-cdc-study-finds-as-vaccine-mandate-looms/>

IMPORTANT: Even the media is slowly beginning to recognize that vaccine effectiveness wanes and there is real value to natural immunity. **The point is this, there is no "one size fits all" vaccine policy that makes sense. And America is beginning to recognize that.**

#4 Excessive "wokeness" is even being criticized by Democrats on the Left.

- » James Carville, architect of the Clinton years called out AOC for going too far.
- » Even Bill Maher the liberal comedian commentator is now regularly swiping at the Leftists. Take a look at this headline from [KATV.com](https://katv.com).

Bill Maher argues against 'wokeness', warns Dems have become 'party of no common sense'
by ZACHARY ROGERS | The National Desk
Thursday, November 18th, 2021

<https://katv.com/news/nation-world/bill-maher-argues-against-wokeness-says-dems-have-become-party-of-no-common-sense-woke-social-justice-cnn-chris-cuomo-cancel-culture-critical-race-theory-democrat-liberal-twitter-facebook>

NOTE: This is a major development. The Leftists have gone too far for liberals and this division has become obvious to the American people. Average Americans can't identify with the Left and certainly don't want to be ruled by them. Smart liberals get this. But the truth is out.

#5 Critical Race Theory, aka CRT, has been exposed as toxic and people don't want it in the Education System.

- » School board elections are now seen as important. Parents are evaluating curriculum. There were major victories in the 2021 election.
- » And the Justice Department has been exposed as hyperpolitical, essentially equating parents who care about what their children are taught with domestic terrorists.
- » They can deny it all they want but the FBI memo and Attorney General Garland's actions show the truth as explained in this headline from the New York Post.

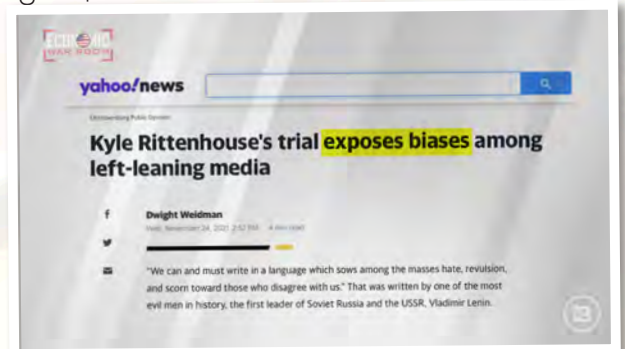

<https://nypost.com/2021/10/22/its-the-white-house-siccing-the-fbi-on-parents-who-question-crt-nonsense/>

#6 Self-defense is legal, and the Kyle Rittenhouse case was not about race.

- » Any honest American who followed this story knows that the prosecution had no case. The videos clearly show that Kyle Rittenhouse acted in self-defense and the jury agreed.
- » And every honest American paying attention understood that those who Kyle shot were not heroes. And they were not black. They were white men acting criminally and with criminal records.
- » The media was caught in lie after lie, hoping to provoke racial tension. But America saw through that to the truth.
- » **Look at this headline from Yahoo News.**

<https://news.yahoo.com/kyle-rittenhouses-trial-exposes-biases-205230938.html>

#7 The Afghanistan withdrawal was an absolute failure.

- » We left Americans behind and a lot of very valuable equipment.
- » Even as the Biden White House tried to put a positive spin on it, Americans understood the price of blood and treasure we sacrificed in Afghanistan only to see this Administration throw it away.
- » A Reuters headline in late August explained that :

"Less than 40% of Americans approve of President Joe Biden's handling of the U.S. military withdrawal from Afghanistan, and three quarters wanted U.S. forces to remain in the country until all American civilians could get out..."

We are the clear losers in Afghanistan, despite our commitment of blood and treasure. But there were winners, not the least of which is our old enemy the Taliban.

Look at this quote and article from *Defense One*:

How Equipment Left In Afghanistan Will Expose US Secrets

Even rendered inoperable, equipment now in the hands of the Taliban will yield troves of information about how the U.S. builds weapons and uses them.

"The ultimate winner of two decades of war in Afghanistan is likely China. The aircraft and armored vehicles [left behind](#) when U.S. forces withdrew will give China—through their [eager partners](#), the Taliban—a broad window into how the U.S. military builds and uses some of its most important tools of war. Expect the Chinese military to use this windfall to create—and export to client states—a new generation of weapons and tactics tailored to U.S. vulnerabilities, said several experts who spent years building, acquiring, and testing some of the equipment that the Taliban now controls. "

<https://www.defenseone.com/technology/2021/09/how-equipment-left-afghanistan-will-expose-us-secrets/185264/>

#8 President Biden's incompetence and apparent dementia - All of points 1-7 get supercharged with Point 8. President Biden's increasing signs of incompetence and dementia have led to a massive cratering in his polling numbers.

- » We've all seen examples of Biden snoozing at world summits.
- » There were rumors that he soiled his pants or was so flatulent that other world leaders refused to stand next to him.
- » We've heard the verbal gaffes.
- » We've watched him slip on the steps of Air Force One.
- » We've seen him wandering around during press briefings. All of these have become a national joke.

No wonder his polls are in the toilet. Even the liberal polls cannot hide it. Take a look at this headline from the NY Post.

<https://nypost.com/2021/11/18/biden-approval-rating-hits-36-percent-in-quinnipiac-poll/>

Those are not good numbers for anyone. In fact, they are even slightly below a comparable poll for Trump at the same point in his presidency. And that is with the massive favorable air cover provided by the media for Biden.

The BOTTOM LINE: 2021 was the year that the lies of the left were exposed.

3. Economic War Room's 2021 Early Predictions Were Right. Were You Ready For the "What's Next" We Cautioned You About?

"To recap 2021, I'd like to use our own version of the "WayBack Machine" from Mr. Sherman and Peabody to take you back to some of the things we said at the start of the year. Then we'll see how close we were to the target." – Kevin Freeman

» Watch "What's Next," Episode #121

We pointed out four economic trends that should have been obvious at the time but were largely ignored by the media. Here are the four:

#1 We said inflation would become a big problem.

It has but the economists and the media simply ignored it until recently. They kept claiming that it was "transitory."

- Even as late as July, Paul Krugman of the New York Times was claiming that inflation had died and wouldn't be a problem. <https://www.nytimes.com/2021/06/21/opinion/inflation-economy-biden-fed.html>

- You knew better and so did we. In fact, we aired two episodes in February that explained just how Biden's policies would feed inflation. We shared that Biden was following the path of Jimmy Carter and that would mean massive price hikes.

- Watch the clip

- Inflation which ran at about 1% last year was reported at over 6% in October as shown in this chart from US Inflation Calculator. That's the highest reported rate in 30 years. <https://www.usinflationcalculator.com/inflation/current-inflation-rates/>

CAUTION: This is a major change from what the economists and media were telling us. And it is clearly the #1 economic story of 2021.

#2 Huge Stock Market Gains

The number two story of the past year may be the huge stock market gains.

- As we explained in the "What's Next" episode, the stock market maintained all-time high levels and even pushed to new heights in 2021 with the Dow racing past 36,000.
- Was this justified? Only time will tell. But the underlying economy slowed, and inflation seems likely to force the Federal Reserve into hiking interest rates.

#3 WOKE Corporations

The number three economic story of 2021 is how far "woke" that corporate America has become.

- We've covered WOKE a lot in the Economic War Room.
- We warned this is corporate America no longer caring about what their customers or shareholders want. How else do you explain Coca-Cola telling employees to "be less white," or attempting to interfere in Georgia election integrity laws?
- The truth is out there for anyone willing to look for it.
- We were clear at the start of the year that "Woke Corporations" would be a big deal in 2021. If anything, we underestimated just how big of a deal it would be.

Take a look at this headline from the New York Post this past summer.

Woke, Inc: Why I'm blowing whistle on how corporate America is poisoning society. <https://nypost.com/2021/06/21/woke-inc-why-im-blowing-whistle-on-how-corporate-america-is-poisoning-society/>

- Unless you've been hiding in your basement, you get it. This was a major issue this past year just as we predicted it would be.

We had it right about a massive inflation increase, new highs in the market despite a struggling economy, and corporate America gone WOKE.

#4 China Dominate the Global Economy By Any Means Possible.

The only other major prediction we made is that China would shed any pretense and make it plain that they want to dominate the global economy by any means possible.

- That has certainly been the case even though the compromised Biden team and "bought off" American media won't admit it.
- We knew that China would stop at nothing to dominate the global economy. And we felt that the world would finally begin to wake up.

Watch this clip from a show we recently aired with Gordon Chang to explain just how right that was.

4. Why you need an Economic War Room NOW!

We designed Economic War Room® for You.

Looking back on the year, Economic War nailed both the political and the economic side of things.

Our "What's Next" episode was right on target.

And throughout the year, we covered the most important stories.

A look at how we accomplish this and what differentiates us from other media:

- We have the best and brightest minds coming into the Economic War Room on a regular basis and we distill their incredible thinking into bite-size half-hour weekly chunks for you to easily digest.
- We go a step further by providing a powerful Economic Battle Plan™ each week with a show recap in printed form, action steps you can take, and links to the key research that went into the show so you can validate it for yourself.
- This past year, we had incredible guests. And we don't just feature sound bites when we have a guest in studio. We go in depth and let you hear what they are really thinking.
 - » In 2021, we had amazing guests, including Dr. Ben Carson, Nigel Farage, David and Tim Barton, Gordon Chang, Lt. General Steven Kwast, and former Congresswoman Michele Bachmann. These are the newsmakers and people of real influence. And they come here because they care about America and equally, they care about you, your family, and your future.
 - » It's hard to explain to you how all these important people view you and the Economic War Room as essential to saving America. That's why they come here.
 - » And that's how we have been able to develop practical and reasonable solutions for the complex and difficult problems we are facing.

In the past year, we have given you:

- A prescription for healing America from Dr. Ben Carson - Episode #136.
- A Constitutional plan to protect our money supply using gold and the blockchain - Episode #146.
- And a practical way to END WOKE and take back common sense in America - Episode #134.
- Bitcoin explained - Episode #128.
- We provided a Six-Step Action Plan to Save America - Episode #150.
- We did a deep dive on the threats to you and our nation - Episode #144.
- Every week we cover the critical issues in politics, economics, and investing.
- We even gave you an action plan to protect your computers - Episode #151.

All Economic Patriots can go back and watch any or all of those programs and review our library of Economic Battle Plans. We provide factual information, data and links so you can make your own decisions on key topics.

As active Economic War Room participants working together, we can address the serious problems, protect America, and protect your finances, and family.

- » There is no other place like the Economic War Room. We are not a “talking head show” designed to outrage you.
- » We try to offer a solution for every problem and something that you can do as an individual, working with others to make a genuine and meaningful difference in our world.

We focus on Economics which really just means things about MONEY.

- » Jesus taught about money a lot, because well, sometimes, “it’s all about the money.”
- » And Jesus shared in Luke 16:11, paraphrased, “If you aren’t faithful with your money, no one will ever trust you with true riches.”

Our goal is to help you to **weaponize your money, your spending, giving, and investing.**

- › Wall Street and the Deep State want to control you with your money.
- › We want you to take back your authority and use your money to control them. After all, it is your money.

Key questions for you to consider:

- › Are you spending in line with your values or are you funding the destruction of your values? Woke corporations don't exist without customers.
- › Are you giving to good causes?
- › Are your investments supporting your family and your values?

We know it can get complicated. That's why we put all of this into bite-sized chunks for you weekly.

- › That's why we produce a weekly Economic Battle Plan™ that you can download FREE. We will even send you a weekly email reminder with a link to the new show. Just give us your name and email address at our website, EconomicWarRoom.com.
- › Starting in 2022, we are going to take it a step further. We are finally launching our NSIC Financial Advisor Training Program!

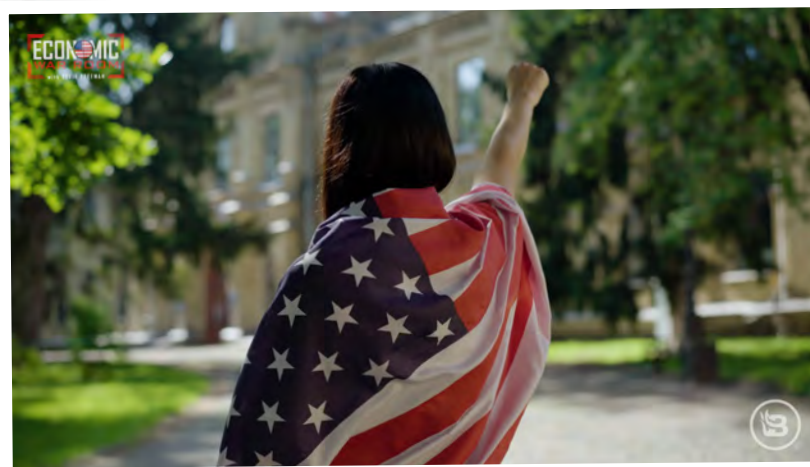

You cannot sit on the sidelines. If you have a financial advisor, it is critical they participate in the NSIC training!

- › Many of our viewers have said that they want their financial advisor, their stockbroker, financial planner, CPA, or insurance agent to know what we cover on this show.
- › That's why we developed a special training program to go into even greater depth with professional advisors.
- › We don't give financial advice on the show because we have no idea about your personal situation. But your financial advisor does. So, we take our knowledge of what is happening and the tools we use and make them available in the form of an 8-week online Advisor Training course. There is nothing like it anywhere in the world.

- » We give your advisor in-depth access to our latest research and also to the top minds who come through the War Room. People like Dr. Carson, Lt. General Kwast, and Gordon Chang will be made available to answer questions or have in-depth discussions with the group.
- » You should want your advisor to go through this training. More importantly, your advisor should want to go through it. How else can they serve you properly?
- » If you have an advisor, you can nominate them for the training at EconomicWarRoom.com/advisor. If they aren't interested, you may need another advisor.
- » Our goal is to train 10,000 financial advisors over the next five years representing \$1 trillion.
- » Those who go through our training will be eligible to join the NSIC Institute. NSIC stands for National Security Investment Consultant.
- » We are also developing a client track for those of you who manage your own money.

"I'm telling you, there are plenty of advisors who would love your business and are willing to help you weaponize your money." –Kevin Freeman

Why You Should Care:

- › Inflation is out of control.
- › Main Street America needs their own Economic War Room, that is why we exist. Understanding the Geopolitical situation and how it impacts your money is critical.
- › Momentum has shifted away from the radical left as their politics are exposed for what they really are.
- › To win the Economic War America is facing we must work together and be aligned as it relates to liberty, security, and values.
- › Even some on the Left are now recognizing the Democrat party has gone too far.
- › Our Economic Battle Plan™ and Threat Assessments have been consistently accurate giving Economic Patriots an advance look at what is coming.
- › We built the Economic War Room to be your War Room and source for reliable information so you can make informed decisions with your financial advisor and weaponize your money toward liberty, security, and values.
- › We are in an economic war. This is a battle for your money, but more important it is a battle for your liberty.
- › You have money that can be weaponized toward your values in how it is invested, spent, and given.
- › With the Chinese government developing methods to take control of American society, it is important to understand that this battle is real. Now is the time to do all you can do to avoid aiding the Communist Chinese Party.

“Maybe the most important thing you can learn from this entire Economic War Room is that you must have a financial advisor standing at your side that understands the threats and opportunities and is willing to do the hard work with you to weaponize your money.” -Kevin Freeman

Action Steps:

1. As we prepare for the new year, share Economic War Room with three of your friends. We are getting momentum and need more Economic Patriots.
2. Weaponize Your Money in your investing, spending, and giving aligned with LSV. (Liberty, Security, and Values)
3. **Nominate your financial advisor at [EconomicWarRoom.com/advisor](https://www.EconomicWarRoom.com/advisor)** and let them know you think this would be a great opportunity for them. Classes are expected to launch soon, and our list is growing fast.
4. **Our briefings have been accurate and beneficial for Economic Patriots and their financial advisors. If you have not already done so,** be sure to sign up for our free Economic Battle Plans™ at www.EconomicWarRoom.com.
 - o If you are following Economic War Room® you will be on the leading edge related to global threats, geopolitical analysis, and how you can weaponize your money to strengthen America. Your money, livelihood, and way of life are at risk and these tools are designed to mobilize America to protect their economic liberty.

In the **Economic War Room®**, we encourage Americans to be the “small ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The small ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.

“You’ve got money. It’s a tool to preserve, protect and defend the culture, to enrich your life, to take care of your family. But you’ve got to weaponize this tool.”
