

# UNDERSTANDING THE UKRAINE CONFLICT

THE THREAT OF TWO DEADLY DYSTOPIAS

## Choose Your Dystopia...Understanding the Ukraine Conflict

The Ukrainian battle takes place more than half a world away, but its impact is closer than you think. Economic warfare and financial terrorism expert Kevin Freeman highlights the most important points you must grasp to understand the war underway and how to protect your family. There are three key topics to understand.

- » First, this has been primarily an Economic War, at least as the West is waging it. We've been warning about this for over a decade and now we see multiple headlines validating our analysis.
- » Second, while the Ukrainian people are suffering the consequences, the larger war is between two different world views and neither of them is good for Liberty. In fact, there are two dystopian visions, and if either were to get the upper hand, we will lose our freedoms. Both are bad!
- » Third, the short- and long-term implications are much greater than you may have imagined.

It's an economic war, and it's a political fight with two opposing dystopian world views being fought against Liberty. The implications geopolitically and the changing relationship with China will alter the course of history-making millionaires of some and paupers of others. Western Governments are intent on using Economic Weapons against individuals and governments alike. This exclusive briefing from Kevin Freeman connects the dots on what is really happening in the world and what you need to do to be prepared.

**Your Mission:** To understand the dystopian visions being waged against society and develop your personal Game Plan to protect your family, your money and our culture.

Ep. 5-181 (OSINT) Open-Sourced Intelligence Report. This briefing includes Economic War Room conversations with Kevin Freeman. This briefing is part of the Economic War Room teaching series exclusive with Kevin Freeman. Kevin Freeman is considered one of the world's leading experts on the issues of Economic Warfare and Financial Terrorism. He has consulted for and briefed members of both the U.S. House and Senate, present and past CIA, DIA, FBI, SEC, Homeland Security, the Justice Department, as well as local and state law enforcement. His research has been presented in critical DoD studies on Economic Warfare, Iran, and Weapons of Mass Destruction presented to the Secretary of Defense and the Under Secretary of Defense, Intelligence. He has traveled extensively with research trips to Russia and China and throughout Europe and the Americas. He is also a Senior Fellow at the Center for Security Policy and a Contributing Editor to The Counter Terrorist magazine.

Kevin Freeman is the author of two best-selling books. His book, **Secret Weapon, How US Terrorism Brought Down the US Stock Market and Why It Can Happen Again**, was a New York Times Best Seller. In *Secret Weapon*, Kevin outlines what our enemies know and what Washington has chosen to ignore – that our financial system is profoundly vulnerable to financial terrorism. We are being targeted for further and even more destructive attacks by foreign enemies, who want to cripple America as the world's leading economy. But we are also being attacked internally by those who want to remake America in a "Brave New World" image. If you want to protect yourself and protect our country, then you need to read *Secret Weapon* to understand how we have entered a new age of warfare – an age our enemies want to make the Dark Ages of the United States.

In his book, **Game Plan - How to Protect Yourself from the Coming Cyber-Economic Attack**, Kevin Freeman outlines the potential threats against our economy and how Americans can be prepared to protect their savings and investments. With America's rising debt, multiple cyber economic attacks, and the weakening of the dollar, the potential economic threats are documented and real. What Americans see as a marketplace, our enemies now view as the battlespace. Contrary to many financial newsletters and advertising claims, there is not a silver bullet to these threats and investors need to be prepared to strategically adjust. This is the first "how-to" investment book of its type and provides the game plan to succeed.

## 1. Economic Warfare is being waged against individuals and governments.

Economic warfare expert Kevin Freeman shares what it means to you.

The world has changed in some dramatic unseen ways. We started warning about it almost 15 years ago, when Kevin Freeman had the task of educating our government on the new form of conflict we call Global Economic Warfare.

**The paradigm has shifted completely and it's important that you understand it. Look at these headlines that help illustrate what is happening with Economic Warfare today.**

» From the UK Guardian:

**"The west has declared all-out financial war with Russia. What does this mean?"**

<https://www.theguardian.com/commentisfree/2022/mar/03/russia-west-financial-war-sanctions>

**“The West declares economic war on Russia”**  
<https://www.politico.com/newsletters/morning-money/2022/02/28/the-west-declares-economic-war-on-russia-00012208>

“It doesn’t matter if you are leftist or a right-winger, American, Asian, or European. To anyone paying attention, the West is applying the very sort of Economic Warfare that I’ve taught about for years. And it is happening just as we predicted.” –Kevin Freeman

**NOTE: What is interesting is that while the West is waging all-out economic warfare, the Russians are rolling tanks.**

- » It is literally a clash between 21<sup>st</sup> Century and 20<sup>th</sup> Century Warfare, although with an unexpected twist.

**CAUTION: Russia undoubtedly has undertaken cyber warfare and the impact has yet to be seen.**

The bottom line? We have yet to see the outcome regarding whether or not tanks can beat economic sanctions. They each have their strengths and weaknesses.

"In 2014, I wrote a book titled: *Game Plan, How to Protect Yourself from the Coming Cyber Economic Attack*. If you haven't yet read it, you should pick up a copy. I re-read it recently and it remains remarkably current in many respects. What is understated, however, is the degree to which a government might use the same Economic and Financial Weapons against individuals to coerce their desired outcome." -Kevin Freeman

## 2. Western governments are intent on using Economic Weapons against individuals and governments alike.

### Canada's Economic War with the truckers.

The very same weapons being used by the West were brandished recently by Trudeau in Canada against the Trucker Convoy. Trudeau relented rather quickly but the statement was clear.

"If you don't bow to the government, you will be cut off from polite society and also from any economic connections."

**For you personally: If you say the wrong thing, do the wrong thing, or even think the wrong way, you will find yourself on the receiving end of an economic onslaught.**

**For individuals, that means you would lose your job.**

“Think I’m kidding? People can be labeled as a ‘hater,’ and lose their job simply for making a comment. In addition, you can be removed from social media.” -Kevin Freeman

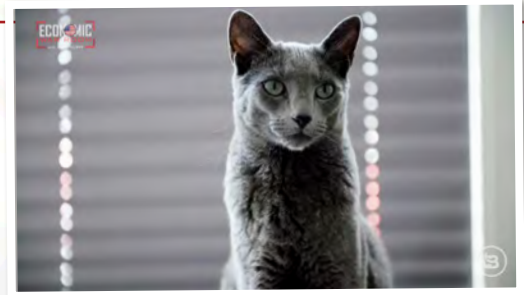

- » Restaurants may refuse to serve you.
- » Banks will cut you off. If people feel sorry for you and want to help pay your bills, your GoFundMe account will be confiscated. It is all rather intimidating and that’s by design.

**For nations, it’s the same playbook only on a grander scale.**

- » The impact of cutting off Russian exports and access to financial markets is astounding.
- » Some estimate that the Russian economy will be cut in half. That is beyond a depression. Assets in the West have been frozen.

- Corporations are dumping Russian operations.
- Russian television is banned.

“And to top it off, the international competitions will no longer allow people to enter Russian cat breeds into cat shows. No. I’m not kidding. Will the sanctions be able to reverse Russia’s aggression? That remains to be seen. Maybe banning the cats will eventually have an impact?” -Kevin Freeman

WARNING: Sadly, While Vladimir Putin put his nuclear forces on high alert and moved a real army, our armed forces stayed focused on sensitivity training and getting a service-member’s pronouns right. The focus is on Trans Rights rather than military readiness.

- » Have you ever wondered whether the soldiers from a prior era could beat a modern fighting force?
- » Well, that’s sort of how things played out. Only the difference is that THEY fired live rounds while we closed bank accounts and canceled their Netflix.

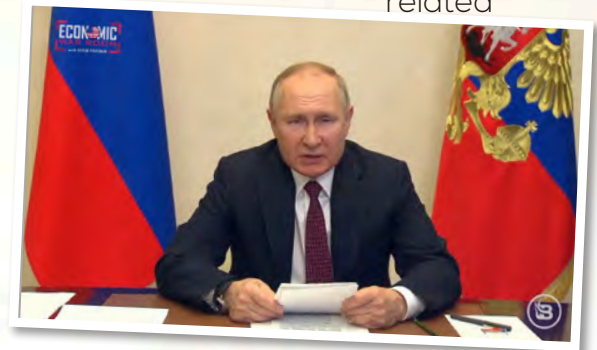

**3. It is important to note that Putin and his cronies knew we'd resort to economic weaponry, and they war-gamed it.**

- › Russia has decreased its dollar holdings and ramped up ties with China. Sure, their stock market has crashed but the value of their oil rose sharply if they could find buyers.
- › They have laid foundational relations with countries that don't care what America thinks.
- › And they have been intent on building a coalition capable of challenging the West.

---

**Lessons in History – What Putin Learned from the last Economic Attack and What's Next?**

- › In 2008, Vladimir Putin ordered a financial attack on America. We saw Russia dump their Treasury-holdings of Fannie Mae and Freddie Mac to cripple us in the bursting of the Housing Bubble.
- › Today, Russia eliminated its foreign debt, built up its gold reserves, and understands that America owes \$30 trillion and depends on foreign lenders and also foreign energy.
- › Putin sees our modern financial system as vulnerable to sophisticated cyber-attacks, the type that Russian hackers specialize in.

“Here’s the problem. We are, in the end, more vulnerable than Russia to Economic Warfare. It’s just that no one other than China has dared to unleash it on us yet. And that may well be the other shoe to drop.”—Kevin Freeman

**Rather than becoming smug about our recent economic success, we should be extremely cautious and somewhat introspective.**

CAUTION: If the hot war heats up, we will be challenged severely. If the cyber-economic war is unleashed on us, we may learn just how vulnerable we are. So far, China has held back, preferring Western wrath be focused on Mother Russia. But the final acts have yet to take place.

#### 4. Is America vulnerable to an economic war? You decide.

- › We need to recognize that our use of sanctions has blowback risks.
- › America is already reeling from a 7.5% inflation rate, the highest in decades. What happens when the much higher oil and gasoline prices start to hit home? Fertilizer prices are going through the roof and that will show up in substantially higher food costs.
- › Add to that the reality that the Federal Reserve will be slower to raise interest rates in a war environment and thus the stage is set for mammoth inflation.

**All, this could make the 1970s look like a picnic, exacerbating all the struggles we face.**

**Both Putin and Xi Jinping understand these realities.**

- › While we remain arrogant, assuming that we rule the world, our enemies recognize our vulnerabilities and have strategized how best to exploit them.
- › This will ultimately impact you, your family, and your finances. Don't be caught off guard.

#### 5. Understanding Who Putin really is?

**Putin is a KGB thug who will do whatever it takes to get what he wants.** Putin once even stole Robert Kraft's (owner of the New England Patriots) Super Bowl ring. He asked to see it and then just took it. That's a tiny illustration of how he thinks. <https://www.westernjournal.com/putin-made-chilling-comment-patriots-owner-sticking-super-bowl-ring-pocket-stealing/>

**For over decade, Kevin Freeman has written or spoken multiple times about how dangerous Putin really is. Here are two examples:**

- › 10 years ago, Kevin's blog was titled **"Putin wants Russia and China to join forces against the West"** <https://globeconomicwarfare.com/2012/06/putin-wants-russia-and-china-to-join-forces-against-the-west/>

That was prophetic, given what we are seeing today.

- » Kevin also co-authored **“The Bear is Back’: The Center for Security Policy’s Book that Warned of ‘Putin’s Reset’ – and What America Must Do in Response”** <https://www.economicwarroom.com/the-bear-is-back-centers-new-book-warns-of-putins-reset-and-what-america-must-do-in-response>

Again, a timely warning even though the Obama team said that Russian risks were “so 1980s.”

**Through his research and papers, Freeman also made clear that:**

- A. China still looms as the larger threat that must not be ignored.
- B. Russia and China together are lethal.

“We should have separated them when we had the opportunity during the Trump Administration. Sadly, we couldn’t, due to the whole Russia collusion narrative pushed by the anti-Trump forces inside and outside the government.” –Kevin Freeman

This is detailed in a blog Kevin Freeman wrote in July 2017 titled, “If This Isn’t the Trump Doctrine, It Should Be” <https://globaleconomicwarfare.com/2018/07/if-this-isnt-the-trump-doctrine-it-should-be/>

All the above being said, “PUTIN BAD/RUSSIA EVIL,” is nowhere near the whole story.

---

“The media wants to force a single narrative that will push their agenda. I’m here to share the whole truth and help it make sense.” –Kevin Freeman

- » By the way, just as an aside on the “PUTIN BAD/RUSSIA EVIL” mantra, never forget that we can punish the Russian cats!
  - Cat Shows banning Russian breeds to punish Putin’s aggressions? <https://www.rollingstone.com/culture/culture-news/russias-cats-banned-international-competition-1315925/> . That will surely cause those Russian tanks to stop in their tracks!

**Bottom line? Let's state unequivocally that the Vladimir Putin and Russia are the bad guys.**

- » Let's also state that the Ukrainian people and their leadership are clear victims. [We did convince them to give up their nukes.]
- » Also, Kevin Freeman is not opposed to using economic warfare against Russia.
- » But again, that is not the whole story.

**Next, Kevin Freeman shares what the media is not talking about as it relates to the Ukrainian war.**

**6. There are two dystopian forces battling to the death with the Ukrainian people caught in the middle.** We only need to look at George Orwell's and Aldous Huxley's books to better understand the sinister forces at hand.

**What most people are missing is the worldwide struggle for power between two dystopian forces.**

- » Putin claimed he was the good guy, marching in to defend Christianity. Again, REALLY? He used that as an excuse to invade: <https://www.foxnews.com/opinion/defending-religion-ukraine-russia-putin-knox-thames>
- » Putin is defending Christianity about as much as Xi Jinping is doing so in China.

**The reality is that Putin wants control in the Orwellian sense of the word. Like the Orwell books *1984* and *Animal Farm*.**

**It is "Big Brother" controlling everything but with the elites at the top enjoying the good life.**

In *Animal Farm*, it's the Pigs who run everything and get all the special goodies. In China, it's Xi Jinping and the Chinese Communist Party. In Russia, it's Vladimir Putin and the Oligarchs. World domination is on the table, and it will be a strictly controlled society using technology far beyond what Big Brother from the book *1984* could ever dream.

- » The people are controlled through a **mass surveillance state combined with Social Credit Scores.**

- » In the Orwellian nightmare, **sex is tightly controlled.** That's true for Xi's China and Putin's Russia as well.

All three despise any form of promiscuity and look down on homosexuality. This is a quote from an essay titled, "[Sex And Love In George Orwell's 1984.](https://www.ukessays.com/essays/english-literature/sex-and-love-in-orwells-1984-english-literature-essay.php)"

*"Through its control of marriages and sexual mores, the Party resembles a conservative religious institution. By attempting to control people's loyalties and loves, and redirect those towards itself, the Party posits itself as the end and the ultimate salvation."*

**In reality, it's all about complete control and manipulation!**

Note: Putin isn't defending Christianity or morals even though he adopts the language. Rather, he's grabbing power and control. The same is true for China.

---

"This is Orwellian dystopia, and it is distinctly different from Aldous Huxley's *Brave New World*. Opposing it is a good thing unless you intend to supplant it with another dystopian nightmare." –Kevin Freeman

And unfortunately, the West seems to be on the path of another dystopian future.

---

**The other Evil we are facing is the Western Dystopia View – It aligns more with Huxley's *Brave New World*.**

This is a battle that has been raging for nearly a century. In the 1930s, Aldous Huxley wrote a book titled *Brave New World*. It was weird and scary and futuristic.

- » It told of a society where a big global government called the "World State" runs everything.
- » The total control aspect was similar to Orwell's books that would appear in the 1940s, but how the World State got there was quite different.
- » The path was so different that it sparked a debate between the authors, Huxley and Orwell.

The debate was captured in the New York Times. **"Which Dystopian Novel Got it Right, Orwell's 1984 or Huxley's Brave New World."** <https://www.nytimes.com/2017/02/13/books/review/which-dystopian-novel-got-it-right-orwells-1984-or-huxleys-brave-new-world.html>

*"In a 1949 letter, thanking Orwell for sending him a copy of 1984,' he (Huxley) wrote that he really didn't think all that torture and jackbooting was necessary to subdue a population, and that he believed his own book offered a better solution. All you need to do, he said, is teach people to love their servitude. The totalitarian rulers in Huxley's book do this not by oppressing their citizens but by giving them exactly what they want, or what they think they want – which is basically sex, drugs and rock 'n' roll – and lulling them into complacency."*

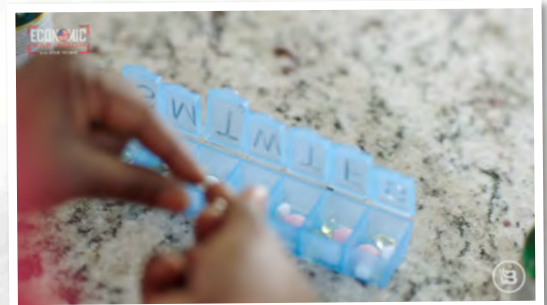

In *Brave New World*, **drugs are not only legalized, but they are also highly encouraged.** <https://study.com/learn/lesson/what-is-soma-in-brave-new-world.html>

**So is sex, with as much promiscuity, orgies, and exploration as possible.** The goal is best described as...well **a worldwide "Open Society" without national borders.**

- » Be whoever you want to be, male, female, it doesn't matter. And by all means, the *Brave New World* indoctrinates children into eroticism as early as possible.
- » If you accidentally get pregnant, have an abortion. This world doesn't need extra babies. [https://peutingerymnasium.de/html/lernen/brave\\_new\\_world/The\\_Role\\_of\\_Sex\\_in\\_Brave\\_New\\_World.html](https://peutingerymnasium.de/html/lernen/brave_new_world/The_Role_of_Sex_in_Brave_New_World.html)

**ATTENTION: Is any of this sounding familiar? It really is what we are seeing in the West right now. This is from a commentary written seven years ago:**

*This "Brave New World" is conceived by Aldous Huxley as a totalitarian technocracy, which is characterized by rigid and clearly demarcated social stratification, with cradle to the grave brainwashing through "hypnopædic sleep teaching", the negation of the motivation to rebellion through the absence of war and conflict, and the destruction of the family unit with mother and father figures absent and life-long relationships non-existent. Personal freedoms are therefore sacrificed for safety and the pleasure principle, reinforced by the use of drugs ("Soma"), "feelies" and by unconstrained sexual gratification without emotional context. Science is thus used by a ruthless and faceless government as the ultimate weapon to subvert the individual's desire for self-determination...* <https://1984redux.wordpress.com/2015/02/27/1984-or-a-brave-new-world/>

Sadly, that is considered an exciting future by many in the world today! They have no idea what a nightmare it will prove to be once fully implemented. We caught a glimpse of that during the Pandemic and in the “Autonomous Zones” following the rioting.

**CAUTION: IT'S ALL ABOUT A SOCIETY CONTROLLED BY SCIENCE AND SCIENTISTS FOR YOUR SAFETY AND THE WILLING EXCHANGE OF TRUE PERSONAL/ECONOMIC LIBERTY AS LONG AS YOU GET OPEN SEX AND LEGAL DRUGS TO FEEL GOOD.**

- » There's a prescription (pill or shot) for everything and you are required to take it.
- » This creates a dictatorship and global concentration camp that people willingly adopt.
- » Science is the religion.
- » There is no individual ownership because everyone belongs to everyone else.

“*Brave New World* sure sounds like what we are seeing in the West today with the Great Reset, global governance, the LGBTQ movement indoctrinating children, the push to legalize drugs, a pharmacological solution for every ailment, sex without babies, and the push to ‘follow the scientists’ that forms a sort of mass psychosis. This represents the Joe Biden, George Soros, Anthony Fauci, Klaus Schwab approach. They appear to literally be following the *Brave New World* roadmap. If people get out of line, you don't kill them. Just cut them off from society.” –Kevin Freeman

## KEY POINTS

**When you step back, it's obvious that this is the clash happening right now over Ukraine.**

- » Putin claims he invaded to protect Christianity and by that he means he wants a rigid and, on his terms, moral society from his Big Brother viewpoint. **He will enforce order with brutality as needed.** That's Orwell's *1984* and *Animal Farm*.
- » On the other side, we have the Western powers openly admitting that they want to defend Ukraine in order to establish and preserve LGBTQ rights and enforce the scientific dictatorship needed to stop climate change. They don't want to fight a real war.
- » They prefer economic sanctions to cut the bad actors out of polite society. [No Russian cats allowed at cat shows and all that.]

## 7. The clash of dystopian worldviews.

It's Aldous Huxley and *Brave New World* as represented by George Soros, Joe Biden, and the World Economic Forum vs. George Orwell's *1984* and *Animal Farm* represented by Vladimir Putin and Xi Jinping. Now, does it make sense why neither side really seems all that good?

Here are a few headlines to consider:

- » From Vanity Fair: **"The Fight for Ukraine Is Also a Fight for LGBTQ Rights."** <https://www.vanityfair.com/news/2022/03/the-fight-for-ukraine-is-also-a-fight-for-lgbtq-rights>
- » From LA Times: **"Will Russia bring its war on LGBTQ people to Ukraine?"** <https://www.latimes.com/world-nation/story/2022-03-03/lgbt-ukrainians-are-terrified-of-a-life-under-russia-where-homophobia>
- » And even from Britain's MI6: **"Head Of UK Intelligence Service Says Ukraine War Is About LGBT Rights"** <https://en-volve.com/2022/03/05/watch-head-of-uk-intelligence-service-says-ukraine-war-is-about-lgbt-rights-then-sleepy-joe-says-putin-invaded-russia/>
- » And another, **"CBS: 'Forget the Bloodbath - What About Trans Rights In Ukraine?'"** <https://www.blabber.buzz/blast/pop/1035579-cbs-forget-the-bloodbath-what-about-trans-rights-in-ukraine>

**QUESTION: Does it seem strange to make this issue so very front and center?**

Absolutely, it is horrible that Putin attacks LGBTQ people or any people. And it is important for the West to defend humans and human rights. **But the focus on LGBTQ exposes one of the sharpest differences between worldviews. The West is following Huxley while Russia and China follow Orwell.**

- » **In addition, it is both interesting and validating to see George Soros call out both Russia and China of late. He knows they are Orwellian and a threat to his desire for an Open Society.** [https://theepochtimes.com/george-soros-outlines-dangers-posed-by-ccp-authoritarian-rule-in-2022\\_4248364.html](https://theepochtimes.com/george-soros-outlines-dangers-posed-by-ccp-authoritarian-rule-in-2022_4248364.html)
- » You can catch the same worldview clash in comments made by former Senator, Presidential candidate, Secretary of State, and now Climate Czar John Kerry.

Instead of being worried about the loss of life in Ukraine, in an interview, Kerry seemed much more concerned that the world would lose focus on climate change. <https://www.washingtonexaminer.com/news/watch-john-kerry-complains-ukraine-is-diverting-attention-from-climate-change>.

**Russia doesn't care about Climate Change. They pump and sell fossil fuels.**

» It is doubtful George Soros, John Kerry, or the (Brave) New World Order care that much about the climate either. They just like the scientific dictatorship it provides them.

→ If John Kerry really cared about the environment, he wouldn't travel everywhere on his private jet. It really is all about control.

» And they are using ESG investing to enforce their form of dictatorship.

→ If you aren't familiar with ESG, go back and watch Episode #176 with Glenn Beck and read the Economic Battle Plan™. We went into even greater detail in Episodes #165, 166, and 167 also.

» ESG is one big part of the very real clash of dystopian visions. And tragically, Ukraine is caught in the middle.

**The West seeks to install their vision via sanctions and has plotted a "color revolution" inside Russia to overthrow Putin and in China to remove Xi.**

» They are hoping to tempt Russia and China to join their (Brave) New World Order.

» They are also plotting a total reset of our economy including the Digital Dollar as we explained in Episode #146.

**By contrast, Putin and Xi Jinping are collaborating to defeat the west.**

» They have developed parallel systems to evade the economic sanctions and will use military force and any means necessary to achieve their objectives.

» We must be prepared for China to invade Taiwan as Act Two in this war (if they see an opportunity).

» This is essentially Unrestricted Warfare and could include cyber-attacks, espionage, destroying our electric grid, or cratering our financial system.

- Our Intelligence Community knows all of this and is right now warning of such attacks.
- After all, if Russia will shell the world's largest nuclear power plant, what else might they do? <https://apnews.com/article/russia-ukraine-war-nuclear-plant-attack-33b6c1709dee937750f95c6786832840>

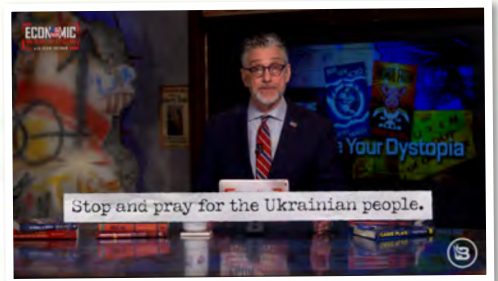

## **Action Plan:** How to protect your money, your family, and our culture.

### **AT ISSUE:**

- Recognize are clearly dangerous times. Putin claims to be defending Christianity while killing innocent people and plotting to rule the planet with an iron fist.
- The West claims to be defending freedom with a sinister plot to entice the world into a technocratic collectivist nightmare.

### **Your Action Plan - Kevin Freeman shares what we should be doing now!**

"First. I suggest we all stop and pray for the Ukrainian people. They were literally caught in a war between two powerful opposing forces. I fully agree that we should stand against Putin's aggression and even use the economic weapons at our disposal. But our motive should be to preserve individual liberty, not to enforce a Brave New World Order. I don't know how it will all turn out. But I do know there are serious threats from both sides."

### **How to protect your money, your family, and our culture.**

- Expect cyber-attacks from the Russian camp and maybe even supported by the Chinese.** Look for an attack on our financial structure because that is the weapon that we are using against them. Putin has long desired to overthrow our Western dollar-based system.

I wrote about this extensively in my 2014 book titled, **“Game Plan, How to Protect Yourself from the Coming Cyber-Economic Attack.”**

In it, I recommended a few simple things like keeping paper copies of your bank and brokerage statements. These can serve as proof of your holdings if things get shut down for a while. After 9/11, Wall Street shut down. I showed paper copies of my statements to access cash that I needed to make payroll. I’m glad I didn’t solely rely on electronic records.

You can get the book by clicking here: <https://www.amazon.com/Game-Plan-Protect-Yourself-Cyber-Economic/dp/1621572005/>

b. **You also should consider how your investments are allocated.** The book has chapters on an inflationary environment and how to respond.

- Kevin does not give specific advice because there’s no way to know each viewer’s individual situation. But there are some general concepts that tend to work in various scenarios. For example, portfolios with energy, materials, precious metals, and defense stocks tend to outperform during periods of global tension and higher inflation. That has certainly proven to be the case this year.

c. While there will no doubt be changes, **we do not expect the war over Ukraine to be resolved simply.** In fact, if this is the gigantic clash of dystopian worldviews that we believe it to be, Ukraine is just the first battle in a potentially very long war.

- That is why we strongly suggest you find a like-minded financial advisor who is well versed in all these issues and ready to help you address them.
- Unfortunately, there aren’t that many advisors who understand what is really going on. That’s why we are launching our Economic War Room Advisor Training at Liberty University. If you have a financial advisor that you like, please nominate him or her for training at [economicwarroom.com/advisor](http://economicwarroom.com/advisor). If you don’t have an advisor, find one and send him or her to us for training.

- d. In terms of **protecting your family**, the Appendix in Game Plan has some important thoughts about making certain your priorities are right. This isn't window dressing. **Having the right mindset is necessary if you want to make it through the challenges ahead.**
- The book also has some suggestions of things to stockpile in case of a short-term emergency (found on page 217). We went into much greater depth of what you might want to keep on hand in Episode #106 of the Economic War Room. [Download the Economic Battle Plan™](#) and look for the list on page 66 of the PDF.
  - You'll want water, some cash on hand, extra food, medicine, toilet paper, pet food, access to power, and so forth. You may even want to have some iodine pills on hand. I hope you never need them. But a power outage or an attack could turn these items into lifesavers.
- e. In terms of **protecting our culture, you must be a part of the "small ships"** that stand up, speak out, and work together to promote Constitutional Liberty from a Judeo-Christian, family-oriented worldview.
- It's OK to reject both the Huxley and Orwellian dystopias.
  - They are both evil. One is sort of the enemy within, and the other is the enemy on the outside. As the oath says, "we must protect the Constitution against all enemies, foreign and domestic."
  - While Wall Street is promoting the Brave New World Order through ESG Investing, we recommend LSV, which stands for Liberty, Security, and Values. You can help promote all three virtues (Liberty, Security, and Values). That's why you need a good financial advisor. Navigating the complexities of ESG vs. LSV is essential, but it's not easy.
  - This is all a part of "weaponizing your money," which includes your giving, spending, and investing.
  - We will also need to listen for the codewords of politicians as we approach the midterm elections. Remember that "follow the science" sounds good but may be used as a cover for instituting an elitist technocracy. We've seen the science supposedly change when the political winds shifted. And, just as we predicted in our first episode of the New Year (Episode #171), science now tells us to stop worrying. The new threat is Russia and Climate Change. Amazing how that happened.
  - Learn where candidates stand on the issue of individual liberty vs. the

collective. Do they use Orwellian or *Brave New World* terminology to threaten or seduce you? Look for candidates who support the Constitution as written rather than selectively interpreted.

- Limited government, individual liberty, economic freedom, support for families, belief in national sovereignty. These are all strong signals. And we want to avoid unnecessary foreign wars whenever possible. We certainly don't want to be caught in the clash of dystopias. Instead, we ought to make our case to Russia and China and Europe and even at home.

"We are in an Economic War. There's a battle between two dystopian visions, neither is good for you or your family. We must prepare and we can fight back with economic weapons of our own as we explain each week on this show and recap in our Economic Battle Plans." –Kevin Freeman

Remember, we built the Economic War Room® for you. Understanding the geopolitical landscape and threats against your money, your livelihood, and your way of life will allow you to be better prepared for multiple scenarios. Be sure to sign up for our weekly updates at <https://www.economicwarroom.com/>.

- f. If you have a financial advisor, make sure they have your values and interest at heart. Make sure they really understand what ESG investments mean for our future. Suggest that they become part of the NSIC institute and nominate them to participate in our online certification. [EconomicWarRoom.com/advisor](https://www.EconomicWarRoom.com/advisor)

**ATTENTION: Remember if you have not contacted your financial advisor, it is time to make it happen now.**

**1. Weaponize your money toward principles that support Liberty, Security, and Values (LSV).** You control your giving, spending, and investing. Nominate your financial advisor to attend our Founders' class coming soon.

- **Investing.** We suggest you get a like-minded financial advisor. We've done surveys and a clear majority of investors want an advisor who matches with their political and cultural beliefs. Unfortunately, Wall Street is pushing for you to just take what they offer in order to force a leftist agenda on you.
  - o "If your advisor isn't willing to match your investments with your values, send them to us for training and education. If they won't do that, I can promise you that there are lots of other advisors looking for new clients." –Kevin Freeman

2. It is time to fight the economic war we are facing. Nominate your financial advisor at [EconomicWarRoom.com/advisor](http://EconomicWarRoom.com/advisor) and let them know you think this would be a great opportunity for them. Classes are launching in Spring 2022, and our list is growing fast.

3. Also, if you have not already done so, please consider the following:

Be sure to sign up for our free weekly [Economic Battle Plans™](#)

- o If you are following Economic War Room you will be on the leading edge as it relates to global threats, geopolitical analysis, and how you can weaponize your money to strengthen America. Your money, livelihood, and way of life are at risk and these tools are designed to mobilize America to protect their economic liberty.

In the **Economic War Room®**, we encourage Americans to be the “small ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The small ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.
