

## The Rick Scott Plan to Rescue America

Senator Rick Scott offers a plan to **Rescue America**, and you'd think it was good news. It is expected that the opposition might attack the plan, but you wouldn't expect that the majority leader in your own party would tell you to sit down and shut up. That's especially true if the plan involved all the things your party is supposed to stand for.

For this briefing Kevin Freeman runs through the 11 steps in the plan, what the solutions are, and how it will impact you.

**Your Mission:** To better understand the 11-point plan proposed by Senator Scott to Rescue America.

- » If you support it, stand with him as he takes on the Republican leadership in his own party.
- » As you review this, look, and ask, "Why don't elites want me to know about this?"

"Both sides are playing the political game, and their vitriolic response to the Rescue America plan got me intrigued. The more I dove into it, the more I liked it. And I think the elites don't want you to know about it because they fear that you'll like it, too." –Kevin Freeman

Senator Rick Scott is speaking truth and committing to solutions we respect in the Economic War Room®.

Ep. 5-183 (OSINT) Open-Sourced Intelligence Report. This briefing includes Economic War Room conversations with Kevin Freeman. This briefing is part of the Economic War Room teaching series exclusive with Kevin Freeman. Kevin Freeman is considered one of the world's leading experts on the issues of Economic Warfare and Financial Terrorism. He has consulted for and briefed members of both the U.S. House and Senate, present and past CIA, DIA, FBI, SEC, Homeland Security, the Justice Department, as well as local and state law enforcement. His research has been presented in critical DoD studies on Economic Warfare, Iran, and Weapons of Mass Destruction presented to the Secretary of Defense and the Under Secretary of Defense, Intelligence. He has traveled extensively with research trips to Russia and China and throughout Europe and the Americas. He is also a Senior Fellow at the Center for Security Policy and a Contributing Editor to *Tactics and Preparedness* magazine.

Kevin Freeman is author of two best-selling books. His book, ***Secret Weapon, How US Terrorism Brought Down the US Stock Market and Why It Can Happen Again***, was a New York Times Best Seller. In *Secret Weapon*, Kevin outlines what our enemies know and what Washington has chosen to ignore – that our financial system is profoundly vulnerable to financial terrorism. We are being targeted for further and even more destructive attacks by foreign enemies, who want to cripple America as the world's leading economy. But we are also being attacked internally by those who want to remake America in a "Brave New World" image. If you want to protect yourself and protect our country, then you need to read *Secret Weapon* to understand how we have entered a new age of warfare – an age our enemies want to make the Dark Ages of the United States.

In his book, ***Game Plan - How to Protect Yourself from the Coming Cyber-Economic Attack***, Kevin Freeman outlines the potential threats against our economy and how Americans can be prepared to protect their savings and investments. With America's rising debt, multiple cyber economic attacks and weakening of the dollar, the potential economic threats are documented and real. What Americans see as a marketplace; our enemies view as the battle space. Contrary to many financial newsletter and advertising claims, there is not a silver bullet to these threats and investors need to be prepared to strategically adjust. This is the first "how to" investment book of its type and provides the game plan to succeed.

## Why DC politicians and Mitch McConnell do not want to address the real issues.

American people are exhausted with career politicians who tell you what to be against, but never really share what they are for. It's a pleasant surprise when a politician does the opposite.

In 1994, for example, people were fed up with Bill Clinton's liberalism, and Newt Gingrich offered a contract with America that won both the House and Senate. Newt became a hero for Republicans and was made Speaker of the House so he could enact the plan.

Now, almost 30 years later, Senator Rick Scott has offered a plan to rescue America. Scott sees what you see. **Our nation's liberty is degrading rapidly, and our economy is on a collision course with disaster.**

**The D.C. elites don't want to talk about those things.**

- A. On the far left, they love the direction we're headed. They just want to move faster.
- B. The Republican leadership, like Mitch McConnell, doesn't want to talk about ways to fix things. They want to keep complaining about what's wrong, they are offering no solutions and hoping they will be returned to power.

**The following is an overview of the 11-point plan.** In this briefing we'll try to evaluate both sides of the argument and share opinions on each.

"You may not agree with all 11 points, but I'll bet you agree with most of them, and I'm certain you'll agree it's better to discuss them than just to silence Senator Scott." -Kevin Freeman

**You can follow along with Senator Scott's rescue plan at the website [www.rescueamerica.com](http://www.rescueamerica.com).**

---

**Let's get started on the Rescue America Plan**

**Point #1. Inspire Patriotism**

Senator Scott says,

"Our kids will say the Pledge of Allegiance, salute the flag, learn that America is a great country, and choose the school that best fits them. We will inspire patriotism and stop teaching revisionist history of the radical left. Our kids will learn about the wisdom of the Constitution, the Bill of Rights, and the Founding Fathers. Public Schools will focus on the Three R's, not indoctrinate children with critical race theory or any other political ideology."

"Good idea or a bad idea, let's be honest. Teaching kids to hate America is bad all the way around. It empowers our enemies, and it hurts the kids who won't even try to benefit from the American dream because they're so against it." -Kevin Freeman

**As it relates to America's history:**

- › Naturally, we should teach honest history.
- › We don't want to cover up America's failings, but don't gloss over the power of liberty.
- › Our schools have been indoctrinating students, and that's why polls show the students often prefer socialism and even communism.
- › These students have no idea how destructive those ideologies are.

Drilling down further on Senator Scott's view. Here are just a few of the bullet points: He says,

- › We will enact equal opportunity in education, school choice, so no child will be sent to a failing school simply because of their zip code.
- › We will open our schools to parents. Parents must have the right to know what their children are being taught, who is teaching them, and which organizations are receiving school contracts. The FBI, DOJ and all government entities will be expressly forbidden from intimidating parents who dare speak their minds at school board meetings.
- › Public schools will teach our children to love America because, while not perfect, it is exceptional. It is good and it's a beacon of freedom in an often-dark world.
- › No child will be inherently taught that they are racist because of the color of their skin, or that some Americans are oppressors or others are oppressed.
- › It will be America's goal to teach -- to be number one in the world, teaching math and science by 2030.

Some of his points may be controversial, but most of the plan aligns with the views of most Americans, especially American parents.

---

Here's the problem:

"Those who pay for the schools are, **We the People**. Those who run the schools are the bureaucrats and teachers' unions. They have the power and are intent on forcing their views on the next generation."—Kevin Freeman

**Point #2 – A colorblind society that brings real equality.**

The plan says government will never again ask American citizens to disclose their race, ethnicity, or skin color on any government form.

“We’re going to eliminate racial politics in America. Isn’t that refreshing? Isn’t that what Dr. King espoused in the 1960’s? That we want to talk about the content of character, not the color of skin. This runs contrary to the new Marxist orthodoxy of critical race theory.”—Kevin Freeman

**How would the plan be implemented?**

- › There are a few bullet points, like removing the box that you have to check and say what your background is, your ethnicity, or your skin color.
- › It removes government policies based on race or ethnicity.
- › It says the military will engage in zero diversity training, its teachings on critical race theory, and woke ideology.

“This is the bottom line: Senator Scott wants to eliminate all that nonsense. Government will base hiring decisions on qualifications, not quotas. America will strive to be equal opportunity for everyone. Not guaranteeing equal outcomes. This, of course, is the best way to eliminate racial preference. It was Dr. King’s dream. The opposite is our nightmare. I vote yes on point 2.”—Kevin Freeman

**Point #3 is about safety and crime.**

Senator Scott says:

“The soft on crime days of coddling criminal behavior will end. We will re-fund and respect the police because they are the good guys, not the criminals. We’ll enforce our laws, all of them and increase penalties for theft and violent crime.”

---

We’ve heard so much about defund the police, and it never made sense. Yes, we should stop overzealous and illegal police enforcement, but the answer is not to simply tolerate crime.

---

**Here are the critical bullet points:**

- » Bring back respect for people who put their lives on the line to keep us safe.
- » Eliminate no knock warrants in any case that does not involve violent crime.
- » Increase penalties for spousal abuse and failure to pay child support.
- » Enact Marcy's Law, which ensures victims of crimes have rights and constitutional protections equal to those who commit crimes.
- » We will oppose every attempt to deny the Second Amendment.

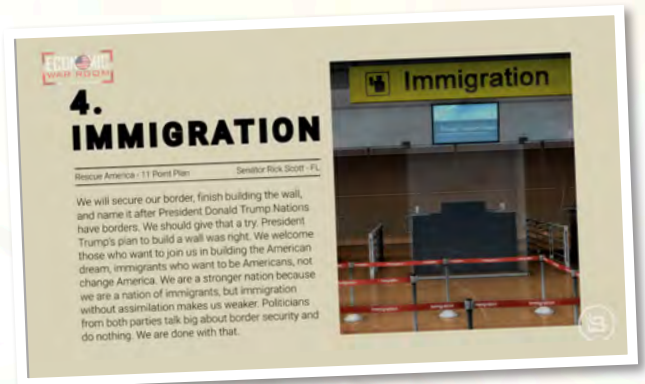

“Now, do you agree or disagree? I like the balance between defending police, protecting victims, and preserving individual liberties. No one wants to live in a police state, but no one wants to live where criminals roam free, either.”—Kevin Freeman

**4. A plan to really fix immigration.**

Here's what it says:

“Nations have borders. We should give that a try. President Trump's plan to build a wall was right. We welcome those who want to join us in building the American dream. Immigrants who want to be Americans, not change America. We're a stronger nation because we're a nation of immigrants. But immigration without assimilation makes us weaker. Politicians from both parties talk big about border security and do nothing. We're done with that.” -Senator Scott

**Do you agree? Do you disagree? A lot of people say they want open borders, but they haven't even considered or don't care about the consequences.**

“Most Americans are compassionate but know that if America is overrun, there won't be any liberty left to protect, let alone to share. Funny how politicians are more worried about the Ukrainian border with Russia than our own borders.”—Kevin Freeman

Here are some additional comments that were made by Senator Scott:

He said, "No one will enter without our permission. We lock our doors at night, not because we hate the people on the outside, but because we love the people on the inside and want to keep them safe. Many potential immigrants love America. Those who do not, will not be allowed to come here. This is our country, and no one has a right to come to America. Immigrants will not be eligible to collect unemployment benefits or welfare for the first seven years after arriving in the US. We will strip all federal funding from sanctuary cities and prosecute any elected officials who flout our immigration laws. We oppose cultural segregation. We believe in the melting pot where people from many backgrounds go all in on becoming Americans, one nation under God, indivisible, with liberty and justice for all."

 **IMPORTANT – "As long as we apply the principle of being colorblind from point #3, this policy should not be viewed as racist, but some will claim that it is. I, for one, think it makes good sense. We should welcome immigrants from all backgrounds as long as they want to contribute to and participate in the American Dream. Otherwise, if you don't want to be part of America, find a land that suits you. Where I come from, we say, 'Don't California my Texas.' After all, when people leave where they live in search of a better life, it makes no sense to remake your new home just like the one you must leave." –Kevin Freeman**

This seems balanced and workable.

## 5. This point focuses on Economy and Growth.

The plan says,

"Socialism is un-American and always leads to poverty and oppression. We will stop it. We will shrink the Federal government, reduce the government workforce by 25 percent in five years, sell government buildings and assets, and get rid of the old slow, closed, top-down government-run everything system we have today."

**5. ECONOMY & GROWTH**

Rescue America - 11 Point Plan Senator Rick Scott - FL

Socialism is un-American and always leads to poverty and oppression. We will stop it. We will shrink the Federal government, reduce the government workforce by 25 percent in five years, sell government buildings and assets, and get rid of the old slow, closed, top-down government-run everything system we have today.

"Let me start by saying that I 100% agree. Free economies perform better. Truly free economies correct the maldistribution of wealth problem. It's crony capitalism with big governments that cause the problems. Socialism and communism only lead to misery."  
-Kevin Freeman

The historical record is quite clear on this. Senator Scott says, socialism will be treated as a foreign combatant, which aims to destroy our prosperity and freedom. Yes! We will apply the Do It Better Test.

- » If American business can serve the American people better and cheaper than government, the work goes to them.
- » No government assistance unless you are disabled or aggressively seeking work.
- » If you can work, but refuse to work, you cannot live off the hard work and sweat of your fellow Americans.
- » We'll balance the federal budget. It can be done. States do it all the time.
- » Expedite all Federal permit applications to be granted or denied within 30 days.
- » **All Americans should pay some income tax to have skin in the game, even if a small amount.**

**ATTENTION:** Currently over half of Americans pay no income tax. Basically, this is a plan for fiscal responsibility. We can't run outrageous deficits forever, regardless of what modern monetary theory says.

---

### **Taxes – Everyone must pay something? Kevin Freeman's Perspective:**

In those points above, however, is one that has half of Washington, DC upset. They're screaming, "Senator Scott wants to raise taxes!"

Does the plan call for tax hikes?

Well, yes, in a sense. You see, a large percentage of Americans pay no income tax.

- » They vote to soak the rich even though they themselves have no skin in the game.
- » This plan would seek to end welfare for anyone who would work instead, and it would require that all Americans pay at least something toward our government.
- » With as much debt as we have, it only makes sense.

"I know I've always valued the things I have a little bit more if I share in the cost. If my parents paid for something and I was asked to contribute even a small percentage of that, I'd make sure we got the best deal, and I took better care of it and I valued it. That's good stewardship." -Kevin Freeman

 Economic War Room® believes that so-called liability is actually a benefit. **Most Americans would rather see a stable and growing economy than get freebies that will run out when the economy collapses.** Most are willing to pitch in and help. Let's think the best of our fellow Americans and let them do their part, instead of making them feel like they're all freeloaders.

**Point #6 is about government reform and debt.**

It states,

"Many government agencies should be either moved out of Washington or shuttered entirely. Yesterday's old government is fundamentally incompatible with the digital era. The permanent ruling class in Washington is bankrupting us with inflation and debt, so they must be removed. For you to have more, Washington must have less."

Freeman agrees completely.

COVID taught us that you can work remotely. Do we really need every agency and bureaucracy in Washington, D.C. constantly begging the Congress for more?

And what about the lobbyists? We make it so cushy and easy for them. Maybe we should make them travel across all of America to pitch their agenda. Otherwise, D.C. becomes like District 1 in Hunger Games. All the power concentrated, sucking the life out of all the rest of us. If the bureaucracy that rules had to live among us peons, maybe they'd better understand the challenges we face. Let's move them out of the Beltway.

This plan has a whole bunch of bullet points, Kevin Freeman highlights several:

- › Forbid politicians from becoming lobbyists and cashing in.
- › If government fails to comply with the law, citizens have the right to sue them, to force them to comply.

- » No government employee can make more than five times the national median income of individuals.
- » We will bar the federal government from using your tax dollars for their advertising campaigns. That's returning power to the people.

This will only be possible, though, if we enact point #7, to ensure fair, fraud-free elections which is the next point.

**Point 7. Ensure Free and Fair Elections - Reading from Senator Scott, "today's Democratic Party is trying to rig the elections and pack the courts because they have given up on democracy."**

We've covered this a lot in the Economic War Room.

- » We've got to have free elections. Lots of people participating, but fraud free.
- » Don't allow the radical left to destroy our democracy by institutionalizing dishonesty and fraud. We need clean elections.

**Point 8 - Let's review another controversial point, the family.**

Here's what it says:

"The nuclear family is crucial to civilization. It is God's design for humanity, and it must be protected and celebrated. To say otherwise is to deny science. The fanatical left seeks to devalue and redefine the traditional family as they undermine parents and attempt to replace them with government programs. We will not allow socialism to place the needs of the state ahead of the family."

Most people agree, we should strengthen, not weaken families. This also means preserving and defending life and parental rights. We must protect our children. This plan is pro-family, and they sum it up by saying families are crucial in raising young men and women of character and responsible members of society.

**IMPORTANT:** The best form of governing our society is not government; it's family. I must say, science and history are in strong agreement. –Kevin Freeman

### 9. Men and Women are biologically different. (Controversial or not?)

Here's what it says:

"Men and women are biologically different. Male and female, God created them."

Now before YouTube gives me a strike for that one, consider I'm merely quoting the Rick Scott plan, which is simply quoting the Bible. Look at the context. Isn't it sad I have to say that? Let me read the rest of the point:

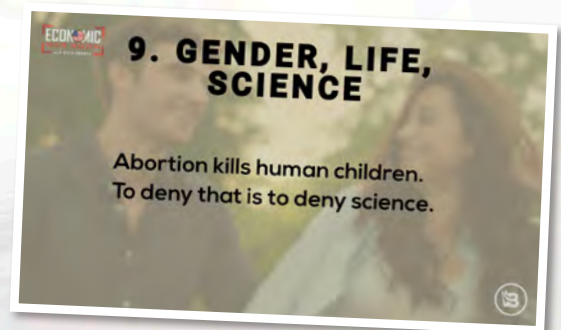

"Modern technology has confirmed that abortion takes a human life. Facts are facts. The Earth is round. The sun is hot. There are two genders, and abortion stops a beating heart. To say otherwise is to deny science." –Kevin Freeman

It's okay to have a discussion that involves one's deeply held beliefs and historically proven medical science, isn't it? Or is the debate over before we even are allowed to discuss it. Again, quoting from a political plan authored by a sitting US senator, and here are his points:

"Abortion kills human children. To deny that is to deny science. Whether you believe in God or not, as a civilized people who accept science, we must protect babies, born and unborn, from all acts of violence. All government policies will favor having more babies adopted, not aborted. Humans are born male and female. There are two genders and to deny that is to deny science."

Again, I'm quoting the plan. "No government forms will include questions about gender identity or sexual preference. No doctor will be allowed to perform irreversible surgical or gender altering procedures on any minor child. Once they become adults, they can do what they want. We will protect women's sports by banning biological males from competing. It is hugely unfair and would erase many of the gains women have made in athletics over the last 50 years."

“Shall we call that hate speech or is it science? You can decide for yourself. But as for me and my house, well, I believe the Bible, human tradition, and science. Senator Scott is willing to put in front and center a part of his plan. No wonder the deep state establishment opposes him so much.”—Kevin Freeman

## 10. Religious Liberty and Big Tech.

Senator Scott's point #10 gets right to the heart of another issue as it relates to Religious Liberty and Big Tech.

### Here's what he says:

“The Democrat Party and their Big Tech allies are not merely secular. They have virtually created a new religion of ‘woke-ness’ that is increasingly hostile toward people of faith, particularly Christians and Jews. They're determined to drive all mentions of God out of public view. We will not be silenced, canceled, or told which words we can use by the politically correct crowd.”

**This is bold and it also seems quite valid! Listed below is a drill down of Scott's points:**

- » Americans will not be required to go against their core values and beliefs to conform to the culture or government.
- » We will reject both the roots and adherents of cancel culture in America Every American will be free to live out their religious convictions in the public square, not only in the home and not just in places of worship.
- » We will forbid government programs from discriminating against the 350,000 religious entities which operate schools, pregnancy resource centers, soup kitchens, drug addiction programs, homeless shelters, and adoption agencies.
- » All social media platforms that censor speech and cancel people will be treated like publishers and subject to legal action.
- » We will require Big Tech platforms like Facebook and Twitter to receive express consent, not as a condition of use, before using Americans' personal information in any manner and make it simple for users to opt out.
- » Big Tech platforms will also be required to obtain user consent to sell, share or convey user data to a third-party entity.

- » No tax dollars will be used to pay for any diversity training or other woke indoctrination that is hostile to faith.
- » Churches and faith-based groups will not be forced to hire employees who disagree with their tenets and convictions.
- » **We will stop investing federal retirement dollars with woke fund managers and companies that put left wing politics ahead of profits.**

**Wow! Stop right there. Look at that last point.**

**We will stop investing federal retirement dollars with woke fund managers and companies that put left wing politics ahead of profits.**

Basically, Senator Scott's plan would put an end to Federal funding of the ESG movement. That is huge. As we explained, Woke Investing, a.k.a. ESG, is cramming progressive ideologies down the American throat with the power and support of government.

The government's paying and protecting Big Tech and media to enforce their views in a sick sort of pact that denies Americans basic freedoms found in the First Amendment. The plan would make a priority to stop that. What's more, the power would be returned to the people. No more overt political oppression.

We can't allow a public/private partnership to execute a wholesale hostile takeover of our nation. Whatever government is in charge next must reverse the dangerous course we are on and return power to the people as our constitution provides.

## **11. America First – We will not be dependent on any other country.**

**What It says,**

"America will be dependent on no other country. We will conduct no trade that takes away jobs or displaces American workers. Countries who oppose us at the UN will get zero financial help from us. We will be energy independent and build supply chains that never rely on our adversaries. We will only help countries that are willing to defend themselves like Israel."

**Here are more sub-points and it is worth including every one of these as it relates to Economic Warfare:**

“We will unapologetically lead the world by example. A world without American leadership would be a very dark world indeed.

- » We will adhere to the new Monroe Doctrine. America will not allow any global enemy, such as China, Russia, or radical Islam to grow their presence in our hemisphere.
- » No foreign aid to countries that habitually oppose us at the UN.
- » We will not pay dues to the United Nations or any international organization that undermines the national interests of the USA.
- » We will make our international allies pay for their fair share of their own defense.
- » We will not send our kids to do what their kids will not do.
- » Our military will not be used as a peacekeeping force. It exists to protect us by intimidating or killing our enemies.
- » Nation building does not work. We will not waste our treasure or troops doing it.
- » We will always defend our allies, starting with Israel.
- » We'll treat our enemies like enemies.
- » No adversarial foreign government or corporation controlled by an adversarial foreign government can purchase American land.
- » And the weather is always changing, we'll take climate change seriously, but not hysterically. We will not adopt nutty policies that harm our economy or our jobs.
- » We'll gradually end all imports from communist China until a new regime honors basic human rights and freedoms.
- » We will build supply chains that rely on American workers and allies.
- » We will not be at the mercy of our enemies for medications or essential commodities.
- » We will terminate any trade deal that takes away American jobs.
- » America will be energy independent.”

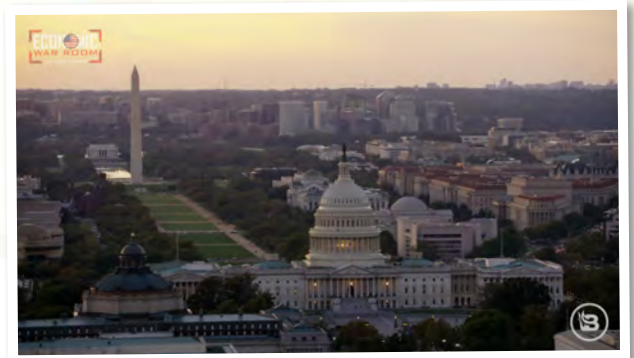

Every single bullet point from #11 is included above because they strike at the heart of economic warfare. The plan is solid. It strengthens America, it steers us away from disaster.

## Lessons in History - The Monroe Doctrine

The **Monroe Doctrine** was a [United States foreign policy](#) position that opposed [European colonialism](#) in the [Western Hemisphere](#). It held that any intervention in the political affairs of the [Americas](#) by foreign powers was a potentially hostile act against the U.S.<sup>[1]</sup> The doctrine was central to U.S. foreign policy for much of the 19th and early 20th centuries.<sup>[2]</sup>

President [James Monroe](#) first articulated the doctrine on December 2, 1823, during his seventh annual [State of the Union Address](#) to [Congress](#) (though it would not be named after him until 1850).<sup>[3]</sup> At the time, nearly all Spanish colonies in the Americas had either achieved or were close to [independence](#). Monroe asserted that the [New World](#) and the [Old World](#) were to remain distinctly separate [spheres of influence](#),<sup>[4]</sup> and thus further efforts by European powers to control or influence sovereign states in the region would be viewed as a threat to U.S. security.<sup>[2][5]</sup> In turn, the U.S. would recognize and not interfere with existing European colonies nor meddle in the internal affairs of European countries.

By the end of the 19th century, Monroe's declaration was seen as a defining moment in the [foreign policy of the United States](#) and one of its longest-standing tenets. The intent and effect of the doctrine persisted for over a century, with only small variations, and would be invoked by many U.S. statesmen and several U.S. presidents, including [Ulysses S. Grant](#), [Theodore Roosevelt](#), [John F. Kennedy](#), and [Ronald Reagan](#).

After 1898, the Monroe Doctrine was reinterpreted by Latin American lawyers and intellectuals as promoting [multilateralism](#) and [non-intervention](#). In 1933, under President [Franklin D. Roosevelt](#), the U.S. affirmed this new interpretation, namely through co-founding the [Organization of American States](#).<sup>[6]</sup> Into the 21st century, the doctrine continues to be variably denounced, reinstated, or reinterpreted.

## Why You Should Care:

- » The plan is already being trashed by the establishment.
- » Democrats do not like it, nor does the Republican leadership.
- » Read for yourself, but these 11 points seem like a commonsense approach to getting America refocused on its constitutional values.
- » This plan specifically addresses the threat to our money, our livelihood, and our way of life.
- » It covers religious liberty, big tech, election integrity, Chinese IP theft, ESG, Woke Investing, bad education, and critical race theory. It also gets our critical medical supply chain back in America
- » It addresses many of the core issues we follow in the Economic War Room and many of those in Washington DC, Big Tech and media do not want you reading it.
- » We're in a global economic war. We have real enemies, both foreign and domestic. They want to fundamentally change America. Let's not let them do it.

## Action Plan:

1. Learn more at <https://rescueamerica.com/>.
2. Contact your Senator and let them know you support the Rescue America Plan and ask them to support it.
3. The plan is simple and easy to understand, share this with others in your network, endorse the plan.
4. There is a revolution formed against America. Help your friends understand what is really happening and be passionate in your stand for Liberty and protecting America.
5. Join us weekly in the Economic War Room. We are building new solutions with thought leaders that come through our doors every week.
6. Understanding the geopolitical landscape and threats against your money, your livelihood, and your way of life will allow you to be better prepared as the Great Reset is waged against America. Be sure to sign up for our weekly updates at <https://www.economicwarroom.com>.
7. **If you have a financial advisor, make sure they have your values and interest at heart. Make sure they really understand what ESG investments mean for our future. Suggest that they become part of the NSIC institute and nominate them to participate in our online certification (see below).**

**ATTENTION:** Remember if you have not contacted your financial advisor, it is time to make it happen now.

8. Weaponize your money toward principles that support Liberty, Security, and Values (LSV). You control your giving, spending, and investing. Nominate your financial advisor to attend our Founders' class starting very soon.
  - **Investing.** We suggest you get a like-minded financial advisor. We've done surveys and a clear majority of investors want an advisor who matches with their political and cultural beliefs. Unfortunately, Wall Street is pushing for you to just take what they offer in order to force a leftist agenda on you.
    - o "If your advisor isn't willing to match your investments with your values, send them to us for training and education. If they won't do that, I can promise you that there are lots of other advisors looking for new clients."  
-Kevin Freeman
9. **It is time to fight the economic war we are facing. Nominate your financial advisor at [EconomicWarRoom.com/advisor](https://EconomicWarRoom.com/advisor)** and let them know you think this would be a great opportunity for them. Classes are launching and our list is growing fast.

ECONOMIC BATTLE PLAN™

THE RICK SCOTT PLAN 5.183

CLEARED FOR RELEASE 03/31/2022 (ECONOMIC BATTLE PLAN™ POINTS: 95)

In the **Economic War Room®**, we encourage Americans to be the “small ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The small ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.
