

**The Chinese Communist Party has pulled the
"Trading Places" switch on America.**

For most of the past two decades, we were told that China was our friend, a would-be capitalist nation with more economic freedom than we enjoy. We were told that the Chinese were our allies and bankers, happily buying our federal debt and selling us all sorts of wonderful things at Walmart, Best Buy, and Amazon.

In reality, China was executing their Unrestricted Warfare masterplan. **They tempted US politicians and elites to sell out America in exchange for special privileges.** Both Republicans and Democrat politicians gained while American's lost.

It's time to shift the power away from tyranny and fight for victory. It's time you make certain your investments support rather than destroy America. NSIC financial advisors can help you invest in Liberty, Security, and Values.

Your Mission: To understand how the Chinese Communist Party has pulled the "trading places" switch on us. More importantly, to find a NSIC financial advisor that will help you (weaponize) align your investments with your values.

"This is your chance to be one of the small ships that saves America from the Chinese threat, to stop the elite traders and CCP groomers that have been selling us out." -Kevin Freeman

Ep. 5-190(OSINT) Open-Sourced Intelligence Report. This briefing is an exclusive teaching series with Kevin Freeman. Kevin Freeman is considered one of the world's leading experts on the issues of Economic Warfare and Financial Terrorism. He has consulted for and briefed members of both the U.S. House and Senate, present and past CIA, DIA, FBI, SEC, Homeland Security, the Justice Department, as well as local and state law enforcement. His research has been presented in critical DoD studies on Economic Warfare, Iran, and Weapons of Mass Destruction presented to the Secretary of Defense and the Under Secretary of Defense, Intelligence. He has traveled extensively with research trips to Russia and China and throughout Europe and the Americas. He is also a Senior Fellow at the Center for Security Policy and a Contributing Editor to *Tactics and Preparedness* magazine.

Kevin Freeman is author of two best-selling books. His book, *Secret Weapon, How US Terrorism Brought Down the US Stock Market and Why It Can Happen Again*, was a New York Times Best Seller. In *Secret Weapon*, Kevin outlines what our enemies know and what Washington has chosen to ignore – that our financial system is profoundly vulnerable to financial terrorism. We are being targeted for further and even more destructive attacks by foreign enemies, who want to cripple America as the world's leading economy. But we are also being attacked internally by those who want to remake America in a "Brave New World" image. If you want to protect yourself and protect our country, then you need to read *Secret Weapon* to understand how we have entered a new age of warfare – an age our enemies want to make the Dark Ages of the United States.

In his book, *Game Plan - How to Protect Yourself from the Coming Cyber-Economic Attack*, Kevin Freeman outlines the potential threats against our economy and how Americans can be prepared to protect their savings and investments. With America's rising debt, multiple cyber economic attacks and weakening of the dollar, the potential economic threats are documented and real. What Americans see as a marketplace; our enemies now view as the battle space. Contrary to many financial newsletter and advertising claims, there is not a silver bullet to these threats and investors need to be prepared to strategically adjust. This is the first "how to" investment book of its type and provides the game plan to succeed.

1. Trading Places - How China captured American politicians and the Elite.

China's Master plan to trade places with the US. They get rich while America gets poor.

Over the past two decades. It really has been a trading places moment. Do you remember the movie, *Trading Places*? It was a funny film from the 1980s starring Eddie Murphy and Dan Aykroyd.

The premise was that two out of power guys could make themselves rich while making two other rich guys poor over a \$1 bet. Here's a clip that shows just how that turned out.

That's quite the story. The sad part is that we've watched it happen for real over the past couple of decades.

In the 1990s, the Chinese Communist Party began a program to capture American politicians and business elite.

They've since expanded to taking over:

- » Universities,
- » The media,
- » Hollywood.

The strategy that they used is summed up in a book published by the People's Liberation Army in 1999. The title is *Unrestricted Warfare*. It really is China's master plan to trade places with America, making them rich while making us poor.

For most of the past two decades, we were told that:

- » China was our friend, a would-be capitalist nation with more economic freedom than we enjoy.
- » That the Chinese were our allies and bankers happily buying our federal debt and selling us all sorts of wonderful things at Walmart, Best Buy, and Amazon.

ATTENTION: What they were doing was buying our elite and preparing a master plan to take us down.

Lessons in History: How China used Economic Warfare against the US.

"Few people remember where this all started or how we got here, but I remember and so do my colleagues at the Committee on the Present Danger, China." –Kevin Freeman

Summary of Situation

First, Nixon went to China, supported by Henry Kissinger. Now, that was a brilliant strategy. It did play a role in bringing down that generation's evil empire known as the Soviet Union.

We told China that they needed to help liberalize in order to stop Russia from absorbing them. It made sense at the time. **Then President Reagan used economic warfare to take down the evil empire.**

THE CHINESE COMMUNISTS WERE TAKING NOTES AND CRAFTING THEIR OWN ECONOMIC WARFARE STRATEGY.

As late as 1999, the Chinese economy was only about 1/10 the size of our economy. It was about the same size as Italy's economy, and it was a fraction of Japan's economy. And yet in two decades, they not only took over the global economy, but most global institutions and the media.

Today, we think China dominance is inevitable.

"I, for one, shudder to imagine what the world would be like if that came true. This is a nation literally starving their own people in COVID lockdowns. This is a nation that's harvested human organs from living people."—Kevin Freeman

- » This is a nation with a police state that monitors and controls every aspect of life.
- » They had a one-child policy resulting in forced abortion of largely female babies.
- » They implemented social credit scores to control everyone everywhere.

This is also a nation that may have unleashed a deadly virus on the world after possibly developing it in a biowarfare lab.

The impact on our economy has been a loss of \$12.5 trillion globally, according to the IMF, with more than 6.2 million people dead worldwide, according to the World Health Organization.

We've truly witnessed a "trading places" moment from COVID alone, and that's just a small piece of a much larger puzzle.

2. China tempts US Elite and captures both guilty Republicans and Democrats.

China tempts the elite with money, access, and favors. It was easy!

Let's take a deeper look at how China executed their Trading Places Strategy:

It started with illegal campaign contributions to the Clinton campaign in 1996.

<https://www.nationalreview.com/2017/07/chinese-illegally-donated-bill-clinton-reelection-campaign-media-downplayed/>

ATTENTION: This is not rumor, it's not innuendo. We're so numb to the claims of Russia, Russia, Russia collusion. **But**

the facts are the Clintons did illegally receive donations from the Chinese 25 years ago. The Chinese were caught. People went to prison. It was reported in The Washington Post and The New York Times.

This is not disinformation; you've likely not heard anything about it in more than 20 years.

Why? Maybe it's the influence buying of the Chinese Communist Party that's proven highly effective. They bought and paid for the narrative, and they've done it with your money.

ALERT: This is economic warfare at a grand scale. The lie of Chinese inevitable dominance now controls Washington, DC politicians and Wall Street alike. But their central planning system is not better. Their companies are not better. It's all a lie, but it's a lie that may destroy us.

Other players that helped China include:

- » It was the Clintons, for sure, and it continues with the Bidens. Anyone who's seen the "laptop from hell" knows that. <https://hotair.com/ed-morrissey/2022/05/19/nbc-scoop-hunters-laptop-shows-he-made-million-off-china-ukraine-while-the-big-guy-was-vp-n470545>
- » But Republicans are just as guilty.

- » The George W. Bush administration helped launched the China myth as a "responsible stakeholder," in light of 9/11. <https://nationalinterest.org/blog/buzz/america-vs-china-what-if-bush-had-stood-firm-during-ep-3-crisis-2001-28472>

George H. W. Bush was an ambassador to China.

- » China got **Most Favored Nation status** in September 2000, just before George W. Bush took office. <https://www.forbes.com/sites/kenrapoza/2020/09/18/this-is-the-vote-that-changed-china-forever/>
- » They went into the World Trade Organization in 2001 under Bush's watch, and he cozied with China throughout his presidency. <https://checkyourfact.com/2017/09/11/fact-check-did-bush-support-china-joining-the-world-trade-organization/>
- » That's when the "China is our friend" message really took off reaching inside the Pentagon.

"I know this firsthand. I spoke at the DIA, the Defense Intelligence Agency, about Chinese economic warfare. And the head China analyst defended China and made lame excuses for their aggressive behavior. That man was later reprimanded for testifying on behalf of a convicted Chinese spy." –Kevin Freeman

No one explains the elite capture of the Chinese Communist Party better than Peter Schweizer in his recent book, *Red Handed, How American Elites Got Rich Helping China Win*.

Schweizer pulls no punches. He calls out guilty Republicans and guilty Democrats.

NOTE, IT'S NOT JUST POLITICIANS. CONSIDER WHAT SCHWEIZER SAYS ABOUT OTHER ELITES.

This is quote from a Gatestone Institute article that he wrote. He says elite capture is a crucial tool of China's success. <https://www.gatestoneinstitute.org/18207/elite-capture>

The idea is simple enough. By tempting another country's elite with money, access and favors, you move them to see their interests and China's interests as intertwined or even the same. Each of the individuals he discusses would deny their role in helping China access American capital markets, the American military, and the surveillance technology, and so forth.

Each will say they're merely pushing business opportunities that the Chinese market has offered them, as any good capitalist should. They may argue that the companies they run are truly international, but his book investigates the public activities and statements of some of the most powerful people in the US.

From the world to Silicon Valley like Mark Zuckerberg, Facebook, Tim Cook, Apple, Bill Gates, Microsoft. From the world of Wall Street, Ray Dalio, Bridgewater and Larry Fink of BlackRock. From academia he looks at the actions of Harvard and Yale universities.

He surveils the relationship histories of the Bush family, the Trudeau family of Canada, the Pelosi family, and, of course, the Biden family.

Obviously, **the people that Schweizer identifies all became more wealthy and more powerful over the last 20 years. But did you?**

- **What happened to America is that we lost jobs and lost entire industries.**
- **Almost everything we buy says "Made in China."**

"I was in Shenzhen, China, in January 1999 with a man most people consider the father of emerging markets, Dr. Mark Mobius. We both worked for Templeton. It was a research trip and one company we visited was a TV maker. They had brands from America and Europe that they were putting together, **but they told us flat out that they were going to steal the technology and they were going to produce their own brand. That's intellectual property theft!**" –Kevin Freeman <https://qualityinspection.org/10-examples-of-china-ip-theft/>

- » The Chinese communists steal IP by spying and hacking and sometimes bribes.
- » They entice American companies to come to China and then steal them blind.
- » They also use predatory pricing to drive out American competitors.

PAGE 7

DANGER: Their motto: "They win, and we lose."
This is very real economic warfare and you're paying for it.

We're paying the bills through our consumer spending and we're also footing the bills through our investing because they've captured Wall Street and taken trillions of dollars of American investment, some of which has proven to be outright fraud.

3. It's not over yet! America can win if we work together!

Graham Allison, author of *Destined for War*, explains that a conflict between China and America may be inevitable. His theory walks through history to explain that declining powers always struggle to stop rising powers.

While that theory is simple and well grounded, in a recent interview, Steve Bannon pushed him.

Sure, there are plenty of examples where a power change is inevitable. Empires rise and fall. But the rise of China was not inevitable, and it didn't happen naturally.

Steve Bannon explained, this may be the first time in history that the power change was based on a sell out by elites of the existing power. Maybe there were British elite who sold out to America. There were certainly British elite who tried to sell out to Nazi Germany. But nothing on the scale of what we have seen with American leadership selling out to China.

The good news is that the power did not transfer to Adolf Hitler, even though some British and even American elites were big fans of the Nazis. <https://time.com/5414055/american-nazi-sympathy-book/>

4. The CCP Groomers – People who sell out America for special privileges.

Elites win and the rest of the world falls to Chinese Tyranny.

There's a special word we use for someone willing to sell out their country for profit to an enemy. It is "**traitor**". There's another term emerging as well. It's called "**CCP Groomer**."

These are people who sell out American liberty in exchange for special privileges while the rest of the world falls to Chinese tyranny. The term "groomer" is so appropriate.

You ply the victim with praise and promise only to prepare that victim for slavery. We see a lot of groomers working for the Chinese Communist Party today.

Now, don't get me wrong, the Chinese people are victims, too. The Chinese are a magnificent people and worthy of honor. The Chinese Communist Party or CCP? Not so much.

ABOUT THE CCP: - THE CCP IS MADE UP OF ELITISTS - Some are called princelings. There may be at most 5,000 families in China that are privileged, and of those, a couple dozen who run everything. It is like an international criminal cartel. Everyone else is a victim.

The wealth disparity in China from top to bottom is enormous and it's evil. What's worse? Many of the wealthiest in our country want to adopt the Chinese model. Those are the elites here, and they're selling you out to fund the Chinese ascendancy.

"Remember, President Joe Biden had told us not to worry about China. "Come on, man." I did a video and wrote a blog on this three years ago. We now know from the Hunter Biden laptop just how co-opted the Biden family really is in Russia, Ukraine, and especially China." -Kevin Freeman

A couple of years ago, we joined a courageous group of patriots and stood up to China in regard to investments. We called out Chinese fraud in our stock market and the special deal that Chinese companies have been given in the Obama-Biden years.

- » We told you about the evils of the Thrift Savings Plan efforts to fund China.
- » Can you imagine our own national pension plan for government workers and the military has been asked to invest in communist Chinese companies? Some of which were developing weapons aimed at our patriotic service members!

Economic War Room® did a special episode on that and were part of the *Committee on the Present Danger*, China team that stopped that

- » We got federal findings. <https://www.myfederalretirement.com/tsp-i-fund-change/>
- » We had a mass petition. <https://www.economicwarroom.com/tsp>
- » We had Larry Kudlow write an official letter from the White House denouncing it. <https://www.foxbusiness.com/markets/trump-orders-federal-retirement-money-invested-in-chinese-equities-to-be-pulled>
- » We encouraged the Secretary of Labor, Scalia, to kill that entire terrible idea. And he did. <https://www.dol.gov/newsroom/releases/osec/osec20200513>

Why should we fund our own demise? That's Crazy!

And yet, believe it or not, here we are again. The Thrift Savings Plan is again attempting a backdoor to take pensions from government employees, including the military, and invest in communist Chinese companies. <https://www.fedsmith.com/2022/04/07/frtib-nominees-on-hold-over-tsp-investments-china/>

Does that make you mad? It should, but it's only half the equation.

WARNING: At the same time, you've been funding the ascendance of China, you've also been funding the destruction of America through woke investing. Don't think it an accident that the big Wall Street firms are pushing woke investing via ESG.

If you're new to the Economic War Room®, you may not know what ESG is. If that's the case, go back and watch Episodes 165, 166, and 167.

5. Here's a primer. Wall Street is demanding that American companies go woke.

They're voting your stock holdings to make certain Disney goes woke and Coca-Cola and Hasbro and Delta. <https://nypost.com/2021/06/05/blackrocks-no-1-goal-in-woke-investing-huge-esg-funds-haul/>

ATTENTION: The reason that executives in these once great American companies are all super woke is Wall Street is using your money!

- » Companies seem to be standing against family values.
- » They support critical race theory.
- » They hate American energy development.

Wall Street elected three members to the ExxonMobil board who want to end the use of fossil fuels. (<https://www.cnbc.com/2021/06/02/activist-firm-engine-no-1-claims-third-exxon-board-seat-.html>) Aren't they aware that this would hurt consumers and bankrupt the company they lead? These are zealots.

What's worse is that Wall Street firms are pushing ESG, but they have no problem supporting China with investments. <https://www.nationandstate.com/2021/09/07/soros-slams-blackrock-for-investing-in-china-exposing-wall-streets-esg-hypocrisy/>

- » Remember, the concept of ESG is supposedly to protect the environment, promote social justice, and provide good governance.
- » Never mind that ESG doesn't really do those things. **What it really does is disadvantage American companies with woke requirements.**

And yet, amazingly, China is terrible at E, S, and G.

- » They're the worst polluter on the planet.
- » The nation that represses its people with social credit scores and slave labor.
- » Governance is solely for the benefit of the CCP.

Thus, Wall Street is corrupted and totally hypocritical to push ESG on America and yet exempt China.

In Summary, we've explained this in detail before. **The net result is elites are hurting America and helping China. They're selling us out. Therefore we call these people traitors and CCP groomers.**

6. Are you mad enough yet?

We did a show (Episode 187) with Frank Gaffney titled, *I'm Mad as Hell and I'm Not Going To Take It Anymore*, based on that movie, *Network*, from the 1970s where people went out, opened the window and shouted, "I'm mad as hell and I'm not going to take it anymore."

That film debuted in 1976. People were mad because their country was being sold out then.

- » Gas prices were through the roof if you could even get gasoline.
- » Jimmy Carter became president and told us, "Put on a sweater if you're cold, don't heat your house." We couldn't afford to heat our homes.
- » He dethroned the Shah in Iran, and the Ayatollah then oversaw the taking of American hostages.
- » The elite told us that we must slowly surrender to the Soviets.

People got mad and they said, "Not on my watch." **The elites were selling us out and the people put a stop to that nonsense with the election of Ronald Reagan.**

7. There is hope ahead still if we stand together for our values and for America!

If you saw Ronald Reagan's funeral 18 years ago in 2004, you would have known the people loved him, but the elites hated him. If you can remember back to 1980, the elites told us that Reagan would plunge us into World War and that America would collapse from voodoo economics.

Funny thing though. The economy recovered and boomed even as inflation was tamed. When you hear that inflation is at the highest level in over 40 years, understand that the circumstances were that way when Reagan took office. We were losing on every front and the elites were making out while they sold us out.

People got mad and showed up at the voting booth, giving Reagan a landslide win and people got mad again in 2016 and elected Donald Trump as president. The elite hated that. They called his supporters "deplorable," and they impeached him twice. They made up a Russia collusion story.

But think back before COVID. 2017, 2018, and 2019.

- » Trump stood up to China. The economy boomed. Inflation was low, things were working.
- » But then the COVID from China and lockdowns and mandates and tinpot dictators from the elite blaming Trump stole our liberty.

- » Add to that, questionable election in 2020 and you see how China and the elites re-grabbed power.

ATTENTION: Are you okay with that? We're at one of those moments in history. It's up to us to stand against the elites and take back our country. America's best days should be ahead, not in the rearview mirror.

We have a plan to put America's best days ahead of us!

We have two simple things you can do to turn this around.

In the 1940s, the world faced an existential threat from Adolf Hitler. Many of the elite, both in Britain and the United States, appeared willing to follow the Nazi way. It's hard to imagine that today, but there were a great number of industrialists and even royalty supporting Hitler.

The Nazis infiltrated our universities and even Hollywood.

The fascination inside England was even greater. Fortunately, Winston Churchill recognized the threat. He became Prime Minister on May 10, 1940. But that was almost too late. The German army was racing across Europe.

The British Expeditionary Force, virtually the entire British army, found itself trapped in a small French beach town called Dunkirk. Churchill was hated by the elite. They wanted to sue for peace and take whatever Hitler would give them. Instead, Winston Churchill took his case to the people.

He made it clear that surrender was not an option. And even when it seemed impossible, he and the people found a way.

The problem they faced was that the British Navy was unable to get the soldiers off the beach. The beach water was too shallow for the large destroyers to rescue the men.

But Churchill called on the small ships, pleasure craft, fishing trawlers, and sailboats. The common people stepped up and rescued the British army. Forty years later, in the 1980s, the existential threat to Western civilization was the Soviet Union. The elites were ready to surrender.

- » They saw Ronald Reagan as a loose cannon, and they hated him.
- » They thought communism was inevitable, and they even found ways to profit as America declined.
- » But Reagan knew better. He understood that the American people wanted victory, not surrender.

Reagan stood tall and he called the Soviets the evil empire. He said, "Mr. Gorbachev, tear down this wall". The elites thought he was nuts. But Reagan had a simple Cold War strategy: "We win and they lose." **The American people stood with Reagan, and guess what? It worked. The wall came down!**

Today, we are another 40 years later. Forty years, a generation. President Reagan warned us that every generation must fight to preserve freedom.

Now the fight is against communist China. In the 1940s, it was Nazi Germany. In the 1980s, it was the Soviet Union. And in the 2020s, it is communist China that we must face.

IMPORTANT: The elites are no more on our side any more than they were in the 1940s or the 1980s. It will take US to defeat this new threat. President Reagan asked, "If not us, who? If not now, when?" We must be the small ships to save America. It's our turn.

What is our policy? **Basically, Churchill summed it up in his first speech as prime minister:**

"We have before us an ordeal of the most grievous kind. We have before us many, many long months of struggle and of suffering. You ask, what is our policy? I will say, it is to wage war, by sea, land, and air with all our might and with all the strength that God can give us. To wage war against a monstrous tyranny, never surpassed in the dark and lamentable catalogue of human crime. That is our policy. You ask, what is our aim? **I can answer in one word. Victory.** Victory at all costs. Victory in spite of all terror. Victory, however long and hard the road may be, for without victory, there is no survival." –Winston Churchill

8. Without Victory there is no survival. There are two simple things you can do for Victory!

If we work together and do these two simple things. It will change everything. It's your chance to be one of the small ships that saves America from the Chinese threat, to stop the elite traders and CCP groomers that have been selling us out.

Our policy is victory. Now let's look at how we can achieve it. We're already in an economic war. Hopefully we won't have to wage a kinetic war. But where we are right now, we need to wage that economic war and we need to win.

As we explained earlier in this briefing.

- » Our own money has been used to finance the rise of China and our own decline. This has been their "trading places" strategy. They get rich, we go broke.

STEP NUMBER ONE: You need to feel that righteous anger and sign the petition. Are you mad yet? You should be. Just like in the movie, *Network*.

"You should say, 'I'm mad as hell and I'm not going to take it anymore.' Or maybe, 'I'm mad at hell and I'm not going to take it anymore.' Let your voice be heard."—Kevin Freeman

- » You don't have to shout out your window. But you do need to make your voice heard. **The best way to do this is by going to www.madashellcampaign.org.**
- » Read the information there, tour the website, get educated, but most importantly, click the "[Take Action Now.](#)" button.

That will take you to an Align Act campaign where you can add your voice to thousands of others and become one of the small ships making a big difference. It'll take just a minute or so, and if you share this show with others, our voices will multiply. I told you it was simple!

STEP NUMBER TWO: Find a Financial Advisor who can help you weaponize your money.

If you are mad your money is funding China's CCP Trading Places strategy, it's time to find an NSIC financial advisor to help you protect your portfolio and weaponize your money.

Retake Control of your Investments. Wall Street has been ruining American companies by turning them "woke" with your money.

Then they've been boosting Chinese communist companies with your money as well. That has to stop now!

- » Do you know how to get China out of your portfolio?
- » Do you know how to vote your shares to wake up the woke companies?

That doesn't sound simple, does it? But it can be!

There are investment professionals who should be helping you. They're called financial advisors. They could be:

- » Insurance agents,
- » Stockbrokers,
- » CPAs,
- » Financial Planners.

All of these investment advisors are looking for clients like you.

Do you have one already? If you do, are they helping you weaponize your money to fight this economic war? Your second step is to find an advisor who will help you become one of the small ships.

"I know what you're thinking. If you have an advisor, you probably never discussed any of this and that's a problem." –Kevin Freeman

- » **Your advisor may be a pawn of woke Wall Street.**
- » **Perhaps your advisor is just unaware and would help only if he or she knew how to do it.**

If you have an advisor, nominate him or her to go through our eight-week online training course at [Liberty University](#).

We call this NSIC Institute Training. NSIC stands for National Security Investment Consultant.

ECONOMIC BATTLE PLAN™

CHINA'S "TRADING PLACES" STRATEGY IS WORKING **5.190**
CLEARED FOR RELEASE 05/26/2022 (ECONOMIC BATTLE PLAN™ POINTS: 97)

Are you mad as hell, or mad at hell? Either way, having an advisor by your side can make an enormous difference. **Tell your advisor to enroll** at <https://www.nsic.org>. That's pretty simple!

At that same web page there will soon be a link where you can ask us to help you find an advisor if you need one and we will provide a list of advisors that have received the NSIC training. It really is that easy.

For advisors, this course will be a huge blessing. We get calls all the time from potential clients looking for an NSIC trained advisor.

- » That means that those who go through the training course may have a number of new clients looking for their help.
- » I want you to understand that we don't give personal investment advice because we don't know your situation. That's why you need an advisor.

This is our time. It really is up to us!

You have two simple things to do. Go to www.madashellcampaign.org and make your voice heard. Then go to <https://www.nsic.org> and get your financial adviser to take our training course or find a new advisor who will.

We are in an economic war! “What we see as a marketplace, our enemies view as a battlespace™.”

Why Should You Care?

- **Investing.** We suggest you get a like-minded financial advisor. We've done surveys and a clear majority of investors want an advisor who matches with their political and cultural beliefs. Unfortunately, Wall Street is pushing for you to just take what they offer in order to force a leftist agenda on you.
 - o "If your advisor isn't willing to match your investments with your values, send them to us for training and education. If they won't do that, I can promise you that there are lots of other advisors looking for new clients."
-Kevin Freeman

10. It is time to fight the economic war we are facing. Nominate your financial advisor at EconomicWarRoom.com/advisor and let them know you think this would be a great opportunity for them. Classes are launching and our list is growing fast.

In the **Economic War Room®**, we encourage Americans to be the "small ships that make the difference." You cannot solely rely on the government or the president to solve America's problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The small ships are based on Churchill's Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.
