

Why America's Sovereignty Matters

Look around the world and what is happening geopolitically. As more and more countries invade or threaten to invade each other it seems we are on the verge of WW III.

The world has been through this before and addressed it in The Treaty of Westphalia. The treaty ended the bloodshed, and two major principles were agreed upon: sovereign borders and religious tolerance. Unfortunately, it seems the sovereignty of nations and religious tolerance are no longer understood.

“Those who do not remember the past are condemned to repeat it.” –George Santayana

The Treaty of Westphalia tried to end these wars in 1648 after the 30-year war, and the Catholics and the Protestants killing each other. **They finally concluded that countries should be sovereign and there should be religious freedom within the various countries.**

Today, **the treaty is basically being forgotten and dismantled.** Loss of sovereignty is a threat to nation states and the reason we talk about things in the Economic War Room is because there are economic implications.

“You don’t allow other people to come into your home at their discretion and take your silver because they’re having a party somewhere.” –Ken Abramowitz

 **WARNING:** America’s sovereignty matters. It is property rights. It is the right to govern yourself. These are all economic issues, and your future will be determined either in Brussels or by someone you elect.

For your briefing this week Ken Abramowitz and Rod Martin join Kevin Freeman in the Economic War Room® to remind us of our past, where we are headed, and what we should be doing now.

Your Mission: To understand and support national sovereignty and religious liberty. To help America avoid WW III and if unavoidable to prepare for the challenge.

"The fast-encroaching World War III is a repeat of all historical wars, because we forgot all the lessons of the previous wars. If our children survive, and have not already been fully indoctrinated, they will never forgive us for standing by." -Ken Abramowitz

- 1) **RUSSIA INVADES UKRAINE** - In February 2022, Russia's President Vladimir Putin proceeded, again, to further [invade](#) the sovereign country of Ukraine, claiming it is part of Russia and strategically important to protect Mother Russia from future (imagined) invasions. In 2014, Putin invaded and annexed the Crimean Peninsula to Mother Russia, with no meaningful repercussions.

- 2) **China takes over Hong Kong** -In 2019, China felt compelled and entitled to illegally [take over](#) independent Hong Kong and constantly claims that it must reunite with Taiwan, a sovereign nation which was never a part of China.

- 3) **IRAN CLAIMS US AND ISRAEL DO NOT EXIST** - The terrorist government of Iran continuously claims the U.S. and Israel [have no right to exist](#) and repeatedly vows to destroy them.

- 4) **TURKEY/QATAR DO NOT ACCEPT EXISTENCE OF JUDEO-CHRISTIAN COUNTRIES.** Turkey (and Qatar) [support](#) the Muslim Brotherhood, which does not accept the existence of any Judeo-Christian country. The Muslim Brotherhood believes that Islam is the successor religion to Judaism and Christianity, which are therefore "obsolete."

- 5) **U.N. DOES NOT RECOGNIZE ISRAEL EXISTENCE OF A JEWISH STATE** - The corrupt, dictatorship-controlled United Nations constantly [condemns](#) and undermines Israel's right to exist as a Jewish state.

- 6) **CARBON CONTROLS ON ALL COUNTRIES** - The unelected World Economic Forum wants to impose carbon controls on all sovereign countries, including the U.S.

- 7) **CHRISTIANS TERRORIZED IN NIGERIA** - In Nigeria, Islamist terrorist groups residing in the north are fighting and terrorizing the Christians who populate the southern half of the country

- 8) North Korea does not accept South Korea's right to exist.

- 9) **US FEDERAL GOVERNMENT IGNORES STATES RIGHTS** - Within the U.S., the federal government [does not recognize](#) the Constitutional protections regarding State's rights.

ALERT: Our federal government is orchestrating the invasion of our country by our enemies.

- 10) **US FEDERAL GOVERNMENT SUPPORTS INVASION OF US WITH ILLEGAL MIGRANTS** - The Biden administration has abdicated its duty to protect the sovereignty of the U.S. over its territory. It [does not protect](#) U.S. citizens from, and is in fact enabling the invasion by more than two million (and growing) illegal migrants annually from 160 countries. Moreover, it does nothing to stop dangerous people, drugs, and communicative diseases from entering the country. On the contrary, it invites and supports the invaders, and forces American citizens to pay billions of dollars to cover the invaders' expenses.

PAGE 11

The fast-encroaching World War III is a repeat of all historical wars, because we forgot all the lessons of the previous wars.

We are seeing CIVIL WARS within our own countries. Cousins fighting Cousins.

"Russia invading Ukraine provoked the issue in my mind..... in watching cousins fighting cousins and Christians fighting Christians, you know, usually when you have wars in history, it's a certain culture fighting against a different culture, obviously.

But to have the same culture fighting each other, well, we call that a civil war. So, to some extent, this is a civil war, but it's a very sad day. But then I think about China and Taiwan. China is obviously watching very closely. And China illegally took over Hong Kong and we, in the West, did nothing about it.

So, they came to the conclusion, well, let's go after Taiwan. And so, what's going on in Ukraine is provoking China and Taiwan; and simultaneously, the supreme running Iran has promised to kill everyone in America and everyone in Israel. I mean, that's like double genocide.

You would think that the U.N. might want to discuss this, or someone might want to discuss this. And so, these are the three "axis of evil" countries right now. And the West is doing a pretty poor job relative to all three issues. And I'm worried." –Ken Abramowitz

2. America is Giving Away Our Sovereignty!

The World Health Organization taking over your health policy? Why it is a bad idea.

We've handed our health policy over to someone else, then we've lost control over our lives.

"The basic element of sovereignty can be read the Constitution; it says that the President is Commander in Chief. It doesn't say his Commander in Chief subject to the agreement of the United Nations or the World Economic Forum or the World Health Organization or the Muslim Brotherhood or communist dictatorships. I'm a big believer that every country has the inherent right of being sovereign. You or me sitting in our house, we also have the right to be sovereign. I can't just walk into your

house and say, 'Oh, I ran out of a sterling silver for a banquet. Can I just steal it?' Hello? No. So, just as we as individuals have sovereign rights, we as homeowners, or home lives have rights. So, countries have rights. And I don't recognize the rights of any global organization." -Ken Abramowitz

ATTENTION: Abramowitz explains: *If we can't vote for officials who have control over that policy, rather than having subverted it and handed it over to someone else, then we've lost control over our lives. The World Health Organization, if I read this right, could shut everything down, make you stay in your home, and mandate that you take experimental vaccines, do all sorts of things. We can't allow that. And sovereignty is an important thing. And our elected officials ought to be protecting that sovereignty.*

The Declaration of Independence, the role of our government is to protect our life, liberty, and pursuit of happiness. We should expect the government to do that.

WARNING: if you look at the sorry state of history, from the beginning, human beings have been fighting each other from whenever you think human beings began to be human beings. And so that's what human beings do, whether they fight individually or as families. And then they grow up and they fight as cities and then they fight as countries.

"So, it's actually in our history that we do that. But you would think that after all of our history, we would have grown up, so to speak, to the point where we respect each other as individuals, we respect them as families, we respect the houses, we respect the cities, the states, and the countries. And here we are after all these years and years and years of history. And we haven't learned a damn thing". -Ken Abramowitz

3. [SavetheWest.com](https://www.savethewest.com) was founded by Ken Abramowitz for the following purpose:

Save The West Mission:

Few people realize that Western civilization – individual rights, free enterprise, and limited constitutional government – is under assault, is facing existential danger

from unprecedented economic, cultural, and military threats. On a deeper level, few in the West understand or appreciate who “we” are, how we became so prosperous and free, who our enemies are, and how to preserve our civilization.

The mission of SaveTheWest.com is to advance knowledge concerning:

- » The foundational underpinnings of Western civilization (“the West”).
- » The identities of our enemies, and their strategies, tactics, and objectives.
- » Common-sense solutions that will enable the West to survive, and ultimately, thrive.
- » How freedom-loving people in Western nations can help to save our culture.

As Ken and his team review western civilization, they monitor six forms of warfare:

- » Physical War
- » Culture War
- » Economic War
- » Legal War
- » Demographic War
- » Cyber War

Ken has an easy color-coded symbols for the bad guys to make it simple for people to understand. The codes for the bad guys, the reds, the greens and the blues.

- » **The Reds:** are China, Russia, North Korea. These are the communists, but now they also the authoritarian socialist progressives who are actually regressive. They purposely use the wrong name.
- » **The Greens:** These are the Islamists, Muslim Brotherhood, Iran.
- » **The Blues:** He color coded blue for the United Nations color. But it also includes major corporations, the tech corporations, Facebook, Twitter, Google and, of course, illegally suppressing freedom of speech. And it includes the World Economic Forum and includes any world organization that you ever heard of, many of which are part of the United Nations, like the World Health Organization.

"The basic element of sovereignty is when I read the Constitution, it says that the president is Commander in Chief. It doesn't say 'is Commander in Chief subject to the agreement of the United Nations or the World Economic Forum or the World Health Organization or the Muslim Brotherhood or communist dictatorships.' So, I'm a big believer that every country has the inherent right of being sovereign."

Get The Book: **The Multi Front War The Multifront War: Defending America From Political Islam, China, Russia, Pandemics, and Racial Strife**

America is fighting a major international war, says the Abramowitz. Yet, the country does not really know it. Moreover, the war is being waged on a multitude of distinct fronts—both internal and external. The United States is wholly unprepared to fight a unified battle. Threat analyst Kenneth Abramowitz carefully takes us through the first step—recognition. He then ushers readers into the bold realm of mounting a multifaceted defense that will save America as a Democracy with the capacity to continually improve and thrive.

4. In addition to his work to Save the West. Ken Abramowitz is An All-Star Financial Analyst!

We asked him what he is doing during this more volatile time in the markets. Now, more than ever, you need a financial advisor that understands the Economic War we are in.

Note: Ken Abramowitz is ranked 15th, out of 15,000 in the Analyst Hall of Fame.

Ken explains how he is hiding some now from the more volatile markets.

- » He usually holds a modest amount of cash for folks, around 5 percent. Now, he is in the 10 to 20 percent category, which he admits is high for him.
- » He explained he always keep about 30 to 40 percent of his own and client money in – what he calls bonds substitutes, which are riskier than bonds.
 - o He shared there's a number of stocks that pay high yields, like business development companies known as BDCs.
 - o These yield around eight percent.

"They're really banks. They're just banks that act like real estate investment trusts and they pay out their earnings, so to speak."—Ken Abramowitz

"I keep 30 or 40 percent of the funds in business development companies (BDC'S), which I call bond substitutes because they're not bonds. There's no guarantee, as you know, dividends are not guaranteed. Bond payments are guaranteed. We're talking about at least half of a portfolio is hiding, so to speak, from the traditional stock market."—Ken Abramowitz

5. Globalism is increasingly just another word for imperialism. Rod Martin expands on the importance of national sovereignty.

Globalism is about unelected people, somewhere else, telling you how you must live without your input into it.

"The idea of nationalism is being demonized regularly, consistently, continually by people who are really against the idea of nations at all. They want to demonize it as you will hear white nationalism, you know, funny, they never actually condemn black nationalism or any other kind of nationalism. They imply that nationalism is about Hitler. But nationalism is really the opposite of imperialism." –Rod Martin

Nationalism is the breaker of empires!

Wilson spoke of it in terms of the right of self-determination.

- » That's how you don't have an Austro-Hungarian Empire dominating all of Central Europe anymore.
- » Instead, you have an independent Czechia and Slovakia and Poland and Hungary and Croatia and Slovenia and so forth.
- » You have an independent India instead of a bunch of Indians who are under the heel of London.
- » Or you have an independent America, not under the heel of London.

The empires of a prior age, including the Soviet Empire (which is trying to reassert in Ukraine at the moment), are all about this idea that an unelected group of people from another country should have the right to tell you how to live.

Don't confuse Globalization with Globalism. Globalization is good. Globalism, not so much.

The reality is globalization gives us many, many good things. But globalization is not the same thing as globalism.

WARNING: Today, globalism is increasingly just another word for imperialism. It is about unelected people somewhere else telling you how you must live without your input.

Earlier in this briefing we talked about the World Health Organization. Think about this:

- » You don't get a vote on who belongs to the World Health Assembly.
- » You don't get a vote on who is the General Secretary.
- » You don't vote who heads the World Health Organization.

But we were going to give the WHO sovereign power to determine whether you can go to work or not?

"This is insane. The entire purpose of the American Revolution (which, by the way, started a nation as opposed to remaining part of an empire), was not just 'no taxation without representation.' The idea is that a particular group of people anywhere in the world should have the right to rule itself, to make its own decisions, to be free!"—Rod Martin

Nigel Farage was in the Economic War Room® and made a similar point. He talked about why the people in London should not be under the control of the people in Brussels.

"Part of the reason he's fantastic is -- and this is distinct from the idea of nationalism -- he is a patriot. He loves his nation. His nation is a group of people that's basically an extended tribe, which is basically an extended family.

There's nothing wrong with the French nation or the German nation. And if those nations want to combine into a European superstate, good on them, have at it.

But if the people of Britain do not wish to be part of that superstate, which at present is governed by a bunch of unelected bureaucrats in Brussels, over whom the average person in England or Scotland has zero say, then they shouldn't have to. And that's exactly why we had an American Revolution. We didn't want to be governed by people we didn't elect, who didn't share our values, didn't share our point of view, and didn't care." —Rod Martin

6. A look at sovereignty in the United States.

It goes a little further here in the United States, though, because we are United States, but every state has a group of people in it that wants to have control over their own lives, too.

One of the brilliances of the American Revolution, is that we have this dual sovereignty.

Florida doesn't wish to be governed the way California is governed and California doesn't wish to be governed the way Tallahassee governs Florida. So, we get to not have that.

"It's amazing. Go Ron DeSantis, best Governor in America. But we get to have a say over our own lives different from California. And at the same time, we have the shared values that all Americans share. And Washington doesn't represent them terribly well right now." –Rod Martin

Martin Explains: America is not racist, but an idea and way of life:

- » The key issue here, with the people who claim that any sort of nationalism is necessarily racist and awful, is just the stupidity of it.
- » America has never been a race or a place. It's an idea.
- » It is the shared set of values captured in the Declaration of Independence and the Constitution, and we have voluntarily united into a nation because we share those values.
- » America is the least racist place in the world. Anybody can be American just by choosing to share those values.

We are a nation of immigrants

"Anyone who says, "Oh, we're trying to keep people out." Really? Because we let in 1.1 million legal immigrants every year. 1.1 million every year!" –Rod Martin

- » Since 9/11, that's more than the entire population of the state of Florida. It's actually an extraordinary thing.
- » There's nothing like it in the world.
- » And if you want to have more immigration, fine, let's have more.
- » Let's turn that to 2.2 million. If you want less, cut it in half.
- » **But it is a decision for America and should be done legally.**

ALERT: As it relates to immigration, what you don't do is break the law, open the border, and make us not a nation because we're ruled by foreigners. Or put us under the boot heel of some international agency whose officials are not elected and over whom an average person has zero say!

Nations Matter

- » Nations matter -- just like your church, you wouldn't have outsiders elect your pastor.
- » Just like your parent teacher organization. You wouldn't have some other school elect the leadership of your PTO.
- » We actually have to have nations as a way to bound the group of people who get to have a say over their own lives.

"These things are interrelated. They matter. These are the fruit of the Peace of Westphalia, as you've said, and as Ken wrote very, very well about. These things are the necessary components of liberty, and it's not a knock on anybody else. **A true nationalist would never fight an aggressive war to take territory from any other nation, because a true nationalist believes in the right of nations to govern themselves.** That's really the distinction. And that's where fake nationalists like Hitler weren't really nationalists. They were imperialists pretending nationalism." –Rod Martin

We are in an economic war! What we see as a marketplace, our enemies view as a battle space.

Why Should You Care?

- » You understand the importance of sovereignty.
- » You want freedom to govern yourself and not be under the control of some bureaucrat that does not represent you.
- » You care about America as it was founded, the idea of Life, Liberty, and the Pursuit of Happiness.
- » You do not believe in Imperialism and understand Nationalism.
- » You believe America has never been a race or a place. It's an idea.
- » You do not want to be under the boot heel of some international agency whose officials are not elected and over whom an average person has zero say!

4. Help your friends and associates really understand what is at risk from the Globalist ideology.
5. Weaponize your money to support America's national security and economic infrastructure.
6. Ken shared insights on how he is managing his portfolios. With market uncertainty it is important to have a financial advisor the understands the geopolitical landscape. If you have a financial advisor, now is a good time nominate them for the NSIC Institute and our think tank.

Make sure your financial advisor has your values and interest at heart.
Make sure they really understand what ESG investments mean for our future.
Suggest that they become part of the NSIC institute and nominate them to participate in our online certification at EconomicWarRoom.com/advisor .

7. Financial Advisors go www.NSIC.org. Be sure to sign up for more information at <https://www.nsic.org/nominate.html>
8. If you do not have a financial advisor, now is a good time to get one. We will soon have a list of advisors of NSIC advisors that have participated in the training and elected to become part of the NSIC institute.
9. Join us weekly in the Economic War Room. We are building new solutions with thought leaders that come through our doors every week.
10. Understanding the geopolitical landscape and threats against your money, your livelihood, and your way of life will allow you to be better prepared as the Great Reset is waged against America. Be sure to sign up for our weekly updates at <https://www.economicwarroom.com>.

ATTENTION: Again, if you have not contacted your financial advisor, it is time to make it happen! If you don't have an advisor, it's time to consider getting one.

Weaponize your money toward principles that support Liberty, Security, and Values (LSV). You control your giving, spending, and investing. Nominate your financial advisor to attend our NSIC online training at Liberty University.

- **Investing.** We suggest you get a like-minded financial advisor. We've done surveys and a clear majority of investors want an advisor who matches with their political and cultural beliefs. Unfortunately, Wall Street is pushing for you to just take what they offer in order to force a leftist agenda on you.
 - o "If your advisor isn't willing to match your investments with your values, send them to us for training and education. If they won't do that, I can promise you that there are lots of other advisors looking for new clients." --Kevin Freeman
 - o If you are following Economic War Room you will be on the leading edge as it relates to global threats, geopolitical analysis, and how you can weaponize your money to strengthen America. Your money, livelihood, and way of life are at risk and these tools are designed to mobilize America to protect their economic liberty.

In the **Economic War Room®**, we encourage Americans to be the "small ships that make the difference." You cannot solely rely on the government or the president to solve America's problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The small ships are based on Churchill's Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.
