

## **The Communist Chinese Party (CCP) is Engaging in Unrestricted Warfare.**

Too many Americans are unaware of China's program of unrestricted warfare using economic techniques, political instruments, information operations and technology theft. Frank Gaffney and Kevin Freeman expose even more from the Center for Security Policy in their Team B report regarding biological weapons and the COVID attack of 2019.

**WARNING:** The Chinese Communist Party is at war with us and are intent on achieving the ultimate victory over us. Their goal is to dominate the entire world.

Avril Haines, the Director of National Intelligence, put together a report (Team A) regarding Covid's origins.

The Director of National Intelligence concluded in the fall of 2021 they couldn't really decide where this virus came from.

- » Could it have come from nature?
- » Could it have come from some sort of laboratory or other facility in communist China?
- » The report summary stated it was "Inconclusive."

**Prior to this release, the previous narrative was that this absolutely came from nature alone in a Chinese "wet market."**

**Note: The fact that the report said the origin was inconclusive meant that it could have come from a lab. This opened up the question further study was needed.**

"Team A came up inconclusive, which, by the way, surprised me. I thought that was an advance over the original idea that this absolutely came from nature alone (meaning, there's no way it could have been manmade)."—Frank Gaffney

This inconclusive finding activated top thought leaders in national security and bio warfare. They formed Team B to investigate the data even deeper. Their findings seriously raise the question, Is China at War with us? Economic War Room with Kevin Freeman has been warning about this for years!

**Your Mission:** To understand how China did enable the COVID virus spread around on the world. To ensure that your representatives take seriously the action steps recommended in this briefing. Your lives may depend on this!

Ep. 5-196 (OSINT) Open-Sourced Intelligence Report. This briefing includes conversations with Kevin Freeman and Frank Gaffney. Frank Gaffney is perhaps America's foremost national security expert and analyst. He's the founder and Executive Chairman of the Center for Security Policy. And in 1988, he began that after serving in the Reagan Pentagon as an Acting Assistant Secretary of Defense for International Security Policy. Frank is the host of Securing America TV on Real America's Voice, and he can be seen at [www.securingsamerica.tv](http://www.securingsamerica.tv).

Most recently, Frank headed an effort to take an alternative look at one of the most important issues of our time, the origins and release of COVID 19. It has to do with China. It has to do with our economy.

### 1. China Created the Virus and the US Helped Fund it.

Team B indicates how the CCP released the virus on the world.

Team B was formed about six months ago to look at the analysis that Team A had. The study sought to understand exactly how that virus was unleashed on the world by the Chinese Communist Party.

There remains some disagreement in part because we don't know all the details of what the Chinese were up to. And they're withholding information that is vital to making a definitive judgment. But Team B did come to some profound conclusions regarding the origin and action after release (whether intentional or accidental).

**TEAM B ALERT:** China created it, but we do not know how it was initially released. The CCP absolutely weaponized it, once it was out.

The details on what is known are as follows:

- Their conclusion is they did create this in laboratory.
- They had help from the US National Institute of Health, Dr. Anthony Fauci's operation and some contractors who worked for him.

"The question that remains is did they intentionally bring it out of the laboratory as a biological warfare attack? And that's the part that I think we're still not able to make a definitive judgment about. But to your larger point the question remains: Did they make, as a very deliberate matter of state policy, an effort to spread it once it had been released from the laboratory? And the answer to that, I think, is indisputably yes. And the disaster that it has created worldwide is on them as a result. Hence the CCP virus."—Frank Gaffney

**NOTE: The B team consisted of experts in bio warfare, national security, former CIA officials.**

"[Dr. Steven Hatfill](#), is one of the country's preeminent experts, arguably one of the world's preeminent experts, on the whole phenomenon of biological warfare. He's studied it closely. He's built defenses against it over the years.

And he was really the lead expert, I should say, on the science of what we've been confronting here and, I think, was instrumental in helping us come up with the right answers." -Frank Gaffney

### **Lessons in History – How the term Team A and Team B developed in Geopolitical Analysis.**

Team A/Team B is a term that was first applied to an effort by skeptics of the policy that was known at the time as détente with the Soviet Union back in 1976.

- » During this time there were senior government officials who were very concerned that this idea that we could peacefully coexist with the Soviets.
- » Team A thought all we had to do was stop regarding the Soviet Union as a hostile threat and enable them to become stronger, and richer. (Ultimately, this thinking made them more dangerous through this policy known as détente. Today, we call that engagement.)

To look at this further, Team B came was formed. It was given access to all of the classified information that the Central Intelligence Agency had at the time about the Soviet Union and its order of battle, the threat that it posed to us, and its ambitions.

- » Team B came up with a second opinion. They called it an exercise in competitive analysis.
- » They simply concluded that the idea of making your mortal enemy at the time more formidable, both by lowering your guard and by transferring technology and credits, and in other ways building them up, was actually insane.
- » Their conclusion? This was going to be very dangerous. **They came forward with a conclusion that we should abandon this policy of détente.**

**“Ronald Reagan embraced their findings and commissioned a strategy for replacing this idea of engagement or detente with one of well, as he famously called, ‘we win, they lose,’ rolling them back and ultimately destroying the Soviet Union.”—Frank Gaffney**

“Team B was right. Team A was wrong, Reagan was right. We won. They lost.” –Kevin Freeman

## **2. Kevin Freeman shares the release of the Plan B report regarding COVID-19.**

**Nine Major observations of COVID 19's origins and evidence that there is something unusual going on.**

1. The virus has unusual genetic features, meaning it doesn't look natural.
2. It has a unique, long acid motif that looks like a known biowarfare toxin.
3. There's no natural source that has been discovered in all the time we've been looking for it.
4. The CCP does have an active biowarfare program.
5. There was "gain of function" experimentation taking place in Wuhan.
6. On New Year's Eve, December 31, 2019, right before the virus hit, the CCP (the Chinese Communist Party) said that this virus was poorly transmitted and not a pandemic risk.
7. While they were saying that, they locked down major cities and prohibited intercity travel inside China, at the same time they allowed unrestrained travel from Wuhan to all sorts of international destinations.
8. They stopped a lab link investigation very early on. They said no, and they and they cut off anybody that was trying to look that direction.
9. How were multiple strains out in December 2019, even though they were different from the strains that they presumably found in the so-called wet market?

**“The part that I want to just emphasize is it didn’t just get out and afflict the world. It was deliberately pushed out by the Chinese Communist Party, presumably to ensure that the rest of the world was ravaged by it, at least as much as the Chinese were themselves.”—Frank Gaffney**

**3. High Level Chinese Defense Ministry Official Talked About Releasing a Bioweapon. If 200 million Americans die, it is unfortunate but may be necessary.**

The following is the actual text of a speech delivered in December 2005 by Comrade Chi, the Vice Chairman of China’s Military Commission to top officers and Generals. This guy was the head of the Defense Ministry, I think, up until as late as 2003. Here are some of his quotes with commentary from Kevin Freeman:

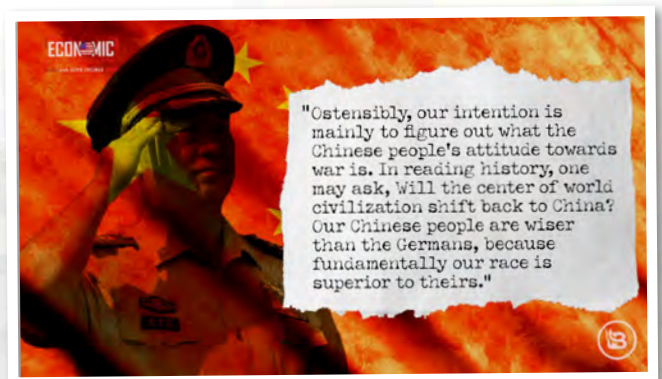

“Comrades, I’m excited today because the large-scale online survey showed us our next generation is quite promising and our party’s cause will be carried on. In answering the question, Will you shoot at women, children, and prisoners of war? More than 80 percent of the respondents answered in the affirmative, exceeding our projections.”

**Think about this: The head of the Defense Ministry in China is talking about how they would be willing, 80 percent of those in the military would be willing to shoot at women, children, and prisoners of war.**

“Ostensibly, our intention is mainly to figure out what the Chinese people’s attitude towards war is.”

**He goes on to say,**

“In reading history, one may ask, Will the center of world civilization shift back to China?” (This whole speech is about how China can be the dominant player across the world.) And he says, “Our Chinese people,” (he doesn’t want to be compared to Nazi Germany) because he says, “Our Chinese people are wiser than the Germans, because fundamentally our race is superior to theirs.”

**In other words, he appears to be more of a racist than Adolf Hitler was.**

"We're destined not to be buried by either heaven and earth." (And he's celebrating atheism.)

"The first pressing issue facing us is living space. Our resources are in short supply... (The Environment, he basically says, is terrible).

"And yet China should be entitled to the possession of all the land, including the United States," (because they feel like they discovered it first and that they should be colonizing it because they built the western half of the United States.)

"So, how would he achieve that? There has been rapid development of modern biological technology, and new bioweapons have been invented one after another. Of course, we've not been idle in the past years, we have seized the opportunity to master weapons of this kind."

**He goes on and says,**

"Biological weapons are unprecedented in their ruthlessness, but if the Americans do not die, the Chinese have to die." (In other words, it's existential. He explains that they must kill Americans.)

**Then he goes on and says this quote,**

**He's directly talking about unleashing a bioweapon on the United States!** This is a speech more than a decade before COVID. While it does not in any way suggest COVID -19 was a bioweapon, it does illustrate the attitude of some senior PLA military officers.

#### 4. A Summation for the Team B Report from Frank Gaffney.

Frank Gaffney led Team B3 that looked at whether or not China unleashed this coronavirus on the world.

- › Covid resulting in more than 6 million dead globally according to official estimates.
- › It wiped out more than 1 million Americans according to official reports.

"I think I'm struck by that speech that dates from nearly 20 years ago. So, this isn't new news. This is something that the Chinese have been beavering away at for years. And in the speech, in addition to the remarks you've mentioned, this fellow Chi Haotian, the defense minister, talks about how Deng Xiaoping, who back in the early 1990s was the General Secretary of the Chinese Communist Party, very explicitly tasked the Chinese biological warfare program, which is, by the way, illegal."—Frank Gaffney

- › They are parties to the convention that prohibits biological warfare.
- › Still, Deng Xiaoping set the sights of this program on depopulating the United States so that it could be colonized by the Chinese.
- › This is essentially what General Chi is describing, is the pursuit of that objective.

**Team B summarized the biological attack in the following way:**

- › **At a minimum, this was a proof of concept of how a biological warfare laid down on the United States could achieve the kinds of destruction that the Chinese have in mind for us.**
- › **While China did not unleash this virus in a form that is as virulent as they're capable of, the trouble is that they've shown just how much damage could be done with even with a relatively harmless disease (even though it was sadly deadly for many), let alone one that they could have up their sleeve.**
- › **We should beware that they could release something more lethal.**

**"Think of it this way, what if in 2003 Donald Rumsfeld went out and addressed our military at West Point saying we want to depopulate China and colonize it. That's essentially the American equivalent of what General Chi did in China at that time."**—Kevin Freeman

June 11, 2022, from The Blaze, there's a headline, "Smashed to Smithereens, China Threatens US with War No Matter the Cost Over Taiwan." And we've had this recent leak of information that says we're basically already planning for war, that we are already in a People's War. We should not take this lightly."—Kevin Freeman

**ALERT: Economic War Room and Kevin Freeman's books outline what the Chinese have called their Unrestricted Warfare strategy, raising awareness on these issues.**

- » Still, too many Americans are unaware that program of warfare waged against us using economic techniques and political instruments, information operations and subversion, technology theft and more.
- » Kevin has shared part of the doctrine of the Chinese Communist Party going back to 1999, when two of their senior colonels wrote the book, Unrestricted Warfare.

**"What we've seen with the biological weapons attack of 2019 and right up to the present moment is, I'm afraid, proof positive of the idea that the Chinese are at war with us, are intent on achieving the ultimate victory over us, to be able to, thereby, dominate the entire world. That is their stated purpose."** —Frank Gaffney

**Conclusions from the Team B report.**

1. We must educate the American people.
2. America needs to acknowledge our failures, outline them, and create accountability.
3. We need to re-establish effective pandemic response plans following the fact that we transferred gain of function tech to China.
4. The US should stop doing coordinated research with known CCP entities.
5. We need to stop funding the CCP in our trade, spending, and research.
6. America should not surrender to capitalist global organizations such as the World Health Organization.
7. **CAUTION:** Never again let a public health emergency be used to deny our constitutional freedoms.

## Why Should You Care?

- › China is at War with America and has been for over 20 years at least.
- › We need to take seriously their statements about killing 100's of millions of Americans if they find it necessary.
- › Globalist and WOKE Corporate America continue to support the CCP in China despite their purposeful spread of COVID 19 around the world.
- › 20 years ago, a high-ranking official stated, "It is indeed brutal to kill one or 200 million Americans, but that is the only path that will secure a Chinese century, a century in which the CCP leads the world."
- › Phase one of China's bioweapons plan has been executed.

Weaponize your money toward principles that support Liberty, Security, and Values (LSV). You control your giving, spending, and investing. Nominate your financial advisor to attend our NSIC online training at Liberty University.

- **Investing.** We suggest you get a like-minded financial advisor. We've done surveys and a clear majority of investors want an advisor who matches with their political and cultural beliefs. Unfortunately, Wall Street is pushing for you to just take what they offer in order to force a leftist agenda on you.
  - o "If your advisor isn't willing to match your investments with your values, send them to us for training and education. If they won't do that, I can promise you that there are lots of other advisors looking for new clients." -Kevin Freeman
  - o If you are following Economic War Room you will be on the leading edge as it relates to global threats, geopolitical analysis, and how you can weaponize your money to strengthen America. Your money, livelihood, and way of life are at risk and these tools are designed to mobilize America to protect their economic liberty.

In the **Economic War Room**®, we encourage Americans to be the "small ships that make the difference." You cannot solely rely on the government or the president to solve America's problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The small ships are based on Churchill's Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.

## **Shareable Quote:**
