

# ECONOMIC BATTLE PLAN™

10 GAME-CHANGING SOLUTIONS 6.203

CLEARED FOR RELEASE 08/25/2022 (ECONOMIC BATTLE PLAN™ POINTS: 99)

It is easy to feel discouraged with all that is happening in America and around the world. In this briefing, Kevin Freeman shares why he is hopeful for the future of America. Each of you have a part to play in making America a better place.

There is more you can do than just vote. If you're sitting around waiting for politicians to fix your problems, you're missing it. **We must get the money part right and then do our part as the small ships. Economic War Room® and the NSIC Institute was built to give "Main Street America" back its voice in DC and on Wall Street.**

"Great things are happening in the Economic War Room® and the National Security Investment Consultant Institute™. We have a new ranch and leadership facility called LibertyHawk Ranch™. We've had multiple conferences and summits so far at this beautiful place. Amazing people have been here. Dr. Ben Carson. Michele Bachmann. Frank Gaffney. Steve Bannon, Candidates for Congress. Millionaires. Billionaires. Entrepreneurs, and the amazing Nick Vujicic." -Kevin Freeman

All these thought leaders coming through National Security Investment Consultant Institute (NSIC) are concerned with protecting America's national security, our economic infrastructure, and the values of America as it was founded.

**In the Economic War Room We have created a "solutions to action" tank. We've already developed 10 unique solutions here, and we're advancing on each one of them! They're all based on these basic principles:**

- The Constitution,
- Free market economics,
- They must be beneficial for society,
- They must support Liberty, Security, and Values (LSV),
- And our overall theme is they need to be fundable by the people.

Big ideas require big funding. When we equip 10,000 financial advisors with our NSIC training, we will represent over \$1 trillion of capital focused on Liberty, Security, and Values.

But we need your help. We need you to demand your financial advisor get involved. Make sure your money is not being invested against yours and America's values.

In this briefing, we will take a closer look at 10 solutions in various stages of development to some of the biggest problems we face today. **Now, not one of us can do even one of our 10 solutions. But all of us together? We can do all of them!**

**Your Mission:** To get the money part right and be one of the small ships that helps save America! If you have a financial advisor, ask them to investigate being a part of the NSIC and our training at Liberty University.

“I’ve never been more hopeful about the future of America. We have serious problems – border, race issues, inflation, big brother. But as we learn from King Josiah from 2nd Chronicles, chapter 34, if we can get the money part right, we can tackle the big issues.” –Kevin Freeman

Ep. 6-203(OSINT) Open-Sourced Intelligence Report. This is an exclusive teaching series from Kevin Freeman. Kevin Freeman is considered one of the world’s leading experts on the issues of Economic Warfare and Financial Terrorism. He has consulted for and briefed members of both the U.S. House and Senate, present and past CIA, DIA, FBI, SEC, Homeland Security, the Justice Department as well as local and state law enforcement. His research has been presented in critical DoD studies on Economic Warfare, Iran, and Weapons of Mass Destruction presented to the Secretary of Defense and the Under Secretary of Defense, Intelligence. He has traveled extensively with research trips to Russia and China and throughout Europe and the Americas. He is also a Senior Fellow at the Center for Security Policy. Kevin Freeman is a New York Times Best Selling Author.

**1. A lesson from the Bible on Economics! Kevin Freeman shares a new revelation to him regarding money and economic truth from an Old Testament book.**

There’s a story in the Bible about young King Josiah. This guy was eight years old when he became King, and he reigned 31 years in Jerusalem. The Bible says that he was a great king in the tradition of his forebear, David. Now, his father, and his grandfather and his great grandfather, they all screwed up. They messed up the country.

But Josiah was dedicated to God, and he made the country prosperous again. Now, in the eighth year of his reign, basically when he was age 16, you know, just old enough to drive. No, no, there weren’t cars then, but he was just that young and he decided we’re going to tear down the high places of false worship. That’s an amazing thing.

And in the 18th year of his reign, he decided he's going to repair the house of the Lord. And I want to read to you from 2<sup>nd</sup> Chronicles 34:14, because it really stood out. I was in my Bible study, and this thing just lit up on the page: **"Now, when they brought out the money that was brought into the house of the Lord, Hilkiah, the priest found the book of the Law of the Lord given by Moses."**

Wow. Read that again because it is so powerful. "Now when they brought out the money that was brought into the house of the Lord, Hilkiah, the priest found the book of the Law of the Lord given by Moses." What jumped out to me is you have to get your money right before you get to the truth.

Think about what was going on at the temple. People were saying, "Oh, I'm going to give to God."

And it piled up in the temple. There was a lot of money that was brought in. But it wasn't until they got that money out, working, hiring artisans and craftsmen to rebuild the temple, getting the money moving through the community, that they were able to uncover the book of the Law of the Lord.

**NOTE: The Word of God was found when they got their money right. And it's not just 2<sup>nd</sup> Chronicles that says that. As recorded in Luke 16:11, Jesus said, "If you're not faithful with your unrighteous mammon, you will not be trusted with true riches." Until they got their money moving. Until they got their money working, they were not trusted with the Word of God.**

Luke 16:10 says, "But if you are faithful in small things, you will be set over greater things." The small thing here is money. But we must get the money right, and we haven't done that in America. Josiah ordered the money that was stored up in the temple to be put to use.

He said, "pay the laborers". That's an important theme in Scripture. If you don't pay money, if you just hoard it, you're like the rich fool who stored up all his riches. And then the Lord said, "this night, your life is required of you, fool". In economics, there's a concept called the "velocity of money."

If you don't move the money, if it's stored and kept in one place, it is useless paper or useless metal or useless something. If the velocity of money is zero, that means it's not transacting, it's not being used. The economy dies. Period. That's an economic truth.

Now, Jesus explained this in the parable of the talents. Remember He told a story of how the master came along, gave some talents to one servant. He gave other talents to another. And to a third servant, he gave one talent. And the first two did great. They went and invested. They used the money for their master's purpose.

The third servant took the money and buried it in the ground. In other words, he hoarded it. He did not get it working. When the master came back, he said, "Take it from him and give it to the productive ones." And then the master said, "I want you to occupy until I come again."

Christians quote that all the time. **"We've got to occupy till Jesus comes." They tend to suggest we have to take over the government and occupy it. But what it really means is to transact business until Jesus comes back. That's an economic truth. If we're not transacting business, the economy dies.**

It's also a spiritual truth. Now, if you're sitting around waiting for politicians to fix your problems, you're missing it. We must get the money part right and then do our part as the small ships.

## 2. You Have a Big Part to Play in Making America a Better Place.

**If you have a Financial Advisor, ask them to become part of the NSIC Institute.**

We have serious problems – border, race issues, inflation, big brother. But as we learn from King Josiah in 2<sup>nd</sup> Chronicles, chapter 34, if we can get the money part right, we can tackle the big issues.

**We have created a "solutions to action" tank.**

To date we have developed 10 unique solutions, and we're advancing on each one of them.

**Attention! We need your help to scale these efforts. We need you to demand your financial advisor get involved.**

"I get a call or an email or something every week saying, "My advisor doesn't want to help me with this. They don't want to do this." I want to tell you something. This your money. It's not their money. If your advisors **are not willing to help you** weaponize your money for liberty, security, and values, **FIRE THEM.**" –Kevin Freeman

- Find a new financial advisor, if you have one, send them to us and let them know about the NSIC Institute.
- If you do not have an advisor and need one, ask us for who's gone through the training. We're not recommending any advisor and we're not recommending any investments.
- **We want you to find the right advisor to help you.**

---

"Now, not one of us can do even one of our 10 solutions. But together, all of us can do all of them." -Kevin Freeman

---

### 3. 10 solutions for America being developed at our "Solutions to Action" Tank!

#### 1. Close the Wealth Gap!

You know what the wealth gap is? The rich get richer, and the poor get poorer.

The American system was not designed to just benefit the rich and hurt the poor. In fact, it was designed to have upward mobility where people could go from poverty to the middle class to the upper class.

And Ben Carson, perfect example of that, grew up in poverty with a single mom. He couldn't even read. He was a poor student. But he learned to read. And he gave his heart to Christ, and he has excelled in life as few humans have ever done.

Now we have a lot of good investment ideas, but a lot of people can't participate. We've got to solve that. That's one of our top problems to solve, is solving the wealth gap.

#### The Situation:

It used to be that problem was solved because you could either start a company, you could go to work for a startup and earn great rewards, or you could just invest in somebody that started something.

The problem is that today in the investment market, the best ideas are already taken before they get to where the public can invest.

- There's private investing and public investing.
- Private investing is limited to the wealthy. And the best ideas are called "Unicorns."

The private markets make as much as they can, and then they sell them to the rest of us, ordinary folks at inflated prices in the public markets.

Kevin Freeman shares examples of how this wealth gap is happening. A look at Uber vs. Amazon.

### Uber

Uber, it's a great idea. It's ride sharing. I mean, you pick up your phone and you can say, "I'm here," and they'll locate you, and you can find a trusted driver, you know, who's going to drive you where you need to go. You know what kind of car you're in and the license plate, and you can tell them where you want to go, and they'll tell you exactly how much it costs. And they'll tell you how long before you will get there. Infinitely better than a taxi experience. This company came public three years ago at \$45 a share.

You think, "What a great idea. I'm getting in at the ground floor." You know what? It recently traded below \$20 a share. In other words, you invest in this great idea, and yet all the cream was gone by the time it got to you, it was a multibillion-dollar idea.

**It's IPO evaluation was at \$8.1 billion, and yet over half its value was lost in the markets at the lows because it came out after all the cream was taken.**

**Amazon**

Now, compare that with 25 years ago when Amazon came public, and it came public at \$18 a share. Now it split its stock 2 for 1, 2 for 1, 3 for 1, 20 for 1, things like that.

Well, the actual cost, if you bought shares and you bought one share at \$18, you would have actually paid the equivalent of \$0.075 per share. That's the split adjusted price.

And Amazon has traded \$188 a share in the past year. It's over \$100 today.

“Don't you wish you could have invested in Uber at the very beginning like that? It used to be you could participate, but all the great gains seem reserved for the rich. No wonder there's such a push to socialism.” - Kevin Freeman

**The Reality: The system seems rigged. But don't throw out the system. Get rid of the rigging.**

**Our first solution is the NSIC Institute with a trillion dollars of investor capital represented by like-minded financial advisors. If we achieve our targets in our five-year project, we're going to be able to create a foundational solution to allow the little guy in also.**

**We'll have a lot of clout in DC, with the SEC and others. This a foundational solution. It's the King Josiah story, getting the money moving and spread out to the people, and that's going to help us enjoy the prosperity that we see for America.**

## 2. The Digital Texan - A Digital, Constitutional State-Offered Gold-Backed Currency. It is Just Another Way to Pay!

Review our Economic Battle Plans™ [184](#) and [192](#), for more details.

- This solution addresses inflation recently reported over nine percent.
- It addresses the Federal Reserve money printing.
- It addresses the risks and violations of privacy from social credit scores and the cancel culture, and a digital dollar.

Our basic idea is that it is gold backed. It's convenient.

- It is state issued.
- It's not taxable as an investment.
- It offers privacy protections and it's an alternative way to pay.

**It's not a replacement for the whole money system. It's just an alternative for smart people who want to take advantage.**

The action steps we need you to do to make this happen.

Get educated, watch these episodes, and read the Economic Battle Plans™.

**We need to begin the dialog and you need to start spreading the idea. We need to get legislation passed in Texas and then eventually every state.**

We had a summit on technology, legislation, gold supplies, and promotion messaging at the NSIC Institute. We're in progress on this, but you are one of the small ships that can make a difference. It is time to get up to speed on this. Study the episodes, read the Economic Battle Plans and learn how you might take action.

## 3. The Border and Immigration Problem – Real Solutions!

We have drugs coming across our border. We have potential terrorists coming across our border. We have voters coming across our border that they're being trained to vote progressively.

### What's the solution?

**First, we should declare it as an invasion.**

**In the Constitution, it says that a state can't field an army unless it is being invaded.**

- We've done an episode on this. We talk also about using border cameras and reality television. Imagine that. We put cameras on the border and then we put it out so everybody can watch it.
- And when they see someone illegally crossing, they can send it in to a tip line that would automatically be distributed to the sheriff or to the army to know that an invasion is taking place.

**Second, States could have their own border Army to stop the invasion.**

- And by the way, Texas, on the Texas border, could have its own army or New Mexico on their border, or a compact of states if we have actually been invaded.

"The way that we get that is a Supreme Court case. We've outlined this. I've talked to senior people, including Louie Gohmert recently. They love it. We're talking to Oklahoma to maybe sue Texas, to say, "Hey, protect our border." And Texas responds, "hey, we're being invaded." The Supreme Court settles the case with a decision that there has been an invasion and the states get to field an army. It's a beautiful idea." -Kevin Freeman

#### **4. Restoring America's Culture. Rethinking Entertainment.**

We've talked about this before. Upstream of Politics is Culture. You know the politics that says Roe v Wade or not, all of that is driven by something called culture. And upstream of culture is something called entertainment.

**What entertains us determines our culture and our culture determines our politics.**

We have been focused on this in the Economic War Room®. Soon we're going to be leading a summit on it.

Thought Leaders that have already been in the Economic War Room:

- Kevin and Sam Sorbo, great filmmakers, beautiful, wonderful people.
- Matt and Joy Thayer, recently in episode 195, talked about how they're developing media entertainment that will influence the culture.
- What if you and the free market got to decide what entertainment was produced rather than six Hollywood executives who are trying to control what you think and what you feel? That's a better idea than Netflix, isn't it? Yes. And Netflix was one of those great investment opportunities. What if we were creating one? It's revolutionary. It's potentially investable. It's early stage, but it has great promise. And we did a show on that with Marcus Pittman, and we explained just how that could be done.

**5. The Energy Problem.**

There are a lot of issues here. Grid security, energy production, available supply with a green energy push.

We need a solution for the grid. Resiliency is possible. And we've done multiple shows on this.

- One of them is a documentary that was produced by our friend David Tice, "Grid Down, Power Up." That was episode 186. You can watch it, share it, and get action from that.
- We have legislative action suggested in episode 196. We've talked about energy production and defeating Biden's policies in Episode 126.
- We're talking about investing in pipelines, production. Then we add electricity from space. It's episode 160 with Lieutenant General Kwast. That is a great potential solution.

- We've also had a solution to the water crisis, again with General Kwast, where you can get water from air.

Did you know there's 37-and-a-half million, billion gallons of water in the atmosphere? If you could harness that water, you could solve the water problem anywhere in the world, including desert climates. Because this a new technology, it takes advantage of temperature differential rather than just automatic cooling.

“Water from Air - This a new disruptive technology. It may be commercial soon. We're going to be testing it at the Liberty Hawk Ranch. We've already put a deposit down so we can.” -Kevin Freeman

The above are five of the best solutions, things that you could invest in or encourage or support in some way. We don't trust the big elitist think tanks. We think we need to have a “solutions to action” tank. That's the NSIC Institute, and you can help us with that.

## 6. Stopping the Cancel Culture – Developing Parallel Systems.

**Alternative Banks** - Our good friend Nick Vujicic got debanked (meaning his bank told him to get his money out and not to come back). This guy is the last person you would ever expect to get debanked. But he believed in pro-life causes, and so they just cut him off. You can't raise money, you can't take donations, you can't do this. So, Nick and his partners are creating alternative like a pro-life bank. We need that.

- Where you can't be cut off because you have different political beliefs from the progressive left.
- We need alternatives to Google because Google is giving us only the search results that they want us to see, not the truth.
- We need alternatives to social media.
- We need alternatives and secure infrastructure so that we don't get cut off by Microsoft or these big corporations trying to prove how woke they are.

We're working on all of these and they're all investable opportunities, and we're going to bring them to you one by one by one as they come available.

**ATTENTION:** We don't recommend investments. We recommend you get a good investment advisor, and we recommend that your investment advisor reflect your values. And if your values are liberty, security, and Western civilization, Judeo-Christian values, you should send them to the NSIC training and the NSIC Institute.

That's where we're going to enlighten a massive pool of capital to take back our country and to make it a shining city on a hill for people around the world.

**7. Educate and Expose - Look for Kevin Freeman's new book "According to Plan."**

Foreign and domestic "elites" are working to weaken America. What is happening in not incompetence, but intent. What you see happening around you is *According to Plan*.

**PRE-ORDER YOUR COPY**  
AND GET A SECOND BOOK **FREE!**

**LIMITED TIME OFFER**

AccordingToPlanBook.com

We have taken an unflinching look at the crises facing America unearthing long obscured historical evidence and links to current events in shocking truth.

Pre-order the book now at [www.AccordingToPlanBook.com](http://www.AccordingToPlanBook.com).

- The book will be out in October, and we are briefing candidates about these problems and solutions.
- We are outing those attacking your values, that are going against what's right.

### 8. Election Integrity.

You can refer to our previous episodes and Economic Battle Plans™ but ensuring every legal vote counts is important and should matter to every American.

"We denounce the January 6<sup>th</sup> violence but come on. All these hearings, we're having hearings on grandma and grandpa who walked around in the Capitol, and they're being thrown in jail. And yet with Hunter Biden, we have on his own laptop that he gave up willingly and is now available in the public domain and allegedly he has committed multiple crimes. But the fact is, he looks like he's smoking crack and using prostitutes and cutting deals that are horrible deals for America and somehow benefit his dad. All these are bad things. We're not having hearings on that? You want to talk about grandma and grandpa walking in Statuary Hall? Look, we need to have clean elections and we need good people in Congress. So, we have strategies that we're working on behind the scenes, on litigation, on education." –Kevin Freeman

Also, thanks to "2000 Mules" and Dinesh D'Souza, who exposed a real problem. Good work, Dinesh! Fabulous movie. I encourage you to watch it. It doesn't answer everything, but it does expose a problem. We need to encourage citizens to get educated and to participate and ensure America has fair elections.

We are making some progress with Election Integrity. Look at that recent Wisconsin ruling where they said that they will not allow unmanned ballot drop boxes. It's unconstitutional. That proves that an impact is being made.

As it relates to voting, we encourage all to educate, inform, stand up, and have poll watchers. That's one of the solutions. Because if we can't take back Congress and we have a bunch of people ignoring the Constitution, we'll have real problems.

"There is good news, it sure seems as if we have the right Supreme Court ready to rein them in." –Kevin Freeman

## 9. The Need to Reign in Congress, the Administrative State, and the Bureaucracy.

**The Problem – The Administrative State has almost dictatorial power over the elected officials representing us.**

Since the 1970's, even if we elect the right officials, they get told almost immediately why what voters want cannot be done.

Bureaucrats come in and say, "well, you know, we're not allowed to do that. You know, we have to do this at the EPA, and we have to do that." If elected officials say, "Well, I'm trying to limit you." The response is, "No, no, no, no. This the way that we do things." They educate the congressmen, and they sway them.

---

**There is Good News!** There is a recent ruling in a case, **Jarkesy vs. the SEC** in the Fifth Circuit, which essentially said that:

**We don't allow Congress to delegate to the SEC the authority and the power to make up laws:**

- **Then act as cop and go and arrest people,**
  - **Then go beyond that and become the prosecution and the judge of the case.**
  - **And then go beyond that and be the jury of the case and sentence the punishment.**
- The Court didn't allow it because the Congress should not be delegating their authority to an agency that's not accountable to the American people in the executive branch. But that's doing legislative, judicial, and executive functions.

- No, they shouldn't be allowed to do that. And not only did the Fifth Circuit rule that way, but it is also now going "en banc," which means it's still being considered. We need to pray over that case.

**The Supreme Court also ruled that the EPA does not have delegated authority beyond our lawmakers' specific intent.**

- The EPA said, "hey, our job is to regulate these things. Congress gave us a mandate. Oh, by the way, greenhouse gases, those look like a problem. Therefore, we're going to regulate greenhouse gases."
- The Supreme Court of the United States said, **"no, you've not been delegated that authority." They can't be a cop, who makes up the law as they go, then be judge, jury, and executioner.**

Economic War Room has communicated with some of the top lawyers in the country on this topic. It's revolutionary. It's bigger than Brexit from Brussels.

## 10. The Coming Food Crisis.

Refer to our Economic Battle Plans™ and episodes [191](#) and [194](#), plus our special episode we did in 2020 with [Mitzi Perdue](#).

- We know there's a food crisis. Some of it may be manufactured but it seems like a perfect storm is brewing.
- We need to find solutions together and be prepared.
- The NSIC Institute and everyone working together can produce proactive solutions to minimize these threats and ensure their community is prepared.

**In addition, to the 10 solutions above we are working on efforts related to supply chain issues, the China threat, education, and racial issues.**

The key for us in each area is to study it, to help develop real solutions, and to provide guidance where useful. Ultimately, we need God's guidance, and we believe He is bringing people and solutions together.

"We're going to do our work, seek momentum through prayer, and leave the results to God. We're not in an elitist think tank. We're a populist 'solutions to action tank,' working with brilliant people." –Kevin Freeman

*"You've all heard me tell the Dunkirk story. It started with a crisis and there were over 300,000 men trapped in an impossible situation. But because of prayer and because of the hard work of the small ships, those men were rescued, and Western civilization was saved. I have never been more hopeful about our country. And that includes when President Reagan was elected. I thought that was great. And when President Bush ousted the Clinton reign, I thought that was going to be great. And then President Trump.*

*But you know what? We're in a more hopeful situation than even then. We have huge momentum, but we need your help. We need you to weaponize your money, according to Luke 16:11, and then we need to all get to work."* –Kevin Freeman

## Why Should You Care?

- There is hope! God is bringing together great people and solutions together for such a time as this. Working together we can make a difference.
- The Economic War Room/ NSIC Institute's solution action tank is working on some of the critical issues facing America, and you can join us in being one of the small ships to make it happen.
- If any of the 10 problems and solutions we addressed above have your attention, there is a reason you are reading this Economic Battle Plan™. Join us as one of the small ships.

### Your Action Steps:

1. Reach 2<sup>nd</sup> Chronicles 34 and ask how that might apply to your life and actions.
2. Sign Up Now for your copy of *According to Plan* and share this with others at [www.AccordingToPlanBook.com](http://www.AccordingToPlanBook.com). (for a limited time buy one, get one free!)
3. November elections are critical, pay special attention to everything that is happening in this area. Review our previous briefings on this topic.
4. If you are new to the Economic War Room, get up to speed on the episodes an Economic Battle Plans™ referenced in this briefing, working together on solutions that support Liberty, Security, and Values. We will make a difference in America. Be sure to sign up for our weekly episode and free Economic Battle Plan™.
5. It is time to weaponize your money, see below as it relates to finding an NSIC advisor.
  - A. With market uncertainty is it important to have a financial advisor the understands the geopolitical landscape. If you have a financial advisor, now is a good time nominate them for the NSIC Institute and our 'solutions and action tank.'
  - B. Make sure your financial advisor has your values and interest at heart. Make sure they really understand what ESG investments mean for our future. Suggest that they become part of the NSIC institute and nominate them to participate in our online certification at [EconomicWarRoom.com/advisor](http://EconomicWarRoom.com/advisor) . Our next NSIC classes start in October at Liberty University.
  - C. Financial Advisors go [www.NSIC.org](http://www.NSIC.org). Be sure to sign up for more information at <https://www.nsic.org/nominate.html>

**If you do not have a financial advisor**, now is a good time to get one. We will publish a list soon of NSIC advisors who have participated in the training and elected to become part of the NSIC Institute.

**Join us weekly in the Economic War Room®**. We are building new solutions with thought leaders that come through our doors every week. Understanding the geopolitical landscape and threats against your money, your livelihood, and your way of life will allow you to be better prepared as the Great Reset is waged against America. Be sure to sign up for our weekly updates at <https://www.economicwarroom.com>.

**ATTENTION: Again, if you have not contacted your financial advisor, it is time to make it happen! If you don't have an advisor, it's time to consider getting one.**

Weaponize your money toward principles that support Liberty, Security, and Values (LSV). You control your giving, spending, and investing. Nominate your financial advisor to attend our NSIC online training at Liberty University.

- **Investing.** We suggest you get a like-minded financial advisor. We've done surveys and a clear majority of investors want an advisor who matches with their political and cultural beliefs. Unfortunately, Wall Street is pushing for you to just take what they offer in order to force a leftist agenda on you.
  - o "If your advisor isn't willing to match your investments with your values, send them to us for training and education. If they won't do that, I can promise you that there are lots of other advisors looking for new clients."  
-Kevin Freeman
  - o If you are following Economic War Room® you will be on the leading edge as it relates to global threats, geopolitical analysis, and how you can weaponize your money to strengthen America. Your money, livelihood, and way of life are at risk and these tools are designed to mobilize America to protect their economic liberty.

In the **Economic War Room®**, we encourage Americans to be the "small ships that make the difference." You cannot solely rely on the government or the president to solve America's problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The small ships are based on Churchill's Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.

## Shareable Quote:

**"We must get the money part right and then do our part as the small ships."**

-Kevin Freeman, CFA
