

A Serious Threat to Democracy, Our Children and Our Minds

Submerged in the layers of the internet, Big Tech companies are influencing minds and manipulating voters in ways that threaten democracy and autonomy. They have unprecedented power to sway elections without any accountability. Do you want Google, Facebook, Twitter, or other Big Tech companies to choose our next elected officials, advance laws that oppose your deeply held values, or interpret right and wrong for your children?

In this briefing, Dr. Robert Epstein joins Kevin Freeman in the Economic War Room® to peel away the hidden layers of the internet. Dr. Epstein will reveal the incredible power Big Tech companies command, especially Google, and how they are abusing their formidable influence across the U.S. and everywhere people have access to the world wide web.

This may be one of the most important Economic Battle Plans™ that you read. In this briefing, you'll learn about:

- The manipulative science behind technology and how it is influencing people everywhere.
- President Dwight Eisenhower's frightening prediction that is wreaking havoc today.
- Whether or not Congress will help protect us against the technical elite that are not accountable to anyone.
- A fortified defense plan that will boldly defend our privacy and democracy.
- Weaponizing your money to take back our republic.

YOUR MISSION: To see through the hidden manipulation of big tech companies that are quietly manipulating the way we think, act, purchase, and vote.

- Fight for our democracy and privacy by supporting the National Digital Shield, go to MyGoogleResearch.com.
- Start protecting your privacy by going to MyPrivacyTips.com.

It's time to join forces to defend our country, our families and ourselves from the left's serious distortion of the truth.

 **ATTENTION:** The Internet is dominated by big tech monopolies that can control 3.5 billion people around the world without any accountability to the public. The biggest of those monopolies is Google.

Ep. 6-214 (OSINT) Open-Sourced Intelligence Report. This briefing includes conversations with Kevin Freeman and Dr. Robert Epstein. Dr. Epstein is a senior research psychologist at the American Institute for Behavioral Research and Technology, AIBRT. He's the former editor-in-chief of *Psychology Today* magazine, a PhD of Harvard University, has published 15 books on artificial intelligence, creativity and other topics, as well as more than 300 scientific and popular articles. Dr. Epstein is a co-laborer for truth and liberty. Dr. Epstein has been featured in every major form of media and recently appeared with Tucker Carlson.

1. A scientific approach to election issues, the role of technology and how it influences people.

As a doctoral student of B.F. Skinner, Dr. Epstein explains what Dr. Skinner would have thought about the influence of technology on modern society, including election anomalies and manipulation.

- » Dr. Skinner was fascinated by the concept of control. He thought people are always controlled, whether they know it or not.
- » If people are always controlled, should we try to create a world in which smart people control the rest of us in a benign fashion?
- » **Dr. Skinner would have been outraged and appalled to see what has occurred in the 30 years since his death, because of the internet.**
- » The Internet is dominated by essentially two monopolies that have the ability to control 3.5 billion people. One of those monopolies is Google.
- » Skinner would have been so upset because he did not intend for control to be in the hands of corporate executives who are not accountable to the public. And that is where we are today.

By Simply reporting on the data above, Dr. Epstein has taken heat from friends, the Hollywood Establishment, and the Corporate Elite.

“They largely left me alone until 2019 when I testified before Congress. And since then, I would say my life has been turned into a kind of a living hell. There are definitely some very powerful corporate executives – probably the most powerful corporate executives in the world – who are very unhappy with me and the kind of research that my team does and the kind of monitoring systems that we have developed to track what these companies do.”

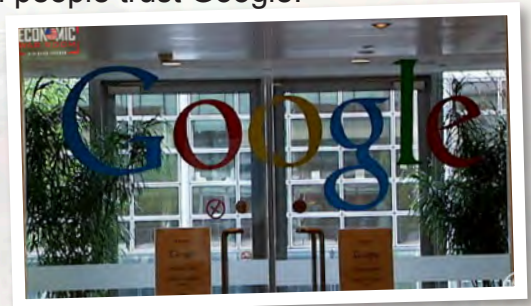

—Dr. Robert Epstein

There is overwhelming evidence that Google and other tech companies are a serious threat to democracy, our children, and our minds.

- » Since 2013, Dr. Epstein has been conducting controlled experiments which adhere to the very highest standards of scientific rigor. The experiments clearly show the power that companies, like Google, shift opinions and purchases and attitudes and beliefs and votes without people knowing, and for the most part, without leaving a paper trail for authorities to trace.
- » The first technique discovered is called SEME, which stands for Search Engine Manipulation Effect. This is when, say Google, shows search results that have a bias and favors one candidate higher than others. This can easily shift the voting preferences of **undecided voters**, not the committed people, by 20 percent or more. That's after just one search on Google. That's how much people trust Google.
- » Up to 80 percent in at least one demographic group shifted the farthest – **moderate Republicans**.

NOTE: According to Epstein's research Moderate Republicans seem to be the weakest link in our democracy because they're so easily manipulated.

LESSONS IN HISTORY:

President Dwight D. Eisenhower's Frightening Prediction.

"In the councils of government, we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military-industrial complex. The potential for the disastrous rise of misplaced power exists and will persist." —President Dwight D. Eisenhower

Eisenhower's Farewell Address (<https://www.archives.gov/milestone-documents/president-dwight-d-eisenhowers-farewell-address>)

"He [President Eisenhower] also warned in that same famous speech about the rise of a technological elite. That's his term, "technological elite." They could control public policy without our awareness. I have a chapter that's being published soon in a book by Hillsdale College called "The Technological Elite Are Now in Control." And indeed, they are." —Dr. Epstein

"Yet, in holding scientific research and discovery in respect, as we should, we must also be alert to the equal and opposite danger that public policy could itself become the captive of a scientific-technological elite." —President Dwight D. Eisenhower

2. Revealing the sinister actions of technological elite. It appears the technological elite are now in control.

- » The world is beginning to see the actions of the technological elite from experiments Dr. Epstein's team (AIBRT) has run, including the immense power that big tech companies have.
- » In 2016 AIBRT built the first ever system to track what these organizations are showing to real users, real voters.

AIBRT's system is disclosing how big tech companies are showing people

- Biased search results.
- Biased videos on YouTube.
- Biased "Go Vote" reminders in the way they and many other political messages are sent.

They are blatantly doing this because they're unregulated. There are no constraints on what they're doing.

NOTE: All of Dr. Epstein's findings have now been confirmed by whistleblowers – people who left the company, and by leaks of emails, documents, videos, etc.

WARNING- This is mind control influencing the election.

“This looks like the most blatant form of mind control, at least to manipulate elections and control behavior. I think this is one of the most shocking findings of psychology in years.” —Kevin Freeman

The internet is a force multiplier as it relates to manipulation. It may be the biggest findings in psychology in over 100 years. Not a single person suspects they are being manipulated.

“One thing we've learned is that some of these new methods of control have been made possible by the Internet. They are some of the largest effects ever discovered in the behavioral sciences in the last century.” —Dr. Epstein

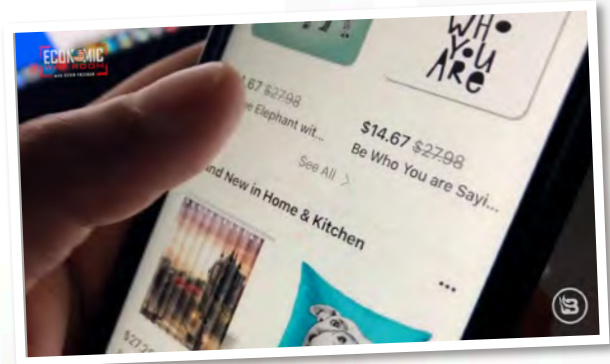

- » People have been studying influence and how to influence people in psychology for a century.
- » Some of the methods discovered over the last ten years have been made possible by the Internet and show just how shockingly powerful big tech companies are.
- » One method is called Opinion Matching Effect (OME). With this technique, shifts in voting preferences can be produced among undecided voters of between 70 percent and 90 percent with just one manipulation.
- » The thing that's really shocking about OME is – not a single person in any of the experiments even suspects that they're being manipulated, not even those who are seeing biased content. In other words, it's a perfect form of manipulation.

Big Tech Exclusively Controls This Manipulation.

- » Unfortunately, these new methods of manipulation are exclusively in the hands of big tech monopolies. This is new for humanity, because normally, if you want to support a candidate, you put up a billboard, then I put up my own billboard. You buy a TV commercial, then I buy two TV commercials.

- » If a platform like Google wants to support a candidate, a cause or a party and they use all these new techniques, these tricks, guess what? There's nothing you can do. You can't counteract what they're doing because they ARE the platform.

“This is an in-kind contribution by big tech corporations at a level never seen before, far exceeding the limits that we allow people to contribute to a campaign. And obviously more effective than any billboard or advertisement that they could run.” —Kevin Freeman

A new form of in-kind political contributions brought to you by Google and others?

- » No one has tested that legal theory yet, but Dr. Epstein is working with a number of state attorneys general and with members of Congress who are chomping at the bit.
- » They're dying to test out this legal theory, and that could get these companies into serious trouble.
- » It might be the campaign finance laws that finally stops these people from seizing our democracy.

3. Will Congress help protect us against the big tech companies? It is not likely, unless we stand together and hold them accountable.

- » According to Dr. Epstein there were some members of Congress who understand what's going on. Certainly, Senator Ted Cruz understands. Ben Sasse understands. There's even a Democrat, Blumenthal from Connecticut, who gets it. But most of the members of Congress who were at the hearing or talked with Dr. Epstein before and after, really don't understand it all. They don't get it.
- » The Democrats in Congress, they're all getting money, big money from Google.
- » In 2016, Hillary Clinton's biggest donor was Google and Google's parent company called Alphabet.

- » Her chief technology adviser was a former Google official. The CEO of Google at that time offered in writing to run her whole tech campaign.
- » We have a problem in that the Democrats are very much in the pockets of these big monopolies.

The Problem:

- Democrats will not act to help America. They are the beneficiaries.
- Republicans just don't like regulation.

We've got a tough problem in the U.S. in that this is not being addressed!

It's hard to imagine how our officials are going to swoop in and help us and rescue not just our democracy, but our children.

It's important that you know that Dr. Epstein doesn't come from a Republican point of view. In fact, he's not a Republican. Instead, Dr. Epstein's approach is from a scientist who loves our democracy and loves liberty. He himself is a democrat and was a Clinton supporter.

"I love democracy. I love America more than I love any particular party or candidate. That's what it comes down to. That's the way we all should feel. We all should pull together in trying to look for serious threats. They're controlled by corporate executives, not accountable to the public. And you can't counteract what they do, and they can shift votes by the millions." —Dr. Epstein

4. The Threat is Serious and Real!

Dr. Epstein explains how deep and widespread the threat is that America's facing:

- » *We have a thumb right now on the scale. It's the biggest thumb that's ever been on any scale in the history of humankind.*
- » *Big tech monopolies are impacting not just our elections, but elections and people's thinking and children's thinking around the world. That's never happened before.*

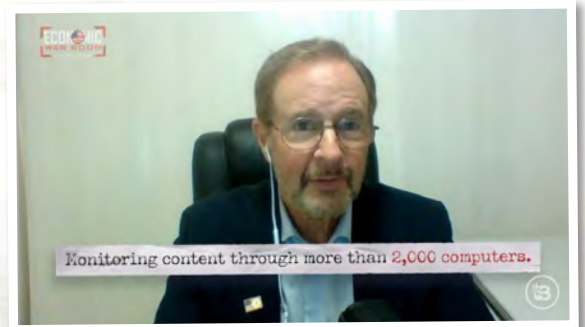

- » *What's sad is that my team and I are the only group in the world that is documenting these new forms of influence. We have developed a way to track and monitor and see what these companies are actually doing. We're the only ones doing that.*
- » *I hope people will get the message because people tend to just go back to their computers and there are all these services that seem "free," like Gmail and Google Search Engine and Chrome, which is Google's browser, and Android, which is Google's operating system. It's all free, free, free, free, free. But it's not really free now. We're paying for it with our freedom.*

“See to it that no one takes you captive through hollow and deceptive philosophy, which depends on human tradition and the elemental spiritual forces of this world rather than on Christ.” (NIV, Colossians 2:8)

5. Google and the gang have captured democracy. Do we have a fortified defense plan to fight back?

Dr. Epstein tells about the impact of monitoring the 2020 election, and how you can even turn off Google or get them to turn themselves off if you're paying attention.

- » *In 2020, we had 1,735 people we call field agents in four swing states. With their permission, we installed special software on their computers that allowed us to look over their shoulders electronically when they were doing anything that was election related before the 2020 election. We were able to collect that information instantly.*
- » *We never transmit identifying information. We were never looking at individuals, we were only looking at aggregate data.*
- » *We measured what we were seeing and found a very significant bias, liberal bias, on Google – enough to shift millions of votes. Literally enough to shift more than 6 million votes to Joe Biden over a period of months with no one knowing that this was occurring.*

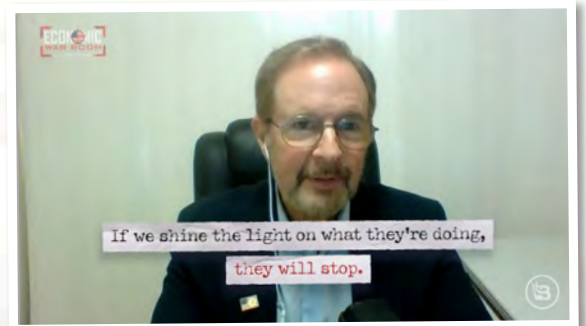

- » *The only evidence this was happening was what my team and I collected.*
- » *Usually this is ephemeral content that they're using to influence people, to manipulate people.*
- » *Normally, ephemeral content by definition is lost forever. You see some search results; it impacts you and then it disappears because it's not stored anywhere. Then it's gone.*
- » *But we were capturing that. We preserved 1.5 million ephemeral experiences and we shared that with Senator Cruz's office.*

Fighting Back

- » A letter was sent by three US senators to the CEO of Google on November 5th, 2020.
- » Instantly Google turned off all of their manipulations in the Georgia Senate (runoff) races. So, the targeted Go Vote reminders that they were sending out before the presidential election stopped.
- » Think how dangerous that is if only one party is told to go vote. Google turned that off. There were no Go Vote reminders in the Georgia runoffs.
- » They turned off the political bias and their search results completely went to zero, which we had never seen before.
- » That tells us that maybe monitoring is the clue here. If we do to them what they do to us and our kids 24 hours a day, if we shine the light on what they're doing, they will stop.
- » Of course, that's what Justice Brandeis said 100 years ago. "Sunlight is the best disinfectant."

6. A Forceful Defense Weapon – The National Digital Shield as a Potential Solution.

Dr. Epstein has raised about \$3 million this year for what he calls the world's first National Digital Shield.

- » Right now, he has more than 2,000 field agents, mainly in the swing states. That means monitoring content, online content, political content through more than 2,000 computers of real voters – moderates, liberals and conservatives.
- » Google and the other companies can't see what is being done , but he is analyzing what they are doing.

- » This year he has started monitoring computers of children with the permission of their parents.
 - His team is looking at content that these companies are sending to our kids.
 - Dr. Epstein believes they are going to find horrible stuff there – a lot of political indoctrination, some violent content, some pornographic content.
- » His goal is to have more than 20,000 field agents in all 50 U.S. states. His system will be running 24 hours a day, looking for any signs of manipulation.
- » Whenever he finds internet censorship and manipulation, he will EXPOSE it.
- » Dr. Epstein is literally taking the thumb off the scale and pushing back against these companies and once again have as free and fair of an election process as we possibly can. Not to mention, we will be protecting our kids.

“It goes beyond just free and fair elections. It goes to protecting our kids. People don’t understand how influential Google is in the classroom, how influential search engines are on children to manipulate and control society. The internet is a tool that Adolf Hitler would have loved because he would have turned out Hitler-youth all the way down.” —Kevin Freeman

Dr. Epstein’s work also includes other things like privacy, personal privacy protection, safer search engines, safer browsers, safer email, even a better phone.

7. Weaponizing Your Money to Take Back Our Republic. Consider helping with the work Dr. Epstein is doing.

In the Economic War Room®, we talk about people weaponize their giving, spending, and investing.

- » As it relates to spending. Maybe you can decide to spend your money in a different way because you’re using a different search engine.
- » As it relates to investing. There may be opportunities to invest in what Dr. Epstein is doing.
- » Your GIVING may be the one that stands out the most and how you might want to consider helping Dr. Epstein and the protection of your family.

See Action Steps below for ideas on how you can help support Dr. Epstein's research and protect your privacy.

Why Should You Care?

- » We are quietly being controlled by the technical elite.
- » Big tech monopolies have captured democracy and are blatantly exploiting it around the world.
- » Big tech elite are shamelessly unaccountable to the public.
- » Members of Congress are willing to fight for our democracy and privacy.
- » Because we can take back our country and protect our families from left wing ideology and power on the world wide web.

Action Steps:

1. Learn more about the lack of privacy and organizations tracking you on the internet:
 - a. Americans and Privacy: Concerned, Confused and Feeling Lack of Control Over Their Personal Information. (<https://www.pewresearch.org/internet/2019/11/15/americans-and-privacy-concerned-confused-and-feeling-lack-of-control-over-their-personal-information/>)
 - b. 75% of Americans very concerned about online privacy, but most don't take any significant action. (<https://www.securitymagazine.com/articles/94560-of-americans-very-concerned-about-online-privacy-but-most-dont-take-any-significant-action>)

NOTICE: ECONOMIC WAR ROOM AND KEVIN FREEMAN DO NOT RECOMMEND INVESTMENTS in our briefings or our episodes. Given the insights Dr. Epstein shared with us, you may want to do your own research and investigation or ask your financial advisor to do so.

2. Learn more about Dr. Epstein's research at MyGoogleResearch.com (www.mygoogleresearch.com).

3. Start protecting your privacy by going to MyPrivacyTips.com (www.myprivacytips.com).
4. Fight for our democracy and privacy by supporting the National Digital Shield, go to MyGoogleResearch.com (www.mygoogleresearch.com).
5. Forward this to all your friends and loved ones and get them to take action.
6. Join us weekly in the Economic War Room. We are building new solutions with thought leaders that come through our doors every week.
7. Understanding the geopolitical landscape and threats against your money, your livelihood, and your way of life will allow you to be better prepared. Be sure to sign up for our weekly updates and free Economic Battle Plans™ at <https://www.economicwarroom.com/battleplans>.
8. If you have a financial advisor, make sure they have your values and interests at heart. Make sure they really understand what ESG investments mean for our future. Suggest that they become part of the NSIC institute and nominate them to participate in our online certification (see below).

ATTENTION: Again, if you have not contacted your financial advisor, it is time to make it happen! If you don't have an advisor, it's time to consider getting one.

IMPORTANT: If you have a financial advisor make sure they are aligning your investments with your values and that they understand the economic war being waged against you. (See more on Weaponizing your money below)

9. Financial Advisors sign up for the online NSIC class at Liberty University. If you have a financial advisor make sure they see this link link:

[CLICK HERE](#)

Also, you can nominate your financial advisor to participate in the NSIC Institute at www.NSIC.org and we will reach out to them.

10. **Join us weekly in the Economic War Room®.** We are building new solutions with thought leaders that come through our doors every week. Understanding the geopolitical landscape and threats against your money, your livelihood, and your way of life will allow you to be better prepared as the Great Reset is waged against America. Be sure to sign up for our weekly updates at <https://www.economicwarroom.com>.

11. It is time to weaponize your money, see below as it relates to finding an NSIC advisor. **We are in an economic war, as you seek ways to Weaponize you Money in your Investments, Spending, and Giving, consider an NSIC trained financial advisor.**

Make sure your financial advisor has your values and interest at heart. Make certain they really understand what ESG investments mean for our future. Suggest that they become part of the NSIC institute and nominate them to participate in our online certification at EconomicWarRoom.com/advisor.

Financial Advisors go www.NSIC.org. Be sure to sign up for more information at <https://www.nsic.org/nominate.html>.

If you do not have a financial advisor, now is a good time to get one. We will soon publish of NSIC advisors who have participated in the training and elected to become part of the NSIC Institute.

12. Weaponize your money toward principles that support Liberty, Security, and Values (LSV). You control your giving, spending, and investing. Nominate your financial advisor to attend our next class at Liberty University this fall.
- **Investing.** We suggest you get a like-minded financial advisor. We've done surveys and a clear majority of investors want an advisor who matches with their political and cultural beliefs. Unfortunately, Wall Street is pushing for you to just take what they offer in order to force a leftist agenda on you.

- o “If your advisor isn’t willing to match your investments with your values, send them to us for training and education. If they won’t do that, I can promise you that there are lots of other advisors looking for new clients.” –Kevin Freeman
- o If you are following Economic War Room®, you will be on the leading edge regarding global threats, geopolitical analysis, and how you can weaponize your money to strengthen America. Your money, livelihood, and way of life are at risk and these tools are designed to mobilize America to protect our economic liberty.

In the **Economic War Room®**, we encourage Americans to be the “small ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The small ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.
