

All Enemies Foreign and Domestic— A Conversation with Lt. Col. Allen West (ret)

For thousands of years, the freedom of man has been under siege. Endowed by our creator with the capacity for freedom in every aspect of life, a foreign enemy slithered his way into our camp. Through trickery and deceit slavery and control entered the realm of man, dimming the light of liberty. Such enemies can be and have been, found in every people group throughout history as individuals have sought power and dominance to gain total control over their newfound subjects.

CAUTION: While many of these threats come from foreign sources, perhaps the most heinous attacks on liberty come from within the walls. A traitor in the midst.

- » **Today, the citizens of the United States of America face new threats.**
- » Foreign nations seek global dominance.
- » Globalist elites seek to subvert whole nations to gain absolute control from the shadows.
- » Traitors within the U.S. government seem hellbent on tearing the nation apart.

All of the above open the door for sinister agents to gain control, subdue people who ought to be free, and strip them of their rights.

WARNING: These threats are very real, and they have been happening for decades as the evil plans of would-be tyrants have played out before our eyes. In this briefing we will discuss the following:

- » Who are the foreign enemies?
- » Who are the domestic enemies?
- » The weaponizing of U.S. agencies against her people.
- » Threats to U.S. education.
- » Why we must charge forward to protect Liberty in America now!

YOUR MISSION: Acknowledge the foreign and domestic threats poised to rob you of your freedom so that you can take action to restore and protect American liberties.

ATTENTION: American liberties are being stripped away every day as our enemies act out sinister plots to overthrow constitutional rights and gain control of the people.

Ep. 6-230 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Lt. Col. Allen West. Lt. Col. West is a friend of the Economic War Room® and a patriot.

Lt. Col. Allen West (ret.) is the Executive Director of the American Constitutional Rights Union and ACRU Action Fund. He is a constitutional conservative, combat veteran, and former member of the U.S. Congress. Lt. Col. West is the third of four generations of military servicemen in his family. During his 22-year career in the U.S. Army, Lt. Colonel West served in several combat zones and received many honors, including a Bronze Star, three Meritorious Service Medals, three Army Commendation Medals, one with valor device, and a Valorous Unit Award. In 1993, he was named the US Army ROTC Instructor of the Year. He is also a former commissioned officer in the Texas State Guard. In November 2010, West was elected to the United States Congress, representing Florida's 22nd District. As a member of the 112th Congress, he sat on the Small Business and Armed Services Committees. West is the former Executive Director of the National Center for Policy Analysis in Dallas, Texas, and a former Director of the Booker T. Washington Initiative (BTWI) for the Texas Public Policy Foundation. In July 2020, Mr. West was elected Chairman of the Republican Party of Texas by an overwhelming majority of State delegates.

Lessons in History –

In the late 1700s, a group of thirteen colonies banded together to challenge the authority of the greatest empire the world has ever seen. With a vision of a world where every individual could live out the freedoms they were granted by God, the Declaration of Independence was signed and the war was waged.

After the successful capture of Yorktown, British troops surrendered. With their newfound freedom, these colonies made a decision that the world had not seen in centuries. Fearing that an American monarchy would end up just like the British one they had only just freed themselves from, they designed a new form of government, a Constitutional Republic. **Its purpose was to be a government of the people, by the people, and for the people.** Through many months of complicated and heated discussion, the Constitution of the United States of America was ratified and shared with the public. These deliberations were necessary, as delegates sought to eradicate the threat of tyranny in the union. To protect the people from

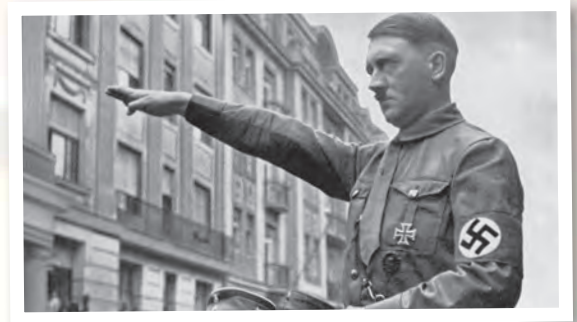

those who would seek to control them the authors were inspired to design protections not only against foreign threats, like Britain, but domestic ones as well.

They knew that future generations might forget the value of freedom and surrender it for the wily promises made by politicians who sought to seize power and subjugate the people again.

This threat became far too real during the early 20th century. In the European nation of Germany, democracy had been established. The power of the Kaiser (Emperor) had been overwhelmed and the people had a voice.

However, in the 1920s one man devised a plot to gain political power and “restore” the empire.

- » Adolf Hitler, a young soldier in the first world war, had succeeded in growing the National Socialist party (Nazi) from the grassroots level to being the major party in control. In the early 1930's he and his followers seized absolute control as he was named Chancellor for life.
- » With absolute power, Hitler ruled with an iron fist and millions of lives were lost in his campaign for global dominance.
- » Thankfully in the 1940s, Allied forces were able to overcome Hitler and his Nazi regime. The U.S. played an instrumental role in protecting democracy, not just on her own shores but on foreign ones as well as her soldiers stormed the beaches of France to wrest her from the grip of Hitler.

The question is, will America fulfill this role again in the modern era as new tyrants emerge and seek to snuff out the light of liberty?

1. Understanding Foreign Threats

CHINA

Since the fall of Hitler, and eventually the USSR, the U.S. has reigned supreme with no major threats to her security, and the world has flourished under her wings. The ideals of human liberty have spread across the world as people in many nations overthrew the tyrants of the last century and began the work of establishing governments of the people.

However, the fall of the USSR did not mean the death of communism. This evil worm buried itself and focused its efforts on regaining power in the shadows.

- » Now, the dragon looms as smoke billows from its industrial nostrils and saliva drips from the fangs of its greedy maw.
- » The newest threat to liberty is the Chinese Communist Party which has subjugated its people, violated multiple human rights, and now seeks to expand its territory.
- » The only thing standing between the CCP and world domination is the U.S., a bastion of hope for liberty around the world. For this reason, the CCP has made it their top priority to topple and dismantle the U.S. to open the door for Chinese dominance.
- » Using corporate and political espionage, the CCP is whittling away on our freedoms as they support political movements that tear the fabric of the U.S. morality that drove the establishment and protection of liberty.

RUSSIA

While no longer the USSR, the Russian Federation is still a major threat to American security.

- » Russian hackers are attacking our infrastructure, while businesses and government bodies are wielding massive financial weapons to attack our economy.
- » Heightened in lieu of the invasion of Ukraine, Russia seeks to challenge U.S and NATO control of geopolitics.

IRAN & NORTH KOREA

In the midst of such threats, two smaller nations also seek to overthrow or, at the very least, injure the U.S. Both Iran and North Korea have been developing arsenals of weapons they claim they will use to target the U.S. and her interests.

While neither nation could face the U.S. in an all-out war, they will remain a nuisance that threatens U.S. interest in their respective regions as Iran remains a serious threat to our allies and U.S. relations with other Middle Eastern nations.

ISLAMIC JIHADISM – OPEN BORDER

The Middle East also poses major threats to liberty as the rise of the Taliban in Afghanistan, after the failures of the current administration, has stripped the people there of many of their freedoms.

- » Afghanistan is not alone as Islamic Jihadism maintains much support throughout the entire region.
- » But how does this affect life here in America? With the Mexican border open and undefended by the current administration, Islamic Jihadists, like the ones behind 9/11 are able to get into the U.S. easily.
- » This threat is multiplied as Islamic Jihadist training camps have been established in Mexico and may even be working alongside the cartels to bring America to its knees.

WARNING: There are multiple enemies of freedom who seek to destroy the foundations thereof by attacking the U.S. to snuff out the light of liberty.

2. Domestic Threats

BIDEN ADMINISTRATION COMPROMISED

Perhaps more serious than these foreign enemies are the threats inside the camp. Not only has the current administration failed to uphold the vows made to protect the U.S. from all enemies foreign and domestic, but instead seems to have become an enemy itself.

“Who would have ever thought that you would have an administration that would abdicate its constitutional duties and responsibilities.” –Lt. Col. Allen West (ret)

FAILURE TO PROTECT NATIONAL SOVEREIGNTY/SECURITY

The Biden administration has failed to protect the sovereignty and security of the U.S. on many occasions.

- » Notably, the failure in Afghanistan revealed not only a lack of leadership, but a complete disregard for the consequences of action, or inaction.
- » The removal of military forces before civilians left many without protection as they sought to escape the onslaught of the Taliban.

- » Thankfully, American patriots took up the responsibility which had been abdicated by this administration and U.S. citizens with combat experience traveled to Afghanistan to help retrieve U.S. citizens who has been left behind.

UNDERMINE ENERGY INDEPENDENCE

Sadly, failure may not be the right word as it seems the Biden administration is decidedly anti-American. Early in Biden's term as president his administration shut down the keystone XL pipeline.

- » This pipeline would have ensured the security of U.S. energy. Since it's cancellation, the U.S. has been forced to secure oil through trade with nations like Venezuela and Russia.
- » This returned control of oil prices to OPEC and Russia.
- » The financial trail reveals that the U.S.' dependence on Russian oil helped fund Putin's invasion of the Ukraine, which has now cost U.S. taxpayers billions of dollars in support of the Ukraine.

HUNTER BIDEN LAPTOP

This should come as no surprise as the Hunter Biden laptop scandal has recently returned to the forefront of the news.

- » It is now clear that the Biden administration was actively involved in the suppression of the story when the laptop was discovered before the 2020 election.
- » The laptop provides evidence of Hunter Biden's shady business deals with Ukrainian businesses and multiple other incidents of corruption.

PENN BIDEN CENTER

The Biden family's anti-American actions are only further pronounced when confidential documents were discovered at the Penn Biden Center, which is known to have been funded, in part, by Chinese interest groups that likely serve the CCP.

- » **How much access the CCP has had to confidential U.S. information** is yet to be discovered.

TARGET AMERICAN CITIZENS

What's worse is this administration's clear agenda to attack and dehumanize political opponents.

- » In his September 1, 2022 address, Joe Biden stated that "Donald Trump and the MAGA Republicans represent an extremism that threatens the very foundations of our Republic."
- » Such a remark is an attempt to divide a nation and demonize political opponents.
- » These are the same strategies that were employed by Lenin in Russia and Hitler in Germany.

His ironic 'anti-violence statements' followed years of violence against pro-life advocates and centers as well as nationwide BLM and Antifa riots that left destruction in their wake. All of which his administration has supported.

ATTENTION: Instead of investigating these riots, the FBI has been used as a weapon, to repress free speech through Twitter and other social networking sites, to cover up the laptop story, to investigate Trump with the full force of the law while allowing Biden's lawyers to complete searches before they arrived, and finally to target American citizens who have supported Trump, questioned the legitimacy of the 2020 election, or oppose the political views of the Democrat party.

3. Weaponizing of the "Alphabet soup"— Our 3 Letter Agencies

Sadly it is not just the FBI but also the other three letter agencies like the IRS, which were weaponized during the Obama Administration (and they now want to add 87,000 new IRS agents and have them armed). These have been operating as a political police, much like the early stages of the SS in Germany.

- » This is not a new concept. The CIA has been caught performing research on unknowing American citizens before, like project MKUltra in the second half of the 1900s. MKUltra was a project designed to experiment in brainwashing techniques and psychological torture.
- » In 1992 the FBI was involved in a shoot out in Ruby Ridge where U.S. civilians were killed. FBI investigations into the incident have been questioned as some consider it a cover up.

- » Now, the ATF is coming after gun rights. Apparently “shall not be infringed” means something different to an agency of unelected government officials. Their new ‘rule’ is intended to prevent the spread of privately made guns or gun kits that are harder to trace.

⚠ WARNING: This is an attempt to maintain control of access to firearms and a list of names for those who do have access, an infringement on the privacy of U.S. citizens. Public servants who were meant to serve private citizens have become secret agencies that have access to all the information about citizens and rarely divulge their own.

⚠ ATTENTION: Multiple U.S. agencies have been weaponized and have turned their sights toward American citizens

While this may not seem as serious a threat now, the potential for government agents to know what weapons you have if they were to come and collect them under new gun laws is very real. The greatest threat however is the ability these agencies have to cover up information and publish propaganda to subdue U.S. citizens.

4. Total control over citizen autonomy

If U.S.-based agencies turning on the people is not enough of a threat, the policies being enacted by certain states to outlaw gasoline automobiles present a whole new danger.

- » Electric cars have computers that can be externally accessed to turn off the car. In the hands of government agencies that will use this technology to ‘protect’ Americans by deactivating the vehicles of criminals, such a tool could also be used to control the travel of political opposition.
- » Imagine you want to drive to a political rally or even to go and vote but your car has been deactivated. Or even reaching a limit on miles traveled this month and being stranded on the highway because your ‘carbon counter’ has maxed out. Such dystopian concepts are a serious possibility in the near future.

5. Open Borders

 **WARNING:** The open border leaves America vulnerable as criminals, foreign agents, chemical weapons, and many other threats pass through unchecked.

Another menace is to American security, as a multitude of enemies is able to take advantage of the open southern border with Mexico.

The current administration has been decidedly apathetic toward border policy, while their political allies have been so bold as to defend those who have abused the weakness of the border.

- » For states like Texas, Arizona, and New Mexico, this has become a major crisis as they are plagued by migrants, cartel violence, drug trafficking, and many other issues.
- » Police and Border patrol agents are regularly overwhelmed with the magnitude of the situation and the lack of resources and authority they need to secure the border and their towns.

6. Hypocrisy in Government, News, and Media

Marking each of these issues is the hypocrisy of not only the government but also news and media outlets.

- » Some of the most blatant hypocrisy comes from geopolitical conversations like the Paris Accords and the WEF. Both have been strict with the US and her citizens about green energy and the need to reduce pollution and carbon emissions.
- » However, China remains the largest polluter of the atmosphere with carbon emissions continuing to grow.
- » At the same time, WEF members who meet in Davos, Switzerland arrive in private jets and helicopters before being chauffeured to the site of their conference where they discuss the need for citizens of all nations to give up luxuries and comforts to reduce their personal carbon footprints.

THE BIG QUESTION: Why do each of them refuse to fly coach or even meet over Zoom? It is because these rules and policies do not and will not apply to them, the elite as explained in Kevin Freeman's book, According to Plan.

[CLICK HERE TO GET A SPECIAL BOGO OFFER](#)

Look at ESG:

- » The hypocrisy gets worse as movements like ESG investing encourage or even require American investors to sacrifice profits and values to further the agenda while other nations continue to refuse to align with such movements and don't even receive a slap on the wrist.

Look at the Riots:

- » **In the U.S. the hypocrisy only thickens as Antifa and BLM riots are praised as 'mostly peaceful,' while MAGA supporters are accused of the great sin of violence whenever possible.**

→ At the same time, the Elites in the U.S. dine at lavish banquets while informing the public not to use a natural gas stove.

Look at the Politics of Confidential Files:

- On the political level, Donald Trump watches his Mar-a-Lago estate get raided, without warning, on suspicion of confidential files being stored there.
- Within a few months, the FBI works in tandem with Biden's lawyers to search his property to find confidential files. The hypocrisy is clear, one party gets invaded while the other is offered a deal, and even given a heads up.

7. ALERT: The Threat of Our School Boards & The Education System

What are we really teaching our children?

“Probably the only positive that came out of COVID was that the kids were locked up in the house with the parents. And the parents looked at these online classes, and said, ‘What in the Sam Hill is going on?’” –Lt. Col. Allen West

Recent years have revealed the Marxist plot to indoctrinate children with anti-American values that undermine the moral and social foundations the nation was built upon.

- » These have primarily been teachings on LGBTQ+ material and Critical Race Theory.
- » They are designed to strip children of their innocence and their freedom to evaluate others by the content of their character instead of the color of their skin.

The education system in America has been taken hostage and is being used to indoctrinate the next generation with nonsensical ‘values’ like Critical race theory, LGBTQ+ agenda, and socialism.

At higher levels of education, socialism runs rampant as students are trained to believe that capitalism is a great evil and that America has been the center of oppression in the modern world.

Some students who were interviewed were asked what event was more impactful, 9/11 or the January 6 ‘insurrection.’ Many felt that January 6 was more impactful. The foolishness of such ideas could be attributed to inept educators or gullible students... but with vast surveys showing that college students often believe in these dangerous ideologies, it is hard to consider this to be the failure of well-meaning educators and not the intentional work of Marxists in academia.

 **WARNING:** The future of the U.S. is under attack! The communist Elite wants to be in absolute, total control. They are targeting our children, but we can save them and the future of our great nation!

If the school boards and universities are left unchecked, they will transform educational programs into indoctrination programs.

“The most important elected position in the country is the school board.” –Lt. Col. Allen West

America is a nation founded on the principles of individual liberty and freedom where the government was to be “of the people, by the people, and for the people.” This was the case throughout the Civil Rights movement as individual Americans came together to organize movements to establish and preserve the liberty of education for all Americans.

The Education system must belong to the people and should not be abused by any government, party, agency, or individual who could ever seek to indoctrinate a generation to control or subdue them.

8. Stirred from slumber – American patriots are waking up and there is a “red pilling” of liberals <https://www.thehour.com/opinion/article/Opinion-Why-I-switched-from-liberal-to-15287073.php>

Thankfully, true patriots have begun to rise up against these clear attacks on American liberty. A look at some activities popping up around the country:

- » West Virginia and other states have begun banning BlackRock investment portfolios as they have been viewed as trying to undermine our energy independence.
- » At the same time, Virginia voters turned out and Democrats lost all statewide offices.
- » Some states have even begun to push for the outlawing of electric vehicles to protect local industry and preserve American liberty. This is a direct response to states who have followed California’s lead in attempting to ban gas-powered vehicles. [EWR believes in choice, but not mandates.]
- » In the midst of all the hypocrisy some liberal thinkers have begun to see beyond the veil and are beginning to switch sides.
