

## The State of the Nation: An Inside Look

The world of politics and government has always been a confusing one. It is easy for citizens to imagine what it is like to be elected to Congress and form opinions based on those assumptions. Few people have had the privilege to walk through this experience themselves. These individuals have insight into the world of politics that might profoundly impact the way that citizens form opinions, or even vote.

### In this briefing we will discuss the following:

- » The Real World of Politics – An Insider’s Perspective
- » Chinese Communist Party (CCP) & World Economic Forum (WEF) Influence in US Government
- » Deep State & Central Bank Digital Currencies
- » Solution Ideas
- » There is Hope!

**YOUR MISSION:** Learn from a D.C. insider what the threats are to American Liberty and what can be done to save America.

**ATTENTION:** There are multiple Domestic threats to American liberty, but you can help save America!

Ep. 6-235 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Former Congressman Louie Gohmert. Louie is a friend of the Economic War Room® and a patriot.

Louie did not go to Washington to get a title and that is why to everyone he meets he is just “Louie.” What you see is what you get! Serving nine terms in the United States House of Representatives, Congressman Louie Gohmert was first sworn in January 4, 2005. He proudly represented the First District of Texas which encompasses over 12 counties stretching nearly 120 miles down the state’s eastern border. Prior to being elected to serve in Congress, he was elected to three terms as a district judge in Smith County, Texas. During his tenure on the bench, he gained national and international attention for some of his creative rulings. And he was appointed by Texas Governor Rick Perry to complete a term as Chief Justice of the 12th Court of Appeals. A favorite among Tea Party groups, Louie speaks often as a fellow Tea Party advocate across Texas and the United States. He boldly stands on America’s founding principles and is constantly coming up with big, innovative ideas solidly based on Constitutional fundamentals.

## The Real World of Politics – An Insider’s Perspective

In 1938, the popular film *Mr. Smith Goes to Washington* made national headlines as it was “Bitterly denounced by Washington insiders angry at its allegations of corruption, yet banned by fascist states in Europe who were afraid it showed that democracy works.” The film centers around a young man who is inspired by his hero to run for office and fight for positive change in Congress. After his election, Mr. Smith learns the hard way that Washington is not quite what he expected.

Mr. Smith decides to overcome the obstacles before him and stands up for what is right. He risks his own skin to speak truth and defend the values that inspired his constituents to vote for him. That was the early 1900’s, today the threat of corruption and bureaucracy has escalated to new heights. Thankfully leaders like Louie Gohmert have willingly risked their careers, spoken their minds, and fought for the American values laid out in the Constitution.

Much like Mr. Smith’s struggle with some of the other members of Congress, Louie faced off with many of the other representatives during his time in office. Through nine terms, Louie showed the American people that honest people, who truly practice what they preach, are still capable of having a great impact in Washington today. He is an inspiration for future generations of Americans.

One of Louie’s examples is of a conversation he had with Mitch McConnell where he said, “you’ve done a really good job of handling this impeachment.” To which Mitch responded, “You haven’t ever been very complimentary of me before.” And Louie said, “well, I just call ‘em like I see ‘em.”

Interactions like these were commonplace for Louie who has always spoken his mind to maintain his integrity as a man who is honest, even if it offends members of his own party.

**The truth must be told, especially in Congress.**

## 1. CCP & WEF Influence in US Government

**ALERT:** If it has not yet been made obvious, the Biden administration does not seek to preserve American Liberty. Instead, the Biden family and their associates have taken money from Chinese companies.

- » On March 16, 2023, the House Committee on Oversight and Accountability stated in a press release that evidence showed that “a Chinese company, wired \$3 million to Rob Walker’s company.
- » The next day, the company wired \$1,065,000 to a company associated with James Gilliar, another Biden family associate.
- » Afterward, the Biden family received approximately \$1,065,000 in payments over a three-month period in different bank accounts.

**“From the bank records, it appears that the Biden family received approximately one-third of the money obtained from the China wire.”**

**While this evidence may be new, there is a plethora of evidence that Biden’s decisions have aligned more with the goals and values of the CCP than those of the average U.S. citizen.**

From confidential documents being stored at the Chinese Communist Party (CCP) funded Penn Biden center, to his attempts to give away American sovereignty to the World Health Organization (WHO), Biden has consistently made decisions that would benefit the CCP, not the American people. Instead of representing America, Biden has cozied up to the CCP and sold out the presidency.

**“The Chinese Communist Party, make no mistake, they would like to see America gone, just like Putin would. So, to have a president that is leaning toward whatever it is China wants is just dangerous for this country.” – Louie Gohmert**

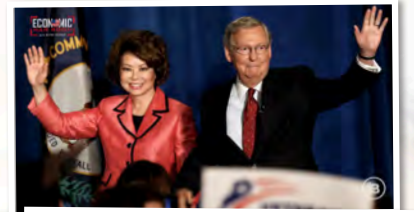

**THIS IS A WARNING AMERICA:**

Sadly, it does not stop there. According to Louie Gohmert, **“There are people in both parties that are very sensitive to what would make the Chinese Communist Party mad... and it’s doing immense damage to this country.”**

**Other members of congress have their reasons to be friendly to China. And it’s not just Democrats. This is a bi-partisan problem.**

- » Mitch McConnell’s father-in-law owns a shipping company that depends quite heavily on Chinese trade, angering the CCP could have negative consequences for the family business.
- » Former Speaker of the House John Boehner who has joined Squire Patton Boggs, a lobbying firm tied to China.
- » This has become a trend in recent years as the CCP and Chinese companies have maintained ties with former federal and state lawmakers through lobbying and public-relations firms.

**At the same time, the WEF (who threaten to shape the future into one where individuals will “own nothing and be happy”) has convinced many politicians to support their cause. They want power, and they want you serfs on their estate.**

- » They have gained leverage and their evil ESG plans have infiltrated the US financial markets and are stripping Americans of their financial liberty.
- » They invite government officials and elites to their meetings where media is not granted access.
- » Their plans don’t end with serfdom, that is where they begin... and some of our elected officials are helping them.
- » Thankfully, the WEF is upfront about who is in attendance for their annual meetings. You can read that list [here](#).

Perhaps the most heinous of all, the Thrift Savings Plan was permitted to invest in Chinese companies. This fund is made up of the retirement money of all federal workers. Under President Trump, that money was not allowed to be invested in Chinese companies.

Biden decided to reverse that decision and allow the investment of US federal employee retirement funds into a nation that has publicly stated it desires to “de-Americanize” the world. The same CCP that has funded and equipped enemies of the US in previous wars and continues to challenge US interests worldwide is now receiving investment money from public servants and soldiers who have worked to defend the US and the American way of life.

“Think about how evil that is. You take somebody that signed up for the service and is serving our country honorably in the Air Force or the Marines or the Navy or the Army. And a portion of their investment dollars is funding missiles pointed at their head?” – Kevin Freeman

## 2. Deep State Control & Central Bank Digital Currencies

**Is the threat of the Deep State real? Is it *really* as bad as people claim?**

When asked these questions Louie Gohmert responded saying that it’s “Probably a little worse. It is that bad.”

Since the events of January 6, 2021, the FBI has been weaponized against US citizens in what may be the greatest witch hunt of the modern era. American Citizens have had their doors bust down, as FBI agents rush into their homes and threaten the safety of individuals who have been accused of involvement

in the January 6<sup>th</sup> protests. They use Gestapo tactics to scare people into confessing, even if they were not involved.

“People that did violent acts or desecrated something, they should be severely punished. But for people that walk through an open door where nobody was saying you can’t

come in, and walked around and then walked out, and then they want to treat them like FBI, public enemy number one, knocking down doors, dragging them out in their underwear, grabbing the daughter and pulling her up the stairs by her hair. These stories that have come out are just outrageous. This is America!” – Louie Gohmert

Louie goes on to explain how the **Democrat majority in congress was able to push through legislation to form a bureau that has access to everybody’s bank records. The claim was that citizens needed protection from banks that might get overzealous.**

It sounds harmless, but people already had the ability to request the government investigate a bank if shady behavior was detected. The government did not need a tool for this!

This new tool grants this bureau unlimited access to citizens’ financial information without requiring a body of evidence that a crime had been committed.

- » Louie explains that during his tenure on the bench, agents and officers would have to provide an affidavit and “establish facts under oath that indicated there was probable cause to believe a crime was committed” to get access to bank records.
- » This change strips Americans of their liberty and privacy.

**ATTENTION: Unlimited access to your financial records is only the beginning. Now that the elites have gotten a taste of power by gaining access to bank records, they want to take the next step.**

**They don’t just want to see your money and how it is managed, they want to control it. They want to control how much you have, where you have it, how it is invested, and what it can be used to purchase.**

**Understanding What Central Bank Digital Currency (CBDC) really means:** (We highlighted this in [Economic Battle Plan™ 234](#) and the importance of Transactional Texas Currency. Be sure to read that [Economic Battle Plan™](#) and encourage everyone to Take Action now for Texas Transactional Currency.)

To do this they are pushing for Central Bank Digital Currencies (CBDC). The fed is officially launching the program in July 2023.

CBDCs are a new form of digital currency that are issued by a country's central bank. Here are the key takeaways from Investopedia's explanation of CBDCs:

- » A central bank digital currency is the digital form of a country's fiat currency.
- » A CBDC is issued and regulated by a nation's monetary authority or central bank.
- » CBDCs promote financial inclusion and simplify the implementation of monetary and fiscal policy.
- » As a centralized form of currency, they may not anonymize transactions as some cryptocurrencies do.
- » Many countries are exploring how CBDCs will affect their economies, existing financial networks, and stability.

**ATTENTION:** Notice the second point, **the nation's central bank would be able to regulate the currency. While the Federal Reserve already does this with the US Dollar today, it is much more difficult to control the flow of paper cash than a digital currency.**

“If we go to this form of digital currency, it means the government will be able to see and know everything you're doing.” – Louie Gohmert

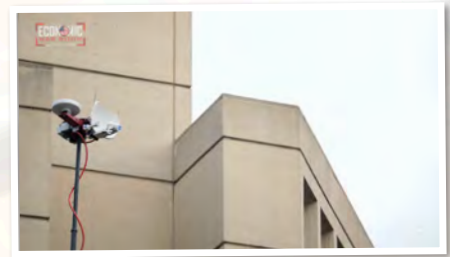

Every transaction could require government approval. With CBDC, this would be even more of a reality than it is now. The government would have control of the entire banking industry, the finance industry, and all businesses. Imagine some of the following scenarios:

**The CBDC impact on citizens.**

- » You or a family member were to say something different than the narrative put forth by the elites (like challenge the COVID vaccine), suddenly your bank accounts are frozen, and you can't purchase anything.
- » You have used up all your allotted gas miles for the month and now your money doesn't work at the gas pump. Good luck commuting to work.
- » Scariest of all, what if the elites decided you were a threat, and they changed your account balance to \$0.00. What would you do then?

**A look at CBDCs impact on business and industry**

- » The elite could manipulate the stock market by digitally printing money for certain groups to use for investment. They could also drain investor accounts.
- » They could force bank runs, drain banks of their funds, or even inflate the funds of banks they approve of.
- » If a company wants to sell firearms, the elites could deactivate or empty their accounts. In this scenario, they could not function as a business and your second amendment rights are subtly infringed.
- » The value of one digital dollar could be manipulated and changed daily as any business that refused to cater to the demands of the elites would be financially punished.

**They could take it a step further.**

- » The elites could prevent certain political parties or candidates from receiving campaign donations. Suddenly, democracy is dead and only those who obey the elite can run for office.
- » This may seem like speculation, but the CCP has already begun the implementation of their own CBDC and is using it to suppress their own citizens and maintain power.

**WARNING: There is no greater totalitarian tool than absolute control of the financial and economic standing of every individual citizen.**

### 3. Solution Ideas & How to Get Involved

CBDCs may seem like the “mark of the beast” that is associated with the end-times. Even if that were the case, we are responsible to fight it, to “not go gentle into that good night; rage, rage against the dying of the light.”

- » It is not the place of man to allow evil to fester and grow.
- » Instead, like our ancestors who came before us, we must fight to see a brighter tomorrow.
- » The next generation depends on our willingness to fight, just as we depended on those who came before us.

The world has seemed bleak before. WWI and WWII were some of the darkest times in history, yet we overcame those darkest hours. The greatest generation could have given up the fight and said, “it’s in God’s control.” Instead, they rose to the call and fought, knowing God was on their side. They understood that God intends to use us and the gifts he has given us to change the world and expand His kingdom. It can be done again, America is not too far gone for the God of the impossible.

**“Just because God’s in control doesn’t mean he wants you to lean on your shovel and pray for a hole. He gave us all tools. He expects us to use them.” – Louie Gohmert**

**Louie reinforced that all these threats can be reversed if a “courageous Republican leader” works toward reversing evil legislation, removing corrupt politicians, and establishing greater protections for the American people.**

This will require all voters to turn out and make sure corruption is voted out and integrity is voted in.

- » CBN news reported that as of 2019, 40-million American Christians were not voting in presidential elections. In a nation of approximately 350 million people, that accounts for over 10% of the population.

- » Furthering the importance of voting, only 240 million Americans are eligible to vote yet only 66% submitted ballots in 2020. This means there are currently only 158 million voters. If the 40 million Christians were to use their vote, they would make up about 20% of the votes. Imagine the impact this would have on the next election.

**Christians need to get involved and cast their votes to overcome the evils that have wriggled their way into the American government. There is hope to restore America, it is not too late!**

#### 4. There is Hope!

There is still hope. As Christians, our hope is found in Jesus Christ. See the Action Plan at the end of this Economic Battle Plan™ to learn how you can be one of the little ships that saves America.

Because Jesus Christ lived, and died, and rose again, we have hope. And as he told us, a lot of these things aren't possible. But with God, all things are possible."

– Louie Gohmert

In the 1600's settlers from Europe established the first colonies that would become the United States of America. These settlers often travelled with other members of their church congregation in search of a better life. Fueled by hope of a future they could build for themselves. With God and on their side, they overcame every obstacle and began the works that lead to the creation of a nation founded on liberty.

While there are many threats to liberty today, there have always been such threats, but American citizens have always prevailed. The darkest days in American history have also been the times where the brightest lights shown. The American beacon for Liberty is still lit. We can save and preserve this great nation and the liberty of its citizens.

**The world is watching, will you show them that there is hope?**

---

**America is a nation founded on the principles of individual liberty and freedom where the government was to be of the people, by the people, and for the people. This was the case throughout our nation's history as individual Americans came together to stand up for what was right regardless of the personal cost.**

**The government must remain one controlled by the people and not any special group who could ever seek to turn the government against the people to control or subdue them.**

---

## **WHY YOU SHOULD CARE**

- » US citizens are losing their Economic Power.
- » CBDCs might look convenient at first but will be a direct attack on Liberty.
- » Greedy elites, WEF, are taking your money to fund their insidious plans through ESG.
- » The Thrift Savings Plan is currently investing in our enemies. This must be changed.
- » 40-million eligible American Christians are not using their vote to save America.
- » Economically ill-informed Americans are supporting dangerous 'solutions.'
- » Elected officials have been corrupted and are working for the elite, not you.
- » American Innovation has declined which has weakened our economy.
- » God has given you some of His treasure with the expressed purpose of doing good.
- » Winning the Economic War of the Heart will empower you to pursue your dreams.

---

**It's Time to Light the Beacon!**

“We need to reestablish Liberty in the United States and export it to the rest of the world like our founders intended.” – Kevin Freeman

America has been a bastion of hope, opportunity, and most of all liberty to the rest of the world for centuries. Without American innovation, the world will go dark. Now more than ever it is essential that we, the citizens of this great nation, keep the beacon lit.

---

**ACTION STEPS:**

1. Elect officials who will stand up for what is right and inform these new officials that their constituents want to see major changes.
  - » The Thrift Savings Plan should not be investing in foreign nations, especially sworn enemies.
  - » Unelected politicians should have no ties to China or any other foreign threat.
  - » Corrupt politicians need to be removed and protections need to be in place to prevent future corruption.
  - » Legislation promoting ESG needs to be repealed and replaced with legislation that protects the liberty of American investors.
  - » The US government should not be involved with the WEF or any other organization with anti-American values.
  - » The private citizen should remain private while public officials should undergo the scrutiny of the public.
  - » The WTF committee is just the beginning; the government should never be weaponized against its own citizens.
  - » No bureau should have access to private citizen information without going through the proper channels in the US court system.
  - » CBDCs should not be implemented by the US government, instead greater protections for the financial liberty of US citizens should be legislated.
