

Saving America Is Not Brain Surgery

At the signing of the Constitution, Benjamin Franklin shared a cautionary and almost prophetic statement that they had successfully formed “A republic if you can keep it.” Those foreboding words entrust the protection of the American Republic to the people. It is the responsibility of the American people to preserve and protect liberty and preserve the nation that functions as a beacon of hope to the nations.

In this briefing we will discuss the following:

- » If You Can Keep It – The American Republic
- » American Cornerstone Institute – Tackling America’s Toughest Challenges
- » Executive Branch Training Program
- » Little Patriots Program

YOUR MISSION: Learn about the threats to the American Republic and what can be done to “keep it” for future generations to enjoy.

ATTENTION: The American Cornerstone Institute is developing and employing real, practical strategies to save America and preserve the key foundations upon which she was built.

Ep. 7-241 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Dr. Ben Carson. Dr. Carson is a friend of the Economic War Room® and a patriot.

Dr. Ben Carson is America’s most gifted neurosurgeon who also became the 17th Secretary of Housing and Urban Development in the Presidential cabinet during the Trump administration. After leaving the Administration, he founded American Cornerstone Institute also known as ACI. ACI is not a think tank. It is a Solutions to Action Tank which is what we aspire to be in the Economic War Room® and at LibertyHawk Ranch.

For his entire life, whether as a surgeon, a politician, a cabinet officer, or now at ACI, Dr. Ben Carson solves problems.

If You Can Keep It – The American Republic

⚠ WARNING: America has been supported by the strength of her economic systems that are beginning to show signs of weakness.

Thomas Jefferson wrote in a letter that “The tree of liberty must be refreshed from time to time with the blood of patriots and tyrants.” Generations of Americans have followed this call to serve and protect the liberty of the American people. From the field of Gettysburg to the beaches of Normandy, American blood has been spilled to keep the beacon lit so that the unalienable rights of the people shall not be infringed.

Today, an internal threat seeks to upend the republic by tearing apart the foundations upon which it was built.

The American economy and all her financial institutions are threatening collapse as inflation rates soar, banks fail, and the employment crisis continues.

“People knew that if you infused a lot of capital into an economic situation without a concomitant increase in goods and services, that you would create massive inflation.” –Dr. Ben Carson

The Biden administration has made a consistent effort, it seems, to make fiscally irresponsible decisions that have begun to deteriorate the American economy and the purchasing power of the American people.

However, these decisions only exacerbate the polluted culture of the people. **Instead of fighting for the values that made America great and inspired the creation of the freedoms enjoyed by her citizens, the modern American culture has adopted a sense of entitlement, and the insecure have wielded “virtue signaling” to cover up their lack of identity.**

Government handouts have furthered this cultural shift as the once hard-working, inspired workforce has become dull and apathetic. Many refuse to work as government handouts provide for their needs, and often, their pleasures.

The myriad of infections in the American system is a near-endless list.

“The prescription that the left has given us: higher regulation, more taxes, free money, allow the borders to be open so people can come across, we fund woke so that we tell corporations to be doing diversity, equity, inclusion instead of making money, and then we tear down the education system.” –Kevin Freeman

If these so-called ‘solutions’ were good for America, the changes would be evidenced by America’s ascension to strength, the solidarity of her people, and the influx of new, innovative technological advances. Instead, we see crime rates increasing, cities being looted and burned, and an increase in violent responses to political opposition.

The left has not provided any solutions, instead, they have poured economic and cultural sewage on America’s wounds and masked them with the scent of self-righteous, virtue-signaling perfumes. While the outside may look pretty, the inside is infected with a more dangerous disease than it had before. Greed, often attributed to the wealthy, has become a disease of the impoverished as well. Racially motivated political agendas have poised accusations and cried out for unrealistic reparations with only one intent: to make people angry. **A riled-up and angry populous will vote based on emotion and will not see through empty promises.**

Sadly, many conservatives have pointed out problems but have also failed to provide any real solutions that can be implemented at the grassroots level. However, some have.

Attention: In the midst of cultural degeneracy, there is hope. This culture war is not over, and America can be saved!

1. American Cornerstone Institute – Tackling America’s Toughest Challenges

Dr. Ben Carson and his team at the [American Cornerstone Institute](#) (ACI) have set out to provide solutions. It is easy to look at America today and find problems that need to be solved, it is difficult to find a real solution, and even more so, to act on that solution.

With immense courage, **the American Cornerstone Institute has set out on a mission to save America and the foundations it was built upon.**

“How did we go from a bunch of ragtag militiamen to the most powerful and respected nation in the world in record time? That was not a coincidence. It was because there were principles that we grasped, that guided us.” – Dr. Ben Carson

Faith, liberty, community, and life, are the bedrock cornerstones that America was founded upon. Kevin Freeman and Dr. Ben Carson explain these in the episode titled [“America’s Wake-Up Call: 6 Things to Do Now!”](#)

Now, Dr. Ben Carson and his team are actively working on practical applications and are seeing the impact through ACI.

Attention: The American Cornerstone Institute is developing real, actionable strategies to save America and restore the foundation she was built upon.

2. Executive Branch Training Program

One of the main solutions ACI has developed is called **Executive Branch for America**. This program will train new members of the executive branch to properly prepare them for their roles and responsibilities. This initiative was built based on the experiences of Dr. Ben Carson and others who have served in the executive branch themselves.

The ACI website explains that **“The Executive Branch for America (EBA) course was created to educate and provide a deeper understanding of the vast and winding maze of the Executive Branch of the United States government. The course will outline the functions, processes, and laws governing agencies to enable a private citizen to navigate and succeed in public service.”**

The goal is to:

- » Prepare people to serve or improve their current service.
- » Improve the efficacy and efficiency of government agencies and branches.
- » Prepare candidates to understand the office they are running for and how to succeed in it.
- » Train candidates to be better prepared for debates with a better understanding of the true responsibilities and limitations of the roles they are campaigning for.
- » Develop a brighter future for America where its officials are more effective in their roles.

The courses provided in the program cover a variety of topics taught by experts in each field and those who have served in the executive branch before.

Dr. Ben Carson served as Secretary of Housing and Urban Development (HUD) in the Trump administration where he succeeded in making it one of the best-run agencies in Washington. In his own words, Dr. Carson explains that “traditionally, HUD had been seen as sort of the cesspool agency with all kinds of economic and fiscal problems, and they were always talking about all these scandals. They had not had an audit in eight years. You’re required to have an audit every year, but you couldn’t do an audit because there were so many material defects.”

Dr. Carson employed the help of Irv Dennis who was able to assist in restructuring HUD and its programs so it could be properly audited and its cash flow and financial projections could be accurately tracked.

This type of leadership and strategy, that saved a broken department, is what ACI seeks to equip new conservative leaders with as they venture into the executive branch to make lasting change. **These courses are online and free of charge**, and they outline “all the things that actually go on, all the interactions, how the Office of Management and Budget works, how budgets are created, and regulations, and how regulations are created or uncreated.” Dr. Ben Carson continues, “and it allows people to hit the ground running, and actually know what they’re doing.”

3. Little Patriots Program

The American Cornerstone Institute is not just focused on the leaders of our nation, they recognize that **to save America, the next generation of leaders needs to be properly prepared to continue the work of preserving American liberty.**

The children of today are under attack.

- » They are the target of Wokeism and identity politics.
- » Every day new stories come out about teachers lying to parents as they attempt to convince children to change their gender.
- » Social media platforms like TikTok intentionally show American children useless nonsense to dull their minds instead of inspiring them to achieve greatness.

The assault on children carries over into every area of life as the Woke left seeks to ‘normalize’ lifestyle choices that are clearly not normal. They seek to overthrow the healthy cultural foundations of the US by convincing the children to believe them. The young, impressionable mind has become the battleground of modern culture.

“My biggest nightmare is to wake up and be a young person. To deal with all this stuff. Everybody always likes to say, ‘It’s all the same, it’s always been the same.’ It has not been the same. The things that our young people are bombarded with now are unconscionable, you know, from TikTok, from the Internet in general, from the classrooms, all over, they’re hit with stuff that undermines our values and our principles. And can you imagine being a very young child whose brain isn’t even fully developed yet? The brain doesn’t fully develop until the mid to late twenties. And you have this undeveloped brain being told to consider whether they feel like a girl or a boy.” –Dr. Ben Carson

The children will decide the future, that is why the Woke are so desperate to indoctrinate them while they are young so that they will be able to control them when they grow up.

One major threat is Critical Race Theory (CRT) which is being used to incite racial conflict. Instead of teaching kids to judge people by the contents of their character, CRT preaches that white people are inherently racist and black people are inherently prevented from succeeding in life by a system that works against them.

Dr. Ben Carson is proof of the American dream. With hard work, good character, and perseverance, one can succeed and become great. He was not born into an affluent family, and the culture around him said that it was nearly impossible for him to succeed. Thankfully his mother had another perspective, and he adopted it. Today many people can point to Dr. Ben Carson as the reason they are alive. His career in neurosurgery saved countless lives, and his innovative practices have become examples for new generations of surgeons.

Attention: The American values of Faith, Liberty, Community, and Life are what make room for the American dream we must preserve that dream for future generations.

Because of his experiences, Dr. Ben Carson and the ACI have developed a program to reestablish these values in the lives of American children, so that they too may experience the American dream.

The ACI team now employs their shared expertise into the training and equipping of America's children. Essential topics, like the founding of the nation, are covered thoughtfully in online programs and resources designed to be engaging and educational for young children.

The children of this great nation need to be properly educated in civics and history so they can stand up against the propaganda machines of would-be tyrants with the truth. Knowledge is power, and if the next generation is not protected from the indoctrination designed to incapacitate them, America's fate will be at risk. If we succeed in inspiring a generation with American and Judeo-Christian values, America will be saved and preserved so that future generations can experience the liberty that America represents.
