

Background Briefing – It’s No Conspiracy Theory: The CCP Is Using Your Money to Take Down America

While we are focused on COVID 19, and now racial riots, it is all being used to distract us from the real war designed to take down America. We are in an Economic War and China’s Communist Party is going for the jugular to dominate the global economy. There are globalists within the US that are happy to watch the decline of America as long as they profit. The Deep State is right in front of us, and they are controlling the money of the working and middle class to work against your values.

Your Mission: It is time to fight this economic war in the halls of Congress, and in the trading at the exchanges on Wall Street. Main street America can win, but we must move now!

“We are in an Economic War with China and they are coming for the Jugular.” –Steve Bannon

Ep. 3-91 (OSINT) Open Sourced Intelligence Briefing. This includes quotes and summaries from Kevin Freeman and Steve Bannon.

Steve Bannon is an American media executive, political strategist, former investment banker, and the former executive chairman of Breitbart News. He served as Counselor to the President of the United States and the White House Chief Strategist in 2017.

1. We are in an Economic War with China:

The Communist Party is engaged in an economic war against the West and that entails trade, Intel's technology, capital markets, finance, currency, all of it. This is the most robust area. And they're coming for us.

"Wall Street and US corporations have partnered with the Chinese Communist Party, as you (Kevin) have shown many times." –Steve Bannon

We are starting to see victories taking place:

- » **Thrift Savings Plan Executive Order**
- » **Pharmaceutical Manufacturing in the US vs China**
- » **Covid-19 bringing awareness for the need to move our manufacturing base back to the US**

CASE STUDY - We are in the same place today we were in 1938 – Steve Bannon compares history to today:

Remember, in the 1930s, we had we had the Great Depression and were trying to come out of it in 1938. We'd used all the macroeconomic tools that people knew at the time because Keynes was quite new.

In 1938, we started to go back into a kind of an economic depression. At the same time, you saw the rise of Nazi Germany, in Italy the fascists. In Europe, they started to call the bluff of the West, particularly France, England and the United States. And in 1938, after ruling Austria, they were basically going to annex Czechoslovakia. That's where Munich came from. The West blinked. We did not stand up to a totalitarian dictatorship that was on a roll.

We're in exactly the same place today. Even before the pandemic, although our economy was growing.

- » The Bank of Tokyo was near zero interest rates and negative interest rates at the European Central Bank (ECB), low rates at the Bank of England, and the whole world's economy was kind of stalled.
- » It was the United States that was the economic engine. But the United States can't have the whole burden on his shoulders.
- » China is really kind of a Ponzi scheme. It's very difficult to know what's going on there. The Chinese Communist Party is calling the West's bluff right now during this pandemic.
- » And remember, it was during The Cuban Missile Crisis, they struck at India.

The Chinese Communist Party has this attitude, if there's a crisis, they're going to do something and strike where they think there's weakness.

- » Right now, they have focused on Hong Kong, Taiwan and the South China Sea as the areas that they think they can dominate.
- » Their goal? South Korea falls, Japan falls, and they have pushed the United States virtually out of the Pacific.
- » They start to dominate the landmass, the Eurasian landmass, and they make us essentially a tributary state.

"What is going on in Hong Kong is directly related to your life. I don't care if you live in a Texas, Florida, Ohio. I don't care what your job is. If you're on a factory floor, if you're in a marketing department, you're in finance, you're a housewife or a college kid, what's going on directly affects your life because the Chinese Communist Party doesn't have a plan just for Hong Kong. Just like Hitler didn't just have a plan for Austria. They're going to try to run the tables on the West. They think we're weak." –Steve Bannon

- » The CCP thinks we're occupied by this pandemic. (And now street riots*)
- » They think we're not organized.
- » They're questioning President Trump's leadership of the West. They think that Europe is totally in disarray right now.
- » They think Brazil is on its back foot.
- » They know India's got a problem with this pandemic.
- » They want to strike and their strike in Hong Kong is not the last.
- » If we do not stand up with them and stand up to them with economic warfare, we're going to rue the day.

[*NOTE: This briefing was just prior to America's Street Riots, make no mistake the organized violence in the protest have direct communist ties and roots to China. Ask yourself why the major media networks are not covering anything on this? Do not forget one of the primary means of Unrestricted Warfare in their own words is to create "social panic, street riots, and a political crisis."]

2. We need to recognize the Chinese Communist Party as the enemy. Wars today are fought by information and by **economics.**

China has been playing this game for over 20 years, and they are all over Capitol Hill.

- » Peter Navarro and the team around President Trump had such a tough time on the trade deal. The biggest problem with the trade deal was it really come into terms of the "Chinese Congress party*." (*Chinese Congress Party = those China has infiltrated in our corporate and government systems. See Episode 90 with Trevor Loudon)

“Remember, the investment banks are really the IR (investors relations) department of the Chinese Communist Party and the corporations are the lobbyists. That was tough enough. It was fighting the Wall Street faction that is all throughout this government because Wall Streeters are the biggest donors.” –Steve Bannon

- » They are not an economic partner as many on the business channels often still refer to. As America is distracted by COVID 19, (and now Street Riots) it is important to note those distractions have been fueled by the CCP. The enemy is the Chinese Communist Party. They are helping to escalate disruption in America and other countries as well.

China is controlling the information in their own country as they conduct this economic warfare.

Example of Chinese Propaganda - Note, the picture on the right is a US protest. The picture of the left is China’s Photoshopped propaganda showing the same protesters with China flag and sign that now reads, “Help Us China.”

China has set the board for 10 years and has all the chess pieces to take every nation. Their position has been very strategic.

“They punched Australia right in the mouth, and that was to get them to back off regarding Hong Kong and the South China Sea because they’re going to be rolling their necks. They’re putting Australia on notice. If you back America, you’re going to pay a steep economic price in your lifestyle today. So, if you want to do that, fine. But understand, we’re going to change how the economy works in Australia. We’re going to change your standard of living.” –Steve Bannon

Good News – This is one thing Americans seems to be (finally) united on and that is countering Chinese Economic Warfare and bringing back our supply chain.

American Greatness Magazine run by Chris Buskirk did a poll.

When asked about bringing manufacturing back to the US, the survey showed:

- » **90% of Republicans Support**
- » **80% Independents Support**
- » **64% Democrat Support**

“The counter on economic warfare is supported like nothing else. Remember, on independents, 80% of independents with 80 percent of their support, bringing engaging in economic war and bringing supply chain back,

80% of independents don’t agree that the sun is going to rise in the east tomorrow. These are unbelievable numbers and this really what unites us as a country.” –Steve Bannon

3. Despite broad American support, there are some (the elites) that are comfortable with the managed decline of our country.

It is nationalist vs. globalist with Joe Biden representing every bad trade deal that ripped apart the manufacturing base of this country.

“This whole Kissinger/Graham Allison concept of the facilities trap where we are the declining power and China’s a rising power. **Our elites are comfortable with that because they’re making as much money on the downside as they made on the up. They don’t mind that we’re a tributary state.**” –Steve Bannon

Trump’s 2016 election was focused on **4 key initiatives**, that brought blue collar democrats and the key swing states:

- » **Trade**
- » **Illegal immigration,**
- » **The Wall**
- » **Economic Nationalism**

“All the above were important, I **believe now trade in this day and the situation with China is what made him president. And it was as important as immigration was,** and it was very important.

Those upper Midwest states came to us because working class Democrats weren’t prepared to vote for globalists like Hillary Clinton. And that’s one of the things you show on economic warfare.....

That’s a reality. It’s **no longer Republicans and Democrats. It’s no longer progressives and right wingers or Republicans. It’s nationalist and globalist.**” –Steve Bannon

Steve Bannon reviews Joe Biden's record on China:

Obama understood that China was an existential threat and assigned Biden as they pivoted to Asia from the Middle East.

A. Biden Signs a deal with China:

- The deal VP Biden led with the United States and China talked about cyber intrusions into companies and the non-militarization of the South China Sea.
- Joe Biden negotiated that deal and brags about how he held 25 one-on-one private meetings with President Xi and that the deal was signed six months afterwards.

The Results:

"We've had more cyber intrusions than we've ever had. China has been stealing more economic intellectual property than they ever had. Plus, they completely militarized the South China Sea. If we go to a shooting war, kinetic war, in the next couple of years, it'll be in the South China Sea because Joe Biden failed."

And at the same time, guess what? Surprise, surprise. His son got \$1.5 billion from the Bank of China, which is a wholly owned bank of the Chinese Communist Party. I mean, you can't make this stuff up. It's too ridiculous. Joe Biden is essentially a stooge of the CCP."

B. COVID 19 -Contrasting President Trump and Joe Biden's Response:

"When President Trump, at the beginning of this pandemic in late January, made his bold move against all of his health public official advisors, Fauci, the health czar, really all of them said, 'you can't close the borders. It's not what we do.'

- Trump shuts down the air bridge. He shuts down essentially the border of China and the United States and quarantines everybody that comes in on the very moment he does that.

- Joe Biden takes the party line of the CCP in Beijing. They called Trump a nativist, a racist, a xenophobe.

The Results:

"And Joe Biden says the exact same thing every time it matters when push comes to shove. Joe Biden always takes the party line of the CCP. And I haven't heard Joe Biden's voice out here banging on Hong Kong. I haven't heard Joe Biden's voice saying we've got to confront the CCP. I didn't hear Joe Biden coming the other day and say, yes, the Thrift Savings Plan is ridiculous to buy Chinese shares. Joe Biden is bought and paid for. "

C. But who is Joe Biden really?

"He's not from Pennsylvania. He's not Joe Biden from Scranton, He is Joe Biden from Wilmington, Delaware." **And that is the corporate headquarters of all the big globalist corporations in America. He's the senator from the state. It's basically a mail drop for all the globalists. He represents their things. He's representing every bad trade deal that ripped apart the manufacturing base of this country. He takes the CCP party line every time."**

- 4. The Economic War - The foreign money that floods the Capitol works against your interest as an American citizen.**

"The book *Secret Empires* is a must read because what Peter Schweitzer did is take the political class and looked at foreign money influences with Democrats and Republicans. He looked at foreign money that's in Washington, D.C. It will make you sick to your stomach, and you need to be made sick to your stomach."

It is your kids fighting in the military and your money that keep the system going, yet we are being lied to and stolen from every day.

NOTE: To counter this we are launching Patriot Investor training at Liberty University. This is a platform that allows main street America to work with their financial advisor to weaponize their money against these conflicting interests. 10,000 advisors and their clients could represent over \$1 trillion dollars of wealth and give main street back it's voice. [See more in point 7.]

5. The Deep State is right in front of us, and they are investing the money of the working class and middle class to work against your values.

It is time to fight this economic war here in the halls of Congress, in the trading on the Wall Street exchanges. If we start now, we can win!

The RULES that US companies must play by to do business in the US:

- » Over the last 10 years with all the regulations we have in the administrative state, we added Sarbanes-Oxley to take care of the excesses in the Internet stock market.
» We added Dodd-Frank to take care of the excesses in the financial crash of 2008. And that was all negotiated. And some people think it's reasonable. Some people think it's unreasonable. But regardless, it's federal law and you as a citizen and an entrepreneur of this country have to abide by that law.

These regulations are quite restrictive. How does it happen that the same time trillions of dollars are allowed to finance companies of our enemy? The Chinese Communist Party is the sworn enemy of free people in China, much less the West.

How do we get in a situation where their companies are financed by us and they don't even have to keep up with the modicum of regulations?

Every entrepreneur, every household understands the accounting. Just how you have to do your own budget for companies. You now have to sign under penalty of criminal prosecution that your financial statements are correct. The auditing costs have not just gone up, but it's also the operating costs, the auditors being all over you all the time.

Chinese Companies in the US do not have to follow our auditing or accounting RULES.

Chinese companies operating on our exchanges don't have to deal with the audits and regulations.

At the same time, America's pension funds, your money, your savings, your insurance policy money, your money may be flowing to these unaudited companies. The Wall Street guys are investing your money in Chinese companies.

They have the personal wealth, but they invest your money. It's the money of working class and middle-class Americans that has gone into these unaudited and regulated companies.

It was all done in the light of day. This is not conspiracy, it's just the way the system works.

"Until guys like Kevin Freeman, Kyle Bass, and Roger Robinson exposed this, no one was talking about it. We were able to stop the TSP plan, but there are still Chinese stocks in our markets that put America and our financial system at risk."

6. People are Waking up – You are making a difference and Victory begets Victory!

- » Many conservative groups now are getting woke to this.
- » There are even some Bernie Sanders' economic nationalists now. You have the American people "woke."
- » There's a reason they understand. Victory begets victory. And if we got a win there, we can get other wins. The American people see it and China is seeing it.

"What is happening is not a conspiracy. It went on in plain daylight. It's the way the system works. But we can undo that. The great news about this is, listen, they fought tooth and nail at the highest level in the thrift savings plan. They did not want that \$800 billion to go away." (Money that was going to China)

Any wonder why China would want America to collapse into “social panic, street riots, and a political crisis?” That’s straight from the book, *Unrestricted Warfare* published by the Chinese People’s Liberation Army.

Lessons in History: A previous information and economic war. President Reagan takes on the Evil Empire and shakes up the establishment thinking.

President Reagan came in the office at the time they said, “Oh, the Soviet Union’s rising, they’re the most powerful. We have to have rapprochement. We have to have detente. We have to have SALT because they’re so militarily powerful and their command economies better than ours. We’ve got, you know, 20 percent interest rates. And Jimmy Carter. The Arabs have shut down our economy.” President Reagan came and had an analysis done. It showed that their economy was smaller than California. And he responds, “This is ridiculous. I know they have nuclear weapons and they’re bad guys. But we can take this down by his defense budgets and by Star Wars, by our technology and our capital.”

Guess what? It’s an information war and an economic war.

President Reagan knew it. He kept it very simple. All these smart guys and Kissinger tried to run around and Reagan called it what it was. Reagan said, “Hey, how about this? We win. They lose.” In eight years, he took down the evil empire and he called it evil empire.

Today we are in the same CCP trap and where many have bought into the idea that we are the declining power, they are the rising power.

- 7. You have a part in making a difference, it is time to mobilize even more of the small ships!**

“All of your Economic War Room audience should just feel empowered.”

–Steve Bannon

We can do this. We can turn it around!

- » You’re just as much a patriot if you’re engaged in helping us on the information and economic warfare as earlier patriots. You’re the moral equivalent.

- Now, obviously, the bravery of Normandy and Guadalcanal, and the Patriots of the Revolution or Gettysburg can never be replaced. That was unique in that period of time.
- Also, we have young men and women today on those ships in the South China Sea, in the Hindu Kush, at the 30th parallel. They show bravery and courage every day to be part of that kinetic war.

But in this war, the economic piece and the information piece are going to be just as if not more important today.

- Hopefully, if we do our job, we will never get to a kinetic war. If we get to a kinetic war, just by definition, we've already kind of lost, according to Sun Tzu, *The Art of War*. That's what they're trying to suck us into, to get into a kinetic war over in Asia. We don't want that. We do not want our kids fighting over there."

"We need to fight this economic war here in the halls of Congress. And quite frankly, in the trading at the exchanges on Wall Street. We can do this. And if we do it, we're going to win this."

8. Patriotic Investors can win the economic war being waged against America. Kevin Freeman highlights the Game Plan ahead!

"We are launching a program at Liberty University to train patriotic investors because people are sick of everything you've talked about." -Kevin Freeman

It is time America wins and the Chinese Communist Party loses. A look at why Main Street America and Financial advisors are the key to saving America as it was founded.

- » We are going to fight in every stockbroker, financial planner, investment advisor's office that we can across America.
- » People are sick of it. They're waking up to it. And it's not just the financial things. It's when you buy a product from an American company, they have to abide by all these regulations, environmental regulations, workplace regulations and everything else. And they're competing against companies in China that don't abide by any of those.

- » Consumers think, "Oh, we're being green." No, we're not. And as people like Larry Fink at BlackRock, the largest investment manager in the world, is demanding all of these burdens on American companies:
 - You've got to have your board have this gender balance.
 - And you've got to be environmentally sound, social justice, all these things he wants put on American companies. And Larry Fink ignores all that when he wants to put trillions of dollars into China.
- » People are waking up. They're sick of it because of War Room Pandemic and what we're doing in the Economic War Room.
- » **We're going to equip financial advisors to help clients weaponize their money. They're going to be the small ships that make the difference. We believe that victory does beget victory!**

Steve, we want you to be part of that training program at Liberty University. Will you do that with us?

"One hundred percent!" –Steve Bannon

9. Liberty University / Economic War Room / NSIC and The Vision to help win this fight! - Bannon reflects on a unique heritage.

"Here's what I love about Liberty University. In the 1980s, one of the people that had President Reagan's back was Reverend Falwell. The end of the Cold War was brought about by the defeat of the Soviet Union. We're in the exact same place today.

I think Jerry Falwell and what folks are doing at the Falkirk Center and focusing on China, I think is spectacular. It's going to be one of the key elements.

Remember, every financial adviser, every broker, everybody you train will be like the folks at Normandy. You're the moral equivalent in this war. The frontline troops. And what we've got to do is be relentless, relentless, relentless in spreading this word and making sure that we take the fight to the enemy and the enemy is the Chinese Communist Party.

And remember, all these phonies and hypocrites supporting the CCP, it's the slave labor in China that bears the brunt of this. The people in China are the biggest victims. They have a name, or they're called Lao Zhang. It means old hundred names because it's basically one hundred last names. And in China, that stands for the little guy. The little guy in China is just like the Diplo rebels.

You've always been dismissed and insulted, but it's on your shoulders. Everything rests just like in China. It's the freedom of the Lao Zhang in the 21st century. **Whoever assists in doing that is going to write the history of this century.**

And I got to tell you, I think we back the right play here. The little guy in China has been abused by the Chinese Communist Party and he's been abused by Wall Street. And they've been abused by Larry Fink.

Kevin. It's your bravery out there. You were calling people out by name. And I think that's what needs to be done now."

-Steve Bannon

Working together we can win!!!

"Kevin, thanks for everything you're doing. You're a true warrior. As long as we got guys like you at the tip of the spear, we're going to win this thing." -Steve Bannon

Why you should care?

- Patriotic Investors can win the economic war waged against America.
- The foreign money that floods the capital works against your interest as an American citizen.
- We are in an economic and information war and China is going for the jugular to defeat America and the world.
- We need to recognize that the CCP is the enemy and not an economic partner.
- There are those within America that are happy to let America decline if they can profit.
- Americans are aligned when it comes to bringing our manufacturing back home, fighting Wall Street factions that make big political contributions and control politicians over America's economic interest.
- There are those right in front of you that are investing the money of the working and middle class to work against your values.
- You are a small ship that can make a difference, it is time to do it now. The Chinese people oppressed by the CCP need our help, and the little guy in America is under attack as well. Working together we can make a difference.
- During the Reagan era, the enemy was called out and America stood with our President. We can do it again!

In the Economic War Room®, we encourage Americans to be the "small ships that make the difference." You cannot solely rely on the government or the president to solve America's problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The small ships are based on Churchill's Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.]
