

From Nazism to Wokeism: A Nefarious Plot

Since the fall of the Nazi regime in the 1940s, the Western world has vowed to never allow such evils again. However, the tyrannical brand of evil men, like Adolf Hitler, can be seen in the practices of the world elite today. The horrific practice of the Nazi 'doctors' who forced their experiments on their victims became the norm as the post-war agreements on medical ethics were ignored by federal governments and agencies around the world. Vaccines were rushed with limited study and any attempt to challenge the public studies was silenced as governments around the world encouraged or even enforced the experimental vaccination of their people.

In this briefing we will discuss the following:

- » History of the Nuremberg Code
- » Covid Book NC 2.0
- » Nefarious & The American Culture War
- » The Republican Problem
- » Active Revival – The Only Solution

YOUR MISSION: Understand the evil influence that was behind Nazism and is behind Wokeism today, and what can be done to remove evil from power and restore righteous culture.

⚠ ATTENTION: Evil forces are working behind the scenes to destroy American culture; we must band together and fight for liberty!

Ep. 7-245 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Steve Deace. Steve is a friend of the Economic War Room® and a patriot. Steve is a BlazeTV broadcaster on his show the Steve Deace Show where Steve and his team cover National politics, Christian worldview, and principled conservatism with a snarky twist. Steve Deace calls it like it is and stands tall when others are afraid. Steve is also a two-time best-selling author & the executive producer of NEFARIOUS movie. A confident son of the King, Steve is guided in every area of life by his relationship with God.

The Nuremberg Code

About a year after the fall of Berlin, the Nuremberg trials commenced in Germany. The American military opened a legal proceeding where the defendants were 23 leaders of the Nazi medical science programs. They were accused of participating in war crimes and crimes against humanity. This case is known as USA v. Karl Brandt et al, or “the Doctor’s trial.”

The Nuremberg Trial brought up some important questions about human trials in medical experimentation. The defendants claimed that their wartime experiments did not differ much from those experiments performed by both German and US scientists prior to the war. This concerned American doctors who were working with the prosecution.

The American doctors resolved to create a new standard for ethical medical practice. Their memo was edited by the tribunal and became what is now known as the Nuremberg Code, a 10-point prescription for ethical medical studies and experiments.

“No human experimentation without representation is a good way of summing up the Nuremberg Code.” – Steve Deace

The Nuremberg Code signifies the beginning of working toward ethical medical practice as the standard globally.

The primary focus is that the patients involved in any study should be properly informed about the potential risks and benefits of the experiment and should be in full control of whether the experiment continues. If the patient decides they no longer feel comfortable with the experiment, the experiment should end.

It is essential that all medical experiments on humans be on an informed, voluntary basis.

The very first, and longest, point in the code states that “the person involved should have the legal capacity to give consent; should be situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion, and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision.”

1. Covid – Nuremberg 2.0

With a code of ethics in place, one would hope that modern medical professionals and government officials would obey it... Covid-19 showed us that even the nations who were involved in defeating the Nazis in World War II had forgotten the code and were willing to enforce the quasi-experimental vaccine on their people.

With a limited understanding of the virus, a limited understanding of the vaccine, and no prior studies on the long-term side effects of the vaccine, **doctors, politicians, media professionals, and even militaries encouraged and forced the inoculation of citizens around the world.**

 **WARNING: The codes of ethics that shaped Western medicine for most of the last century have been ignored by world leaders as they experiment on their own people.**

Steve Deace, in his new book, *Rise of the Fourth Reich: Confronting COVID Fascism with a New Nuremberg Trial, So This Never Happens Again*, proposes exactly what the title suggests. **The world needs a new Nuremberg trial to ensure that ethical medical practices stay the norm and unethical practitioners are properly punished for any crimes against humanity.**

“The book has a very simple premise, despite its 400 pages, and that premise is that the people who truly suffered from what went on the last couple of years deserve to have their voices heard, deserve a reckoning and that the only reckoning that will do is another Nuremberg.” –Steve Deace

Currently, those who have had negative side effects from the vaccine, including paralysis and death, have been silenced by mainstream media and are often attacked online for spreading ‘dangerous misinformation.’ These individuals or their families deserve the right to share their stories. The organizations that encouraged vaccination without the proper ethical process of experimentation should be tried for any crimes against humanity.

It is time to stand up for those who have been harmed so that ethics return to medicine and such things are not able to happen again. Each generation must fight to prevent tyranny in their lifetimes. After the Holocaust, the world said “Never again” so **we must ensure we stand up against the trend away from ethics and ensure it does not recur in our lifetimes.**

Warning: Unethical leaders around the world allowed people to be inhumanely experimented on with the Covid vaccine, if we do not stand against them now, they will continue down this dangerous, inhumane path.

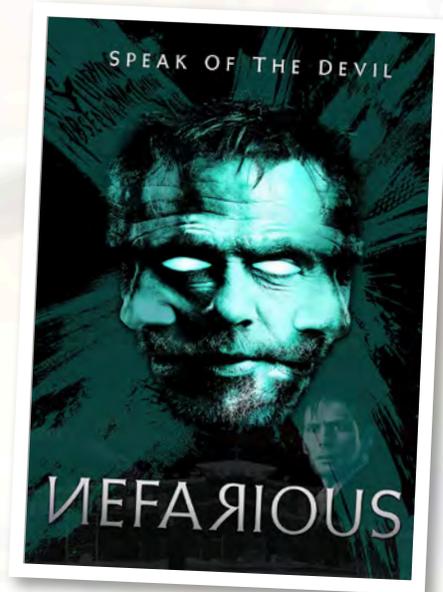

2. Nefarious & The American Culture War

This trend away from ethics is just one part of the decline of Western civilization that has been the goal of a **nefarious plot to overthrow Christian leadership on the world stage so that evil can rise to the high places again.**

To summarize this demonic strategy to destroy the world, Steve Deace and his team have produced the film Nefarious which tells the story of the decline of the West from the words of a demon himself.

The film portrays a conversation between a left-leaning psychiatrist who is called in to disprove the demonic possession of a man on death row. The ensuing conversation outlines the demonic plan for the destruction of the Western world and how **every 'progressive' ideal that he advocated was demonic in its nature and was secretly designed to deteriorate American values and tear the nation down from within.**

- » The psychiatrist represents modern American culture and their idea of being on the 'right side of history.'
- » Ironically, they have strayed so far from the right they have been entirely detached from a real understanding of history and have left righteousness behind.
- » The conversation with this demon rapidly peels back the veil over his eyes and wakes him to the reality that his worldview is one that kills cultures.

“This movie is essentially our attempt to grab this culture by the throat and get its attention... [explaining that] the stuff that you’re contemplating is... going to put us permanently on the ash heap of history and in history books as another lost society. Don’t do this.” –Steve Deace

Steve and his team surgically dissected Woke culture and revealed the blackened and poisonous roots of this invasive species.

- » Nefarious was an extremely successful film with a 95% approval rating from Google users.
- » Naturally, the Hollywood establishment attacked the film giving it low critic ratings.
- » Those ratings did not stop people from viewing the film as it outperformed expectations on every single metric, including revenue and longevity in theaters.
- » The film is now available on multiple streaming platforms.

Attention: If you want to watch a film that deciphers the evil plans of the enemy while providing gripping and thrilling entertainment, Nefarious is the film for you.

3. The Republican Problem

With such a demonic plot worming its way into the core of our nation, some people on the left have begun to wake up and realize this is not sustainable for the nation.

“Barring ‘great awakening level’ revival... the ability to reach a critical mass of the kinds of people [who see what is wrong and are willing to fight for what is right] will determine whether this country has a long-term future in any form of its original vision and founding whatsoever. And this isn’t going to be like, ‘it’s going to take like 10 years to find out, uh-uh.’ At the rate we are devolving and decelerating, we’re going to learn this answer one way or the other here pretty quick.” – Steve Deace

As many Americans are waking up to the reality of the evil plot to destroy our nation, there is one major issue that has yet to be properly challenged.

There are many Republican officials who make more left-leaning decisions in office than they should. This is not just about officials who compromise too often, but those who willfully push Woke agendas. Some of these individuals are elected under the guise

of conservative or republican values... but in office, they reveal they were only in it for themselves, and they quickly sell out to the highest bidder, usually the Woke elite or the Chinese Communist Party.

There are also many Republicans who are too afraid to stand up against the powerful woke elite for fear of retribution. Officials who do not toe the line of the woke elite will face massive hurdles on every project they try to work on and will struggle for reelection as their opponents will receive extra funding to make sure those who fight for liberty and American values are removed from office.

“Right now, we have a duopolistic political system, but only one side has true courage of conviction and is willing to wield its power. We might restore some equilibrium here if the other side had some courage of conviction and was willing to wield its power as a check and balance against that too.” –Steve Deace

The reality is, the Woke Democrats worship their movement and believe their ideology religiously.

- » Their moral compass (if you can call it that) is rooted in the indoctrination of Marxist Wokeism.
- » They genuinely believe themselves to be more righteous when they are more Woke, and they have become religious zealots.
- » The most outspoken and demonstrative believers are rewarded for their effort with high praise, new opportunities for advancement, and fame.
- » Their community supports them and encourages this behavior.

The conservative movement often lacks this same level of conviction, and it most definitely lacks a reward system based on the conservative success of its elected officials.

This is partially due to the two different camps in the conservative movement which seem to have differing objectives and motives. Steve Deace describes them as either believing that “we are doing this with an end goal of righteous policies or with an end goal of just endless venting and moaning and complaining.”

Attention: The difference in objective and motivation leaves the conservative movement divided... and a house divided against itself cannot stand.

For the conservative movement to succeed in restoring American culture, conservatives need to form true convictions for their beliefs and must be willing to make sacrifices to achieve one shared end goal that will have a positive impact on American society and the world as a whole.

4. Active Revival – The Only Solution

To get conservatives focused on one shared goal, and to wake up those who are still asleep, America needs a spiritual revival.

One form of revival is a supernatural, divine experience where God pours himself out upon the people.

- » America has seen this before in the Great Awakenings.
- » Each revival was filled with mass conversions and rededications of faith.
- » The cultures of entire cities and even states were completely transformed as God revived the hearts and minds of the American people.
- » This form of revival can only come from above; however, God has provided a way for us to partner with Him in the process.

This process of revival is where we, as God's children filled with Holy Spirit, can inspire a transformation in our communities.

It is essential that American patriots function not as thermometers, who read the temperature of a room, but as thermostats that set the new temperature and guide the culture toward a better future.

“As believers, we can inspire a revival in our own homes, in our own hearts, and in our own lives. [We must] demonstrate to God a desire to worship Him in the way that He alone is worthy of, and that His Word demands. That’s the first thing, and for a Christian, in every venue, we are commanded to check our own hearts, to look at the log in our own eye before we contemplate, question, and consider engaging the larger world of unbelievers. And so, would be the first thing, is getting our churches truly preaching the Word of God again, truly taking discipleship again, and using that to reinstate the supremacy of the nuclear family in America again. Masculine initiative and masculine leadership and masculine courage again. If we don’t do those things, nothing else will occur.” –Steve Deace

God has empowered His Church to lead the world into a brighter future.

American and Western history is evidence of the great success of Christian leaders in the past as they were able to overcome great evils and introduce the world to God’s perspective on humanity.

- » Slavery was first outlawed by England and later by the US.
- » Human sacrifice was deemed barbaric, and the cultures that practiced it were overthrown.
- » Individual liberty was established and became a beacon of hope for the world.
- » Nazism, Fascism, and Soviet-Communism were defeated.
- » The poor of the world have been lifted as the West continues to give from the abundance it receives from God.

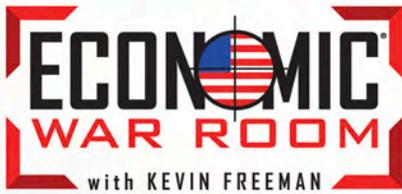

Attention: The role of the Church is to lead the world through the process of personal revival by being the salt and the light of the world.

This was Jesus’ command when he instructed the disciples to disciple the nations.

This was a call for the children of God to participate in culture-shifting movements so that the Kingdom of Heaven would be brought to the nations of the Earth and the leaders of the world would submit to the culture of Heaven and their decisions would be inspired by the wisdom of God.

This mandate remains for us today as we are called to inspire our families, friends, and communities to know and obey God so that the culture of God’s kingdom would reign supreme in the lives of His people and our nation.

“One step, is revival, and it starts with our hearts. Step two, is to actually live out your politics. Stand fast. If you’re in the red state, stand fast for red state values.”

–Kevin Freeman, CFA

“I think the country right now is undergoing an existential crisis, on a spiritual level, on a moral level, on an epistemological level. I mean, we are in an epistemological nuclear winter right now. I mean, the amount of people that know what truth is, is dwindling only as fast as the amount of people still curious and finding out.”
