

Pirate Money is Patriot Money

In America's early founding, it was an era of Pirates. Throughout the seven seas, pirates, privateers, shipping vessels, and navies braved storms and waged naval wars... all of them seeking one thing. Gold.

The founding fathers lived in a world where pirates were both feared and respected. Pirates developed concepts of liberty

that helped to inspire the founding fathers when they designed the Constitution. Pirates, by definition, refused to sail under the banner of a monarch and instead sought to make a life for themselves on the sea. They had found this freedom because they had real money (gold & silver) which was accepted by any and all. The founders of our great nation also transacted primarily in gold and silver coin, as they had seen the great failure of paper money, and they intended for us to do the same. As far as they were concerned, there was nothing more patriotic than transacting in pirate treasure.

In this briefing we will discuss the following:

- » Inflation
- » Praise for *Pirate Money* – Nick Vujicic
- » *Pirate Money* Breakdown – Chapter by Chapter
- » Patriot Money – The Money Our Founders Desired
- » Modern Threats – Central Bank Digital Currency
- » Transactional Gold & Silver: A Modern Take on Pirate Money

YOUR MISSION: Learn about Kevin's new book *Pirate Money* and how it can help you fight for economic justice and financial liberty.

⚠ ATTENTION: *Pirate Money* is the treasure map to the economic justice the founders intended for us to enjoy.

Ep. 7-254 (OSINT)) Open-Sourced Intelligence Report. This briefing is part of an exclusive teaching series by Kevin Freeman. It also addresses one of the strategic priorities we have been working on with Transactional Gold & Silver.

Kevin Freeman is considered one of the world's leading experts on the issues of Economic Warfare and Financial Terrorism. He has consulted for and briefed members of both the U.S. House and Senate, present and past CIA, DIA, FBI, SEC, Homeland Security, the Justice Department, as well as local and state law enforcement. His research has been presented in critical DoD studies on Economic Warfare, Iran, and Weapons of Mass Destruction presented to the Secretary of Defense and the Under Secretary of Defense, Intelligence. He has traveled extensively with research trips to Russia and China and throughout Europe and the Americas. He is also a Contributing Editor to Tactics and Preparedness magazine.

Kevin is a Co-Founder of the NSIC Institute; Deputy Speaker of the Cherokee Community of North Texas; a Senior Fellow at the Center for Security Policy; a Trustee at Oklahoma Wesleyan University; and a member of the Advisory Board of First Liberty Institute.

1. Inflation

Inflation has become a new buzzword as Joe Biden's administration has seen some major price hikes. Food, gasoline, and other commodities showed big price jumps. Things seem substantially more expensive and it all happened in a very short period of time.

Inflation had to start somewhere. For America, the year was 1971.

"Inflation... it's been really bad since 1971... that was the year that Nixon took us off the gold standard. I remember it pretty well because I was a ten-year-old kid. And as I mentioned in the book, I remember at age ten, I could buy a Hershey's bar for a dime. I could buy a Spider-Man comic book for \$0.15. I could buy a Slurpee for a quarter and get change. And I could buy a cheeseburger, a set of fries, and a chocolate shake, all for under a dollar. You add it all up, \$1.60 is what I would spend on my perfect summer day. And I can earn that \$1.60 in 1 hour's work, cutting the front lawn of my house. So it was a good time. Inflation has really crushed us though." –Kevin Freeman

Until 1971 America had been on the gold standard, which means the U.S. Dollar was at least partly backed by gold. Because of the general stability over time that gold presents, the U.S. Dollar was able to adopt that same stability. Inflation was fairly tame.

Since leaving the gold standard, the buying power of the U.S. Dollar has diminished as its value is determined by the faith people have in the U.S. Government and the amount of U.S. Dollars the Federal Reserve chooses to print. More dollars in the cash pool weakens the value of the ones that are already there. In the past few years, the Federal Reserve has increased the money supply at an unprecedented rate, and the faith in the U.S. Government is near all-time low.

The buying power of one U.S. dollar is now a tiny fraction of what it was in 1971.

2. Praise for *Pirate Money*

While inflation is shredding our wallets, the elites are not stopping. Multiple people have experienced what we call debanking. This is cancel culture at a whole new level.

Individuals like Nick Vujicic have been kicked out of their banks with their accounts frozen or closed because of political or religious beliefs.

- » Nick was born with no arms or legs, and despite the natural difficulty of this situation, he became one of the brightest, most positive forces for good on the planet.
- » He very quickly became one of the most loved motivational speakers and most famous evangelists in the world.
- » His story has inspired millions of people around the world to seek God and to focus on promoting the good in others.
- » However, the love he had experienced from others was cut short when he defended the lives of the unborn.
- » Suddenly, his political statements against abortion were deemed so heinous by his bank that they closed his account and denied him access to his own money.

This was when Nick and Kevin connected and began to discuss solutions to protect Americans, and people around the world from an overreaching elite seeking to snuff out anyone who fights for justice or challenges their demonic agenda.

Here is an excerpt from the foreword that Nick wrote for Kevin's new book *Pirate Money*.

"I'm always living on the bright side. As a man born without limbs, I'm forced to deal with daily challenges that most everyone else takes for granted. Thus, I rely on Christ for a spirit of gratitude and a "can do" attitude. My trip to LibertyHawk, however, was a little more somber. I knew we were in an Economic War because I had recently had my bank account closed without explanation...

Rather than a robotic economist focused only on charts and graphs, I found Kevin to be truly human and a fervent believer in Christ... what I found most intriguing was that Kevin had the same mindset as me. Rather than focusing on problems, he pursued solutions... When a person is kicked out of their bank, they are essentially dehumanized, and Kevin understood. More than that, he jumped in to help solve the problem. This is Economic Warfare, and we need solutions. Kevin Freeman is our man for such a time as this.

Pirate Money explains the threats. These include inflation, massive government debt, CBDC, targeted debanking, the World Economic Forum, the dollar's precarious status as reserve currency, and Chinese Unrestricted Warfare. More importantly, however, it offers a profound solution. One that was hidden in the Constitution more than 200 years ago. One that will work today if we can find the political will to implement it. It's not a hard task. It is an essential one.

I challenge you to read *Pirate Money* and share it with everyone you know. This isn't only for those on the political left or right. It isn't just for Republicans or Democrats. It's not just for the wealthy or the poor. This is about Economic Justice and reading it will make a real difference in your everyday life. Don't be intimidated. The story is readable, personal, and compelling. You will understand it and more importantly, gain clarity on what must be done to make things right again." –Nick Vujicic

Attention: *Pirate Money* is an essential read for Americans seeking to understand economic justice and what can be done to protect Americans and people around the world.

3. *Pirate Money* Breakdown

Pirate Money aims to lead readers on a journey through history to understand the purpose of money, how it works, how it doesn't work, and what can be done today to ensure economic justice and financial liberty for all people.

The *Pirate Money* book covers a variety of topics:

1. What Money Should Be

Money should be easy to use and accessible. It should maintain its value over time and be accepted by everyone. It must also be exchangeable for goods, materials, and other things.

2. The Future of Money

There's a lot of competition: Bitcoin & cryptocurrencies, central bank digital currency, and even the BRICS nations trying to offer a gold-backed new reserve currency.

3. Central Bank Digital Currency – Programmable Money

- a. CBDC is money owned by the federal government that they allow citizens to use.
- b. If they like what you're spending money on, they'll let you spend it. If they like you, they'll let you keep it.
- c. "If you don't line up with the federal government, they just make your money go away or they make it not useful... That is what programmable money is all about." –Kevin Freeman

4. The Coming Storm and the Great Reset

- a. Glenn Beck has two great books, [The Great Reset](#) & [Dark Future](#), that explain this threat in great detail.
- b. The World Economic Forum is working to take us to a place where we “own nothing and be happy.”

5. Beware the Dragon – China’s Economic Warfare

- a. China’s unrestricted warfare strategy to destroy America and conquer the world.
- b. As China weakens, the threat increases.

6. The Founders’ Secret That Can Save America

- a. America’s founders hated paper money.
- b. The founders saw gold and silver as real money.

7. The Power Reserved to the States

- a. Article 1, Section 10 of the Constitution grants states the right to declare gold and silver (and only gold and silver) as legal tender.
- b. States used to offer sound money.

8. Economic Justice & the American Dream

- a. The average American does not have the opportunities that were afforded to Americans 40-60 years ago.
- b. Gold and silver are not very accessible for the average American.
- c. Gold and silver help hedge against inflation and would protect the average American from economic crises.

9. The Yellow Brick Road & Silver Slippers

- a. The Wizard of Oz may have been originally written as an economic fairytale underlining the threat of paper money and encouraging people to follow the yellow brick (gold) road, with Dorothy wearing silver slippers (later changed by MGM to ruby to show off the power of Technicolor).
- b. Voters in 1900 discussed real issues, including the definition of money.

“*Pirate Money* is a very simple, easy-to-read book that you can get through in one afternoon. You will learn more about money than you ever have in your life. And better yet, you’ll know the hidden secret from the Founders for economic justice and beating the Great Reset.” –Kevin Freeman

Attention: *Pirate Money* covers a variety of topics, in an easily digestible manner, to educate Americans on their history, how the elites are using money against them, and what they can do to protect their families and fight for economic justice.

4. Patriot Money

True patriots are those who want what is best for their nation and are willing to make sacrifices to see their nation, and their fellow citizens, flourish.

John F. Kennedy famously stated, “Ask not what your country can do for you, but what you can do for your country.” This selfless spirit ruled in the hearts of American patriots from its very founding.

For this reason, America’s founders hated paper money. They knew that in the long run, it would harm the citizens of the nation. Instead, they wrote the constitution to protect people from an overprinted monopoly money like our current currency. **That protection is found in Article 1 Section 10 of the U.S. Constitution.**

“There was a plan written in the United States Constitution almost 240 years ago. Just 17 simple words in Article One, Section Ten. And you’re going to have to, you know, pull out some of the extraneous words that are in there to get the point. But Article One, Section Ten says “no state shall” ... “make any thing but gold and silver coin a tender in payment of debts.” It’s a very simple phrase. It says... No state shall coin money. No state shall emit bills of credit, and no state shall make any thing but gold and silver coin a tender in payment of debts. What did the founders mean when they wrote that? They meant this. They meant gold doubloons and silver pieces of eight. That was real money.”

–Kevin Freeman

This means the most patriotic form of currency is the one the founders believed in and wanted us to use. Gold and silver coin.

 **Attention: Pirate money is patriot money. America's founders would want us to use gold and silver so people of all classes would have access to the benefits of real money.**

5. Modern Threats – Central Bank Digital Currency

One reason the founders hated paper money, even more than its obvious weakness, was that it could easily be exploited by those who own the mint. **This means the Federal Reserve and the Treasury Department have complete control of our monetary system.**

For the last 50-70 years the exploitation of their monopoly on money has failed to satiate their ravenous hunger for power. **Now, they want to introduce Central Bank Digital Currency, which is programmable/weaponized money.**

In Episode 253 Kevin shared a video from the World Economic Forum where they bragged about the control this would give them over the people. **These are elitist tyrants who want to gain more control over ordinary people like us so they can be our rulers.**

“FedNow and central bank digital currency are making headlines and coming at you faster than you can imagine. Where do you run? Where do you escape? If you go to your traditional bank, they will only have unbacked paper money, which is considered poverty by Jefferson. Or you will have central bank digital currency. “What should I invest in?” Where should I put my money? Those are the questions I get asked more often than any other. So what do you do? The middle class needs a simple way to buy, sell, and transact in real money, like gold and silver... That is the purpose of the book. To show you a system where you can put your money. The political solution found in the Constitution can change the trajectory of the United States economy and the world economy.” –Kevin Freeman

This is not a theory. CBDC is already in active use across China as the CCP is wielding it to squash rebellions and intimidate the people into submission.

Here in the U.S., FedNow is the early stages of the development of Central Bank Digital Currency. They won't release it as a controlling tool, they will convince the people this is useful and will protect them in a state of emergency.

Attention: Globalist Elites are working to use Central Bank Digital Currency to manipulate and control the masses to perform their will, or go without food, water, shelter, gasoline, etc.

6. Transactional Gold & Silver: A Modern Take on Pirate Money

In the face of such evil, we must build a system to protect ourselves, and other people around the world.

Kevin has been working for years with many of the world's leading experts to develop a plan that can save America and the world. **Using a blend of modern technology, pirate money, and the hidden treasure the founders left in the Constitution, states could establish a safe-haven currency where Americans can transact using gold and silver.**

This will allow people to avoid CBDC while simultaneously avoiding inflation.

Gold and silver are heavy, and minting coins and carrying them around would be foolish. Modern technology would allow for the electronic transfer of gold and silver, just like we currently use debit cards to transact in U.S. dollars.

“All the upside of gold doubloons and silver pieces of eight with none of the headaches. That's what I want. And thanks to technology, it can be available.” – Kevin Freeman

Not only would this make gold more accessible to the average American, but the gold would be considered legal tender, which means it would not require you to pay capital gains tax when you spend it. This should inspire investors around the world to move their gold into this currency where the gold is more useful.

⚠ Attention: Transactional Gold & Silver must be the next step in the evolution of currency. The innovation of American patriots can save America and protect people around the world.

WHY YOU SHOULD CARE

- » Kevin's new book *Pirate Money* is a short and easy read that will equip you to better understand money and what you can do to protect your family.
- » Gold provides economic justice and was the intended currency of our founders.
- » Gold is not accessible or practical for the average American, but it could be.
- » Central Bank Digital Currency is on the horizon and we need a safe place to store our wealth.
- » A stable gold/silver-backed currency would help fight inflation and provide more Americans with a safe place for their savings and income.
- » There are steps we can take to ensure economic justice and save America.

ACTION STEPS:

1. Check out Kevin's new book [Pirate Money](#).
2. Go to www.TransactionGold.com and use the Take Action button.
3. Contact your representatives and ask them about transactional gold and silver. Encourage them to pursue implementing it in your state.
4. Share this Economic Battle Plan™ with as many people as you can to help spread the word about transactional gold and silver.
5. PRAY for God to restore America to her roots and ensure economic justice for all.

ONGOING ACTION STEPS:

1. Seek opportunities to inspire other Americans to stand up for what is right.
2. Send them this Economic Battle Plan™ and ask them what they are doing to stand for America and Liberty!
 - » Elect Politicians that understand the need to preserve American Liberty.
 - » Encourage and ask your elected officials to educate themselves.
 - » Ask them how they are working to strengthen our education system and reverse the push for Marxist indoctrination.

These are big issues, if your representatives are not aware and working toward solutions directly or indirectly based on their committees, hold them accountable!

- 3. Watch out for programmable money. The Dollar is being attacked and the WEF is working toward The Great Reset. We want to see the dollar stay strong by acting on the items above. We also believe it is good for Americans to diversify and have other options to pay with transactional gold. Prepare your money for the coming war.**

Your support for Texas Transactional Currency is critical! In less than 60 seconds you can let all of our Texas officials know that you want this bill to pass in the state of Texas and you are ready to sign up.

Take Action and help get Texas Transactional Currency passed! This can be the model for your state. Do this now and easily share this link with friends and on social media!

Show your support for the Texas Transactional Currency efforts. Learn more at www.TransactionGold.com.

To make it easy, we have launched a targeted campaign where, with just a couple clicks, in less than 60 seconds, you can reach the Texas House and Senate, the governor, the lieutenant governor, the speaker, the attorney general, and all the key players in Austin! Let them know you want this now!!

It will take less than 60 seconds and you can be a key part of getting this great idea advanced! Be one of the first to get your debit card when this passes into law. You can also easily share this on Twitter, Facebook, Gab, with your friends asking to them join the campaign to support Texas Senate Bill- SB 2334.

NOTE: YOU DO NOT NEED TO LIVE IN TEXAS. TEXAS CAN HELP LEAD THE WAY FOR YOUR STATE TO OFFER SIMILAR CONVENIENCE OF TRANSACTIONAL CURRENCY BACKED BY SILVER OR GOLD.

Texas already has a Bullion Depository and by allowing the use of Texas Transactional Currency average Americans can easily own gold and silver just like the wealthy do. Just as ATMs made banking accessible to normal people, this bill makes the Texas Bullion Depository accessible for all of America! **With success, your state could be next to offer this option.**

4. Check your investments to see if they are helping fund the agendas of Globalist Elites. If you have a financial advisor insist that they give you an update and encourage them to become part of the NSIC.

In the **Economic War Room®**, we encourage Americans to be the “little ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The little ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.]
