

Stewardship & Climate Change

In the beginning, God created Adam and Eve and gave them dominion over the earth and instructed them to subdue it and grow God's creation. As we know, Adam and Eve fell. Since then, mankind has lost understanding of the Creator and the mission He gave us, including the role of stewardship. Today, climate alarmists are spewing lies to breed fear so they can push agendas that will prove harmful to people and to the planet. This is the antithesis of true science.

In this briefing we will discuss the following:

- » CO2 & U – The Anti-Human Climate Cartel
- » Climate Science – Fact & Fiction
- » CO2 & the War Against Humanity
- » Biblical Stewardship – A Healthier & More Fruitful Environment

YOUR MISSION: Understand the truth about climate science, the threat of the Climate Cartel, and our responsibility to steward the resources God has given us.

 **ATTENTION:** God considers humanity his greatest creation on Earth and gives us dominion. Meanwhile, the Climate Cartel considers Earth greater than us and worthy of our worship.

Ep. 7-261 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and E. Calvin Beisner Ph.D. Dr. Beisner is a friend of the Economic War Room® and an American Patriot.

Dr. Calvin Beisner is the founder, president, and national spokesperson of the Cornwall Alliance for the Stewardship of Creation, a network of Christian theologians, natural scientists, economists, and other scholars educating for biblical Earth stewardship, economic development for the poor, and the proclamation and defense of the gospel. He's written over 15 books, edited over 30, contributed to over 35, and published thousands of articles popular and scholarly. He has lectured at universities, seminaries, conferences, and churches in North America, Europe, Africa, and Asia. He's testified as an expert witness on the ethics and economics of climate change and climate and energy policy before committees of the US Senate and House of Representatives.

1. CO2 & U – The Anti-Human Climate Cartel

Every day we wake up to breaking news of climate catastrophes caused by climate change. Multiple media outlets around the world are addicted to the fearmongering of global doom.

“We’re inundated with fear-filled statements of climate collapse. Young people have been told that the rest of us have all doomed their future for our profit. We must stop all carbon emissions to conform to a net zero policy. And then I remember high school science and people exhale CO2. That’s what we breathe out. Do they know this or is that the real agenda?

Reducing the population. As an economic issue, we’re told we must eliminate fossil fuels as if oil, gas, and coal are fossils from dead dinosaurs.” –Kevin Freeman

This is not a new phenomenon; the politicization of climate science has been around for half a century. The story and threat have changed. What was once a threat of global cooling and a potential ice age became global warming, and now climate change.

When one narrative no longer works, they find a new one. However, one thing has remained the same, it has nothing to do with climate and everything to do with control.

There are many scientists who care deeply about the planet who are studying with great intentions who desire to know and understand the impact humans have on the planet and its ecosystems. The scientists are not the issue here, it is the media and political spokespeople using apocalyptic language to scare people. This group of globalists is what we 'fondly' call the Climate Cartel.

⚠ Attention: A group of globalist elites is creating a false narrative of catastrophic climate change to scare people into obedience.

2. Climate Science – Fact & Fiction

The truth of the science is vastly different from what is being preached by the media, the Biden administration, WEF, etc.

“It’s the Intergovernmental Panel on Climate Change (IPCC) under the United Nations actually. If you look at their scientific assessment reports, there’s an awful lot of really good science in there. You’ll never find terms like crisis, existential threat, catastrophe, emergency, they’re just not in there... the IPCC doesn’t use that language and doesn’t put out information that supports that language... That’s mainstream science.”

–Dr. Beisner

The data from the IPCC is regularly cited by the Climate Cartel but they add their own narrative to the science.

Even if we were to ignore that narrative and simply study the data, Dr. Beisner says he thinks that “the IPCC tends to think that global warming is going to be more than it actually is likely to be.”

The truth is that science does show that the earth is warming but not at any alarming rate, especially since we are still coming out of the Little Ice Age that lasted around 500 years!

“When we reach a doubling of carbon dioxide in the atmosphere compared with before the industrial revolution, will have raised the global average temperature by something on the order of two degrees Celsius. That’s actually good because we’re coming out of the Little Ice Age. It was really, really tough. Cold kills about 20 times as many people per day as heat waves do. But that’s good. For the second doubling, we’d have to go from 560 parts per million to 1120 parts per million. It would take probably a good 1000 years to do that, and it would have no more influence on temperature than the first doubling did, because CO2 influence on temperature is what’s called logarithmic.” –Dr. Beisner

Carbon Dioxide: Greening the Past

NASA: CO2 accounts for 70% of increased leaf area 1982-2015. Nitrogen, land cover change, changes in temperature, precipitation, and sunlight—all driven in part by CO2—contribute to the greening.

The primary push of the Climate Cartel is to lower CO2 outputs with their ideal being Net Zero. However, Dr. Beisner and all other serious scientists know that CO2 has a minimal impact on global warming.

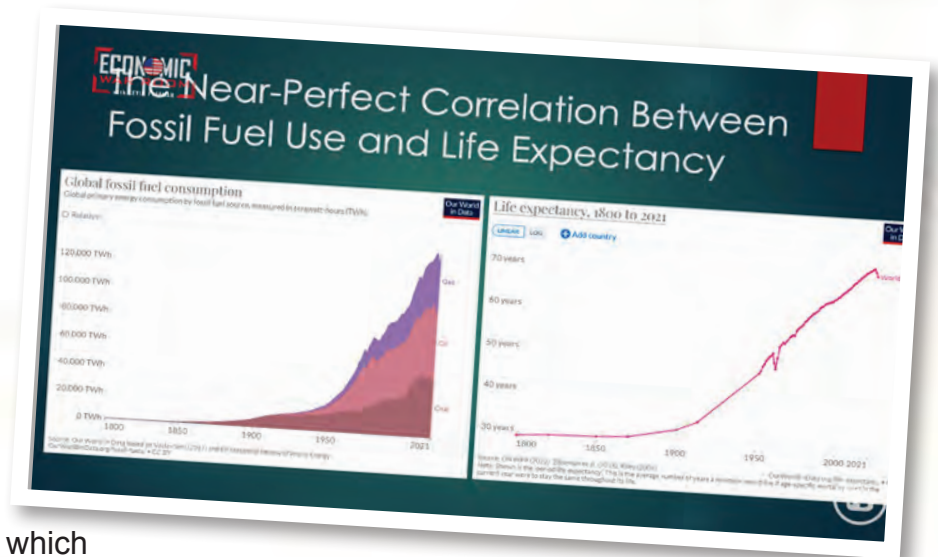

Why then are they so focused on CO2 when there are other gases in the atmosphere that have greater impact?

Attention: Follow the data, not the politicians. The data shows that global warming is much less threatening than the Climate Cartel makes it seem.

3. CO2 & the War Against Humanity

The reason the Climate Cartel is pushing for Net Zero on CO2 emissions is because CO2 emissions are a byproduct of most forms of reliable energy. Even the energy inside your cells.

All animals breathe in oxygen which is used in the mitochondria alongside the sugar we absorb from our food, to produce energy. The byproduct of this reaction is CO2 when the carbon molecules bond with the oxygen molecules. We then exhale the CO2 back into the atmosphere.

As most of us learned in middle school, the CO2 we exhale is then taken in by the leaves of trees and other plants to be used in their process of photosynthesis of which Oxygen and sugar are the chemical byproducts of the reaction.

This may seem like simple childhood science, but the reality is that the increase of CO2 in the atmosphere has caused an increase in the rate of growth for forests and has made the world greener. So, the Climate Cartel is not trying to save the world with threats of doomsday, instead, they may create doomsday.

“In 1992... Maurice Strong, secretary general of the UN Conference on the Human Environment, first Executive Director of the UN Environment Program... said “What if a small group of world leaders were to conclude that the principal risk to the earth comes from the action of rich countries? And what if the world is to survive? Those rich

countries would have to sign an agreement reducing their impact on the environment. Will they do it? The group's conclusion is no. The rich countries won't do it. They won't change. So, in order to save the planet, the group decides 'isn't the only hope for the planet that the industrialized civilizations collapse. Isn't it our responsibility to bring that about?' This group of world leaders form a secret society to bring about an economic collapse." –Kevin Freeman

The globalist elites behind the Climate Cartel have a clear mission from the founders of their modern movements to destroy Western civilization to make way for a new world order.

This is no minor threat. The success of the Western world has made it possible for the planet to sustain the lives of the billions of people who live here. The surplus of Western economies and the technologies they have invented have reduced global poverty by an astronomical amount. The collapse of Western civilization would thrust the world back into the stone age and Billions of people would die of starvation, war, or pestilence.

"Poverty is a far greater threat to human health and longevity than anything related to climate... if we overcome poverty, we can deal with whatever climate might bring to us in the future. The problem is that the policies being pushed to fight global warming are all policies that slow, stop, or reverse the conquest of poverty that makes people more vulnerable, not less vulnerable to climate problems. You know, we have reduced the rate of human mortality from natural disasters, climate disasters, weather disasters by more than 98% over the last hundred years. And that's during the very time when supposedly we've got this devastating global warming going on. Well, that's craziness. We see that wealth enables people to protect themselves. Our concern should be far more about generating that wealth, lifting the other roughly 5.5 billion human beings who have not yet come out of poverty, out of it, so that they can join the rest of us." –Dr. Beisner

This war against Western civilization is a war against humanity where the globalist elites seek to wipe out a massive percentage of the human population either in misguided earth worship or else so they can enjoy the world for themselves.

This sick attack against human lives is being masqueraded as a way to save the world from a global flood, a fear that Jueo-Christians should not have as God already promised He would not do such a thing again.

It is instead our duty as children of God to subdue the Earth, not the people who live on it. Yes, we should be caretakers. But we are not to bow to the earth.

Attention: Globalist elites are using Climate Change as a cover-up for their sinister plan to create a new world order.

4. Biblical Stewardship – A Healthier & More Fruitful Environment

In Genesis, God creates Adam and Eve, tells them to subdue the Earth, and gives them dominion over it. It has sadly been misunderstood (intentionally) to mean the abuse of nature, when in fact, the meaning of these words in scripture has more to do with creating order out of chaos.

This is part of bearing God's image. God created order out of Chaos in the first few passages of Genesis and then commissions Adam to carry on that work by ordering and naming the species of animals.

“ We came to summarize the idea of dominion as enhancing the fruitfulness and the beauty and the safety of the earth to the glory of God and to the benefit of our neighbors so that we're fulfilling the two great commandments to love God and to love neighbor. That's what we're supposed to do. And God has given us the minds and the hands to be able to do that. And that explains, by the way, theologically why we're not running out of resources, even at the same time that we're growing in population. We're not running out of resources. Resources are less scarce now than they were a

couple hundred years ago because people make resources. As the late Julian Simon put it, the ultimate resource is the human mind made in God's image, connected to our hands, we make more and more out of less and less. And that's why the long-term inflation-adjusted cost of resources is downward, not upward. They're less scarce, not more over time." –Dr. Beisner

It is then the responsibility of man to bring order out of chaos in the Earth. This means what exists here is to be stewarded by us to produce more fruit than it would on its own.

Dr. Beisner points to the parable of the Talents where "one of them comes back and says, Master, I knew that you were a hard man reaping where you didn't sow, and so I just buried my talent in the ground. You know, the master condemned him or told him and told that he was to be cast out into outer darkness."

This was God's judgment for failing to steward the resources God grants us. Today we have groups who are entirely devoted to leaving American oil in the ground, but those protestors don't seem to mind the oil drilling in China or the Middle East.

This is a direct attempt to prevent Western Civilization from stewarding those resources and using them to create a better life for more people. Thinking like the servant who was cast out into the darkness for burying his talent is foolishness.

"The more we use fossil fuels, the higher human life expectancy is. And the reason for that is that fossil fuels provide, roughly 85% of all the energy that human beings consume every year. Now, energy, you remember from your early science education in middle school energy is the capacity to do work. Well, work is important to everything that we consume food, clothing, shelter, everything else. The more work you can get done, the more of all those things you can have. All of those things contribute to human health and to human long life... the idea that we're going to replace those with wind and solar is basically an idea that's going to... push people back into poverty." –Dr. Beisner

Instead of avoiding these resources, we are responsible for their safe utilization to improve the lives of people all around the world. Both people and animals depend on energy, and a more energized world will make life better for all of us.

Attention: There are some globalist Elites intent to destroy Western civilization, force the world into poverty, and take control of the world. We must resist them and build a bright future for humanity.

WHY YOU SHOULD CARE:

- » Globalist elites are trying to scare people into destroying their future.
- » The Climate Cartel's war against humanity is a threat to you and your family.
- » "Fossil Fuels" are the most reliable source of energy on Earth and can be used to pull more people up out of poverty and build a better future for all.
- » The globalist elites want to enslave the people and to do so they must destroy Western civilization and the world economy.
- » We are supposed to steward the resources God has given to us.

ACTION STEPS:

1. Check out the [Cornwall Alliance](#) and the work Dr. Calvin Beisner is doing to inspire a biblical stewardship of our planet.
2. Share this Economic Battle Plan™ with as many people as you can to inspire them to fight for biblical stewardship of our planet and its resources.
3. PRAY for God to protect affordable energy production so we can continue to improve society and reduce global poverty.

ONGOING ACTION STEPS:

1. Seek opportunities to inspire other Americans to stand up for what is right.
2. Send them this Economic Battle Plan™ and ask them what they are doing to stand for America and Liberty!
 - » Elect Politicians that understand the need to preserve American Liberty.
 - » Encourage and ask your elected officials to educate themselves.
 - » Ask them how they are working to strengthen our education system and reverse the push for Marxist indoctrination.
3. Take Action and help get Texas Transactional Currency passed! This can be the model for your state. Do this now and easily share this link with friends and on social media!

Show your support for the Texas Transactional Currency efforts. Learn more at www.TransactionGold.com.

To make it easy, we have launched a targeted campaign where, with just a couple clicks, in less than 60 seconds, you can reach the Texas House and Senate, the governor, the lieutenant governor, the speaker, the attorney general, and all the key players in Austin! Let them know you want this now!!

It will take less than 60 seconds and you can be a key part of getting this great idea advanced! Be one of the first to get your debit card when this passes into law.

You can also easily share this on Twitter, Facebook, Gab, with your friends asking to them join the campaign to support Texas Senate Bill- SB 2334.

NOTE: YOU DO NOT NEED TO LIVE IN TEXAS. TEXAS CAN HELP LEAD THE WAY FOR YOUR STATE TO OFFER SIMILAR CONVENIENCE OF TRANSACTIONAL CURRENCY BACKED BY SILVER OR GOLD.

Texas already has a Bullion Depository and by allowing the use of Texas Transactional Currency average Americans can easily own gold and silver just like the wealthy do. Just as ATMs made banking accessible to normal people, this bill makes the Texas Bullion Depository accessible for all of America! **With success, your state could be next to offer this option.**

- 4. Check your investments to see if they are helping fund the agendas of Globalist Elites. If you have a financial advisor insist that they give you an update and encourage them to become part of the NSIC.**

Seek out investment opportunities in patriotic innovations.

Financial Advisors sign up for the online NSIC class at Liberty University. If you are a financial advisor, go to www.NSIC.org and sign up for more information. Weaponize your money, your investing, spending, and giving!

ATTENTION: Clients already with a Financial Advisor - Make sure your financial advisor has your values and interests at heart. Make certain they really understand what ESG investments mean for our future. “In order to provide all the electricity that the United States currently uses every year (and that doesn’t include added electric vehicles all over the place, just what we currently use), we would have to cover a total amount of land equivalent to twice the land of the state of California with wind turbines. An even larger amount of land is necessary if we want to go to solar.”

for the Stewardship of Creation

“I look at the Paris climate agreement, the cost of \$1 to \$2 trillion per year from 2030 to 2100 would be \$70 to \$140 trillion. And yet it would have virtually no significant effect on human welfare or other ecosystems, except that we would have \$140 trillion less that we would otherwise have to spend and help people around the planet.”
