

Background Briefing – Reversing the Chinese Communist Curse

The Communist Chinese Party of China has a specific plan to dominate the world by 2045. With the economic markets starting to work against China, did they plan the ultimate Economic Weapon to take advantage of COVID-19? Given the way they responded to the pandemic, were they attempting to capitalize on it against global economies so that they can increase their position?

There is a Chinese Communist Party (CCP) curse. And it's spreading a curse throughout the world. It's a curse on the Chinese people. It's a curse on our planet, and it's a curse on America. Unfortunately, we've let this infiltration come in; we've allowed it into our Congress, our think tanks, our universities, and our entertainment industry. **While the Chinese people are great**

people, it is the communist system that is evil and must be stopped. We must prepare to fight for our freedom and culture as we stare down the communist Chinese that want to end our civilization and dominate the world.

Former Congressman Dave Brat, now Dean of the College of Business at Liberty University, shares what happens if you get too close to the swamp and the power of trillions of dollars between Nation States.

Your Mission: To understand what the Communist Chinese Curse really means and to prepare for the war China is already waging against us.

“Well, one of the truths of life is there is no political liberty unless you have economic liberty. The great economists have taught us that lesson and we've kind of forgotten it and we try to separate them. And I'll tell you about a group that tried to separate political and economic liberty. It's the Chinese Communist Party.” –Kevin Freeman

Ep. 3-89 (OSINT) Open Sourced Intelligence Briefing. This includes quotes and summaries from Kevin Freeman and Dave Brat. Dr. Brat is an American academic and politician, dean of the Liberty University School of Business, and served as the U.S. Representative for Virginia's 7th congressional district from 2014 to 2019.

1. We hear from those on Wall Street and DC: China is our friend. Trust China. What was the perspective being pushed in Congress?

"The billionaire class has been following market influence and market forces and using the swap to leverage these people's power to move our supply chains into China, our manufacturing jobs in China." –Dave Brat

"With The New York Times and The Washington Post, funded by the establishment creatures, you're not getting the truth and accurate reporting on the new evil empire."

A. COVID-19 became an economic weapon used against us:

- Up to 85% percent of our manufactured pharmaceuticals (in whole or ingredient) are now being made in China. [See Episode 6 with Rosemary Gibson.]
- Much of the medical protective equipment is manufactured in China.
- In mid-January, China went out on a global shopping spree and bought out Australia, Brazil, European personal protection equipment (PPE), all the masks and gowns, knowing full well that the world would need those.
- China knew there was a pandemic already in place, but instead of helping contain it they used that knowledge to their advantage and worked with the World Health Organization (WHO) to cover it up.
- Economic War Room has documented this in multiple battleplans.

→ Bill Gertz has been on Economic War Room with highlights from his book **Deceiving the Sky**. Two hundred pages of evidence of the coming cyber war, economic war. [See Episode 60.]

→ Recently, we see the true intent even beyond that. With COVID-19, there were premeditated calculations of shutting down their own domestic travel in Wuhan (especially travel to Beijing), but allowing travel to the United States and Europe.

“Four hundred thousand Chinese coming to the States while they knew a pandemic was there. They were in the White House concluding the trade agreement. They made the announcement after the trade agreement, during the White House, shaking hands with our entire administration. These are premeditated actions when they knew we were facing a pandemic.” –Dave Brat

B. What happened to American Values? There has been a tendency to put money above principles:

- Wall Street sold us out. You know, Wall Street did the largest IPO in history to date, Alibaba.
- We gave them \$25 billion dollars. They turned around and invested in business leaders, politicians, think tanks, Hollywood, and universities. None of that promotes our liberty.
- A lot of universities have been bought and paid for by the Chinese through Confucius Institutes. This has been going on a long time. It dates back to Henry Kissinger when Nixon went to China to be used as leverage against the Soviet Union.

→ The implications aren't just for the United States The entire Belt and Road Initiative is focused on buying United Nations votes.

The Good News? People are beginning to recognize that the United States remains indispensable in regard to freedom and liberty, purpose and meaning.

PEW RESEARCH SURVEY: Adults with unfavorable rating on China is at the highest point it's been since they've been measuring it. Also, favorable ratings for China are at the lowest point they've been.

"I pray that the American people are still equipped psychologically, theologically, and philosophically to deal with these concepts of good and evil and our moral responsibility. We should deal with them (China) as God deals with good and evil." –David Brat

"I think we're going to get the supply chains lined up properly? U.S. leadership will be the key. And just a huge point to make here. President Trump is the only president in 30 or 40 years that ahead of time paid attention to the risks of globalization and China. Only one in my lifetime." –Dave Brat

2. The China plan to take down America - Dominate the world by 2045. Plus, why was COVID-19 used as an economic weapon?

Lessons in History - A look at China under communism and their battle plan.

From 1945, under Mao until really Deng Xiaoping, China was a disaster area. There were famines, pestilence, crazy bad stuff under a horrible system.

The communist system known as The Great Leap Forward did not work as planned.

Deng Xiaoping comes in and says, "We'll have reform and opening. We have a market economy. Call it socialism with Chinese characteristics."

He also said, "Hide your capacities and bide your time." What he was signaling there:

- a. We're going to pretend like we're an open society.
- b. We're going to pretend like we're pro-West and all of that. And they did that for a period up until 1999.

Under Deng Xiaoping in 1999 the Chinese Communist Party published the book *Unrestricted Warfare*, quietly laying the battle plan to take down America.

We talk about it all the time, the Economic War Room®. But what we're dealing with in this pandemic looks like the *Unrestricted Warfare* playbook exclusively.

Xi Jinping comes into power around 2013 and they put out the book, *The China Dream*, stating:

- **China is going to have everything made in China by 2025 (no foreign dependence).**
- **China's global dominance by 2045.**
- **That's the 100-year marathon. Dominance one hundred years after the Communist Party began to gain power in China.**

"It is not beyond comprehension that Xi Jinping saw that the damage was coming to China and wanted to level the playing field. He either unleashed or allowed the pandemic to spread without giving us the right to come in and inspect and learn."

3. The Chinese Curse, how we got here and what it means.

Make no mistake. It's a curse on the Chinese People. It's a curse on the world. And it's a curse on America.

The Communist Chinese are in an Economic War with the US and we are finally getting "woke," but it is even more than money:

A. It's a planned Economic War.

China has so infiltrated our nation and our thought process that DC, the Securities and Exchange Commission (SEC), and Wall Street thought it was a good idea to put money into Chinese companies that don't have the same accounting rules. Some of these companies:

- may be doing things like persecuting and monitoring the Uyghur population in the concentration camps;
- may have ties to the organ harvesting where they take lives and steal people's organs.

B. Also, there are Human rights issues and other atrocities that are part of the Communist China Curse:

- This a nation that would tell a woman who is pregnant again that she must have an abortion. In the case of her first pregnancy, she must decide whether or not to keep this baby, because it's a girl. The family might prefer a boy. So kill the girl and have a boy under the one-child policy. Now it's a two-child policy. But it is still evil.
- This is a nation that puts on you a social credit score that determines whether or not you can get on an airplane, or whether you can buy a book at a bookstore, or whether you can dine out.

→ They monitor all of their people using Western technology that they've usurped, stolen, or purchased with our money and they're using to control their people.

C. Reversing the Curse inside China means setting the Chinese people free.

→ The Christian church in China scares the CCP so much that they've been closing and dismantling buildings. They know that the Chinese people, once they're set free with the liberty of Christianity, would take over the country.

The evil of the Chinese Communist Party:

"I was on a Middle Eastern news station the other day and I asked, 'What do you make of the one- to three-million Uyghurs and Chinese Turkic in re-education camps?' This where the right re-education is considered to be from Muslim Islam to atheist, from God to 'no God.' 'What do you make of the Tiananmen massacre? What do you make of the Tibetan movement? What do you make of Taiwan? What do you make Hong Kong? What do you make of the protest? What do you make of the Underground Christian church. What do you make of the underground Catholic Church?' The persecution is in the millions. So when you talk about the evil of the CCP, it runs the entire spectrum." –Dave Brat

4. Our politicians have been influenced with national capital flows of trillions of dollars every day - An Insider look from former congressman Dave Brat:

- » Our politicians matter because our equity positions are big. The bond markets even bigger. And the financial flows in dollars between nation states are in the trillions every day.
- » We have power and control over all of that. And even President Trump cannot get in the way of some of that power.
- » **That power makes you quake. That's what I learned in Congress. I was a little too transparent, I think, for the swamp. They booted me out of there after four years and that's what happens for real.**
- » **If you get too close to things that start with a T (in trillions), you're in trouble.**

ALERT: There is a political component driving China's infiltration to the highest levels.

Ten years ago, we had one of the top-100 Chinese elites, with intelligence on the CCP that was beyond comprehension. One of his aides escaped to a U.S. embassy. **It was Hillary Clinton who gave them back to China, giving away the greatest asset we had?**

Were Joe Biden's and Hillary Clinton's offices infiltrated?

"Hillary Clinton, in her book, said, 'This (returning the Chinese escapees) will make China happy.' So in addition to watching your own financial dollars and where they go and watching the index funds that you just mentioned and watching access into our financial markets and our politicians matters also." -Dave Brat

- Many of our politicians have been infiltrated.
- Big organizations like the World Health Organization and the United Nations have also been infiltrated. America pays for or underwrites most of these organizations. But China's been smart politically, and uses them to their political advantage.
- And what they do is they infiltrate.

"We underwrite. China infiltrates."

-Dave Brat

"Joe Biden says the Chinese are no problem. 'Come on, man!' Why would he say that? Well, when you read about V.P. Biden going over there with his son Hunter and inking these billion-dollar deals on Air Force Two, you wonder who's been bought and who's been paid for." -Kevin Freeman

ECONOMIC WAR ROOM® – CASE STUDY – CHINA INFILTRATION

Kevin Freeman debriefs the Defense Intelligence Agency - 2014

Kevin Freeman was in the Defense Intelligence Agency speaking to their China analysts and telling them China was a threat. The Director had Kevin in to debate the Carnegie Endowment for International Peace's Michael Swaine, who brought with them the number two guy at the World Bank, a Chinese national who was parroting the Chinese line. The moderator was Lonnie Henley who was a big fan of a former DIA employee convicted of spying for China.

“And you know what? Here I am, a money manager from Texas, having to argue with these elite people. But the truth was on my side. And we won the day.”

Unfortunately, it was also clear China had infiltrated high levels of the DIA. It's now 2020 and finally it seems like executive leadership in government and investment industry is starting to see the truth as it relate to China's real intentions.

5. How do we break the Chinese curse?

It will take Economic Power, the Truth, and most-importantly, the hand of God (which is truly more than sufficient) to win against the Chinese Communist Party Curse.

One Critical Step: Weaponize your money

“We need to take our investments seriously and align our money with our ethics. Align the walk with the talk, look to our first principles, and only invest in firms and in countries that adhere at a minimum to individual rights under the law. That's the rock-bottom formulation of our founders. We all believe that rights are unalienable. They come from God and it is the job of government to protect them. But we believe in individual rights. Under the law, they have to be protected. If a country like China will not subscribe to that, they're not worthy of our funds. **We need to design an investment portfolio. We're lucky to work with you (Economic War Room) at Liberty.**” –Dave Brat

Coming Soon – The National Security Investment Consultant Institute (NSIC) at Liberty University.

Watch for some announcements with Kevin Freeman and the Economic War Room to set up plans to get this country on the right footing so that we all make political decisions, economic decisions, financial decisions, and spiritual decisions regarding how our investments should be based on our first principles.

“Ultimately, everything we own is God’s. And this country is founded and protected by God. And so there’s that element to following and living out our principles.”

–Dave Brat

Main Street America can get this country on the right footing!

“Kevin, I’d just like to thank you and your leadership and the friends you’ve built up. A lot of this is about building up the right relationships politically, educationally, philosophically, religiously. You’ve done a phenomenal job of building up a stable of just quality people across the country in leadership positions that are going to make this happen.” –Dave Brat

The evidence is on our side in terms of following our principles.

- » The mainstream media and the elite universities beat down the United States in our history every single day to our students. [See Episode 83, Debunking Howard Zinn.]

PAGE 10

- » What did the U.S. do after World War II? We set up the entire liberal order starting with Bretton Woods. We established and funded the United Nations, the World Bank, and the IMF, all based on liberal principles.
- » China was not a part of this. And what happened? We made best friends with our arch enemies, Germany and Japan. We've created wealth beyond comprehension for the entire world. And then at the end of this 50-, 60-year reign comes the 800-pound-gorilla China into the room with a wrecking ball. It's a wrecking ball against the liberal world order.

"When China comes to our game, you have to say 'if you abide by these rules, you can play at this table.' Otherwise, bye-bye. We need to get back to that logic and say, 'Bye-bye, China, until you will sign your name and have elections, get rid of the CCP, and get rid of Xi Jinping at a minimum.'"

-Dave Brat

"The policymakers in D.C., really everybody, is waking up. The supply chains are waking up. It is achievable in our lifetimes to have a global transformation for the good of another 1.4 billion Chinese brothers and sisters." -Dave Brat

WARNING AMERICA:

"There is a psychological problem in this country where some of our brothers and sisters cannot comprehend how evil is at play right now in the world. So what we can do is we need to tell the story. We need to teach our churches and synagogues to write editorials. And we need to help our brothers and sisters realize we're not making this up. There is a Xi Jinping. There is a Chinese Communist Party. Here's what they are doing. I know it's not pleasant. We've all been spoiled beyond comprehension for decades. We have wealth beyond comprehension. We think life should be easy. Read the history books. It's not that God may be at work, if you turn away from God, there are repercussions in this country." -Dave Brat

Why you should care?

- The economic war with China is real.
- There are serious human rights issues, and you could be helping to fund them.
- The Chinese people are good people caught in a bad communist system. [Look at Taiwan to see how productive and successful the same people can be under a better system.]
- The flow of money from nation states has influenced our politicians and financial markets.
- Our politicians in leadership really matter. President Trump is one of the first US Presidents to recognize the enemy and the threat.
- You can make a difference in what you buy and how you invest.
- Communist China wants to dominate the world by 2045.
- Communist China feels threatened by the Christian Church. Think about why that might be true.
- If you want peace, prepare for war. America needs to be strong and you can make a difference by investing and spending in line with your values.
- It is time to live out your principles.

In the Economic War Room®, we encourage Americans to be the “small ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The small ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.]

Action Steps:

1. Vote right, elect politicians that understand the China threat.
2. **HELP ALL AMERICANS WAKE UP!** All Americans need to understand the evils of the Chinese Communist Party and what their agenda really is vs the infiltrated narratives that are often in the media or schools. Understand the real evil at work and share your insights with those you know. Harmony and Happiness is not happening in China like they claim. The CCP exploits people and we do not want to support that.
3. Buy products made in America or by our allies.
4. Bring our manufacturing home. If you are business leader, do not go for the cheaper made in China option. Go for the better American option.
5. Invest your money wisely.
6. Understand this is a spiritual war manifesting itself as an economic war. America needs to pray and repent as a nation for abandoning first principles and allowing these atrocities to happen around the world.
7. Pray for the Chinese people to enjoy liberty.
8. Learn more about how to weaponize your money. Let's keep America exceptional with our giving, spending, and investing. Nominate your financial advisor for Economic War Room training at <https://www.economicwarroom.com/advisor>.
