

Implementing Gold as Money

The global financial system is under mounting pressure as inflation erodes purchasing power, the U.S. national debt approaches \$38 trillion, and central banks worldwide reduce their reliance on the dollar. At the same time, individuals remain trapped in a fiat currency system that disproportionately benefits governments, banks, and the wealthy, while leaving the middle class struggling to keep pace. In response to these challenges, a growing movement is emerging around transactional gold—a modern system that allows people to hold and spend gold like cash. Supported by innovative technology and state-level legal frameworks, this approach offers a constitutional pathway to protect personal wealth, hedge against inflation, and address systemic issues like the widening wealth gap. By understanding how these tools and policies work together, individuals can take proactive steps toward financial sovereignty in an increasingly unstable economic landscape.

In this briefing we will discuss the following:

- » Transactional Gold: A Practical Solution to Economic Instability
- » Constitutional and State-Level Pathways to Monetary Freedom
- » Fixing the Wealth Gap Through a Personal Gold Standard

YOUR MISSION: Protect your wealth and achieve financial independence by adopting a personal gold standard and supporting state-level initiatives that promote monetary freedom.

WHY YOU SHOULD CARE

- » With U.S. debt at \$37.5 trillion and inflation eroding purchasing power, transactional gold provides a stable, spendable alternative to fiat currency. Using modern technology, like the Glint app and Mastercard, anyone can securely hold and spend gold, preserving wealth while using it like cash in everyday life.

- » State-level legislation that recognizes gold and silver as legal tender creates powerful legal safeguards for your assets. These laws protect against federal overreach while giving individuals greater control over their financial future and creating a foundation for long-term stability.
- » By adopting a personal gold standard, you can bypass these systemic inequalities, protect your purchasing power, and build financial independence in a system designed to favor those closest to the money supply.

Ep. 10-364 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Jason Cozens. Jason is a friend of the Economic War Room® and an American Patriot.

Jason is a qualified Architect with 20 years of experience within the eCommerce, technology, and digital marketing sectors. Founder of digital agencies Visuality and Bite, as well as online gold bullion dealer, GoldMadeSimple.com

Jason began development of Glint (glintpay.com), in 2014, launching the first iteration of the Glint app three years later. Jason's vision for a world where everyone has an equal opportunity to prosper has culminated in the creation of a global payments platform that enables its clients to buy, sell, save, send, and spend real, allocated gold, even at the checkout, using the Glint Mastercard and proprietary app.

1. Transactional Gold: A Practical Solution to Economic Instability

For thousands of years, gold has been revered across civilizations as “honest money” because of its intrinsic value, scarcity, and stability.

Its immutability—its unchanging nature since its creation in cosmic events like neutron star collisions—and its fungibility, where every unit of gold holds equal value, have made it a trusted store of wealth for over 5,000 years.

However, despite its legacy, traditional gold ownership has faced serious barriers that have kept it out of reach for most people.

These barriers include:

- » High acquisition costs, which make it accessible only to the wealthy.
- » Storage risks, including theft and physical deterioration.
- » Lack of everyday usability, since gold cannot easily be divided or spent in small transactions.
- » Tax policy that discriminates against gold as money.

These challenges have limited gold's role in modern economies, confining its benefits to a small group of individuals and institutions.

Today, innovative financial technology (fintech) platforms like Glint are breaking down many of these barriers by merging physical gold with modern payment systems.

Through the Glint app and Mastercard, individuals can:

- » Buy fractional amounts of physical gold, starting as low as \$10.
- » Store their gold securely in insured vaults.
- » Spend gold anywhere Mastercard is accepted, without the need to physically divide coins or bars.

“What we’ve done is enable gold to be able to participate in electronic payments... backed by real physical gold that’s in a vault.” –Jason Cozens

This innovation transforms gold from a static asset into a practical, spendable currency, eliminating the traditional obstacles of cost, storage, and usability.

It also democratizes access to gold, allowing anyone—not just the wealthy—to benefit from its stability.

With wholesale market rates and a low 0.9% transaction fee, Glint ensures that even small-scale users can protect their wealth and participate in the global gold market.

As central banks and Asian markets rapidly increase their gold holdings, with gold now surpassing U.S. treasuries as a tier-one reserve asset, individuals have an opportunity to align with these global economic shifts.

By integrating gold into modern payment systems, transactional gold bridges the ancient stability of sound money with contemporary financial convenience, providing a hedge against inflation and currency devaluation.

“What if you could hold your money securely in gold and silver, acquire it with the lowest of fees, and spend it like cash with a debit card at will?” –Kevin Freeman

To fully realize the potential of transactional gold, state laws must provide the legal protections and framework necessary to secure this modern system of sound money and put it on equal tax footing with Federal Reserve notes.

⚠ Attention: Transactional gold platforms like Glint bridge timeless value with modern usability, offering a practical way to fight inflation, protect wealth, and lay the groundwork for broader economic reforms.

2. Constitutional and State-Level Pathways to Monetary Freedom

The U.S. Constitution grants American states the authority to adopt gold and silver as legal tender, reflecting the Founders' vision of stable currency.

This power provides an essential safeguard against federal overreach, especially in light of historical events like the 1933 federal gold confiscation Executive Order, when citizens were forced to turn in their gold under penalty of law.

Today, states like Arkansas, Florida, Louisiana, Texas, and Missouri—representing a combined \$5.25 trillion in GDP—have exercised this authority by passing laws recognizing gold and silver as legal tender.

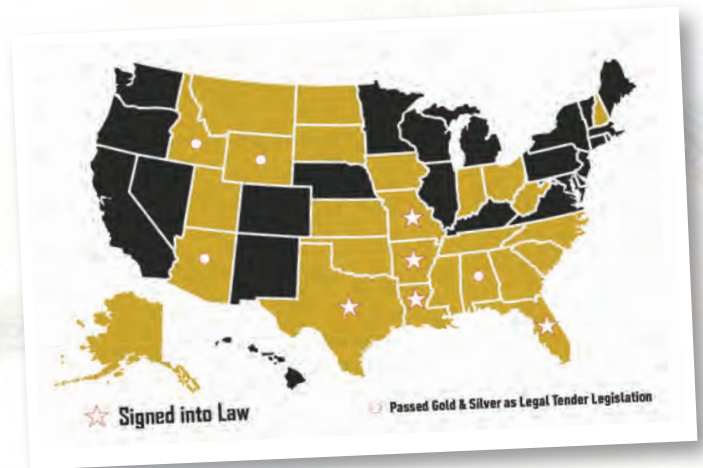

These actions:

- » Protect citizens' gold holdings from potential future confiscation.
- » Create localized, sound-money ecosystems that operate alongside the U.S. dollar.
- » Support innovation by aligning with transactional gold platforms, such as Glint.

“Five states have passed this so far, representing more GDP than any nation on earth except the U.S. as a whole and China.” –Kevin Freeman

Momentum continues to grow, with 10 to 20 more states expected to consider similar legislation by 2026.

This state-driven movement has the potential to reshape the nation's monetary landscape, encourage healthy competition between currencies, and promote financial independence at a local level.

For individuals, these developments mean greater financial security. State-based vaults, such as those in Texas and Utah, allow gold to be stored closer to home, reducing reliance on foreign facilities like Switzerland and strengthening local protections.

“If we pass the state laws, confiscation wouldn’t be a fear either... your gold could be protected, and you could buy a stick of gum, a movie ticket, a new car, or even a house with gold.” –Kevin Freeman

While state action safeguards the use of gold as money, individuals must also understand how these policies address deeper systemic issues, like the wealth gap driven by inflation and monetary manipulation.

Attention: State-level initiatives provide a secure legal framework for protecting wealth and fostering long-term economic resilience, empowering individuals and communities to thrive outside unstable federal monetary policies.

3. Fixing the Wealth Gap Through a Personal Gold Standard

The Cantillon Effect, named after 18th-century economist Richard Cantillon, explains how newly created money—often generated “*ex nihilo*” (out of nothing) by central banks—flows first to governments, banks, and the wealthy.

As this money “trickles down like honey,” the rest of the population receives it only after inflation has already driven up prices, eroding purchasing power and widening the wealth gap before they see any of the new money, making them worse off than before.

Since the U.S. abandoned the gold standard in 1971, this dynamic has accelerated, hollowing out the middle class, fueling unsustainable debt, and deepening systemic inequality.

This process, known as financialization, has left ordinary citizens vulnerable while elites thrive.

“Those closest to the money supply benefit disproportionately from those furthest away... The government is the one that benefits first. When the central banks buy their debt, they get to spend that money immediately on unsustainable projects. The second group are the bankers themselves, who make a profit selling this newly created money without ever having to earn it. Then the very wealthy benefit because they can borrow as much as they want, often at very low or even negative interest rates. Meanwhile, ordinary people struggle to get loans, and by the time this money trickles down to them, the prices of everything have already gone up.” —Jason Cozens

Today, with the national debt surpassing \$37.5 trillion, these imbalances threaten the very stability of the economy.

A personal gold standard offers a practical solution and a way to opt out of this flawed system.

By holding gold through platforms like Glint, individuals can:

- » Preserve purchasing power over time, as gold maintains value even when fiat currency declines.
- » Protect themselves from inflationary policies and the political manipulation of money.
- » Counteract wealth transfer caused by unchecked money creation and rising federal debt.

“Glint allows you to put yourself onto your own personal gold standard. You don’t have to wait for central banks or governments to fix the system. You can take action now, protect your wealth, and step outside of this cycle of inflation and inequality.” –Jason Cozens

Historically, 20 ounces of gold could purchase a luxury car 100 years ago—and it still can today. Fiat currency cannot match this long-term stability.

By creating your own personal gold standard, you effectively step outside a rigged system, shielding your family and community from policies that destabilize the economy and erode opportunity.

The convergence of transactional gold, state-level legislation, and a growing awareness of the Cantillon Effect has created a historic opportunity to reclaim financial independence.

By integrating gold into modern payment systems, supporting laws that protect its use as money, and personally opting out of a failing fiat system, individuals can safeguard their wealth while participating in a national movement for sound money.

This shift represents more than personal financial strategy—it’s a collective effort to restore economic stability, create competition between currencies, and build a resilient financial future for generations to come.

Attention: A personal gold standard provides the tools to bypass systemic inequality, protect wealth from inflation, and take part in rebuilding a stronger, freer monetary system.

Start Weaponizing Your Money Today with Patriot Mobile. They make weaponizing your spending easy!

- » Patriot Mobile is for Economic War Room® Patriots! Patriot Mobile is the ONLY Conservative wireless provider.
- » They use a portion of the profits they make to fund causes that align with freedom and liberty and not the progressive leftist agenda! Other carriers support left-wing causes you would never support.
- » Patriot Mobile uses the SAME cell towers that all the other carriers use, so your service quality will be the same.
- » They have a variety of packages, so one will fit your budget and you will be supporting Liberty, Security, and Values.
- » GO to PatriotMobile.com/ewr | Use Promo Code EWR to get ONE MONTH FREE!

Disclaimer: EWR-Media Holdings, LLC maintains an affiliate relationship with Patriot Mobile and receives a portion of fees paid by customer using the discount code EWR.

ACTION STEPS:

1. **Download the Glint App and Start Small:**

Visit GlintPay.com or your app store to download the Glint app. Use the code [GOLD247](#) to receive a free Glint Mastercard, then purchase a small amount of gold—starting at \$10—to experience how it functions as spendable money and begin building your personal gold standard.

2. **Support State-Level Legislation:**

Research the status of **gold-as-currency laws** in your state at TransactionalGold.com and contact your representatives to advocate for legislation that recognizes gold and silver as legal tender, providing stronger safeguards for your wealth.

3. **Educate Yourself on Monetary Policy:**

Learn about the **Cantillon Effect**, financialization, and the history of the gold standard through resources like *Pirate Money* to understand the forces driving today's economic instability.

4. **Diversify Your Assets:**

Allocate a portion of your savings to gold and other tangible assets to **hedge against inflation and systemic risk**, strengthening your financial independence over time.

5. **Stay Informed and Spread Awareness:**

Subscribe to EconomicWarRoom.com for weekly updates on strategies, state initiatives, and gold-related developments. Share this knowledge with friends, family, and colleagues to help build **grassroots support for sound money initiatives**.

ONGOING ACTION STEPS:

1. Get the book [Pirate Money](#) to learn about the transactional gold and silver movement sweeping America. Legislation has now passed in Florida, Texas, Arkansas, Louisiana, and Missouri! This is the answer to inflation and the looming threat of CBDC.
2. Get a copy of [According to Plan](#) to better understand these domestic attacks on our Liberty as well as the overall Marxist plan to consume America.
3. Seek opportunities to inspire other Americans to stand up for what is right.
4. Send them this Economic Battle Plan™ and ask them what they are doing to stand for America and Liberty!
 - » Elect Politicians that understand the need to preserve American Liberty.
 - » Encourage and ask your elected officials to educate themselves.
 - » Ask them how they are working to strengthen our education system and reverse the push for Marxist indoctrination. These are big issues, if your representatives are not aware and working toward solutions directly or indirectly based on their committees, hold them accountable!

Your support for Transactional Gold and Silver Currency is critical! We have legislation advancing in 20+ states! Learn about progress in your state at <https://transactionalgold.com/> and click the "Active States" button in the upper right-hand corner.

5. Check your investments to see if they are helping fund the agendas of Globalist Elites. If you have a financial advisor insist that they give you an update and encourage them to become part of the NSIC.

Seek out investment opportunities in patriotic innovations. Financial Advisors can learn more at www.NSIC.org. Weaponize your money, your investing, spending, and giving!

ATTENTION: Clients already with a Financial Advisor - Make sure your financial advisor has your values and interests at heart. Make certain they really understand what ESG investments mean for our future. Suggest that they become part of the NSIC institute and nominate them to participate in our online certification at economicwarroom.com/advisor.

6. Be certain to buy Kevin's new book, *Pirate Money: Discovering the Founders' Hidden Plan for Economic Justice and Defeating the Great Reset*. Learn more at www.PirateMoneyBook.com.

In the **Economic War Room®**, we encourage Americans to be the “little ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The little ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.]

SHAREABLE QUOTES:

“Glint allows you to put yourself onto your own personal gold standard. You don’t have to wait for central banks or governments to fix the system. You can take action now, protect your wealth, and step outside of this cycle of inflation and inequality.”

—Jason Cozens, Founder & CEO, GlintPay

“If we pass the state laws, confiscation wouldn’t be a fear either. Yes, the president in 1933 ordered all Americans to turn in their gold under penalty of law by executive order. But with state laws in place, your gold could be protected, and you could buy a stick of gum, a movie ticket, a new car, or even a house with gold.”

The Cantillon Effect <https://river.com/learn/terms/c/cantillon-effect/>

Action Steps

Download the Glint App and Start Small:

Visit GlintPay.com or your app store to download the Glint app. Use the code [GOLD247](#) to receive a free Glint Mastercard, then purchase a small amount of gold—starting at \$10—to experience how it functions as spendable money and begin building your personal gold standard.

Support State-Level Legislation:

Research the status of gold-as-currency laws in your state at [TransactionalGold.com](https://transactionalgold.com) and contact your representatives to advocate for legislation that recognizes gold and silver as legal tender, providing stronger safeguards for your wealth.

Subscribe to BLAZETV (Use the code ECON) <https://blazetv.com/econ>

Watch The Economic War Room episode on the [Economic War of the Heart](#)
